**Suggestions and Comments:**

Suggestions are very helpful to City staff so that we can get a better feel of what your neighborhood wants to accomplish from this program, and what types of studies would be most appropriate. This can include changes to infrastructure, educational programs, increased enforcement, or any other measure that you, as a neighborhood or group, feel that the City can do to address your concerns. A process that has proven to be very helpful is when neighborhoods and groups conduct surveys beforehand and include them with the application. If necessary, use another sheet of paper and attach to this application.

**Neighborhood Traffic Safety Program:**

*Copies of the complete NTSP are available from the City Engineering Department anytime during regular business hours. It is highly recommended that the entire process be carefully reviewed before any application is made.*

**Questions about the application or the NTSP:**

*Any questions about the NTSP or the application should be directed to: Justin Wykoff (812) 349-3417 or wykoffj@bloomington.in.gov*

**In General:**

*It is also encouraged for the applying party to have a 'pre-application' meeting. In this meeting the Engineering Department can provide assistance such as mailing lists, maps of the areas in question and general advise and guidance in other matters, such as determining effected areas for the application.*

**Resident Signatures:**

*A petition, with signatures and addresses, from at least 51% of the effected residences/businesses in the neighborhood or area must be attached to this application for submittal. Each household or business is entitled to ONE signature on the petition. The City Engineering Department will verify all addresses.*
