1/25/25 (CST) Found floor drain was backing up when toilet was flushed or sink was ran, . Ran backpack down sink to get water level down, but was unsuccessful

1/25/25 (4EEL) Ran sectional down toilet drain and hit clog around 20'and cleared the clog. Ran an additional 20' and pulled back feminine products. Ran camera down drain and seen an offset in the pipe around 24'. Used locator to locate the line where the offset was and found it was in the street where recent roadwork was done. Informed customer to call the city to fix the issue.
