Case #: PCD-19-95
Date: April 11, 1995
Location: 1607 N. Gray St.
Petitioner: Landrey Leasing
Counsel: Frank Barnhart

On April 3, 1995, the Bloomington Plan Commission approved a request for an amendment to the outline plan approved in March 1993 in a rezone from RS to ML/PCD. This amendment requests that several uses be added to the previously approved list for this 1.53 acre PCD.

The petitioner's have received development plan approval for two main buildings and a storage building. A development plan amendment was also granted to expand the buildings. Currently, the site is close to completion of one building placed toward the corner of Vernal Pk. and Gray St. To be completed are the placement of approximately four trees and the paving of the parking lot for the first building.

The petitioner is seeking approval of an outline plan amendment to include the following;

Manufacturing Uses

1. machinery tool and die
2. printing

Commercial Wholesale

1. farm supply
2. farm products
3. building materials

Each of these uses would be limited to 3,000 sq. ft. and inside storage only.

Please see the petitioner's statement and "exhibits".

Plan Compliance: The Growth Policies Plan calls for this area to be commercial, without being retail and without creating large amounts of traffic to congest Vernal Pike. These additional uses are low traffic generators by their characteristics. All storage must be inside and each use is limited to 3,000 sq. ft. This will help limit the amount of traffic and the overall impact to the area.

CONDITIONS OF APPROVAL: BCD-19-95

- 1) The landscaping along Vernal Pike and Gray St. and the paving must be completed this building season.

Approved List of Uses for ML/PCD-12-93

MANUFACTURING AND PROCESSING:

apparel
bakery, dairy products, confectionary
clocks and scientific instruments
furniture
musical instruments
research laboratories

INDUSTRIAL NON-PROCESSING:

warehouse and storage (not mini-warehouses)

COMMERCIAL TRADE:

appliance repair
building trades shops
warehouses
business and professional offices

EXHIBIT B

Petitioner requests the following additional uses:

1. Manufacturing Process
 - a. Machinery tool and die
 - b. Printing
2. Commercial Wholesale
 - a. Farm supply
 - b. Farm product
 - c. Building materials

Limited to 3,000 square feet, inside storage only.

JUSTIFICATION

Petitioner had additional space for lease. Prospective tenants, Monroe County Feed and Pet Supply, are not an approved use.

Present tenant, Sophis Engineering Services, Inc., needs additional space to add a tool and die operation. They would add six (6) employees if amendment is granted.

Printing may be a permitted use under the Commercial Trade approved uses. This request is made for clarification.

The proposed additional uses are compatible with existing uses and are low traffic generators.

Expansion of the building, if any, would be within the ten percent (10%) limit.

Proposed Amendment to List of Uses

The Environmental Commission has no objections to amending the approved list of uses to add the proposed commercial trade and manufacturing uses. The proposed uses are not typically associated with any adverse environmental effects and will be limited to enclosed storage.

Planned Development Compliance

To this point in time, one of the two approved buildings has been constructed on this planned commercial development. There is a good deal of landscaping which has not yet been planted, probably due to seasonal weather constraints. Landscaping which should be planted this construction season consists of:

1. street trees along the eastern portion of Gray St.
2. 6-7 trees to replace trees removed on the east side of the site, in the Vernal Pike area. There does not appear to be sufficient room to place all of these trees around the existing building near Vernal Pike. However, there should be other opportunities on other portions of the site to plant additional landscaping.
3. spreading juniper plant beds

The Environmental Commission recommends that these landscaping items be addressed by the petitioners during this planting season.
