## PROPERTY TAX ABATEMENT PROGRAM

REPORT ON APPLICATION FOR DESIGNATION AS AN URBAN DEVELOPMENT AREA

1. Description of Property. Land and Building located at 320 North Walnut Street. In-Lot No. 324. Current building is an abandoned masonry gasoline station built in 1937, with an addition in 1946. The current building is approximately 1,500 s.f.
2. Owner/Applicant. The land and building are owned by Earl L. and Louise Hudelson, 2601 Windemere Woods Drive, Bloomington. The property, when renovated, will house Bynum Office Supply. Bynum is managed by Richard E. Hudelson, the son of the owners. Bynum will move from its present location on east 4th Street. The 4th Street building has been sold and may be turned into an office building.
3. Proposed Development. See Application and drawing for details. Proposal is to revamp the front of the property as a parking area for customers, rehabilitate the current ex-gasoline station building, and construct a 60' X 40' (2,400 s.f.) addition to the rear of the building. The large addition will allow for a larger inventory and a more diverse product line. Projected cost of the improvements is \$80,000.
4. Does the Proposed Development Meet Current Zoning Requirements?  
Yes, the proposed changes are allowed in this zone (BD).
5. Would any Variances be Required and are They Likely to be Approved?  
No variances are required.
6. Are any Public Improvements Needed or Required? No.
7. Are any Significant Environmental Problems Likely to Occur? No, there are no unique historic, structural or aesthetic improvements.
8. Estimated Yearly Amount of Property Tax Revenues to be Abated.  
The current assessed value of the land is \$10,700 and the current assessed value of the improvements is \$2,330. Property taxes paid in 1982 were \$859 (the rate for taxes payable in 1983 has not been approved by the State yet). Due to the current property assessment guidelines and costs used, it is practically impossible to precisely determine the assessed value of the building before renovation. However, if it is assumed that the assessed value of the renovation was 10%, 20%, or 30% of the cost of the renovation, then the amounts of property taxes paid and abated on the improvements would be as follows (based on an \$8.24/\$100 property tax rate):

Year	% Reduced	30%		20%		10%	
		Paid	Abated	Paid	Abated	Paid	Abated
1	100%	0	\$1,977.60	0	1,318.40	0	\$659.20
2	95	98.88	1,878.72	65.92	1,252.48	32.96	626.24
3	80	395.52	1,582.08	263.68	1,054.72	131.84	527.36
4	65	692.16	1,285.44	461.44	856.96	230.72	428.48
5	50	988.80	988.80	659.20	659.20	329.60	329.60
6	40	1,186.56	791.04	791.04	527.36	395.52	263.68
7	30	1,384.32	593.28	922.88	395.52	461.44	197.76
8	20	1,582.08	395.52	1,054.72	263.68	527.36	131.84
9	10	1,779.84	197.76	1,186.56	131.84	593.28	65.92
10	5	1,878.72	98.88	1,252.48	65.92	626.24	32.96
		9,986.88	9,789.12	6,657.92	6,526.08	3,328.96	3,263.04

9. Would the Granting of Such a Designation be in Accordance with Existing City Policies? Yes, the City is committed to an economically strong and viable downtown. This development would allow an old and established Bloomington business to remain in the downtown and to be better able to compete and serve its clientele with an expanded inventory and more convenient parking. The renovation will renovate an old gasoline station that has deteriorated and reduced property values in the area.
