SYNOPSIS

This ordinance appropriates funds from the Telecommunications Non-Reverting Fund for the purposes of procuring and paying for the installation of conduit for fiber optic cable from South Rogers and Hillside to Seventh and Washington. Forty percent (40%) of cable franchise fees are designated for infrastructure projects of this nature. By appropriating funds at this time, the City will be able to share trenching and other construction costs with a private firm that is currently working in areas which overlap with the City's telecommunication infrastructure plans.
