

the RENWICK TRAIL

The **Renwick Trail** is a public-private partnership conceived from the beginning as an integral part of the Renwick Community. The donation of 7.1 acres of land by Winger/Stolberg Group to the Bloomington Parks Foundation for use as the Renwick Trail represents a passive expansion of Southeast Park. It is 0.36 miles of paved pedestrian and bike trail, and is a part of the

Community of Renwick's 4.45 miles of sidewalks and trail paths, all meant to foster a walkable community.

As a result of the expansion and improvements to Southeast Park, the surrounding neighborhoods and the Bloomington community now have better access and more opportunity to enjoy additional bike and pedestrian trails.

Winger/Stolberg Group has also made these improvements:

- Improved the existing sidewalk and gravel path to 0.25 miles of an 8' wide paved bike and pedestrian path from Moores Pike to Arden Drive.
- Created a new parking lot adjacent to the Southeast Park Shelter.
- Improved and paved the entrance drive from Sycamore Court to the new Southeast Park shelter parking.
