SYNOPSIS

This ordinance amends Chapter 6.04 of the Bloomington Municipal Code entitled "Refuse and Yard Waste Collection by the City." It codifies existing procedures for the collection of recyclables and implements a year-round program for the collection of large items and appliances. It sets the price for collecting those large items and appliances at \$2 and codifies the existing, 25-cent price for yard trash/yard waste pick up tags. The ordinance also requires that garbage shall be free of vermin and pests, and decreases the maximum weight of refuse and yard waste containers from one hundred pounds to forty pounds. Finally, it defines which residential units are eligible for refuse and yard waste collection by the city and establishes a schedule of fines for violation of these provisions.
