

BDU / Technology Infrastructure Advisory Committee

Meeting Date: June 7, 2012, 4PM

Location: Bloomington City Hall McCloskey Room

Board Attendance: Mark McMath, Chris Kurtz, Kirt Guinn for Dennis Cromwell

Staff Attendance: Rick Dietz, Rick Routon

Guest Attendance: Mike Sullivan

ITS Updates: There is a new project to upgrade and improve traffic management which will utilize and expand our BDU footprint somewhat. This project will improve management, synchronization and monitoring of traffic signals.

Local use cases for "Big Data" for Gig.U include health information exchange, sports/entertainment video streaming, etc.

Mike Sullivan updated the AB on activities at Internet 2. He is now in the office of the CTO advising on health networks and other projects.

Next meeting is July 5 unless that is a problem for AB members. Dietz will confirm date prior to meeting.
