SYNOPSIS

Title 18 was enacted in 1976 and is now outdated and inconsistent with the Indiana Code and the Rules of the state Fire Safety and Building Commission. This ordinance revises Title 18 entitled "Fire Prevention" to reflect current laws and practices and makes some minor related changes in Title 15 entitled "Vehicles and Traffic". Additionally, the adoption of the most current state fire code enables the Fire Department to address safety concerns that recently have been raised regarding premises identification with street numbers.
