## I. Introduction/ Summary of Analysis

The Analysis of Impediments to Fair Housing Choice provides an annual summary and overview of needs and impediments to housing for minorities, women, and the disabled in the City of Bloomington. Much of the information included below, which is mainly operational, does not change from report to report. The City of Bloomington is a participating jurisdiction and funds are administered through The Department of Housing and Neighborhood Development (HAND). Through coordination with the Human Rights Commission and its staff and the Community and Family Resources Department the city also promotes the statutory requirement that the jurisdiction affirmatively further fair housing by updating requirements and disseminating information through its Fair Housing Outreach programming. At this time, the federal funds administered by HAND include: HOME, CDBG, Housing Counseling, Rental Downpayment, and Shelter Plus Care grants. HAND staff also administers its HMAL program through various not for profit partners. This program addresses accessibility issues. The analysis of impediments includes information recently compiled through the comprehensive survey of community needs completed for the 2010-2015 Consolidated Plan and is informed by the recent publication (2012) of the Service Community Assessment of Needs which is a United Way funded data collection effort.

Housing and Neighborhood Development staff compiles information for this report. The City Legal Department provides staff to the Human Rights Commission through city attorney, Barbara McKinney. This public body enforces the local law against discrimination (Municipal Code 2.21.020) and works in the community to prevent and eliminate discrimination by investigating and resolving human rights complaints. Other local commissions also review these issues peripherally including the Commission on the Status of Women, The Commission on the Status of Black Males, Council for Community Accessibility, Safe and Civil City Program, and the Commission on Hispanic and Latino Affairs. Staff for these commissions is provided by Community and Family Resources another department of City of Bloomington. All of these Commissions ensure that disadvantaged or minority populations are informed and supported. Both HAND, Community and Family Resources and Barbara McKinney provide information to educate the public about diversity and Fair Housing issues.

Comprehensive housing and economic statistics are based upon information assembled for the 2010-2015 Consolidated Plan which incorporated CHAS and Census data from 2000, as updated in 2007. The following more recent local surveys and reports, including the federal 2010 Census, were used to develop a profile of the community:

1. 2002 Growth Policy Plan- City of Bloomington Planning Department
2. Unified Development Ordinance 2007
3. SCAN- Service Community Assessment of Needs 2012
4. 2012 Continuum of Care- Region 10
5. 2000 Census Data and CHAS Data (from Comprehensive Plan)
6. 2010 Census Data
7. 2011 Occupational Wage Statistic BEDC

8. The Bloomington Economy June 2007- a report prepared for the Bloomington Economic Development Corporation and the Kelley School of Business
9. Indiana Household Survey 2003- Center for Urban Policy and the Environment
10. Bloomington Human Rights Commission 2012 Annual Report
11. Bloomington Real Estate Outlook 2007- Marcus & Millichap Indianapolis
12. STATS Indiana 2012

This report, which is the third CAPER submitted after the completion of the 2010-15 Consolidated Plan, incorporates information gathered during that 2 year process. The resulting analysis produced a revised list of impediments to address. The most significant impact of housing issues is linked to the presence of a major university, and it may never be fully resolved.

## II .Jurisdictional Background Data

### *Demographic Data*

The City of Bloomington, which is also the county seat of Monroe, has long been associated with Indiana University. Among the state’s cities it is the seventh largest incorporated area with a population of 80,405 (2010). Not surprisingly, a high proportion of residents are in the 18-24 year old age group and Bloomington’s population is more highly educated than state or national averages with 40.1% having obtained a BA or higher (2009) SCAN. The current enrollment at Indiana University is 42,081 (Spring, 2012).

The population of Monroe County is 139,799 (Stats IN 2012) . Bloomington has a relatively small minority population and the greatest percent of minorities in Bloomington are connected with Indiana University as either students or faculty. As of 2010 approximately 87.9% on the population of the county are white, non-hispanic.

Monroe County Population by Race 2008

<b>Population Estimates by Race or Hispanic Origin in 2008</b>	Number	Rank of 12 in State	Pct Dist. in County	Pct Dist. in State
American Indian or Alaska Native Alone	383	10	0.3%	0.3%
Asian Alone	5,887	5	4.5%	1.5%
Black Alone	4,369	12	3.5%	9.2%
Native Hawaiian and Other Pac. Isl. Alone	69	10	0.1%	0.1%
White Alone	116,467	10	90.1%	87.8%
Two or More Race Groups	2,068	9	1.6%	1.2%
Hispanic or Latino(can be of any race)				
Non-Hispanic or Latino	127,586	10	97.6%	94.5%
Hispanic or Latino	3152	9	2.4%	5.5%

8% of County residents do not speak English at home (SCAN). Bloomington recognized that Bloomington’s Hispanic community may struggle with language and cultural barriers and this resulted in the Impediment identified in the 2005-2010 Consolidated Plan. The city responded by creating two city support positions, now filled by Melissa Britton and

Daniel Soto within Community and Family Resources. On September 19<sup>th</sup>, 2007 the Bloomington City Council passed Ordinance 07-21 which established the Commission on Hispanic and Latino Affairs. The Commission works to alleviate problems Hispanics and Latinos experience in education, health, employment and public safety. The Boletín Comunitario is a Spanish language publication of the Community and Family Resources Department which provides Spanish speaking clients with information about programs, services, and current issues in order to integrate them into the larger Bloomington community. A volunteer literacy program, VITAL, has been available through the Monroe County Public Library for several years and retains Spanish speaking tutors. The local response has been comprehensive and perhaps the only remaining impediment is making sure that Hispanic residents are aware of the level of support they have. Although progress will continue to be monitored, lack of access to information is no longer considered an impediment.

Bloomington does not have specific geographic areas of minority concentration, or neighborhoods currently associated with minority settlement. Anecdotal evidence indicates that a large percentage of the minorities in Bloomington are now attached to Indiana University as staff members or students. The Report on the Status of Minorities at Indiana University compiled in 2006 suggests that faculty and administrative positions comprise a substantial proportion of the minority presence in Bloomington. However, it is also true that minorities are over-represented in public housing units. As of Feb, 2010, the Housing Authority has forty-two (42) Black/African American tenants, one (1) American Indian/Alaskan Native and two (2) Asian families. This would represent for African Americans, roughly 13.5% of those housed in public housing or nearly 3 times their representation in the population.

Persons with disabilities comprise another population sensitive to fair housing issues and for whom special programming must be reviewed. Non-institutionalized persons with disabilities comprise 5.8% of the population for the ages of 5-20 years old, 10.3% of the population between 21 and 64 years old and 33.8% of the population above 65. In the continuing effort of HAND and the PHA to upgrade accessibility at the Housing Authority, the PHA received funding to remodel and make completely accessible 8 living units according to the requirements of their 2003 Physical Needs Assessment. Additionally private developers have partnered with the Department to create accessible units through rental new construction programming. The Department strongly advocated for accessibility in the Coca-Cola Building project. Completion added 6 accessible units to the local inventory of permanent supportive housing.

### ***Income Data***

Recent figure captured by SCAN data, reflect an increase in poverty levels both among the under 18 population and in all ages. Bloomington's per capita annual income is \$31,424 which is 9% below the per capita state income (\$34,022). (2009 STATS IN) Income has trended up since 2008. The poverty rate in 2008 was at 20.7% . Income

relative to housing cost is an identified obstacle to fair housing and it continues to be among the city’s highest priorities.

### Monroe County Household Income Profile Stats Indiana

<b>Income and Poverty</b>	<b>Monroe</b>	<b>Indiana</b>
Cost of Living (2011)	85.6	100
Average Household size in 2010	2.2	2.5
Median Household Income in 2010	\$38,348	\$41,305
Median Household income 2000	\$35,453	37,743
% renters	46%	
%all ages in poverty 2011	24.3%	15.3%
%Under 18 in poverty (2011)	18.1%	21.6%
% All ages in Poverty (2000)	11.1%	8.8%
%Under 18 in poverty (2000)	11.6%	121%

### **Housing Profile**

The Department of HAND also operates a comprehensive rental inspection program through which every rental unit within the corporate limits must be registered and inspected on a three to five year rotation. As of July 2013, HAND’s rental database showed that there are 22,379 registered units within the city limits. The following information taken from the 2010 Census, shows the Monroe County housing breakdown is as follows:

Total Housing Units	59,107
Owner-Occupied	28,854
Renter – Occupied	26,010

Compared with the Ste of Indiana statistics (2010 Census) the local per cent of population renting is 44% as compared with 27% statewide. Bloomington is a town with a disproportionate amount of rental housing.

#### *Affordability – Rental:*

In 2007 as a result of a decision made by the Federal Office of Management and Budget, the Bloomington Metropolitan Area (MSA) now includes Monroe, Greene and Owen counties and this change produced an adjustment in the Fair Market Rent lower for the first time in many years. This change was implemented in 2006 and revised slightly in 2007 in order address the desperate lack of larger units for families. See Impediment #3 -- Newly established Fair Market Rent structure and lack of affordable rentals. This year the FMR were returned to 2007 levels (see update in Actions to Address Impediments)

As of the 2010 Census, Housing data shows that there are far more households living in rental properties than in owner occupied within Bloomington Township (an urbanized area). However in analyzing Monroe County as a whole the percentage is far lower. This

suggests that available units are centered in Bloomington and this is where rents are excessively high because of the market that is being courted. The data is taken in diverse time frames and the Bloomington market is changing rapidly. It is perhaps more accurate to talk about trends than to attempt to make numbers match over a ten year period. According to the 2000 Census, the gross rents are as follows:

Less than \$200	572	3.4%
\$200 - \$299	627	3.7%
\$300 - \$499	5,023	29.5%
\$500 - \$749	6,790	39.8%
\$750 - \$999	2,347	13.8%
\$1,000 - \$1,499	1,054	6.2%
\$1,500 or more	277	1.6%
No cash rent	352	2.1%

However, the Gross Rent as a Percent of Household Income in 2007 show that 50.62% of households spend more than 35.0% or more of their gross income on rent.

A factor impacting affordability is also proposed new construction and the market to which those units are targeted. Developers continue to build to the needs of a relatively affluent student oriented market that expects amenities (parking, cable, . Bloomington has a 96% occupancy rate and commands high rents. A study in the Fall of 2011 the average downtown rents in Bloomington as follows. 913 units were surveyed.:

Efficiency	\$804
One bedroom	\$859
Two bedroom	\$1,400
Three bedroom	\$2,187

It is important to note that there are several significant projects under construction right now and most are in the downtown area. Almost all (with the exception of subsidized units in Patterson Pointe) are student oriented.

A part of the same recent study of over 13,000 city rentals produced the following results.

Efficiency	\$520
One bedroom	\$660
Two bedroom	\$822
Three bedroom	\$1,123

Of these 13,192 units, 96.52% were occupied.

In FFY 2012, 443 multi-family units were constructed including a total of 962 bedrooms. Without exception these were upscale student units, usually with multiple bedrooms that

justify the high rents. There were 17 apartment building approvals in 2012, of which 15 have either been built or currently are under construction. A few of the project names include the Park on 11th, B-Line Station, Bloomingfoods, Pavilion Properties, Morton Grad and North College Avenue Apartments. Most of these projects are being built within 5 blocks of downtown.

The increase in the MSA area, incorporates statistics that reflect an entirely different market and could create an additional financial hardship on low-income families who want to live in Bloomington to be near their work and children’s schools. Landlords will likely favor market rates which are above what subsidy programs can offer, causing a further reduction in the number of units available to the low-income families.

*Affordability -- Owner-Occupied:*

The Bloomington owner-occupied market is also affected by the Indiana University student population. Affordable houses in the core neighborhoods are prime rental property and often purchased by investors at prices that low to moderate income individuals and families cannot afford. The benchmark housing statistic provided by the 2000 Census is the median value for an owner-occupied home. In Bloomington that figure is \$126,000, which would require a household income of \$41,580 with the assumptions stated in the chart below.

Value for Owner-Occupied Housing Units 2000

Less than \$30,000	41	0.5%
\$30,000 - \$34,999	40	0.5%
\$35,000 - \$39,999	0	0%
\$40,000 - \$49,999	107	1.3%
\$50,000 - \$59,999	179	2.3%
\$60,000 - \$69,999	287	3.6%
\$70,000 - \$79,999	426	5.4%
\$80,000 - \$89,999	635	8.0%
\$90,000 - \$99,999	744	9.4%
\$100,000 - \$124,999	1,455	18.3%
\$125,000 - \$149,999	1,484	18.7%
\$150,000 - \$174,999	723	9.1%
\$175,000 or more	1831	23.0%

Snapshot data collected from [www.homefinder.org](http://www.homefinder.org) in July of 2013, indicates that there are 181 residential units for sale below \$105,000. Of those 103 are condominiums or townhomes renting primarily to students. This leaves about 78 single detached homes available for sale in affordable ranges which is significantly more than last year. Many of these units are small older homes.

Newly updated SCAN data indicates that the City of Bloomington median income is \$27,410 and the median price of a home is \$160,900.

In addition to finding/acquiring appropriate available housing stock, other barriers to homeownership include understanding the home buying process, credit quality, employment stability, and funds for down payment and closing costs.

Housing	Number	Rank of 16	Pct Dist. in Region	Pct Dist. in State
Total Housing Units in 2008 (estimate)	83,710	7	100.0%	100.0%
Total Housing Units in 2000 (includes vacant units)	75,752	7	100.0%	100.0%
Owner Occupied (Pct. distribution based on all housing units)	42,777	9	56.5%	65.9%
Renter Occupied (Pct. distribution based on all housing units)	25,775	7	34.0%	26.3%

According to this more recent assessment of owner occupied housing, the percentage of homeowners in the Bloomington metro area is almost 10% less than the statewide figure. A cursory review of the inventory of freestanding houses for sale in core neighborhoods shows that most in this bracket require major rehabilitation. Over half of the inventory consists of attached townhomes. About 80 % of the free standing dwellings were built before 1950.

A majority (61.9%) of the housing stock within the city limits was built in an era with potential for lead based paint hazards (pre-1978). Over 2500 structures in the core neighborhoods have been identified as eligible for the National Register and require specialized interim controls and remediation.

Year Constructed	# of Houses	Percent of Total
1999 – March, 2000	434	1.6%
1995 – 1998	2,907	11.0%
1990 – 1994	2,500	9.5%
1980 – 1989	4,219	16.0%
1970 – 1979	5,373	20.3%
1960 – 1969	4,420	16.8%
1940 – 1959	3,915	14.8%
1939 & earlier	2,649	10.0%

## **Public Housing**

### **Public Housing 2012**

There are 310 total units of conventional public housing available at three sites in Bloomington: Walnut Woods, Reverend Butler and Crestmont complexes. Construction may reduced the number of occupied units slightly, although work funded in this year will be mostly exterior remodel. Some of these units, housed in the Reverend Butler complex, are earmarked for the elderly and disabled. Bloomington's first public housing was constructed in the upper northwest quadrant of the city in the late 1960s. Another location in a south central neighborhood was built in 1980s. The Housing Authority concentrates on the provision of housing to very low and extremely low income citizens. All three public housing complexes continue to undergo major renovation after securing funds from several sources, guided by a 2005 planning document that outlines physical improvements. The BHA is has installed over \$850,000 in energy upgrades to all three public housing communities. In 2012 the Bloomington Housing Authority used additional Recovery Act funds to continue their exterior upgrades, towards the goal of improving the image of the authority with the public and its tenants. Some of this work is ongoing. Their Section 8 funding ws \$7,920,771. The Family Self Sufficiency Grant was \$91,000, covering two coordinators. A ROSS Grant of \$51,000 covered self sufficiency activities. The Public Housing Subsidy was \$1,141,312 including sequestration. Capital Funds used were \$428,088.

The Housing Authority received no CDBG funds from the city in 2012

Small & Simple Grant. This is a city budget funded program that the housing authority residents have accessed through application for neighborhood enhancement projects.

Small and Simple Grants (city budget) 2012 for BHA

<b>Crestmont</b>	Welcome Buckets and LED sign	\$973.64
<b>Crestmont</b>	Fall Fair	\$1,000.00

The Housing Authority did not receive a Neighborhood Improvement Grant in 2012.

Complex	Bedroom type	Number of units	Square footage
Crestmont (1967)	0	4	390
	1	50	486
	2 flat	2	729
	2	60	421
	3	66	502
	4	10	634
	5	4	734
Reverend. Butler (1972)	1	32	557

	2	10	713
	3	14	991
Walnut Woods (1982)	1	26	570
	2 flat	4	500+
	2	14	710
	3	16	733

There is a potential maximum of 1284 Section 8 vouchers and 12 Single Room Occupancy vouchers with an additional 60 vouchers for veterans through the VASH program. The following reflects the kinds of units occupied with vouchers in July 2013.

Efficiency	25
1 bedroom	417
2 bedrooms	461
3 bedrooms	364
4 bedrooms	57
5 bedrooms	13
TOTAL	1337

There are 1029 extremely low income families using vouchers and 265 very low income families. Only about 41 can be categorized a simply low income. The Housing Authority and the voucher system is a critical part of the housing puzzle for our neediest populations. About 49% of the families using Section 8 are also disabled.

The demographic information is current.

## Section 8

### Waiting List Profile

There are 130 families on the waiting list for Section 8 vouchers

Extremely Low	<30% AMI	72.5%
Very Low	30-50% AMI	23.75%
Families with Children		66.2% (86)
Elderly Families		3.8% (5)
Families with Disabilities		7.7% (10)
Caucasian		70.8% (92)
Black		27% (35)
Asian		0.77% (1)

In addition to these units, Stonebelt Center administers group homes for people with disabilities and other social services agencies provide services and shelter to populations with special needs.

The Bloomington Housing Authority continues to receive a High Performer Status rating from HUD. The BHA remains committed to a substantial renovation of the Crestmont Housing and

the improvement of infrastructure throughout its housing units. The BHA owns all of its own gas and electrical lines and during 2013 all gas lines and several regulators at the Reverend Butler Development were replaced. The energy saving site lighting program continues, and new mailboxes were provided for each site.

The Assistant Director of HAND is a Bloomington Housing Authority Board member and she is able to offer advice and suggestions to the Board and agency on ways HAND and BHA can partner to serve the low income community. HAND's Neighborhood Services program manager work with the Resident Council to help empower them as an association by educating in areas of operation, organization and planning. The Resident Council has received training in neighborhood grant writing, organization of special events, outreach to other stakeholders, and communication with the larger community. Through the Small and Simple Grant the HAND Department provide the BHA resident Council with funding for "Green Buckets" which are given to all new residents. The buckets are filled with green cleaning supplies, mops brooms, plungers and sponges.

Under Section 8 Homeownership Program, Housing Authority tenants are referred to the HAND Homebuyer's Club were, after completion of the curriculum, they can become eligible for down payment and closing cost assistance. HAND's TBRA funds, established in 1992, are earmarked to assist people on the PHA waiting list for Section 8 housing. HAND assisted 44 households in the last program year. The BHA makes referrals to the HAND R101 Rental Program for tenant education and no interest security deposit loans for income eligible renters.

Preliminary findings for the new plan to end homelessness do target public housing programs as a tool to reduce homelessness so further examination of their local role is warranted.

## ***Employment Data***

The unemployment rate for Monroe County (July 2013) is 6.9% as compared with 8.4% for Indiana generally. . The largest employer in Bloomington is Indiana University. Fully 24% of jobs in the area are now associated with the university or the city. The higher end administrative and professional positions pay very well in comparison to the City as a whole. The secretarial and maintenance jobs pay very low wages. Bloomington has changed its character over the years, from an industrial working class foundation to a service related economy with aspirations to high tech and acknowledging the success of the bio technology fields. The last ten years have witnessed the permanent loss of many Fortune 500 manufacturers, including Westinghouse, RCA/ Thomson, Otis Elevator and General Electric. These companies provided broad based living wage jobs that once insured the health of the local economy. This has been partially offset by employment increases enjoyed in the health services, wholesale trade and professional, scientific and technical services sectors. Bloomington anticipates growth in the bio-medical fields supported by the strength of medical device giant Cook Enterprises, Baxter Pharmaceuticals and nearby Boston Scientific. These jobs do not provide the same compensation for the average worker, but there is rapid growth.

The city's economic development office is finishing plans to establish a certified technology park, in which the city has purchased about 12 acres with existing buildings, in order to control development, hopefully augmenting the 33+ per cent growth seen in the Health Care and Social Service and Scientific and Technical Service sectors. The future development of this valuable tract can only be protected from apartment development by the city's interest and control.

Cook Pharmica is a new enterprise built in the Indiana Enterprise Center which added 200 jobs in 2008. Another high tech company plans to relocate in 2012, Cigital, which anticipates creating jobs averaging at least \$70,000 per year. There are now 41 digital companies in the area. Author Solutions, a self publishing company is now at the cutting edge of the field and has its headquarters in Bloomington.

Monroe County average wage per job remains well below the national and state averages. Almost 20% of local jobs are concentrated in retail, hospitality and arts and entertainment industry. These are jobs that represent the lowest earnings sector.

<b>Employment and Earnings by Industry in 2007 (NAICS)</b>	Employment	Pct Dist. in Region	Earnings (\$000)	Pct Dist. In Region	Avg. Earnings Per Job
<b>Total by place of work</b>	104,402	100.0%	\$3,585,649	100.0%	\$34,345
<b>Wage and Salary</b>	85,982	82.4%	\$2,614,936	72.9%	\$30,413
<b>Farm Proprietors</b>	1,956	1.9%	\$16,827	0.5%	\$8,603

\* Stats Indiana – [www.stats.indiana.edu](http://www.stats.indiana.edu)

### ***Transportation:***

Monroe County is served by Bloomington Transit, BT Access, Indiana University Campus Bus System, and Rural Transit and there are cross jurisdictional issues with the city administered part of the network.

Bloomington Transit is the largest of the local transportation providers. Bloomington Transit has 38 buses and BT Access has 8 vans. Eight of the 38 buses in the BT fleet are hybrid electric vehicles. Fares remain affordable at \$1.00 per ride with free transfers. Monthly and annual passes are also affordable at \$30 month or \$150 /semi -annual. Reduced Fares are \$.50 for special enrolled riders (those over 60, Medicare recipients, Social Security Disabled Income recipients and students enrolled in K-12). A new and much larger transportation terminal is under construction at 3<sup>rd</sup> and S. Walnut Street, only a block from the current site. It is expected to open within 6 months and will have much larger waiting areas and services for passengers. This improvement keeps public transit close to the hub of downtown social services coordination currently located at the recently expanded Shalom Center on South Walnut. Bus Passes are widely available through emergency providers.

All Bloomington Transit buses are equipped with wheelchair lifts or ramps, wheelchair securements, and kneeling features to lower the first step to facilitate boarding. In addition to being handicapped accessible, each bus is fitted with a bike rack for riders use. There is no extra fee for using the bike rack. Approximately 3.39 million riders rode the fixed route system in 2011, an all-time record.

A division of Bloomington Transit is BT Access. This program provides curb-to-curb (within the city limits) service for persons with disabilities who have been certified as ADA paratransit eligible. Eligibility is determined by Bloomington Transit based on the ability of the person to use regular fixed route service. There are approximately 400-500 persons certified to use BT Access. Approximately 25,700 passenger trips were made on BT Access in 2011.

The Indiana University Campus Bus System is open to the general public and provides transits service primarily on the IU campus. There is still discussion about potential of mergers between the University and city bus lines. Currently, IU students as well as IU faculty and staff can ride any Bloomington Transit fixed route bus with a valid student ID card or a faculty/staff ID card which is available at no charge through IU Card Services. This relationship is expected to become even closer with talks of a merger between city transit and IU in 2014.

Rural Transit is a service provide by the Area 10 Agency on Aging. Their offices are located outside of Bloomington to the northwest of the city. Rural Transit provides services to Monroe, Owen and Lawrence counties. Rural Transit offers a variety of services, including an Express Service which provides opportunities to travel between Spencer, Ellettsville and Bloomington. As Bloomington is a major employment center for the area, this allows individuals living outside of the city limits to use public transportation to reach their destination. Travel within one county remains \$0.75/ride and within two counties is \$1.50/ride. Monthly passes are available. In 2007, there were 157,000 one-way trips. All but two of the 21 Rural Transit buses are now wheelchair accessible and obtaining an accessible bus can be insured by calling the Rural Transit dispatcher in advance Rural Transit is also a Medicaid Transportation provider which means that if an individual is Medicaid eligible, Rural Transit can bill Medicaid for that

particular ride. Transfers to and from Bloomington Transit and the Indiana University Campus Bus Service are free.

A partnership between Bloomington Transit, their division BT Access, and Rural Transit has been created to teach individuals how to use the bus system. This program, entitled 'Way To Go' is flexible enough to teach several different populations to effectively use the system. Volunteers from Retired Senior Volunteer Program (RSVP) staff the program and can provide a bus buddy to accompany first-time riders.

Several critical services for challenged populations are located at the periphery of town, most importantly Ivy Tech and the License Branch. Bloomington Transit provides fixed route and BT Access service to the BMV license branch located on Liberty Drive as well as to the Ivy Tech facilities also on Liberty Drive. Rural Transit provides hourly service from the Bloomington Transit 4<sup>th</sup> and Washington downtown terminal between the hours of 8 a.m. to 7 p.m. on weekdays. Rural Transit also provides service every 2 hours from the main Ivy Tech campus to their Liberty Drive facilities between the hours of 8:30 a.m. to 6:30 p.m. on weekdays.

This year the Ivy Tech campus is served hourly by Rural Transit with free connections between BT service and Rural Transit service at the 4<sup>th</sup> and Washington downtown terminal. Ivy Tech can be reached by making a transfer from the BT at 4<sup>th</sup> and Washington to Rural Transit which links the main Ivy Tech campus. With regard to the BMV license branch, it is within easy walking distance from BT's Route 3 West. It's 0.18 miles walking distance total to the BMV front door from the bus stop. There are sidewalks on the east side of Liberty Drive.

Bloomington is exceptional in the comprehensive service it provides, including buses, both municipal and university owned, bicycle paths and amenities, Rural Transit, BT Access, buses for children using Parks Department programming, and Girls and Boys Club vans. Bloomington provides special services to youth, the elderly, and the disabled. Bloomington even provides assistance with understanding current routes and a program called bus buddies to accompany those who are uncertain about the use of public transportation in general.

Some deficiencies still remain to be addressed. The area north of the by-pass on North Walnut Street contains many subsidized housing units in converted motels. These areas are not served at this time. The farthest point north for bus traffic on Walnut ends at the ByPass, so users must walk several blocks to public transit along streets with no sidewalks. This is a congested area with fairly high speed traffic

## ***Education***

Bloomington's school system, Monroe County Community Schools, prides itself on its diverse student body and the quality of its high schools, both of which score above average on National Tests and provide advanced preparatory curriculum for those (88%)

of whom are college bound. Because of opportunities offered by the University, Bloomington attracts children of many cultures, religions and races. There are 10,000 students in the system, attending fourteen grade schools, three middle schools, an alternative high school, two comprehensive high schools, a new charter school, a “new tech” high school and an area career center. The BUEA (Bloomington Urban Enterprise Association) works closely with MCCSC, setting aside \$25,000 for the school programming through competitive grants in 2012. Another \$3125 was provided to the MCCSC Foundation for zone kids to attend Bradford Woods. The BUEA gave 3 resident and 2 business scholarships last year.

Unfortunately state funding cuts drove the closing of Bloomington’s Aurora School, an alternative venue for public high school students. It had developed a good track record in retaining its challenged students for graduation. These students now take a separate curriculum within the BHSS building. A community fund raiser saved several proposed dramatic cuts in extra-curricular programs.

The New Tech High School has successfully developed a project-based learning program with traditional skills and grades students on problem-solving and critical thinking abilities. . Last year it graduated its first class and is being reorganized to attract new students.

“The Project School,” a charter grade school, opened in Fall 2009 at a building downtown that was previously occupied by the Older American Center. The school’s stated goals are to provide “cutting edge alternative public school options” for underserved demographics. This venue for grade school age children will have a capacity of 188 students and currently has a waiting list of 100 students. There is continued concern in the community that the Project School will be funded through MCCSC tax dollars but have its own unelected government body.

In the process of creating and sustaining “neighborhood” schools, particularly at the elementary school level, low income children have become over represented in a couple of elementary schools. Fairview Elementary School has reopened in a new building, but 95-98% of its students still qualify for either free or reduced cost lunch (in contrast to 25% corporation- wide). The goal is to serve 450 students at that location, an upgrade from the current enrollment of 253. Additionally the new programming will be arts focused, providing music education that is unavailable elsewhere in the system. It is hoped that the magnet will attract students from outside the district, improving the mix of incomes and backgrounds.

Under a rule waiver for NCLB there will be no transportation provided to students who have switched schools because of failing scores. Although this saves over \$100,000 for the system it restricts choice. There are three local grade schools that were identified as Having failing status and from which there were 14 transfers.

MCCSC continues to work on the problem of transience within its system. Much of this is caused by the demographics of poverty in its district. While transience in itself may not

be an impediment to fair housing, it is an effect of housing problems. Students are moved from school to school as their parent(s) move from one living situation to another. Studies have shown that his disruption has a direct effect on students' performance. MCCSC has instituted a policy called "One Kid, One School," through the social work department that insures that a student will not be displaced from his or her school because of housing problems. Recent addition of McKinney Vento funds to this effort have locally assisted the effort to identify homeless school children and stabilize their school experience. Becky Rose, representing the MCCSC on the Steering Committee for the Homeless Charrette was able to a perspective on the school administration's efforts to identify and assist children struggling with stable housing.

Indiana Legal Services has started a program to help families find ways to stabilize a child's schooling. ILS has an arrangement with Fairview Elementary which makes it easier for parents to access legal assistance when they have problems that will cause the parents to move out of the Fairview district. The parents can go to the school social worker and she will contact ILS for direct assistance. The program educates parents about the benefits of keeping their children in the same school for an entire school year and how to use the legal system to help them maintain a stable situation.

The legislature has finally approved Ivy Tech's \$24 Million expansion plans, first submitted in 2007. Ivy Tech has been leasing space for several years for its local programming. The Bloomington campus has expanded from 2600 students in 2002 to 7000 today. This funding will allow another 85,000 square feet including classrooms, laboratories, an auditorium and wellness space. It is anticipated that the new building will be open for use in Spring 2016.

## **Impediments Found**

### **Coordinating accessibility policy through layered regulations**

Currently there are several "portals" through which the public gains information regarding accessibility. This follows the existing method of obtaining a general building permit. The application for a permit enters at the County Government level, then is sent to city planning and then to HAND. Generally the Monroe County Building Department is responsible for external modifications, the city planning department will check the requirement for ADA parking spaces on commercial permits and for HUD related projects HAND is involved. Barbara McKinney intercedes if there are questions or conflicts. If a building permit requires a change of use or is a commercial building project, it may require a plan to make the building accessible. These plans are coordinated in several locations: Monroe County Building Department, the City's Housing and Neighborhood Development, the Planning Department, Legal and Engineering Departments. The City has several "experts" including Barbara McKinney attorney to the Human Right Commission. Frequently however, conflicting information is passed on to building owners and the most effective solution, is overlooked or over-ridden by other staff. There is a perceived difficulty with providing accessibility because

of the number of people advising building owners and the lack of regularity in their referrals. Several needed modifications haven't yet been realized because of the confusion. This is not the case in HUD funded projects which are coordinated only through a single department.

**Action (s) to Address Impediments**

The Planning Department and Barbara McKinney have completed an update the city's ADA transition plan, including a survey of public rights of way and devising a schedule for compliance. The plan was 1st updated in 1996. Currently it is being provided to City Boards and Commissions for their comment before being sent to Council for adoption in the next two months. It includes an assessment of accessibility barriers in public buildings and right of ways and prioritizes removal based on the degree of accessibility and proximity to government services and commercial areas. This project is a requirement of the ADA for all public agencies with more than 50 employees.

In 2012 The city reconstructed and upgraded 4 major intersections downtown (7th and College, 7th and Walnut, 10th and College and 10th and Walnut). They updated pedestrian signal systems to accommodating hearing and visually challenged pedestrians and rebuilt ADA sidewalk ramps. In 2012 the last of the Stimulus monies were spent on sidewalk replacement. Public Works reports replacing 12 ADA compliant ramps, 1072 linear feet of sidewalk and 2929 linear feet of monolithic sidewalk.

Problems with advising the public about ADA design for particular buildings, continues to occur. HAND has assembled a team of people to begin discussions including Lisa Abbott and Nancy Hiestand from HAND, Barbara McKinney from the legal department, Patrick Shay from Planning and a representative of the Monroe County Building Department. These are the people working to coordinate this issue. However little progress has been made.

Timeline

The timeline for these actions will be completed by 2015.

**Fair Market Rent structure and lack of affordable rentals.**

As a result of a decision made by the Federal Office of Management and Budget, the Bloomington Metropolitan Area (MSA) now includes Monroe, Greene and Owen counties. These statistics tend to dilute the true expense of living within the city limits of Bloomington. Between 2007 and 2008 FMR rents dropped dramatically and created a disincentive to develop affordable units in the city of Bloomington.

**Fair Market Rent 2013**

\$548	\$598	\$747	\$1043	\$1303
Efficiency	One-bedroom	Two-bedroom	Three Bedroom	Four-bedroom

Rents within the city of Bloomington still reflect the disadvantage of University market pressures and the lower median family income. The Bloomington HUD FMR area is defined differently from the Bloomington, IN HUD Metro FMR Area. The former has a 2000 Median Family Income (\$51,055) and the latter city jurisdiction Bloomington, IN MSA is (\$46,960). Bloomington, even with all of the new construction geared towards students, has a vacancy rate of 96%. Acknowledging that over the last decade Bloomington has added 40 apartment projects with over 2500 bedrooms, rents downtown show the increasing pressure of IU's expanding student body. Here is a survey of 913 downtown units in 2012.

**Market Rates 2012**

Efficiency	One-bedroom	Two-bedroom	Three-bedroom	Four-Bedroom
\$804	\$859	\$1,400	\$2,187	\$2,524

The new Fair Market Rents do not acknowledge the additional hardship on low-income families who want to live within the city of Bloomington. Multi-bedroom units are the most expensive, competing directly with students who may share total rents four or five ways. Landlords may choose to rent at market rates which are substantially above what subsidy programs can offer, causing a further reduction in the number of units available to low-income families. The Bloomington area FMR does not compare favorably with a market like Fort Wayne where wages are generally higher and rents much lower. Agencies who survey their families, like Monroe County United Ministries, claim that 66% of their clients spend from 34%- over 50% of their income on housing.

Per cent of Household having difficulty having enough money to pay rent or mortgage. from SCAN 2012

Household income	Major Problem		Minor Problem	
Less than \$15,001	29%	38%	14%	36%
\$15,001-\$25,000	9%	20%	39%	40%
\$25,001-\$25,000	4%	8%	29%	35%
\$35,001-\$50,000	0%	11%	21%	18%
\$50,001-\$75,000	4%	11%	15%	23%
More than \$75,000	3%	0%	3%	1%
All Households	6%	13%	21%	21%

In 2009, 53.4% of Monroe County households were owner occupied. This is significantly less than the U.S. average of 65.9% (SCAN 2012)

Indiana University built no new dormitories for over 30 years. Existing dormitories were remodeled in the interim, but they frequently lost units as rooms were made more accommodating to modern tastes for space and suite formats. For example, a recently completed new dormitory on 10<sup>th</sup> Street will exactly replace the number of units that were demolished to build it. Another planned dormitory and practice space next to the

music school has added units to IU's inventory opening in 2012. Of the 42,081 students attending IU Bloomington, only 10,900 are housed in university owned facilities, including dormitories, rentals housing and apartments. The lack of on-campus housing results in extreme pressure in the market, particularly in areas near campus, but increasingly in areas previously considered at sufficient remove from campus to be secure for residential neighborhoods.

There are currently 22,379 (2012) registered rental units within the city jurisdiction. HAND as a department retains information on and inspects all privately owned rentals, so it is an excellent source of accurate information. Newer apartment complexes in the core of Bloomington cater to the student populations with a high bedroom count. It is feared that the new Fair Market Rents may discourage landlords from participation in either the TBRA or Section 8 programs. Surveys of housing providers performed during the 2010 Consolidated Plan indicate that it is difficult to convince landlords to take new Section 8 clients.

### **Actions to Address Impediments**

This year a serious Fair Housing infraction did occur and was handled by a collaboration between the Housing Authority, Indiana Legal Services. Other agencies also participated, particularly when it was thought that evictions would actually occur. Two subsidized apartment complexes changed ownership and failed to renew leases for Section 8 clients last year. By collaboration with the Bloomington Housing Authority, tenants were able to seek new apartments. HAND worked with displaced tenants to provide deposit money through the R101 class. Eleven residents moved with this assistance.

However, the tenants were also put in contact with Indiana Legal Services attorney, Marcy Wenzler who identified the evictions as a Fair Housing issue, all 33 of the tenants being evicted had disabling conditions. Wenzler stated that what Elon Management was doing was a Fair Housing violation. By cutting short the tenancies of Section 8 residents with a pre-filled-out notice of intent to vacate, their action gave the residents no choice of renewal. Wenzler every resident but one was in a protected class under the Fair Housing Act based on their race or gender; or because they had a disability or were a family with children. Wenzler sent a "Fair Housing demand letter" to Elon Management. In response, Elon Management decided to offer new leases to all the Section 8 residents at Acadia Court. When Wenzler said some residents at Brandon Court had also been told their leases would not be renewed, Crouch said Elon would offer them new leases as well.

The department collaborates with other departments to implement policy that will advance the cause of fair housing and housing parity. Bloomington is constantly aware of the difficulty of providing affordable housing to its population because of the presence of the University. This is a local issue which cannot be resolved unilaterally. Regarding the regulatory impediments associated with development standards and costs:

A new Growth Policy Plan discussion began last year, at the ten year anniversary of the last adopted Plan. This discussion will take place over several years and is currently headed by a Steering Committee assigned to develop a vision statement for the project. Several community wide focus groups met over the past 12 months. A letter supporting the development of more affordable housing for challenged populations has been sent to the steering committee. This letter is signed by 6 City Commissions so far. Their points include that the city housing goals be:

- affordable (including for those with low-incomes)
- accessible (including for those with any disability)
- fully integrated (socioeconomically as well as ethnically)
- mixed purpose (complete neighborhoods with housing and retail)
- multigenerational
- community oriented(not geared specifically towards students to the exclusion of families)
- near public transportation

In 2012 the focus of discussion has again shifted to the continuing problem of new construction and the disproportionate construction of student housing downtown. At one of the public meeting in 2013 this goal was articulated:

*Goal 4: Adopt a strategic community affordable housing plan for families/individuals earning less than 120% of annual household median income.*

Goal 4 Discussion:

- Diverse housing – planning and incentives needed (tax credits and financial).

In February of 2007 Bloomington adopted its Unified Development Ordinance (UDO) and amendments were made in 2010. As a part of this process, it reviewed and revised its regulatory impediments to affordable housing. Out of the extensive public discussions that preceded the new zoning ordinance a multi-faceted approach to encourage the development and sustainability of affordable housing in Bloomington was outlined (Section 20.05.010 AH-01 Affordable Housing Standards in the UDO).

The UDO instigated automatic waivers of some development standards for affordable housing, allowing reduced development costs. Those waivers are listed below:

Required on site parking is automatically reduced to a maximum of one space per dwelling unit when offsite parking is available

Minimum lot area requirements may be reduced by 40%

Minimum lot width may be reduced by 20%

Side building setbacks may be reduced to 5 feet regardless of the number of stories

Rear setbacks may be reduced to 15 feet

During the years since the new laws were passed, two LIHTC projects have benefited from these incentives: a senior housing project at Patterson Pointe (now nearing completion) and single family homes for moderate income occupants at Crescent Pointe:

Another strategy is an interdepartmental policy of waiving fees when they are associated with affordable housing construction:

Fees for the BZA and Plan Commission may be waived by the Planning Director.  
Right-of-way excavation permits may be waived by the Public Works Director.  
Sewer hook-on fees may be waived by the Utilities Service Board.

Within the UDO the City has stated a policy of supporting affordable housing by bearing the cost of sidewalks and street trees where deemed appropriate by the directors of Planning and Public Works. HAND has supported sidewalk construction on all BRI and Habitat projects in the last year. Most of those projects require right-of-way improvements to be borne by the developer when developed privately

In 2012 Habitat completed 922 Woodburn the last unit in multi-unit development on 14th and Woodburn. BRI, the local CHDO complete a house move and rehabilitation in a National Register core neighborhood. Again improvements were folded into the subsidy. BRI has received approval to move a threatened house owned by the University to a site near Bryan Park. All of these are urban infill projects which will capitalize on and improve existing infrastructure while locating families close to services and schools.

Eight additional units of supportive housing for people with disabilities for LifeDesigns were completed in Miller Drive in 2012. Sidewalks and street improvements were part of the construction subsidy.

Affordable housing projects participating in a program administered by the local, state or federal government must comply with the income eligibility requirements for the required time period for that program. The new zoning ordinance ensures parity of location, design, quality and proximity to amenities within any market rate development.

The now suspended HPRP program, in particular, did increase coordination of services between agencies and successfully avoided many new events of homelessness. Shalom Center applied for and received a modest amount of ESP funding for 2013. The Regional Plan to End Homelessness will address prevention coordination efforts within the 6 county area.

The department continues to dialogue with and attend events sponsored by the Apartment Owners Association to support retention of existing subsidized units. HAND partnered with the Housing Authority to provide TBRA sponsored units.

Talks are ongoing about the possibility of other inclusionary zoning initiatives.

#### Timeline

Regional Plan to End Homelessness 2013  
Growth Policy Plan completion 2015

The timeline for these actions is ongoing. Developers are currently being invited to participate in an affordable housing efforts in a voluntary way. Within two years, a new comprehensive plan and potential new legislation is anticipated.

### **Conflicts in funding for emergency providers. Knowledge and coordination of how to access to the system.**

In 2012 the South Central Housing Network assembled funding and support to create a local Plan to End Homelessness, something they had discussed for many years. They worked with the IHCD to approach an outside consulting firm that could bring together a regional discussion. They chose a "charrette format" that would provide the document in a timely way. Funding for the consultants came from the City of Bloomington, the Monroe County Community Foundation, The Rotary Club, and the United Way. The HSN received an initial grant from the Jack Hopkins fund to begin work. Public information sessions were held in Martinsville, Linton, Bloomington and Bedford. During a week in April, an intense multi-day public discussion was conducted on 6 major issues: Education and Employment, Mental Health and Addictions, Right Services in the Right Place, Prevention, Crime, Safety and Prejudice and Housing Stability. The Plan was deemed necessary to address changes required by the Hearth Act that would involve comprehensive coordination among service providers. In particular Coordinated access, funding for homelessness prevention, greater collaboration was emphasized. At this time the Steering Committee has received been summary findings and the Steering Committee

At the present time many services are consolidating on the near south side of town. Shalom and Community Kitchen (emergency food provision) have moved to larger or improved facilities in that area. Shelters and food services are vastly more accessible with this change. The HPRP program has been terminated. Its legacy is a stronger network of contacts and a history of cooperation among agencies that did not exist before the program began. HPRP created a comprehensive inventory of services across the Region 10 Area. The Housing Network is actively advocating for continuation of this program. Current economic conditions have generated more emergency housing needs than ever before. Discussions with local agencies have identified problems in coordinating emergency funding to keep people housed. Many grants, for example, as provided through the Monroe County United Ministries, specify that they can only be used after "all other sources have been exhausted" and can only contribute limited amounts. This necessitates discovering what other resources are available before qualifying the applicants. In particular, Township Trustees offices have to be contacted and their funding availability verified. Additionally there are several faith-based providers that have resources for emergencies including Salvation Army, St. Vincent DePaul, Backstreet Missions and Agape House. This can be very labor intensive and bring about confusion between providers. People without transportation or telephone access are at a disadvantage, because opportunities exist at multiple locations and conditions on availability change from day to day.

Township Trustees are legally obligated to file program guidelines with the County Commissioners office. They are required by law to give emergency aid but they may create their own programs. Clients must fill out an application for assistance which has a 72 hour turn around.

The implementation of the now defunct HPRP program through Centerstone necessitated a fair amount of research to determine all of the agencies who currently provide emergency rent and utility funds. A subcommittee of the Housing Network attempted to survey all the agencies within the six county area for the availability of emergency housing funds. This provided an overview of how emergency housing funds are distributed and the difficulties involved in obtaining them.

### **Actions to Address Impediments**

The expansion of the Shalom Center in the last 12 months have improved accessibility to service. As part of their role in administering the Crawford Apartment project, several new caseworkers and property managers have been hired, expanding the need for office space.

Members of the Housing Network received funds to develop a permanent supportive housing project within the city limits. It is currently under construction and scheduled to be open on August 30th, 2013. Called Crawford Apartments the project has 25 units for chronically homeless with a disabling condition. They were built with funds through the CSH Institute. The project will be administered by Options for Better Living (now Life Designs) and the Shalom Center. This project is a true collaboration between multiple agencies.

In 2012, the HSN successfully obtained a Jack Hopkins grant to do a survey of affordable units in Bloomington and the surrounding counties for the Housing Network. The local press has highlighted the fact that Bloomington's comprehensive provision of services to the homeless seems to be concentrating the number of people seeking help in the city of Bloomington, in some cases to the disadvantage of other facilities in nearby counties.

In order to balance these needs more equitably, by providing better information, a universal application or an improved intake process, the Housing Network launched an effort to develop a plan to address homelessness. They will be assisted by another federal grant to hold a CSH sponsored charrette that will develop a plan over a three-month intensive period.

### Timeline

Regional Plan to End Homelessness 2013

LifeDesign's Permanent Supportive Housing 2013.

## **Sharing of Local Data for HUD Reports**

Although the Housing Network is more active locally than ever, the data which used to be commonly available through the Continuum of Care application is now restricted. Exhibit I, which summarizes and inventories the existing services within a community, is no longer accessible, because the method of submission has changed. Now agencies directly send their electronic information to the IHCDCA before it is collected locally. Valuable local data, used to develop plans and reports required by HUD for funding purposes is now inaccessible although still required to write HUD reports.

## **Actions to Address Impediments**

HAND remains one of very few members attending 100% of all meetings of the Housing Network. Participation in the Housing Network, as well as Steering Committee for the Charrette is still high. Data collected through the membership is invaluable but is still difficult when fed through the IHCDCA –HMIS (state) system to which the city is not connected. The city did initiate discussions about how they can access HMIS data in order to stay abreast of shelter data. It is hoped that the new system which coordinates needs and services among users, will also allow a window into service provision to funders. The Regional Plan as discussed above should integrate data to determine gaps in services. Discussions will address data sharing issues. The HSN is actively advocating for providers, including faith based, non-federally funded programs, to participate in HMIS data.

### Timeline

This situation must change for HUD to obtain reliable information from PJ's. Staff will be working with the IHCDCA to describe the problem and its ramifications. Staff has continued cooperation from members, but applications are now submitted individually. Staff hopes to coordinate better with IHCDCA, the state agency with access to the most current data. Resolution anticipated by 2014.

## **Environmental contamination in development areas.**

The City continues to monitor the development of housing in sensitive areas. The City of Bloomington acknowledges neighborhood site contamination issues relating to its former industrial base. Because of a history of scavenging activities among lower income residents, PCB contamination is known to be present in several residential areas. The cost of discovery, testing and remediation of these sites is a continuing impediment to the development of low income housing and revitalization of older neighborhoods. Of most concern is the urbanized area to the northwest of downtown. This the location of the Bloomington Housing Authority developed in 1968. It also contains a Middle School and at least two childcare facilities. It is the administrative home of South Central Community Action Project. A large tax credit subsidized private housing project was developed in 2008 in the Crescent Drive area after CDBG funds were used to improve sewer and utility infrastructure in the early 2000's.

## **Actions to Address Impediments**

Since 2010, HAND continues to analyze infill projects, frequently hiring independent Environmental Consultants to insure the most professional assessments in areas of known contamination. A protocol of initial staff analysis followed by consultation with an Environmental firm has developed. Where this was a rare activity before, it has now become more routine as the Department stages new construction in the west side and other complex redevelopment projects.

### Timeline

This impediment was also identified in the previous Consolidated Plan and only a long term and continuing commitment will be effective. Efforts to assist clean-ups are ongoing as opportunities for partnerships and acquisition present themselves. The department has consulted with a professional environmental firm on three occasions in the last year: Patterson Pointe senior housing, Shalom Center, and Oolitic lots (which were not pursued after a Phase I and II were completed).

## **Transportation**

During the Con Plan public participation process, many of the interviewed mentioned problems with finding transportation to needed services. In a review of the availability of local transportation, HAND compared Bloomington's relative provision of service to other similarly sized cities (see transportation section). Bloomington Transit won the American Public Transportation Association's award in 2010 as the Outstanding Public Transit System for its size in North America.

Bloomington is exceptional in the comprehensive service it provides, including buses, both municipal and university owned, bicycle paths and amenities, Rural Transit, BT Access, buses for children using Parks Department programming, and Girls and Boys Club vans. Bloomington provides special services to youth, the elderly, and the disabled. Bloomington even provides assistance with understanding current routes and a program called bus buddies to accompany those who are uncertain about the use of public transportation in general. A gap in service with serious ramifications was identified and that is the location of the Ivy Tech campus and the Bureau of Motor Vehicles outside the municipal bus system. The inaccessibility of these two key services present an impediment to low income people.

The newly expanded downtown transit center will upgrade, expand and make more attractive mass transit services.

## **Actions to Address Impediments**

The pressing issue of linking city transit to the new location of Ivy Tech campus has been resolved. Bloomington Transit now serves the Ivy Tech Liberty Drive location, along with the new License Branch, served by Rural Transit. Persons going to the main Ivy Tech campus can transfer free between Bloomington Transit routes to/from Rural Transit routes at the 4<sup>th</sup> and Washington downtown passenger terminal. Hourly service to both

Ivy Campuses is available either through Bloomington Transit or Rural Transit. This linkage enables easy access to the main Ivy Tech campus.

Other issues remain: The area north of the by-pass on North Walnut Street contains subsidized units with several residents who are disabled. These areas are not well served at this time. There are physical infrastructure and access limitations that have not been resolved in the area.

#### Timeline

Isolated smaller pockets of subsidized housing off of the public transit routes continue to exist. With funding for public transportation shrinking at the Federal and local levels, it is not known if or when transit will be able to serve these pockets of subsidized housing, but the dialogue will continue. It is also possible that the merger between Indiana University Bus Service and the city will cover currently underserved areas for disadvantaged populations. Staff will continue to advocate for more flexible service.

### **Perception of affordable housing/Section 8**

Another impediment revealed through the Con Plan community dialogue is the negative perception of affordable housing. Landlords are hesitant to create subsidized units, because of the stereotypes of Section 8 tenants. Convincing landlords to accept Section 8 tenants or create more subsidized units is challenging in the Bloomington rental market.

Also a part of this discussion is the need to improve the perception of public housing, to make it more desirable and attractive within its community. This institution is a major presence in the Upper West Side in their efforts to upgrade their aging buildings.

### **Actions to Address Impediments**

In 2012, HAND sponsored R101 classes with the help of the Community Foundation, providing deposit money and counseling for prospective tenants. HAND and the BHA are continue to collaborate on the redesign of public housing units to make them more accessible and upgrade exteriors. This effort has continued for the last 10 years and partnership is renewed with funding annually. HAND did not directly provide funds to the Housing Authority in 2012, although renovations were continued using stimulus money.

#### Timeline

Conduct R101 classes at least twice a year (funded) and more if additional grant funds are located. Continuing

Participate in the dialogue to revise the Growth Policy Plan 2015

Participate in the Regional Plan to End Homelessness 2013

Meet with the Apartment Owner's Association to address the need for additional Section 8 or subsidized units. Continuing

## **IV. Housing Data**

### Fair Housing Complaint Data

Barbara McKinney's report follows this document. There were no Fair Housing complaints in the last year that became legal cases.

### Home Mortgage Disclosure Act (HMDA) Data

Many local lenders partner with the City of Bloomington Housing and Neighborhood Development Department to offer a wide variety of housing assistance programs. HAND reviews both its internal and external (HMDA) data to determine if banks were an impediment to fair housing.

The majority of the banks in Indiana are rated Satisfactory and this is true for the more active lenders in Bloomington as well. Financial Institutions who partner with HAND have also received a rating of Satisfactory, including Bloomfield State Bank, Monroe Bank, United Commerce Bank, and Fifth-Third Bank. Indiana University Credit Union participates with HAND on a number of levels, but as a credit union does not receive a rating. Irwin Union declared bankruptcy in 2009 and is now First Financial. Monroe Bank was purchased by Old National Bank. The loss of this local lending facility has been disruptive over the last year. Monroe Bank was a perennial partner in mortgages and underwrote many local business investments. German American Bank is establishing a presence in Bloomington by merging with United Commerce (2012)

The most recent HMDA data (2011) for the Bloomington MSA showed the following information about Income, Race and Ethnicity and how it is affected by lending policy locally.( attached as Exhibit A). About 65% of white successfully obtained conventional loans. About 85% of blacks, however the number of people who applied were disproportionately white. Less than 10% of all applicant were racial minorities.

## **V. Evaluation of Bloomington's Current Fair Market Legal Status**

The Bloomington Human Rights Commission is empowered to enforce the local anti-discrimination ordinance and to advocate for the civil rights of Bloomington's citizenry. It performs a range of educational and investigative activities. It also responds to complaints and questions concerning civil rights violations. Bloomington's Human Rights Ordinance promotes equal opportunity in employment, education, housing and access to public accommodations, regardless of race, sex, religion, color, sexual orientation, national origin, ancestry or disability. The ordinance also prohibits discrimination in housing on the basis of familial status.

BHR staff and HAND have been working to make investor's more aware of the new requirements for accessibility. The Departments have also collaborated on enforcing snow ordinances, without which it is almost impossible to travel in Bloomington using pedestrian ways.

Between June 1, 2012 and May 31, 2013 there was one legal case involving discrimination in the City of Bloomington. That case concerned the failure to renew leases for Section 8 tenants in Acadia and Brandon Courts. This was successfully challenged by Legal Services, under the auspices of Fair Housing law. All former tenants had disabling conditions.

## **VI. Identification of Impediments to Fair Housing Choice**

This issue has not changed: It is hoped that current discussion will result in future planning and zoning changes. A current Public Sector impediment continues to be zoning and site selection within the city. HAND and Planning continue to cooperate in the location and development of affordable housing sites in Bloomington. Planning has supported variance and innovative subdivision petitions for the construction of owner occupied affordable housing. In addition, language in the adopted Growth Policy Plan supports the goal of developing more affordable housing. One of the strategies is to provide funding for infrastructure improvements like sewers, paving and sidewalks in low income areas and areas with developable land. HAND will create partnerships with housing developers and provide subsidy through infrastructure upgrades.

## **VII. Assessment of Current Public and Private Fair Housing Programs and Activities**

### *Summary of past year accessibility projects*

During the past year Housing and Neighborhood Development Department provided modifications to create accessible homes through a number of programs. In 2012, we assisted 4 households through our Home Modification for Accessible. These projects cost \$ 22,572 and involved adding ramps to access the home, widening doorways to accommodate walkers and wheelchairs and modifying bathrooms with grab bars and toilets. The City also installed over 2900 linear feet of new sidewalks to accommodate all pedestrians (see pg.

A Department policy requires that participants in the rehab or new construction programs must analyze and address accessibility issues on their property. All new construction projects are designed for ADA compliance. For rehabilitation of existing structures, each project is reviewed for accessibility and the issues are addressed as defined by the clients' needs and as the budget allows. The minimum requirement is that the unit be adaptable

for disabilities other than wheelchairs. During the past year two clients were served under the Department Owner-Occupied program.

As part of its role in promoting affordable housing and its role in enforcing the rental occupancy code, HAND undertakes activities designed to inform the public of their fair housing rights. They work in partnership with the city legal department to update and enforce federal regulations pertaining to Fair Housing Laws.

## Housing and Neighborhood Development

### *Summary of Public Input*

Bloomington submit its Consolidated Plan in March of 2010. Data from the five Consolidated Plan Focus Groups and multiple Key Informant sessions included observations about Fair Housing. The following responses were collated from over 20 interviews. Following it are the results of a survey taken by 49 citizens. The following table summarizes the effort to solicit input for the 2010-2015 Con Plan.

Session	Topic/Focus	Agency	Date	Place
Focus Group	Affordable Housing	Multiple	7/21/2009	Banneker Center
Focus Group	Social Services	Multiple	7/28/2009	Community Kitchen
Focus Group	Economic Development Focus Group	Multiple	8/4/2009	McCloskey
Focus Group	Homeless Issue	Multiple	8/11/2009	Shalom Center
Focus Group	Community Development	Multiple	8/20/2009	McCloskey
Key Informant	Emergency Food	Shalom Center	11/13/2009	Shalom Center
Key Informant	Community Development	Community and Family Resources Commission	11/17/2009	Hooker
Key Informant	Substance Abuse	Amethyst House	11/19/2009	On site
Key Informant	Youth Issue	Rhino's Youth Center	11/23/2009	On site
Key Informant	Economic Development	Community Foundation	11/24/2009	On site
Key Informant	Elderly	Area 10 Agency	11/30/2009	On site
Key Informant	Economic	Workforce	12/1/2009	Hand Offices

	Development	Development		
Key Informant	Economic Development	BEDC	12/1/2009	On site
Focus Group	Indiana college students	Indiana college students	12/3/2009	Woodburn
Key Informant	Health Case	Volunteers in Medicine	12/7/2009	On site
Key Informant	Economic Development	Bloomington Downtown Commission	12/7/2009	McCloskey
Key Informant	Housing	Housing Network	12/10/2009	McCloskey
Key Informant	Economic Development	BUEA	1/6/2010	Mccloskey
Key Informant	Low Income Issues	Bloomington Township Trustees Office	1/11/2010	On site
Key Informant	Youth/Education	MCCSC	1/11/2010	On site
Key Informant	Homeless	Backstreet Missions	1/20/2010	On site
Key Informant	Youth Issues	Big Brothers and Big Sisters	1/21/2010	On site
Key Informant	Food Delivery	Food Bank	1/22/2010	On site
Key Informant	Low Income Issues	Monroe County United Ministries	1/25/2010	On site
Key Informant	Legal service	Indiana Legal Service	2/14/2010	On site

When staff met at the administrative or clinical facilities of the informant, the location was called “on-site.” The following comments were gleaned from the numerous surveys and comments they HAND documented in their interview process. They have been edited to pertain only to the Analysis of Impediments. The complete document is attached to the 2010 Consolidated Plan.

<b>Topic</b>	<b>Comment</b>
Barriers	Not able to work with city on legal foreclosure clients through IACED.
Barriers	More support from the city to the Housing Network.
Barriers	Mindset
Barriers	Competing for same donors
Barriers	Low wages
Barriers	Increase demand
Barriers	Decreasing resources
Barriers	Lack of understanding in the community of the need

Barriers	Looking at social services as a private versus public business
Challenges	Hunger
Challenges	Housing for lower income
Challenges	Dental Care. VIM only provides an assessment there is a waiting list for treatment
Challenges	Underemployment: VIM served the working poor (\$7 an hour)
Challenges	Lack of financing for construction, inventory; it is even difficult to get stimulus money
Challenges	Several housing projects are being held up by funding that used to be accessible, it's almost an all cash economy
Challenges	Providing accessibility to historic buildings
Challenges	Affordable Housing for families both large and small
Challenges	Rental Housing at or below FMR so it can be subsidized (Options now has a waiting list)
Challenges	Location of 1 bedroom apartments
Challenges	Landlords willing to take Section 8 or a subsidy
Challenges	perception of tenants
Challenges	Section 9 should meet local standards for rental housing
Challenges	Security Deposit needs (pot of money not replenishing the revolving fund)
Challenges	Training for self sufficiency –need credit training to make them self sufficient beyond 6 months
Challenges	Availability of mixed income housing in the township
Challenges	Crescent Point (tax credit) development: Have had 7 requests for assistance up until mid-Nov. They allow people to occupy mid-month and then request assistance with the first full month's rent. All have been denied. Complex is nearly full No on-site management Seeking non-profit sponsor to confirm if regulations concerning income verification are being followed.
Challenges	Arlington Park Apartments are also having problems, buildings are in decline
Challenges	No emergency options for intact families: Agape takes no males, others take no children
Challenges	Traditional workforce training.
Challenges	Ability to development land - limitation with City's security service boundary. It's a hard economy to build something-financing can be difficult. Limitations with parking and landscaping create issues.
Challenges	Operating funds for social services.
Challenges	Transportation – parking or navigating the bus system. Public transportation takes a long time.
Challenges	Economic Development that gets at the root of poverty. <ul style="list-style-type: none"> <li>• A lot of economic development is geared toward white collar jobs. What about factory jobs? What's the road map</li> </ul>

	to a living wage jobs?
Challenges	Family housing / homeless/ displaced households.
Challenges	Affordable Housings <ul style="list-style-type: none"> <li>• People working at low-income jobs who can't afford housing.</li> <li>• Lower middle income households.</li> <li>• People standing off and want to buy a new place.</li> </ul>
Challenges	Balance need at IU and a hometown Indiana Community.
Challenges	Affordable Housing _ even subsidized housing requires 30% of gross income, This is failing, as much 51% gross being spent on housing, if they spend 34-50% then they can be identified as struggling to afford housing. <ul style="list-style-type: none"> <li>• Statistics for MCUM families</li> <li>• Spending 1/3 of income or less 896</li> <li>• Spending 34-50% 314</li> <li>• Spending 51% or more 612</li> </ul> Welfare revision has been catastrophic, call center has caused increased food demand, failure to process food stamps, failure to provide emergency food,
Challenges	Need more emergency food service, 20K lbs of food needed more than demand. Not a long term monthly solution Served 1500 clients for food.
Challenges	Everyone has access to food
Challenges	Lack of good paying jobs
Challenges	Transportation – no ability to access services, Need more routes, later rates in regards to time, routes outside city.
Challenges	Lack of health insurance for individuals, making choices between health care and food.
Challenges	Space issues because of need of services
Challenges	Funding
Challenges	Affordable housing continues to be a big problem which further manifests as a homeless problem. It hasn't hit so deeply here but people may lose their homes without help. Others need help to stay in their homes and keep them maintained.
Challenges	Homelessness and affordable housing. Within the social services we need consolidated effort to get jobless/homeless back into jobs and from there into stable housing. And we still have no family shelter. Re affordable housing I want to see those with incomes slightly above the median included in any program we develop – for example individuals and couples who are working at university staff jobs and cannot quite afford to buy that first house.
Challenges	Jail order crowding and the need for support systems.
Challenges	No preventative programs for people coming out of jail.
Challenges	No services for inmates transitioning out of the jail system.

Challenges	The ability of people with felony charges over credit etc. to get housing credit stigmatism associated with certain classes of individuals
Challenges	Transportation issues for clients
Challenges	Transportation- although served by BT Access, Bloomington Transit and Rural Transit, the demand is greater than what is provided
Challenges	In home care funding; not fully funded, some pay privately, other cost share
Challenges	Wait list for home delivered food, County provisions are donation based, city has meals on wheels.
Challenges	With new stimulus money they are providing vouchers to eat at a local restaurant “The Village Inn”
Challenges	Housing is one of top three needs: priority is on home support rather than nursing homes, saves per diem money if services are provided at home
Challenges	More homeless kids than in the past, which puts a strain on the agencies. Agencies that relying on giving are facing difficulties. MCCSC has a position to over-see social workers.
Challenges	Increasing needs to decreasing funding <ul style="list-style-type: none"> <li>• Homeless assistance</li> <li>• Hunger</li> <li>• Jobs (under employment)</li> </ul>
Challenges	Education – need to educate those who are less fortunate. <ul style="list-style-type: none"> <li>• Impact positively with education</li> </ul>
Challenges	Education and employment – second highest educational attainment in states, but we also have a high drop out rate. We also have one of the lower wage levels.
Challenges	Affordable Housing – for everyone. Property is very expensive in town. <ul style="list-style-type: none"> <li>• Public housing should be scattered / disbursed throughout town. Although BHA has improved the public housing.</li> </ul>
Challenges	High labor force participation rate – (How many people are working). Lots of people work part-time – but people are under-employed. Under-employment is defined by the person who has the job.
Challenges	Lots of community services for a community this size. Lots of non-profits to help.
Challenges	Lots of public – private partnership. It’s a free partnership. Looking out for community’s best interest.
Challenges	Operating funds for social services.
Challenges	Transportation – parking or navigating the bus system. Public transportation takes a long time.
Challenges	Economic Development that gets at the root of poverty. <ul style="list-style-type: none"> <li>• A lot of economic development is geared toward white</li> </ul>

	collar jobs. What about factory jobs? What's the road map to a living wage jobs?
Challenges	<p>Birth – to – S: How to give kids a good start in life; Jail population prediction is based on 3<sup>rd</sup> grade reading scores.</p> <ul style="list-style-type: none"> <li>• Hired a coordinator for this initiative.</li> <li>• Coordinate what is going on.</li> <li>• Raising public awareness.</li> <li>• What are the gaps? No indoor play place for little kids.</li> <li>• Need affordable quality childcare.</li> </ul>
Challenges	Family housing / homeless/ displaced households.
Challenges	Maintenance costs not affordable, education homeowners
Challenges	Equity not as accessible
Challenges	Affordability
Challenges	Zoning code
Challenges	Livability loss of smaller houses to Hi-density
Challenges	Parking still an issue (for elderly) accessibility to public places
Challenges	Affordability
Challenges	Neighborhood plan for Westside
Challenges	Condition of some of homes (need upkeep)
Challenges	Homeless people in Butler Park switch yard area
Challenges	Homes not being rehabbed by Habitat
Challenges	Side-walks, cross-walks on the 17 <sup>th</sup> ST, more lanes for bicycles.
Challenges	Better bus routes, more alternative transportation methods, very limited bus time.
Challenges	Landlord changes for the students apartments renting.
Challenges	Accurate homeless count
Challenges	Increased need for services less funding to support
Challenges	No affordable housing for low income
Challenges	Market supports student housing/luxury housing
Challenges	City should be sensitive to lower classes/gentrification
Challenges	Housing for those with criminal history and families
Challenges	Operating support for agencies (funding)
Challenges	More city interest on issue of overnight shelter—2 <sup>nd</sup> street vacant houses (this winter) or church building
Challenges	Local government should commit funds to shelter how much should they do?
Challenges	Housing better than prison providing services before incarceration
Challenges	City should take leadership in bringing in business/apt owners in community, solving homelessness
Challenges	SRO housing for working poor—smaller spaces
Challenges	Need address to be part of community-obtain services
Challenges	Cooperative housing
Challenges	Bus routes are limited
Challenges	Criminal justice system creates worse problems
Challenges	City should help craft perception of homelessness and its

	importance
Challenges	Finding out how agencies “fit” in system
Challenges	Need for space to sleep during day and public restroom
Challenges	Conditions of alcoholism and mental illness in population (untreated)
Challenges	Finding place to sleep outside without harassment
Challenges	Bus ticket to job location doesn’t solve eating without paycheck
Challenges	Sleeplessness an issue among homeless (only limited time in a shelter)
Challenges	Can get transportation or housing to keep job
Challenges	Reputation of homeless who are suffering from substance abuse and mental illness
Challenges	Medical care non-existent
Challenges	Medical—need local ID’s birth cert.
Challenges	Retaining benefits when homeless (Medicaid) VA
Challenges	Inadequate family shelter
Challenges	Legal challenges
Challenges	Affordable childcare
Challenges	Clubhouse for persons w/ mental illness
Challenges	Loss of food stamps & Medicaid
Challenges	Loss of jobs
Challenges	Immigrants w/ difficulty acquiring jobs
Challenges	Donor funding directing to basic needs from other type organizations
Challenges	Youth employment opportunities
Challenges	Working w/ the state <ul style="list-style-type: none"> <li>• Funding</li> <li>• Communication</li> </ul>
Challenges	Medicaid waiver waiting list
Challenges	Emphasis on technology
Challenges	Need for food
Challenges	Prison release program
Challenges	War on the poor
Challenges	Lack of treatment centers: juveniles with mental illness
Challenges	More paperwork/ID required to receive services
Challenges	Demand exceeds supply for emergency shelter/family shelter
Challenges	mental illness support housing
Challenges	Transportation <ul style="list-style-type: none"> <li>• Getting to work</li> <li>• Accessing services</li> <li>• Expensive</li> </ul>
Challenges	Space issues for SS agencies
Challenges	Catch-22: housing in county but public transportation is on the city limits
Challenges	Perception of liberalism

Challenges	Agency: administration costs
Challenges	Donor giving down
Challenges	Bloomington has more resources than other places, at what point to we enable by making assistance too easy to get?
Challenges	Jobs are needed: low income jobs don't allow a living wage,
Challenges	Many work several part time jobs
Challenges	Housing costs are affected by the University –need to save a t least \$1000 for deposit
Challenges	Difficulty with people waiting for SSI
Challenges	Dealing with panhandlers- should all have opportunities for housing since shelters aren't full
Challenges	Decrease in operating funds from state & local gov't
Grant Process	County process could be more transparent county have a process for funding
Grant Process	required to create new program to receive funding
Grant Process	Change mindset of funders that we need to sustain basic services in community
Grant Process	1 yr vs. ongoing funding
Grant Process	Funding pie being sliced too thin among applicants
Grant Process	Continuum of funding
Grant Process	CDBG process long
Grant Process	Adding funding to CDBG funds to make more available for operation
Grant Process	We have an increase in family violence with no increase in available services
Grant Process	Improved collaboration with faith-based organizations
Men's Shelter	Started 1995 and is a mission with a Christian non-denominational requirement
Men's Shelter	There are 28 men's beds and several programs: <ul style="list-style-type: none"> <li>• 7-day stay renewable every 30 days</li> <li>• 9 day stay with the understanding they will look for work</li> <li>• 60 days stay while looking for work</li> <li>• Year long for special needs</li> </ul>
Men's Shelter	70% of clients are drugs and alcohol abusers
Men's Shelter	If it is 30 degrees or below, anyone may stay that night
Men's Shelter	On cold nights they have had up to 25 clients. Their nightly average is between 15 and 20.
Men's Shelter	In the Westplex building they have a soup kitchen, dormitory shelter, and administrative offices. They provided 45,00 meals last year. They provide meals to 30 people at Arbor Glen
Need to Improve	Wages; Opportunities in entry level
Need to Improve	Transportation <ul style="list-style-type: none"> <li>• Run times (Late/early) – Limited Schedule</li> <li>• Long Routes</li> <li>• Legislative Restrictions</li> </ul>

	<ul style="list-style-type: none"> <li>• →IVY TECH, ETC.</li> <li>* Problem for Commuting</li> </ul>
Need to Improve	<p>Owner – Occupancy in core neighborhoods</p> <ul style="list-style-type: none"> <li>• Housing Costs</li> <li>• Assistance to Family to buy homes</li> </ul>
Need to Improve	<p>Lack of 1-Bedroom Available.; Affordable, on Bus line</p> <ul style="list-style-type: none"> <li>• Allow Fonzi Flats (Enforcement)</li> <li>• Few “Boarding Houses”/ Cooperative Housing</li> </ul>
Need to Improve	Homelessness / services case mgmt, education lead to contributing members / shelters
Need to Improve	Develop businesses to utilize workforce with lower skills, entry • level
Need to Improve	Cultivate local opportunities/talent
Need to Improve	Collaborations among NFPs to utilize entry-level workforce (e.g. Arts organization’s juvenile programs)
Need to Improve	Apprenticeship programs
Needs	Elder care – are there gaps
Needs	Health care – life style issues.
Needs	We need to step up the weatherization. Grants for energy audits and then help execute the needed energy loss mitigation.
Needs	As above—transportation expansion. Also would like to see some more city support of free medical clinic—not sure if there is a current relationship there or not at the moment.
Needs	Transportation -- we need continued expansion of mass transit – additional busses and routes, reduced wait time, downtown trolley to parking garages. Above all we need consolidation of city, university, county services
Needs	Parent education- especially for kids having kids. What can we do to make sure they have a safe pregnancy? How can we develop parent skills to help kids prepare for kindergarten? Parenting skills.
Needs	Nutrition – not using drug/alcohol.
Needs	Public transportation is pretty strong. Boys and Girls Club/YMCA. Before and after school is availability.
Needs	Access to information is important. Information is provided a lot through email. Connectivity is huge. Doesn’t want to see void widen between haves and havenots.
Needs	Downtown shuttle
Needs	<p>Better capacity for low-mod income health care</p> <ul style="list-style-type: none"> <li>• Need to better inform the public/greater visibility</li> <li>• Doesn’t fill every need</li> </ul>
Needs	More consolidation of services to operate more efficiently
Needs	Expanded bi-lingual out read program
Needs	Day work center
Needs	Senior services / senior housing
Needs	More youth to stay in school programs. How do you encourage

	kids to stay in school? Why are the high schools on separate programs or schedules? More of a connection with education. More applied learning. Use education as a means to get jobs. More tech schools, Junior colleges, etc. Teach kids how to learn.
Needs	Need to develop better skills – reading, math, etc.
Needs	Housing rehab program dealing with habitability of housing stock for tenants.
Needs	Temporary loans for foreclosure/delinquent clients.
Needs	People with disability inherit property with mortgage not able to receive Section 8 to pay mortgage.
Needs	ADA complaints tied to permitting process
Needs	Private right of action for tenants to sue in count along with attorney fees.
Needs	Employer sponsored housing where local employers help secure housing nearby the work place.
Needs	More taxi surveys.
Needs	Snow removal, The Enhanced Deicing Salt.
Needs	Ceilings on rent
Needs	Coordination of services – now looking at Central Indiana Community Network- share information about clients
Needs	Family Shelter still a need: possible to share support for a family month by month.
Needs	Don't take sex offenders because of school location
Needs	Work with police to develop progress for mental ill, train them in CIT
Next 5 Years	Help more people
Next 5 Years	Need better dental coverage: only clinics demand money up front
Next 5 Years	these clinics are serving middle class people now
Next 5 Years	Education as a component: understanding of chronic disease
Next 5 Years	Establish programming as a replacement for emergency room visits.
Next 5 Years	Make downtown a clean safe place
Next 5 Years	New housing subsidies not tied to homelessness
Next 5 Years	Help provided before people become homeless
Next 5 Years	Case management for people who don't have special needs
Next 5 Years	Life Skills training
Next 5 Years	Free drug treatment programs
Next 5 Years	Reconnect fees
Next 5 Years	Habitat needs to build in diverse in core areas rather than focusing in one portion of the City of Bloomington, Indiana
Next 5 Years	Family Shelter: partner with those agencies already in the business Martha's House
Next 5 Years	More assistance in paying rent and utilities.
Next 5 Years	More incentives to convert rentals to owner-occupancy.
Next 5 Years	Old Honda dealership may hold possibilities for income diversity

	and inclusionary zoning
Next 5 Years	Tool to do workforce preparation.
Next 5 Years	Job creation for people who need it.
Next 5 Years	Come together as a community for birth – to – 5 with a shared vision.
Next 5 Years	Inclusionary zoning ordinance for housing max.
Next 5 Years	Fix the jail issue – overcrowding, what happens when they come out, etc.
Next 5 Years	City non-profit funding tied to cooperation.
Next 5 Years	Bloomington has to recognize that it is a huge collector of people who use its services Don't add more
Next 5 Years	Strengthen basic services have had to cut hours of service for food from 5 to 3 days a week
Next 5 Years	Commodities are required to be available all the time thinking of restoring hours rather than denial
Next 5 Years	For those who use emergency food services 460 out of 1500 are full time workers, 1/3 are on disability or SSDI, pending disability another 80 and chronically unemployed 20%
Next 5 Years	Consider allowing agencies to apply for multiple programs for administration money from CDBG.
Next 5 Years	Conversation about social service campus
Next 5 Years	Looking at the continuum of care more closely and how the care connects from birth to death.
Next 5 Years	In system be more proactive in seeking social services vs. reaching in agencies need to supply them with information.
Next 5 Years	Food delivery system preserved
Next 5 Years	Strengthening of shelter services, including funding permanent home for winter shelter.
Next 5 Years	More owner rehab for old houses with owners for can't afford the upkeep but have a house which is in need of it.
Next 5 Years	Purchase rehab is another way to get the most from our money. By purchasing and reselling after rehab, our funds can be used repeatedly over time. I am not sure new construction is a good option for affordability. Our money may go farther and help create homeowners. When you help someone be a homeowner, which is potentially permanent affordability for that family.
Next 5 Years	As per my comments on transportation and medical clinic. Transportation, esp. if leveraging local or regional manufacturing facilities (is this possible?) could have multiple positive impact. City involvement in medical issues for low income families is current and critical as healthcare continues to be discussed at a national level. I would love to see our city become a testing ground for new ideas and maybe a role model for other cities. I have no specific ideas, just think Bloomington has what it takes to tackle

	big problems creatively and show how things can be addressed in new ways.
Next 5 Years	Additional turnover of rental to home ownership. Incentives for those marginally above the median income but unable to buy their first home.
Next 5 Years	Consolidation of all jobless/homeless social services
Next 5 Years	Consolidation of all mass transit under one admin. body
Next 5 Years	Continued extension of greenways – in particular Allen St as combination of E-W spoke of greenway plan, Safe to Schools path, and Bicycle Boulevard
Next 5 Years	Assuming Bloomington Hospital moves, a contingency plan for use of abandoned hospital buildings and plant
Next 5 Years	Extension of Complete Streets policy to all city street and transport projects (now applies only to Fed funded)
Next 5 Years	BUEA serves a variety of useful purposes to a variety of groups- maybe too many groups given the challenge of marketing ourselves. But the BUEA has a limited life span and will not survive in its current form. The revenue streams are changing and being reduced. We'll need to create a new vision for ourselves and a method for morphing- for creating a long-term community benefit.
Next 5 Years	Additional housing for work release individuals
Next 5 Years	More family oriented services- understanding how to assist person in crisis
Next 5 Years	Reentry programs
Next 5 Years	Streamlining of grants and consolidation of services for agencies
Next 5 Years	Pod arrangements: one case worker with several rooms for residents
Next 5 Years	Adult day care that is not affiliated with a nursing home, “Partners” Tuesday Thursday only, the city of Bloomington need a senior center
Next 5 Years	Another residential facility in the city with access to bus lines: adapting motels is a possibility
Next 5 Years	Shared Housing for seniors or group homes.
Next 5 Years	Social agencies will continue be important.
Next 5 Years	Need a juvenile justice center. It’s a huge void. If we can keep them in school because it is better all around.
Next 5 Years	A community vision that isn’t politically motivated
Next 5 Years	More alternative transportation connections
Next 5 Years	Vibrant IU Tech Park that is growing...
Next 5 Years	Look at ways to provide more education / career development opportunities
Next 5 Years	Provide adequate needed affordable housing <ul style="list-style-type: none"> <li>• Increase of units that we can sell (home ownership), need more money</li> </ul>

	<ul style="list-style-type: none"> <li>• Relook at funding process for social services</li> <li>• Mobile healthcare / food distribution</li> </ul>
Next 5 Years	More – higher commitment to applied learning. Certifications for people. Focus to improve employment in the community. Use this to attract more, different jobs. Jobs in manufacturing are more medical products vs. durable goods. We don't do enough to promote ourselves as a medical manufacturing hub.
Next 5 Years	Neighbors share and help with maintenance (habitat model)
Next 5 Years	City work with not for profit to build hi-rise for low-moderate income elderly downtown
Next 5 Years	Help Sec. 8 become home owners
Next 5 Years	Coops
Next 5 Years	Cost must be under 100K
Next 5 Years	Alternative construction methods
Next 5 Years	Educate lenders
Next 5 Years	Need restrictions on rental properties
Next 5 Years	Inclusionary zoning
Next 5 Years	Many programs—summarize statistics
Next 5 Years	University will continue to grow both a benefit and an obstacle need to accommodate
Next 5 Years	Community should work with university to shift students back to on-campus housing
Next 5 Years	City/Agencies should look into buying affordable housing in neighborhoods to rehabilitate
Next 5 Years	Create fund from development fees
Next 5 Years	Supportive housing for MH clients need protection; don't always fit in neighborhood
Next 5 Years	Zoning requirements (fences) can increase costs “aesthetic” zoning
Next 5 Years	Conflict “Aesthetics” and affordability
Next 5 Years	24 hr parking enforcement use money towards housing issues
Next 5 Years	Can city monies be diverted to housing development
Next 5 Years	Kirkwood be pedestrian only.
Next 5 Years	More recycling at the rental units
Next 5 Years	More parking at downtown and free parking
Next 5 Years	The parking ordinance should be changed. The garage free parking time should be changed.
Next 5 Years	Extend the parking time limit.
Next 5 Years	The parking inspectors' attitudes and behaviors.
Next 5 Years	SRO
Next 5 Years	24 hr continuum of care from homeless to having a home
Next 5 Years	Single point of entry and a solution
Next 5 Years	Community footers individuals in need
Next 5 Years	Agencies should get past “professional ethics” to really know homeless as individuals mentoring for homeless programs
Next 5 Years	Need to have better regional alignment of funding, expectations

	and services must have broader public support among municipalities
Next 5 Years	Change language to avoid negative perception if person experiencing homelessness
Next 5 Years	Mentoring should not imply hierarchical position
Next 5 Years	Police attitudes infer negative perception
Next 5 Years	Provide safe place for everyone (including addicted) every night-24 hr shelter
Next 5 Years	Tenants pay rent need more moderate skill jobs that are full time (impact of NAFTA) “housing first” model
Next 5 Years	Denial of addiction/illness needs to be resolved
Next 5 Years	Paying staff so difficult that programs suffer baseline support to focus on issues services not fundraising
Next 5 Years	Criminal justice system should support rehabilitation not only punitive “therapeutic justice”
Next 5 Years	Police training to deal with complex issues relating to homelessness (mental issues)
Next 5 Years	Head count—importance has gotten distorted in its connection to funding
Next 5 Years	Re-entry program “oxford house” started by past inmates, cooperative housing zoning code obstacle
Next 5 Years	Youth housing not available for those not living with family=
Next 5 Years	Assistance for those with spotty employment thru local business opportunities
Next 5 Years	Circles program format should include most needy
Next 5 Years	Shouldn’t separate secular humanism from Christian values both should work together
Next 5 Years	Establish funding priorities highways/shelter?
Next 5 Years	Schools more of a learning environment
Next 5 Years	Less need for social services
Next 5 Years	Little more collaboration of similar services
Next 5 Years	City build SRO housing at Motel 6
Next 5 Years	5 businesses who work with people to train them in self-sufficiency
Next 5 Years	Successful clubhouse program for people with mental illness
Next 5 Years	More alternatives for kids who drop out of school
Next 5 Years	Greater food production
Not Working	Not all specialists believe in volunteering services to the poor
Not Working	Patients charged 20% of Medicaid payment up to \$100 for services cap
Not Working	Mental health services have need far beyond the what is offered
Not Working	Employee parking still a problem
Not Working	Loss of office space users has reduced foot traffic downtown and consequently business.

Not Working	Transportation and those with disabilities (the DMV and Ivy Tech are not located within the city) BT access only on specific routes; Sundays are not served at all
Not Working	Gaps in services: Childcare
Not Working	Transportation for daycare
Not Working	Programs for low income children can't participate in sports and after school activities
Not Working	Housing for families
Not Working	Case management for individuals
Not Working	Credit problems
Not Working	Causes of need which make people approach the township: lay-offs, reduced hours, wage earner leave household, illness. These are increasing
Not Working	Small town with small economy so an opportunity is limited.
Not Working	Communication between organizations is kind of lacking. Program information – collaboration on similar effects.
Not Working	Elder care – only an agency really does this. Are there gaps?
Not Working	Not enough volunteers for “Circles”.
Not Working	Bus runs don't support late shift workers; Food Service is difficult to provide for bus riders
Not Working	Use both Community Kitchen and Mother Hubbard's Cupboard (which has a narrower Need) Feels as if the multiple sites are not duplicating services because they serve differing populations
Not Working	Put together more youth activities
Not Working	Housing together youth services providers as well as other social service providers
Not Working	Don't have a good handle on emergency shelters
Not Working	Having family shelters
Not Working	Lack of communication between homeless shelters
Not Working	Additional services needed by community
Not Working	Healthcare
Not Working	Homeless family structure
Not Working	Mental healthcare for the low-income
Not Working	I am concerned that using our funds on new construction projects is not always the best and most cost effective way to spend our money. Spending on something permanent like a homeless shelter building might be a long term boost to address a deep local problem.
Not Working	We still don't have a robust public transportation system—this would increase community access for lower income folks and reduce environmental impact of higher population.
Not Working	I think we still have neighborhood problems with control of rentals, overpopulation i.e. zoning violations, and have issues with

	regulation and fining.
Not Working	Our social service agencies are inefficient handling jobless and homeless. Agencies overlap services and we have competition between agencies. We need common administration and discrete services. Drops in property values could mean drops in property tax revenues! Does our city then take budget-cutting measures similar to the state?
Not Working	Certainly we have a visible homeless population and compassionate residents that are motivated to find a solution. But current resources are strained and a weak economy makes the situation more dire. I'm not an expert in homeless shelters but current options seem to be limited to charitable solutions funded by donations. Is it too far outside the social consciousness to suggest innovative work-relief housing? Where does social service innovation go when traditional solutions aren't working?
Not Working	Proposal model of juvenile/detention center
Not Working	Not engaging students to be involved in social programs
Not Working	Youth services
Not Working	Male victims of domestic violence or sexual abuse program to help address issues
Not Working	More psychiatric care
Not Working	Help men who have grown up in abusive families.
Not Working	Homebound Food Pantry: only able to serve those over 60, there is a gap for those who are younger or disabled.
Not Working	General weakness in provision to those with mental disabilities who are also elderly and low income
Not Working	Assisted living that accepts Medicaid clients, there is no provision and often go to full nursing home situation, no existing assisted living arrangement accept Medicaid.
Not Working	No single vision <ul style="list-style-type: none"> <li>• What's the community going to look like 10 yrs from now</li> </ul>
Not Working	Reaching more of the population that need D and A or mental health assistance
Not Working	School growth issues
Not Working	Need for affordable day care and after school programs
Not Working	Income issues <ul style="list-style-type: none"> <li>• Need to educate about HAND income guide lines</li> <li>• Need to file gap with people who make more than 80%, but not enough to do it on their own.</li> <li>• Neigh. Assoc. Capacity</li> </ul>
Not Working	The No.6 bus, limited time in bad weathers.
Not Working	The \$2 trash sticker is reasonable?
Not Working	Dumpster, not enough, recycling.

Not Working	More youth services.

Things For Kids	Kids need health care. Parents can't afford for kids to see specialists, i.e. Allergy Docs. Need health care.
Things For Kids	Transportation is hard for kids under 16 or without cars.
Things For Kids	Parenting skills – need responsible parenting
Things For Kids	More equitable policies at schools.
Weathering the Storm	Cutbacks on level of activities
Weathering the Storm	Delay in hiring/no increase in staff hours/staff burnout
Working Well	Bloomington Hospitals commitment: leads by participation
Working Well	Atwater eye clinic Collaboration
Working Well	Volunteering physicians
Working Well	Referrals from Centerstone and others increasing
Working Well	United Way assistance
Working Well	New location on Second is easier to access and has greater participation because of it.
Working Well	Free patient assistance with medicine provided
Working Well	The city sponsored events have helped retailers feel that they are not along
Working Well	The Parks Department has been very supportive
Working Well	B-Line improvements show city commitment

Working Well	Housing density downtown has helped increase pedestrian traffic which supports restaurants and Black's package store
Working Well	BUEA façade grants
Working Well	Parking issues are not as much discussed as they were
Working Well	Emergency food service
Working Well	CoC agencies working together well for example on the HPRP program
Working Well	Other agencies : Centerstone and Middleway are very strong
Working Well	Homeward Bound collaboration working well
Working Well	HOPWA performs well
Working Well	VASH veteran's housing program
Working Well	Stepping Stones will add to 9 beds in 18 mo. (serves 16-20 yr. old)
Working Well	Healthcare working well
Working Well	Emergency Food provision is working well. Township has its own pantry and a contract with Community Kitchen, Township is eligible for federal commodities
Working Well	Good relationship among cooperating agencies: SCAAP, Circles, Martha's House, Hoosier Hill and Community Kitchen
Working Well	Township shelter for one family
Working Well	Fiscally responsible city government.
Working Well	Reconciling dictionary. Feel like small Indiana town with all the benefits at IU. Rhino's might not exist in another town. City government is remarkably agreeable to helping out social services. Example: homeless shelter. Works top down into the culture in the city. City is open to opinions and would have input.
Working Well	VIM has met needs and is accepting referrals
Working Well	Grant emergency 33K for one month assistance rent and utilities, grant requires that this money be the last dollar in and this conflicts with the policies of the Trustees
Working Well	County grant helped with emergency rent
Working Well	Stimulus money helped with childcare funding and wiped out waiting list with new vouchers but city kids still have a wait list of 24
Working Well	Donors have remained constant but the size of gifts have been reduced
Working Well	Collective efforts among agencies.
Working Well	None focus on family and community essentially within the Bloomington Housing Authority
Working Well	Good network of physical needs services, i.e. Community Kitchen, Food Bank, Trustee Offices.
Working Well	Agencies that provide basic services work well together without duplicating the services.
Working Well	Hunger relief service working well with delivery of food to and from different organizations
Working Well	Owner occupied rehab and purchase rehab build neighborhoods

	and build assets for families which can keep them out of poverty and potentially help them live beyond poverty for their lifetime.
Working Well	Homelessness and affordable housing. Within the social services we need consolidated effort to get jobless/homeless back into jobs and from there into stable housing. And we still have no family shelter. Re affordable housing I want to see those with incomes slightly above the median included in any program we develop – for example individuals and couples who are working at university staff jobs and cannot quite afford to buy that first house.
Working Well	Cooperation and coordination between agencies
Working Well	Only issue is Communication
Working Well	Dodds Wylie court partnership with Perry Township. Works because Area 10 doesn't own the building although they maintain it. 8 or the 10 units are on Section 8 and several serve next to 30% of AMI, location is convenience and the first floor units are accessible. Can use twice as many of these kinds of units.
Working Well	Older rental projects are easier to fill because information about vacancy is passed word of mouth
Working Well	Cambridge Square is successful, but must be 62 or disabled
Working Well	State is focusing on relocating nursing home residents back into community based locations
Working Well	Accessibility: funds from United Way , “Handy Man” program client pays for materials, volunteers build
Working Well	Graduation rate has improved. Kids may be able to better see the need for education. Tremendous demand for Broadview adult learning. New Tech is doing well. Enrollment is lower the desired. Fairview – Artful learning there. Twelve other “Artful learning centers” in the country.
Working Well	Bus usage that we do have is going well
Working Well	Employment is okay, economy is more stable here, real estate stable...
Working Well	Educational opportunities
Working Well	Food bank is doing well
Working Well	Martha's House provides a lot of services
Working Well	City is safe and civil
Working Well	Impact from rehab
Working Well	Energy reduction/Ever Green
Working Well	HMAL
Working Well	Recognition of public good and willingness to invest in it
Working Well	Not the speediest community who's trying to get things done. Not really on cutting edge because of delay.
Working Well	City and County could work better together.
Working Well	Non-profit cooperates well with each other.
Working Well	Strong youth services. May still have gaps, but what we have is good.
Working Well	Good agencies services for people with disabilities.

Working Well	Volunteerism and financial support is pretty decent. Very caring community.
Working Well	HAND dept code enforcement/inspection

Working Well	Addressing hunger
Working Well	Cornerstone: 5 yr grant for mental health/substance abuse/HIV w/ medical services
Working Well	Stepping stones: kids graduating
Working Well	Collaboration
Working Well	Caring community which gives
Working Well	Good volunteers
Working Well	Good ideas
Working Well	Recognizing the needs within community
Working Well	Childcare is available and good quality, CASA legal advocacy good
Working Well	Grants for women with children who need secondary education
Working Well	Churches provide emergency funds for utilities
Working Well	Food Pantry 3-5 days work of provisions every 30 days Thursdays
Working Well	Benevolence is 2.4% of budget

## VIII. Conclusions and Recommendations

Information gathered during the 2010-2015 Consolidated Plan process was instrumental in putting together this list of impediments to fair housing in our community. As outlined above, the impediments include available clarifying accessibility requirements during the building permit process, access to emergency housing funds, access to local agency data about affordable housing, affordability of housing, environmental concerns, perception of affordable housing.

Additionally, HAND will continue with its successful education endeavors, such as realtor and landlord workshops, guest spots at associations, attendance for distribution of information at events, etc., in order to educate the general public about fair housing issues. HAND also provides information to the social service agencies who are funded through the department on fair housing issues.

HAND was a founding member of the local Predatory Lending Group. This group includes representatives from HAND, Indiana Legal Services, Momentive Consumer Credit Counseling, local lenders, realtors and appraisers. This group has started an educational campaign, with a grant from State Farm Insurance, regarding predatory lending that includes distribution of brochures, posters and workshops.

In addition to the items mentioned above, HAND will incorporate new ideas from this analysis, including, but not limited to, providing information about transportation programs to those who may not be familiar with them, and providing assistance to the Housing Authority to upgrade their current facilities to help change the perception of affordable housing.

Two Planning Initiatives will receive support in the coming years: The Regional Plan to End Homelessness sponsored by the South Central Housing Network and the Imagine Bloomington discussion that will result in upgrades to the Unified Development Policy Plan.
