Will the legislation have a major impact on existing City appropriations, fiscal liability or revenues? Yes X No _____

If the legislation will not have a major fiscal impact, explain briefly the reason for your conclusion.

If the legislation will have a major fiscal impact, explain briefly what the effect on City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)

The proposed ordinance will result in a revision of existing RH, RL and BL zoning to a BL and RL pattern on an approximately 12.5 acre site located at the southeast corner of Pete Ellis Drive and East 10th Street (Highway 45). The site is currently vacant and outside of the corporate limits, although it adjoins the City on both its north and south property lines with annexation anticipated as the property develops. Unspecified apartment and commercial uses are proposed on the site, resulting in a substantial amount of development that would generate increased property tax revenues that are expected to flow to the City following annexation. The general area is well served by City services with the burden of connection costs falling upon the applicant, including construction of a public street (local designation) to serve the internal needs of the site. The costs to the City are expected to be relatively inconsequential.
