Will the legislation have a major impact on existing City appropriations, fiscal liability or revenues? Yes            No XX

If the legislation will not have a major fiscal impact, explain briefly the reason for your conclusion.

This ordinance would permit industrial/commercial development on a parcel that is outside of and not contiguous to the current corporate limits. No substantial revenues are expected to be generated nor costs incurred because no substantial additional development is anticipated and the existing facility is adequately served by existing roads, septic systems and so forth. Any fiscal impacts would be born by other jurisdictions.

If the legislation will have a major fiscal impact, explain briefly what the effect City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)
