Patricia Williams

PATRICIA WILLIAMS, Clerk
City of Bloomington

SIGNED AND APPROVED by me upon this 31st day of July, 1995.

Tomilea Allison

TOMILEA ALLISON, Mayor
City of Bloomington

SYNOPSIS

The Police Department request in line 399 appropriates the 1995 portion of a $5,000 reimbursable state grant from the Governor's Council on Impaired and Dangerous Driving. The grant runs from October, 1994 through September, 1995. The funds will be used to establish a public information and community awareness program to encourage the use of designated drivers.

The Police Department request in line 442 appropriates a Drug Law Enforcement grant ($80,000) and local matching funds ($28,467) which will be used to acquire and install a video imaging system and computer network for selected Monroe County criminal justice agencies. The City and the County will share the local match, so that the net cost to the City will be $14,233.50.

The Public Works request will be used to finance the start-up equipment costs necessary to enable the City departments to access HoosierNet. This in turn will give us access to Internet and World Wide Web. The primary equipment to be purchased is a firewall which is necessary to provide security and limit access to our data processing records.

The Street Department request will finance two construction projects:

(1) Rockport Road Construction The Redevelopment Department will be widening Rockport Road between Rogers Street and Country View Lane. Curbs and sidewalks will also be constructed along Rockport Road. This appropriation is the Public Works share of the project ($50,000).

2)Storm Sewer Construction Reconstruction of the storm sewer under the Century 21 Realty office at 335 S. College Avenue. The storm sewer has been redesigned and repair should be accomplished as soon as possible, to avoid any damage to the property.

The Park Department appropriation is in addition to $50,000 appropriated in 1994, which was designated for new park and recreation land acquisition. This $50,000 request as well as the amounts requested in the Cumulative Capital Development fund for 1996 are for the purpose of acquisition of, and design of, the green belt trail being acquired/developed in conjunction with the Utilities Department's sewer interceptor project. Funds are needed to reimburse the Utilities Department for the cost of purchasing land in fee simple, rather than easement, and for the preliminary design interface between the trail and sewer.
