B. PUBLIC HEARINGS/APPEARANCES

B-1. Public Comment Period

B-2. Bravo Award– Collin Hobbs

Ms. Hobson addressed the Board and presented the October Bravo Award to Collin Hobbs for his volunteer service with the Community Gardening Program. She stated that Mr. Hobbs has volunteered with the Garden Program during the past two years, assisting staff with mowing, mulching, volunteers and the other tasks that help the gardens thrive. Mr. Hobbs played a large role in the 2011 opening of Butler Park Garden by assisting with the construction of the new composting bin system. Mr. Hobbs is a Biology PhD candidate and a husband and father and he realizes the importance of the Community Garden Program to the participants. In addition to his volunteer time with the gardens, he has also volunteered with Leonard Springs Nature Days and through the Indiana University Biology Department's Jim Holland Summer Enrichment Program. He and his wife are also both very active in their faith community, ClearNote Church of Bloomington. Unfortunately, Mr. Hobbs was unable to be at today's meeting to accept the award.

B-3. Staff Introductions – None this month

B-4. Staff Recognition – None this month

C. OTHER BUSINESS

C-1. Review/Approval of Resolution 11-03 to Change Language in Certain Policies to Comply with State Law

Mr. Renneisen addressed the Board and stated that since July 1, 2011, Indiana Code 35-47-11.1-2 prohibits political subdivisions from regulating firearms, ammunition and firearm accessories and prevents political subdivisions from regulating their commerce, taxation, ownership, possession, carrying, transportation, transfer, and storage. The department has been advised by the City Legal to revise any existing policies that prohibit firearms on Parks property, to revise their policies to reflect this new Indiana Law. Policies with regards to other forms of weapons now uniformly read as follows: “The possession of alcoholic beverages, drugs and other illegal controlled substances, fireworks, air rifles, paintball guns, bow and arrows, cross bows, swords, and pellet guns is strictly prohibited in any park or park facility. Amplified music, or the promotion or sale of any article is expressly prohibited without a Special Use Permit.” The following language shall be part of agreements with persons or organizations who rent space in a facility owned by the City and operated by the Department of Parks and Recreation: “Pursuant to Indiana Code 35-47-11.1-2 and 3, the City is prohibited from enforcing its former policy on firearms in public parks and city facilities as of July 1, 2011. However, per Indiana Code 35-47-11.1-4(10), a person or organization who rents space in a Parks facility may develop and implement, at its own discretion, rules of conduct or admission regarding the carrying and storage of firearms, upon which attendance at and participation in its activities is conditioned. If a person or organization who rents space in a Parks facility develops such a policy for its activities, it will be responsible for implementation and enforcement of such a policy, and shall provide a copy of the policy to the City and be attached to the Agreement as Exhibit A.”

After some discussion, Mr. Hoffmann made a motion to approve Resolution 11-03 to change the language in certain policies to comply with state law with the following insertion: “However, pursuant to Bloomington Municipal Code 14.20.020, the discharge of firearms is strictly prohibited within the City’s jurisdiction.” Ms. St. John seconded the motion. Motion unanimously carried.

Mr. Coyne added that the addition of the language to prohibit discharge of firearms is not intended to subvert the intent of the state statute, but rather to clarify that the state statute does not provide for the allowance of individuals to discharge firearms within the City’s jurisdiction.

C-2. Introduction of IU Students – Goat Farm Property Project

Mr. Williams addressed the Board and stated that with the opening of the Jackson Creek Trail in 2010, public awareness of the adjoining 31 acre “Goat Farm” property, donated to the Parks Foundation in 2009, has increased. While there is no funding available to conduct a full scale Master Plan, the opportunity to partner with Indiana University students and the IU Eppley Institute to begin the process of receiving public comment will help guide future decision making. Mr. Williams introduced two IU students, Michelle Orr and John Evans, who will be partnering with staff to assist in the development of a Master Plan Study for the Goat Farm Property. The students provided the Board with details on the project timeline, methods to capture the comment, and related project milestones and deliverables.

Mr. Evans addressed the Board and stated that the property was donated to the Parks Foundation in 2007 by the Sherman Rogers family. It is managed by the City of Bloomington Parks and Recreation department. The property is prime greenspace that contains a large barn and paved hiking and biking trails. He stated that their job is to gain public input and provide a site plan for the property. Phase I – Project Initiation – was completed on October 10, 2011 with the project plan draft meeting with department staff. Phase 2 – Site Analysis – will be completed by October 28, 2011. This phase includes the site inventory, historical and map data. Phase 3 – Program Development – will be completed by November 18, 2011 – January 13, 2012. This phase involves public engagement meetings and surveys and a benchmark analysis. Phase 4 – Synthesis – will be completed by December 15, 2011 and includes the research completed to determine best possible uses of the property. Phase 5 – Public Engagement and Approval – will be completed by January 13, 2012. This phase will include the presentation of the plan to the Park Board. Phase 6 – Project Closeout – will be completed by March 1, 2012 and includes the submittal and documents for formal approval.

Public meetings will include open houses and stakeholder meetings with neighborhood associations, churches, and schools. In addition, on-line comments will also be accepted.

The students are working with Dave Williams, Mick Renneisen, and Steve Wolter with Eppley Institute on this project.

C-3. Approval of License and ROW Agreement with Indiana Rail Road on B-Line Trail

Mr. Williams addressed the Board seeking approval of the Right of Way Agreement with the Indiana Railroad for the B-Line Trail between Fairview and Adams Streets. He stated that this section of the B-Line Trail passes under the Indiana Railroads overpass bridge (Fairview) and is in close proximity to the active rail line (Adams). As requested by the Indiana Railroad, a license agreement has been formalized between the City and the Indiana Railroad to address maintenance, access, safety, liability, indemnification, and property boundary issues. This agreement address notification requirements for access to perform maintenance, warning signs to be posted on the Fairview bridge warning trail users of possible falling debris, and maintenance and repair of an 8' tall fence separating the active rail line and the B-Line Trail at Adams Street.

Mr. Coyne made a motion to approve the License and Right of Way Agreement with the Indiana Railroad for the B-Line Trail. Ms. St. John seconded the motion. Motion unanimously carried.

C-4. Review of Preliminary 2012 Price Schedule

Mr. Renneisen addressed the Board and presented the Draft 2012 Price Schedule. The Final Schedule will be presented for approval at the November Board meeting. C-5. Review/Approval of Proposal from Indiana University to Conduct a Study at Griffy Lake

Mr. Renneisen addressed the Board seeking approval of a proposal from Ph.D. Alan Ewert, a professor at Indiana University, to conduct a study at Griffy Lake in 2012. The proposal is a collaboration between the departments of Recreation, Park, and Tourism Studies and Environmental Health, the Bradford Woods Outdoor Center, Indiana University-Purdue University Columbus Psychology Program, and City of Bloomington Parks and Recreation. Mr. Renneisen introduced Dr. Ewert.

Dr. Ewert addressed the Board and stated that this study would examine the effect of visitation to a local natural setting upon levels of stress. College students and the working population are studies using a variety of psychological and physiological measures within a multi-stage sampling framework. In stage 1, demographic data will be collected from park users in order to develop a baseline understanding of the population characteristics, including age, college enrollment, gender, and type of activity engaged in while at Griffy Lake. A brief questionnaire will be utilized to gather this information. Based on these data, quota sampling will be used in stage 2 in order to select participants who are representative of the overall population of park users. In stage 3, a stratified random selection process will be used to select potential respondents to a telephone interview process. These interviews are intended to facilitate a deeper understanding of the ways in which participants construct meaning and perceive benefit relative to the use of Griffy Lake or other local natural areas. To encourage participation, study participants will be offered a \$10 gift certificate.

Mr. Coyne made a motion to approve the proposal from Indiana University to conduct a study at Griffy Lake. Ms. St. John seconded the motion. Motion unanimously carried.
