## MEMO

To: Common Council  
From: Planning Department  
Date: February 21, 1995  
Case No.: BL/PCD-RS/PUD-62-94  
Location: 3800 N. Prow Rd.  
Petitioner : Lee Marchant  
Counsel: Smith Neubecker & Assoc., Inc.

On February 20, 1995, the Bloomington Plan Commission approved an expansion of the BL/PCD portion of the business area of this development by 1.068 acres, and preliminary and final plat approval for subdivision of three lots. The BL/PCD will have a 1.25 and a 5.02 parcel. The remaining parcel (45.75 acres) is the RS/PUD.

This land has a history of approvals. In November 1984, a portion of this land was granted PUD/PCD approval (PUD/PCD-66-84). In October 1994, the Plan Commission granted approval of a rezone and outline plan approval of an expansion of the existing Kivett-Burns PUD and a rezone from RE to RS/PUD and BL/PCD. Proposed were 43.6 acres as residential and five acres as business park.

With the current proposal, the addition of the 1.068 acres will allow the proposed business office to meet their required parking. Staff and the Plan Commission encouraged a larger parcel for the business portion of this site at the time of rezone in Oct. 1994. This area south of Acuff Rd. was to be employment and business in the Growth Policies Plan. The subdivision of the land will allow the parcels to be sold and developed. At the time of development, the plans will come to the Plan Commission for development plan approval.

The area to be rezoned to business use will consume a small portion of single family homes. The residential density will not increase in the RS/PUD portion of the development.

Right-of-way dedication is required along Acuff Rd., Prow Rd., and Kinser Rd. (30' from the centerline of the road for each).

The Growth Policies Plan designates the northern portion of this site "employment". These areas are to be planned corporate business parks. The lower portion of the site is designated "low density residential". While this plan does not conform to the Master Plan completely, the components are in place and Planning has received a letter from the owner of the parcel to the north stating an understanding of the goals of the Master Plan for this area.

RE: BL/PCD RS/PUD Amendment and Subdivision  
Kinser Pike PUD

Dear Tim:

We are seeking approval to amend our planned development (approved by the Council 12/07/94) to increase the BL/PCD area by 1.068 acres and decrease the RS/PUD portion by like amount.

In the process of rezoning, we began working with General Acceptance Corporation, a local finance company, to locate their corporate offices on this parcel. We are pleased that this project is evolving and that we need to enlarge the business area to accommodate their needs. General Acceptance Corporation will take five acres and build approximately 60,000 s.f. of office space in two or more phases. The remaining 1.25 acres shall be developed at a later date in accordance with the list of uses in the original planned commercial development. We would expect that the most probable uses will be from the retail portion of that list. This will create a three lot subdivision.

We are also seeking preliminary and final plat approval to allow subdivision of the business portion of the Park. We are proposing common driveways to Acuff Road and Prow Road with cross access easements as a part of this subdivision.

General Acceptance Corporation will be seeking development plan approval within the next couple of months for early 1995 construction. This developing project promises to be a significant boost to the business park concept in this area of our community. We also request waiver of second hearing.

RE: Kinser Pike Planned Development

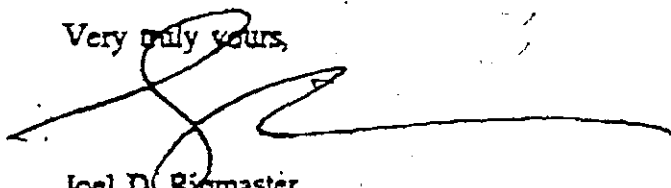

Dear Mr. Mueller and Plan Commissioners:

We currently have a petition pending before the Bloomington Plan Commission for designation of a residential and business planned development. In the context of this rezone petition, you have requested information about our parcel of land that lies north of Acuff Road. This letter is to confirm that we understand that the growth policies plan calls for this area to be an "employment center" and that your proposed zoning maps propose the area to be designated Business Park.

Our current petition includes the transition from residential use on Kinser Pike to the business park use at Acuff and Prow. Specifically, the transition from residential to business is being made at the east line of our 5 acre business parcel.

Our land lying north of Acuff will become business park land use. The land will most likely be developed as a comprehensive planned development with a range of business and business support uses consistent with the Bloomington Growth Policies Plan.

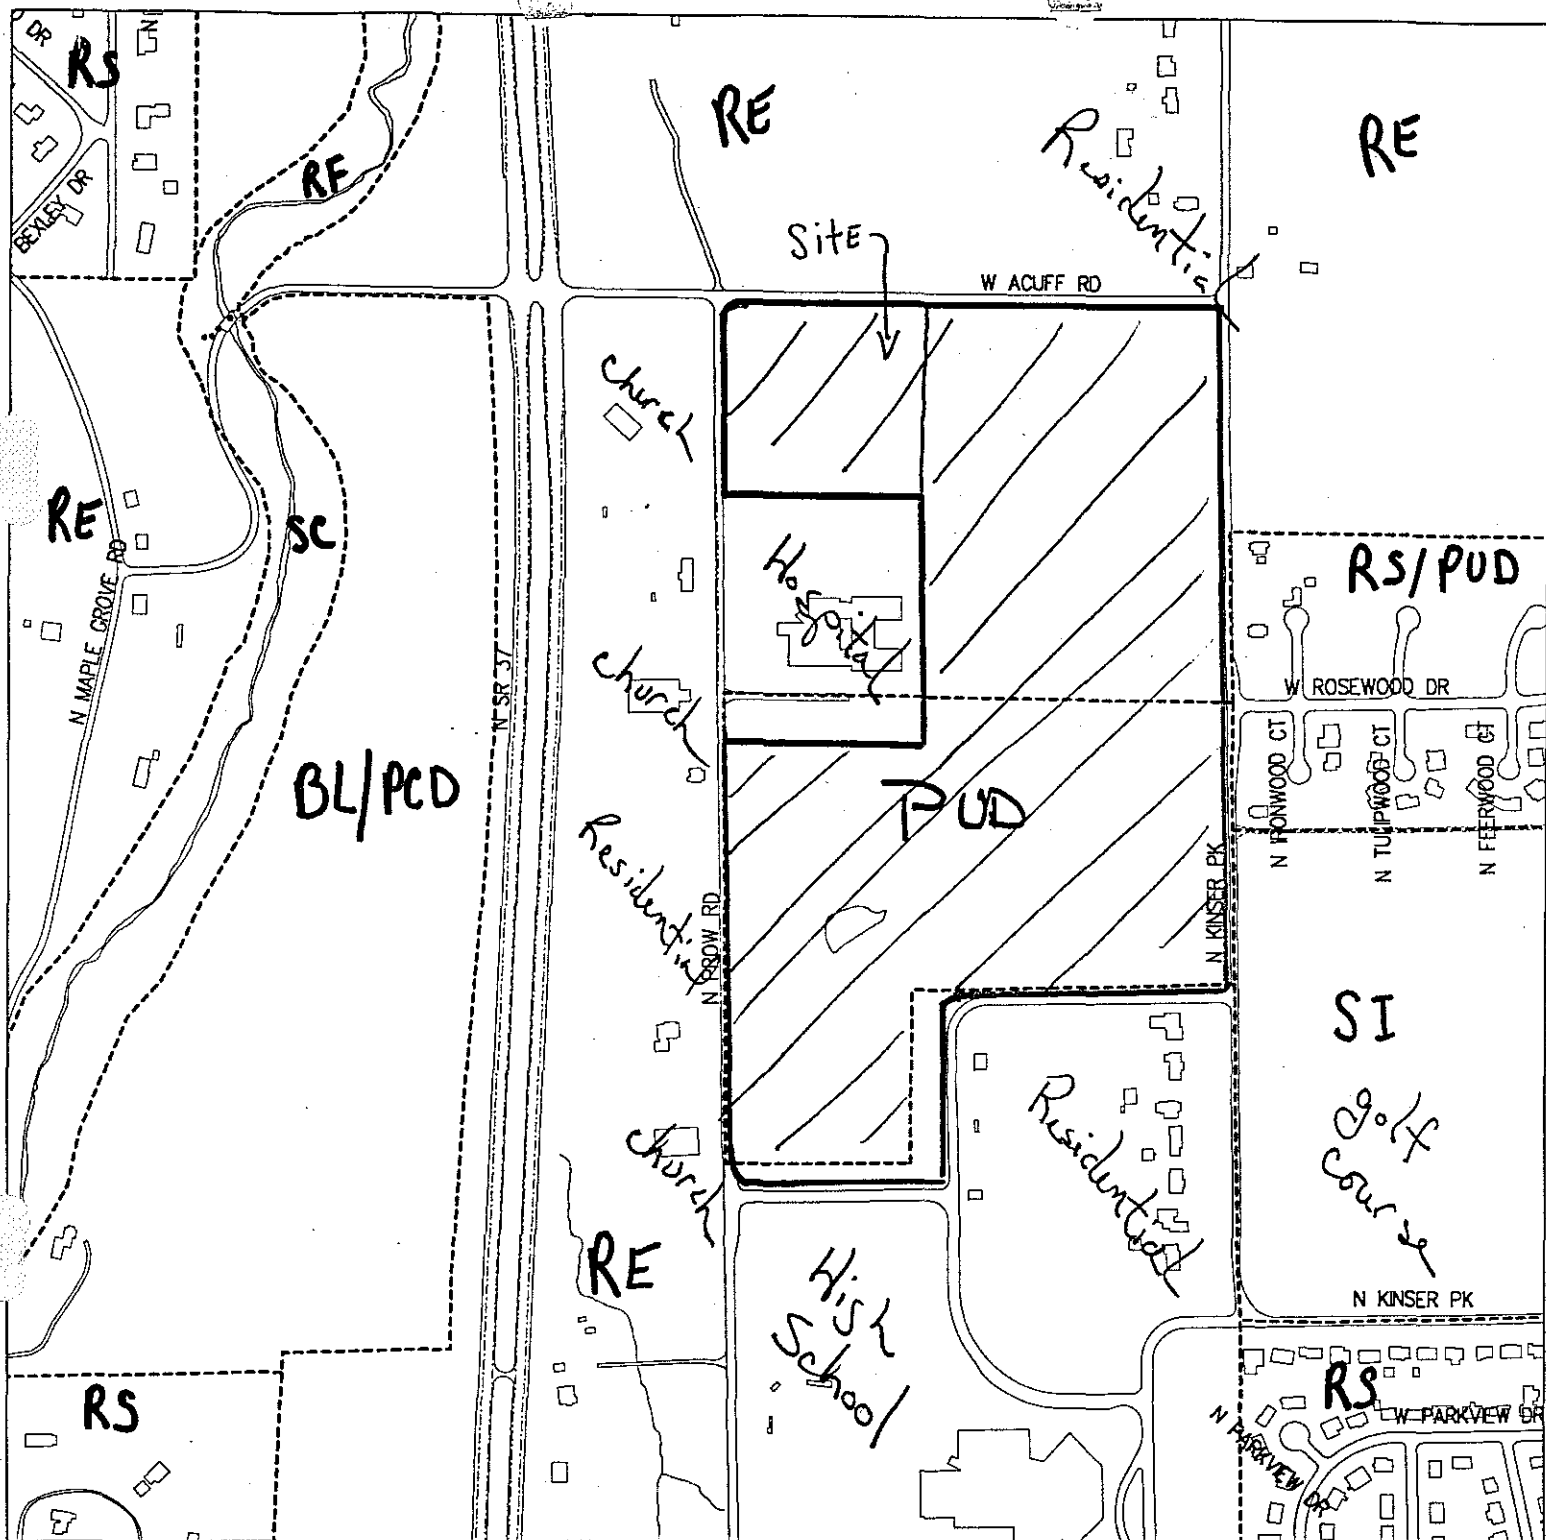

Very truly yours,

Joel D. Bigmaster  
Representative for Ruth Burns Jensen
