SYNOPSIS

Additional funds are needed as follows:

- 1) General Fund/Public Works - The Public Works Department pays the insurance premiums (workers comp. liability and casualty, etc.) for all General Fund departments. The amount billed exceeded the estimate upon which the budget was based due primarily to a reapportionment of costs between funds.
- 2) General Fund/Sanitation - The Sanitation Department has experienced a workload increase as a result of growth and the addition of recycling. In addition, four temporary part-time employees were upgraded to regular part-time with a \$.25/hour pay increase. The increase also reflects the fact that in two instances two holidays occurred in the same week, requiring that the second holiday worked be paid triple time.
- 3) Local Road & Street Special - A \$33,207 appropriation in professional services will provide \$21,100 for construction engineering on the Third Street project and \$12,107 for Rogers Street bridge design. The \$8,000 appropriation will provide for repair of the railroad crossing on Adams Street between Whitehall Pike and Bloomfield Road.
