SYNOPSIS

This ordinance, submitted by the Traffic Commission at the request of the Council last year, would standardize the provisions on all municipal lots and provide that parking meters in all lots be effective nine a.m. to five p.m. every day except Sundays and holidays. All lots will be used for storage except the metered spaces in the Municipal Building lot and the Fourth and Washington lot which would have a one-hour limit.

The ordinance would also amend the present list of municipal lots in the Code to include the Park and Shop and the Redevelopment lots.
