THE AFFORDABLE CARE ACT OF 2010 CONTAINS SOME IMPORTANT BENEFITS FOR MEDICARE RECIPIENTS:

- **Most Medicare drug plans have a coverage gap** (*“the donut hole”*). This means that after you and your plan have spent a certain amount for covered drugs, you are responsible to pay all drug costs out-of-pocket (up to a limit). Your monthly Explanation of Benefits notice tells you how much you’ve spent on covered drug costs and whether you’ve entered the coverage gap.
- **If you have Medicare Part D prescription drug coverage, and aren’t already getting Medicare Extra Help, Medicare will automatically send you a tax free, one-time \$250 Rebate check** when you reach the coverage gap in 2010 to help with the drugs you must pay for entirely out-of-pocket.
- **The Rebate Checks are automatic -- there are NO forms to fill out.** The Office of Medicare will automatically send a check that is made out to you. You do not need to provide any personal information like your Medicare identification number, Social Security number, or bank account information to receive the \$250 rebate check.
- *Checks will be mailed monthly throughout the year as beneficiaries reach the coverage gap.* If you don’t receive your rebate check, contact Medicare at 1-800-MEDICARE (1-800-633-4227).
- **The rebates are processed automatically. Do not give any personal information out on the telephone to anyone** who tries to obtain it from you, claiming to be handling the \$250 rebate check. Call 1-800-MEDICARE (1-800-633-4227) if you are the victim of a fraudulent phone call.
- **Beginning in 2011, seniors in the gap will receive:**
 - Fifty percent discount on brand name drugs;
 - 7% discount on generic drugs.
- **The discounts will increase each year, closing the coverage gap by 2020.**
