

**RESOLUTION 94-39**

**TO ADOPT A WRITTEN FISCAL PLAN AND TO ESTABLISH A POLICY FOR THE PROVISION OF CITY SERVICES TO AN ANNEXED AREA (Cascade Park Area)**

WHEREAS, the City of Bloomington desires to annex the area known as the Lower Cascade Park area, including the 2600 block of N. Kinser Pike and the 2600 through 2900 block of Old Highway 37 and North Walnut Street, which is more specifically described in Ordinance 94-56; and

WHEREAS, responsible planning and state law require adoption of a fiscal plan and a definite policy for the provision of City services to the annexed areas; and

WHEREAS, such a plan has been developed and presented to the Common Council, entitled, "Fiscal Plan, Annexation of Cascade Park Area";

NOW, THEREFORE, BE IT HEREBY RESOLVED BY THE COMMON COUNCIL OF THE CITY OF BLOOMINGTON, MONROE COUNTY, INDIANA, THAT:

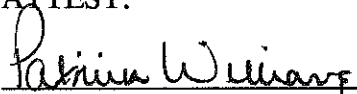

1. The Common Council of the City of Bloomington, Monroe County, Indiana, hereby approves and adopts the Fiscal Plan, Annexation of Cascade Park Area, which Plan is attached hereto and made a part hereof, and hereby approves and adopts the specific policies for implementation of the Plan as set out therein.
2. Any monies necessary for the provision of services as described and itemized in the attached Plan shall be budgeted and appropriated from the applicable fund, pursuant to state law and the City's budget procedure.
3. It is anticipated that this annexation will not result in the elimination of jobs for employees of other governmental entities, but in the event it does, then the Director of Personnel of the City of Bloomington is hereby directed to assist such employees in obtaining new employment, but nothing herein shall require the City to hire any such employees.

PASSED and ADOPTED by the Common Council of the City of Bloomington, Monroe County, Indiana, upon this 19<sup>th</sup> day of October, 1994.

  
\_\_\_\_\_  
JIM SHERMAN, President  
Bloomington Common Council

SIGNED and APPROVED by me upon this 21<sup>st</sup> day of October, 1994.

  
\_\_\_\_\_  
TOMILEA ALLISON, Mayor  
City of Bloomington

ATTEST:  
  
\_\_\_\_\_  
PATRICIA WILLIAMS, Clerk  
City of Bloomington

**SYNOPSIS**

This Resolution requests approval of the Fiscal Plan for the annexation of the Cascade Park area. A Fiscal Plan, which is required by state law, outlines a schedule of implementation for the various services the City will provide to the annexed area.

**ANNEXATION OF CASCADE PARK AREA**

**INTRODUCTION**

The following Fiscal Plan, developed through the cooperative efforts of the City of Bloomington's Controller's Office, Planning Department, Engineering Department, Legal Department, Fire Department, Police Department, Street Department, Sanitation Department, Department of Public Works, Redevelopment Department, Utilities Department, Animal Shelter, Parks and Recreation Department, Human Resources Department, and Personnel Department represents the City's policy and procedure for the annexation of the Cascade Park Area, which includes the 2600 block of N. Kinser Pike, and the 2600 through 2900 block of Old Highway 37 and North Walnut Street.

The cost estimates of the planned services to be furnished, methods of financing, and plan for the organization and extension of services to the Annexation Area are fully discussed. In addition, information is provided to compare the services proposed for the Annexation Area with other areas within the City's corporate boundaries with similar topography, patterns of land use and population density.

**Effective Date**

The effective date of this ordinance will be sixty days after Council action. Accordingly, subsequent sections of this Fiscal Plan stating that the City will provide services "upon annexation" refer to this effective date.

**1.00 LOCATION**

The Annexation Area lies in the northeast quarter of Section 29, in the west half of Section 21, and in the northwest quarter of Section 28, all in Township 9 North, Range 1 West. The Annexation Area is contiguous to the City along 100% of its boundary. A copy of the Annexation Area contiguity calculation is attached and incorporated herein as Exhibit 2. Certified copies of the City Ordinances documenting the City corporate boundaries are attached herein as Exhibit 3.

There are approximately 112 acres of land within the boundaries of the Annexation Area.

**2.00 TOPOGRAPHY**

The Annexation Area has predominantly minimal slope, with a more severe slope on the west side. Cascades Creek runs through the center of the area. A more thorough analysis of the terrain and an analysis of soil types is attached and incorporated herein as Exhibit 4.

**3.00 PATTERNS OF LAND USE**

There are currently 13 property owners of 24 parcels in the Annexation Area according to County tax records.

The Annexation Area contains 30 residences. Pursuant to Title 20 of the Bloomington Municipal Code, the Annexation Area is zoned SI, RF, UF, RS, FF, and BA.

#### 4.00 POPULATION DENSITY

According to 1991 data from the Indiana University Center for Population Research and the U.S. Census Bureau, Monroe County has an average of 2.39 persons per household. The Annexation Area's 30 households give an estimated population of 72. Two residential areas are within the Annexation Area. The high density residential use is located on N. Old Hwy 37, with a density of 9.7 persons per acre. On North Walnut, within the RS zone are two residences interspersed between commercial sites, with a resulting density of well under one person per acre.

#### 5.00 COMPARABLE NEIGHBORHOODS

Two areas (hereinafter, "Comparable Areas") within the City's corporate boundaries were selected in order to compare the proposed provision of capital and noncapital services to the Annexation Area with those services already provided within the City limits. The locations of the Comparable Areas as well as of the Annexation Area are shown on the map that was previously incorporated herein as Exhibit 1.

The purpose of this comparison is to ensure that noncapital services, such as police and fire protection and street and road maintenance, will be provided within one year after the date of annexation to the Annexation Area in a manner equivalent in standard and scope to those noncapital services provided in the Comparable Areas. In addition, the purpose of the comparison is to ensure that capital services, such as street construction, sewer facilities, water facilities, and storm water drainage facilities are provided to the Annexation Area within 3 years after the effective date of annexation in the same manner as those services are provided to the Comparable Areas.

A thorough analysis of terrain and soil types of the Annexation Area and the Comparable Areas was previously incorporated herein as Exhibit 4. A more in depth discussion of the Annexation Area and the Comparable Areas follows:

##### Annexation Area: Cascades Park Area

- a. Location: The Annexation Area includes the 2600 block of N. Kinser Pike, and the 2600 through 2900 block of Old Highway 37 and North Walnut Street.
- b. Topography: The Annexation Area has predominantly minimal slope, with more severe slopes on the west side. Cascades Creek runs through the area.
- c. Patterns of Land Use: The Annexation Area is used for a City park, for two distinct residential sites, and for commercial purposes. It is zoned SI, RF, UF, FF, RS, and BA.
- d. Population Density: The Annexation Area's residential areas have an estimated population density of 9.7 persons per acre and less than one person per acre.

##### Comparable Area I: A portion of Old St. Rd. 37, N. College, and Miller Showers Park.

- a. Location: Comparable Area I is located along North College, north of 17th Street.
- b. Topography: Comparable Area I has minimal slopes. A small stream runs through Miller Showers Park.

- c. Patterns of land use: Like the Annexation Area, Comparable Area I is used for a City park, for two distinct residential sites, and for commercial purposes. It is zoned SI, RH, and BA.
- d. Population Density: Like the Annexation Area, Comparable Area I has two distinct residential uses. The higher density use is a portion of Cascade Trailer Park, with 17 persons per acre. The lower density single-family use is immediately north, on Old St. Rd 37, with one residence at less than one person per acre.

Comparable Area II: A portion of Monroe, W. 14th, W. 16th, and Hancock Streets.

- a. Location: Comparable Area II is adjacent to the Tri-North School buildings, along the streets mentioned above.
- b. Topography: Comparable Area II has slopes of 2 to 12%. A small stream runs through the north portion of the area, and another drains below Crestmont Park.
- c. Patterns of land use: Comparable Area II is used for Crestmont Park, the undeveloped portion of Tri-North School, for two distinct residential uses, and for commercial purposes.
- d. Population Density: Like the Annexation Area, Comparable Area II has two distinct residential uses. The higher density use is on W. 14th Street, with a population density of 13.5 persons per acre. The single-family use is located along Hancock, with less than one person per acre.

**6.00 GENERAL RELATIONSHIP TO CITY SERVICES**

The Annexation Area is located in the northwest part of the City. The relationship between the Annexation Area and existing incorporated city territory is shown on the map previously incorporated as Exhibit 1. City services are currently being provided to the City areas that border the Annexation Area.

The roads currently in place in the Annexation Area are shown on the Master Thoroughfare Plan map. The Master Thoroughfare Plan and map are incorporated herein as Exhibit 8. The roadway within this annexation is characterized as a Secondary Collector.

The Annexation Area currently receives fire protection from the Bloomington Township Fire District. Upon the annexation's effective date, the City will provide this service. City parks are already easily accessible to the Annexation Area. The Annexation Area already has access to the City's functions of planning and engineering services, building inspection and social service programs. The City currently provides water service to all of the existing residential structures, and sewer service to all. For the reasons stated above and the reasons elaborated below, annexation of this area is a logical extension of the City's corporate boundaries.

**7.00 COST OF SERVICES METHODOLOGY**

The capital services within the Annexation Area were evaluated to determine what, if any, new facilities are needed to provide services to the area in the same manner as those services are provided to comparable areas within the City's corporate boundaries. Each capital service was assessed and, where required, specific improvements have been programmed. The findings and proposed improvements for

each capital service are detailed in the following report. Non-capital services, which are delivered to the area without installation of capital facilities in the area, were assessed in consultation with the administrator in charge of the service. Some services are already available to the Annexation Area, while other services will have to be initiated. Such findings are detailed below. The requirements and cost of these new services were determined by a fiscal analyst in consultation with the administrator in charge of each service based upon factors explained below. In each case, it is shown in this report that service is being or will be provided to the area to be annexed in a manner equivalent in standard and scope to the services being provided to Comparable Areas.

**8.00 PROVISION OF SERVICES**

**8.01 SANITARY SEWER SERVICE**

City sewer service is currently provided for all of the properties in the Annexation Area, and will be available to all properties planned within the area. The map indicating the locations of the sewer mains currently in place is attached and incorporated herein as Exhibit 9.

Maps showing the sewer main lines in the Comparable Areas are attached and incorporated herein as Exhibit 10. Sewer service in the Annexation Area and Comparable Areas is described as follows:

Annexation Area: All dwellings in the area are connected to a publicly-owned, minimum 8" main, or similar facilities.

Comparable Area I: All dwellings in this Areas have sanitary sewer service. A publicly-owned, minimum 8" main in a manner comparable to the Annexation Area serves all residences.

Comparable Area II: All dwellings in this Areas have sanitary sewer service. A publicly-owned, minimum 8" main in a manner comparable to the Annexation Area serves all residences.

**SUMMARY OF SANITARY SEWER SERVICES**

**COST ESTIMATE FOR PROVISION OF SERVICE: \$0**

**METHOD OF FINANCING: Not Applicable**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Sanitary sewer service is now available to the Annexation Area in a manner equal to the Comparable Areas. The City will incur no cost for sanitary sewer services as a result of this annexation.

**8.02 WATER DISTRIBUTION**

The City Water Utility is serving all existing properties in the Annexation Area, as well as all Comparable Areas. The water lines in place in the Annexation Area are shown on the attached Exhibit 9. Utilities Service Board Rules, Regulations and Standards of Service for the City Water Utility are attached and incorporated herein as Exhibit 11. Water service in the Annexation Area and Comparable Areas is described as follows:

**Annexation Area:** The water mains serving this area are publicly owned ductile iron pipe, of minimum 4" diameter.

**Comparable Area I:** The water mains serving this area are publicly owned ductile iron pipe of minimum 6" diameter.

**Comparable Area II:** The water mains serving this area are publicly owned ductile iron pipe of minimum 6" diameter.

**SUMMARY OF WATER FACILITIES**

**COST ESTIMATE OF PLANNED SERVICE:** \$0

**METHOD OF FINANCING:** Not Applicable

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICE:** Water service is in place to all of the Annexation Area structures in a manner equal to water service in the comparable areas. No cost will be incurred by the City for this service.

**8.03 FIRE HYDRANTS**

There is currently no fire hydrant serving the higher density residential portion of the Annexation Area. A map showing the locations of the hydrants is attached and incorporated herein as part of Exhibit 12. Upon annexation a hydrant will be installed that serves this area according to the standards set by the Utilities Department, the Insurance Services Office, and the Ten States Standards. Applicable portions of these standards are attached and incorporated herein as Exhibit 13. Generally, spacing varies between 350 and 600 feet, depending on these standards, with closer spacing required for industrial, commercial, and densely populated areas. The Comparable Areas all have fire hydrants installed according to the same standards. The fire hydrant locations in the Comparable Areas are shown on the map attached and incorporated herein as Exhibit 12.

The fire hydrant to be installed in the Annexation Area will be publicly owned and maintained, for a one-time installation cost of \$2,000. The rental charges for publicly owned hydrants will be incorporated into the existing billing structure for water users within the City's corporate boundaries, as approved by Ordinance of the Bloomington Common Council and the Utilities Regulatory Commission.

**SUMMARY OF FIRE HYDRANTS**

**ONE-TIME COST ESTIMATE:** \$2,000

**METHOD OF FINANCING:** General Fund

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Upon annexation, one fire hydrant meeting the proper standards will be installed in the Annexation Area, at a level of service equal to the Comparable Areas. For the hydrants owned by City of Bloomington Utilities, the rental charge will be incorporated into the water billing structure for all water users within the City. No maintenance cost will be incurred by the City as a result of this annexation.

**8.04 STORM WATER DRAINAGE FACILITIES**

On the annexation's effective date, the City will assume responsibility for maintenance of the storm water drainage facilities within public streets in the Annexation Area, including repair and cleanouts. These facilities will be maintained in a manner equivalent to storm water drainage facilities in comparable areas of the City.

Maintenance of stormwater drainage facilities within the Annexation Area will not require an increase in expenditures for equipment or new personnel. However, it will result in increased operational expenses for materials and services. The cost estimate of these expenses is derived by dividing the budgeted expenses for storm water maintenance by the lineal feet of roadway drainage facilities maintained. Approximately \$175,000 per year is budgeted for personnel, equipment, and materials for the City's 175 miles of streets, or \$1,000 per mile. For the Annexation Area's 6,336 feet of road centerline, the yearly estimated cost is \$1,200.

The storm drainage facilities within the Annexation Area consist of roadside curbs along N. Walnut and the relevant portion of N. Kinser. All storm drainage within the Annexation Area relies on natural topography and empties into Cascade Creek.

The Comparable Areas likewise contain roadside curbing and natural drainageways that empty into the streams that run through each area.

**SUMMARY OF STORM WATER DRAINAGE FACILITIES**

**COST ESTIMATE FOR PROVISION OF SERVICES: \$1,200**

**METHOD OF FINANCING: General Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Storm water drainage facilities in the Annexation Area are adequate and are being provided in the same manner that those services are provided to the Comparable Areas. There are no plans for further construction of drainage facilities in the Annexation Area. Immediately upon annexation, the City Engineering Department will respond to inquiries or complaints about drainage and will begin drainage related maintenance as may be required within the public right-of-way as a result of erosion or siltation.

**8.05 STREET AND ROAD CONSTRUCTION AND MAINTENANCE**

On the annexation's effective date, the City will assume responsibility for maintenance of the public streets in the Annexation Area, including repair and routine inspection. The portion of N. Old Hwy. 37 within the boundaries of Annexation Area is a public street and will be maintained and resurfaced periodically in accordance with the City's preventive street maintenance plan established through the Department of Public Works and the Street Department.

The annexation of the roadway that will be maintained by the City will not require an increase in expenditures for equipment or new personnel. However, it will result in increased operational expenses for materials and services. The cost estimate of these expenses is derived by dividing the budgeted materials expenses by the miles of city streets maintained. The Department of Public Works in cooperation with the Street Department estimates an average cost of \$685 per 1,000 linear

feet of roadway centerline. For the Annexation Area's 6,336 linear feet of centerline, the yearly estimated cost is \$4,340.

**SUMMARY OF STREET AND ROAD CONSTRUCTION AND MAINTENANCE**

**COST ESTIMATE OF MAINTENANCE: \$4,340**

**METHOD OF FINANCING: MVH (Motor Vehicle-Highway), LRS (Local Road & Street), & CUM CAP (Cumulative Capital) funds for the annual expense.**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Upon effective date of the annexation, public streets within the Annexation Area will be repaired and maintained by the City in accordance with established policies. Funding will be provided for by the City's general street repair and maintenance funds.

**8.06 STREET AND ROAD SERVICES**

Immediately upon the annexation's effective date, the City will begin providing services to the public streets in the Annexation Area. These services include routine pavement sweeping, routine leaf collection, and snow & ice removal as needed. The annexation of roadway by the City will result in the need for increased operational expenses for materials, services and overtime; it will not require increased expenditure for salaries or equipment.

The Annexation Area has been evaluated by the City Street Commissioner to estimate the services needed for routine street sweeping, routine leaf collection, and snow & ice removal as needed. Snow and ice removal includes plowing and distribution of sand or salt. These estimates were made in terms of the materials, repairs and overtime that are needed in order to provide these services at the same standard and scope as provided in the Comparable Areas. The cost estimates made by the Director of Public Works are based on annual operating expenses for service provisions. The Annexation Area has 6,336 centerline of roadway and two houses that will be serviced by the City.

- 1. Street Sweeping four times per year: \$760
- 2. Leaf Collection once a year: \$36
- 3. Snow & Ice Removal estimated at 10 times per year: \$1,742

The annual estimated cost for Annexation Area street services is \$2,538

**SUMMARY OF STREET AND ROAD SERVICES**

**COST ESTIMATE OF SERVICE: \$2,538**

**METHOD OF FINANCING: Motor Vehicle Highway Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Regular street and road services will begin immediately upon annexation on an as-needed basis, due to factors such as weather and public safety. Service activities include street sweeping, leaf collection, and snow & ice removal.

**8.07 STREET SIGNS AND TRAFFIC SIGNALS**

Street signs and traffic signals in the City, including those in the Comparable Areas, are installed according to City policy regarding the location and installation of traffic control and street signs. The street signs in the Comparable Areas are recorded on the map that was previously incorporated as Exhibit 12. The City policy on street signs fulfills the requirements contained in the "Indiana Manual on Uniform Traffic Control Devices" and in the Bloomington Municipal Code Book. Both of these volumes describe conditions under which each type of sign is to be installed; the City Engineer recommends sign placement to the Traffic Control Commission accordingly.

Street Signs and Traffic Signals in the Annexation Area and the Comparable Areas are listed below:

Annexation Area: Four street signs will be installed after annexation: two speed limit signs and two caution signs.

Comparable Area I: Has all the necessary street and road signs.

Comparable Area II: Has all necessary street and road signs.

The City will be responsible for the installation and maintenance of all additional signs on local public streets in the Annexation Area. Pavement markings will also be included. The Director of Public Works estimates installation cost for signs at \$100 per signs. Signs that are in place are replaced on an average cycle of eight years, for an annual maintenance cost of \$12.50 per sign.

**SUMMARY OF STREET SIGNS AND TRAFFIC SIGNALS**

**COST ESTIMATE OF SIGN INSTALLATION: \$400**

**COST ESTIMATE OF YEARLY MAINTENANCE: \$250**

**METHOD OF FINANCING: Local Road and Street Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** The signs present in the Annexation Area's public streets will be brought up to City standard within three years of the annexation's effective date. Maintenance of the existing signage within the Annexation Area will become part of the City's sign maintenance program. Funding will be provided for by the appropriate Street Department Funds.

**8.08 STREET LIGHTS**

The Board of Public Works of the City of Bloomington is responsible for the installation of public street lights. Street lights are installed by petition, consistent with the requirements set forth in I.C. Section 36-9-9-1, et seq. The petition shall be evaluated in relation to traffic, crime statistics, illumination levels, and availability of funds in a manner consistent with all areas within the corporate limits.

The Annexation Area currently has no public street lights. Lighting inside Cascade Parks sights is currently maintained by the City Parks Department. Both Comparable Areas have lights at intersections or according to City policy. No additional maintenance cost will be incurred.

SUMMARY OF STREET LIGHTS

COST ESTIMATE FOR PLANNED SERVICE: \$0

METHOD OF FINANCING: General Fund

PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES: Lighting is currently available in the Annexation Area to the same standard and scope as the Comparable Areas.

**8.09 SIDEWALKS**

In general, the construction and maintenance of sidewalks is not the responsibility of the City, but that of the owner. The curbs are generally constructed for a life of 20+ years, and require little if any maintenance. Sidewalks and curbs are presently in place in the Annexation Area in a manner equivalent to the Comparable Areas.

SUMMARY OF SIDEWALKS

COST ESTIMATE OF SERVICE: \$0

METHOD OF FINANCING: Not Applicable

PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES: Since sidewalks are provided for the Annexation Area on a level at least equal to the Comparable Areas, no publicly funded sidewalk construction is planned in the Annexation Area.

**8.10 ENGINEERING/HOUSING CODE INSPECTION**

Owners and agents of rental properties within the City's corporate limits are required to register their properties with the City's Code Enforcement Office. These properties are then scheduled for housing code inspections every three or four years.

The Director of Public Works estimates the net cost for rental inspection to be \$20 per unit per year. Multiplied by the Annexation Area's four rental units, this brings a yearly maintenance cost of \$80.

SUMMARY OF HOUSING CODE INSPECTIONS

COST ESTIMATE OF SERVICE: \$80

METHOD OF FINANCING: General Fund

PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES: Immediately upon annexation, any rental units within the Annexation Area will be placed on the City's three to four year cycle of inspections by the Housing Code Division.

**8.11 REDEVELOPMENT DEPARTMENT SERVICES**

The Department of Redevelopment administers programs for the implementation of Community Development Block Grants available to the City through the federal Department of Housing and Urban

Development. The annual grant amount is determined by the Federal Government and may be disbursed at the City's discretion among various eligible activities.

During fiscal year 1995 (June 1994 through May 1995), the City will receive Community Development Block Grants totaling \$1,150,000 which will be allocated to various projects including: rehabilitation of housing for low-moderate income families on a city-wide basis; small scale drainage projects and site improvements in targeted low-income areas; economic development activities, various public service programs; and a utility service program for low-moderate income families.

Applications from eligible low-moderate income families from the Annexation Area for assistance through the housing rehabilitation program will be processed in the same manner as other eligible applicants.

The Redevelopment records indicate that there were no grants or loans for home rehabilitation to property owners in the Comparable Areas during the previous fiscal year.

The amount of funds allocated to each Community Development Block Grant program is fixed and is disbursed as eligible applicants utilize the funds. For this reason, annexation will not result in any additional costs to these programs.

#### SUMMARY OF REDEVELOPMENT DEPARTMENT SERVICES

**COST ESTIMATE OF SERVICE: \$0**

**METHOD OF FINANCING:** Federal Community Development Block Grants

**PLAN FOR PROVISION OF SERVICES:** Immediately upon annexation, Annexation Area residents will be able to apply for any of the Community Development Block Grant Program services for which they may be eligible under program rules.

#### **8.12 POLICE PROTECTION**

Immediately upon annexation, Police Department services will be extended to the Annexation Area in the same standard and scope as provided to other residential areas in the City, including the Comparable Areas.

The City is divided into five patrol districts. Each has officers assigned to answer calls for service within the district. Calls from the Annexation Area will be handled by the officers assigned to that district. If officers of that district are unavailable, then those in another district will respond.

Additional funds for officer overtime and vehicle costs are being budgeted to enable response to the additional calls anticipated from the Annexation Area. The uniformed police officer is assigned to the Patrol Unit which operates 3 shifts per day. Officers work 6 days and then are off duty 3 days. Additional days off are scheduled for holidays, and vacation; days off also occur because of illness, injury, and training. In 1993, 38 officers were assigned to the Patrol Unit, and the average number on duty per 24 hours was 21. The average 8 hour day of the officers assigned to the Patrol unit is as follows:

PATROL UNIT

Roll Call	5%	(26 minutes)
Equipment Maintenance	2%	(11 minutes)
Paperwork	12%	(55 minutes)
Traffic Enforcement	13%	(1 hour 4 minutes)
Accident Investigation	11%	(50 minutes)
Criminal Investigation	12%	(59 minutes)
Pro-active Patrol	45%	(3 hours 35 minutes)

Pro-active patrol serves several purposes. The primary purpose of patrol is to prevent crime. The function of detection and apprehension of offenders is closely related to the crime prevention function of patrol. Also, patrol promotes safe movement of vehicular and pedestrian traffic by enforcing traffic and parking laws. In addition, the general well-being of the community is enhanced by officers on patrol reporting traffic hazards such as: traffic control devices out of service or icy road conditions, the location of water or power outages, reporting of fires, rendering of aid to the injured, and directing the services of other agencies to citizens in need of them, such as the welfare department, ambulance, or other departments within the city.

In order to be effective, pro-active patrol must be random. To patrol on a set schedule would result in an officer's movements becoming predictable, destroying his effectiveness. While engaged in pro-active patrol, officers are available for immediate dispatch to a call for service. Thus, they would then be able to respond to the additional calls anticipated by the Annexation Area. However, responding to additional calls will reduce the percentage of time spent in pro-active patrol, unless additional time is provided either through additional staff or through overtime.

It is a City priority not to decrease pro-active patrol time. In order that this annexation will not diminish time for pro-active patrol by increasing the work load within the same number of work hours, additional funds for overtime are included in this Plan.

The service demands expected from the Annexation Area have been estimated by a review of calls from the Comparable Areas on the following chart:

COMPARABLE AREAS POLICE CALL RESPONSE CHART

<u>Area</u>	<u>1993 Calls</u>
Comparable I	146
Comparable II	<u>49</u>
Average Number of Calls:	97.5

Since the Annexation Area and the Comparable Areas are a mixture of park use, commercial use, and residential use, the average number of calls per person is not used in projecting service levels for the Annexation Area. A simple average of calls from the Comparable Areas projects 98 yearly calls for the Annexation Area.

The Police Department estimates that each call uses approximately 35 minutes of an officer's time. Therefore, the total additional time needed to respond to calls from the Annexation Area is 57.2 hours.

The additional time needed for calls from the Annexation Area can be provided for in any one of 3 ways. The time could be subtracted from pro-active patrol. Since the City has as a priority that pro-active patrol time not be reduced, that option is not included in this Plan. The second option would be to hire an additional officer. This option is not warranted because the time needed is less than 1 day

of work, assuming an 8 hour day. The City does, however, annually review the staffing level of the Patrol Unit to determine if additional police officers are needed. The cumulative effect of recent and planned annexations is one of the factors used to determine Patrol Unit staffing levels. In 1993, the City applied unsuccessfully for a U.S. Department of Justice discretionary grant to partially fund the costs of two additional sworn officers. The City is applying again for this grant in 1994. If it is awarded, additional officers may be hired before the end of 1995. The 1995 City Budget provides for one additional officer to be hired in January. One additional officer will be proposed in the 1996 Budget.

This Plan does include the third option, which is to provide funds for overtime. According to the Fraternal Order of Police (FOP) contract in effect with the City, overtime must be assigned at a minimum of one hour increments. The 1995 overtime pay rate in the FOP contract is \$19 per hour. Additional funds of \$1,083 (\$19 X 57 hours) for officer overtime are included for the Annexation Area.

The cost of materials that are needed for the annexation is estimated by using the 1995 budgeted amount of \$192,708 for operational expenses. This is composed of the following line items: Line 224 - Fuel & Oil;; Line 242 - Other Supplies; and Line 362 - Motor. The operational expenses calculation is made as follows:

\$203,052 materials cost divided by 34,558 total 1993 service calls equals \$5.88 average materials cost per call; multiplied by the calls anticipated from the Annexation Area equals \$576.24.

**SUMMARY OF POLICE PROTECTION**

**COST ESTIMATE OF SERVICES:**

Cost of Overtime:	\$1083
Cost of Materials:	<u>576</u>
Total:	\$1,659

**METHOD OF FINANCING: General Fund**

**PLAN FOR PROVISION OF SERVICES:** Routine police service will be provided using personnel assigned to the primary responding district immediately upon the effective date of annexation. Response to calls, traffic-related activities, investigation, pro-active patrol and all other services will be provided to the same standard and scope provided to the Comparable Areas.

**8.13 FIRE PROTECTION**

Immediately upon the annexation's effective date, the City Fire Department will begin first call response to the Annexation Area, providing service to the same standard and scope as provided to all Comparable Areas within the City. Manpower for the responses to the Annexation Area will be provided from two fire stations. Number Two Station will send one pumper with four fire fighters and will have a second pumper enroute from our Number Three Station with four additional fire fighters.

Response time to the area is two minutes from Number Two Station and three minutes from Number Three Station, which is similar to response times from the nearest fire station to each Comparable Area. The number of calls and ratio of calls per person from the Comparable Areas are noted on the chart below:

COMPARABLE AREA FIRE CALL RESPONSE CHART 1993

<u>Comparable Area</u>	<u>Calls</u>
Comparable Area I	4
Comparable Area II	<u>1</u>
Average:	2.5

Since the Annexation Area and the Comparable Areas are a mixture of park use, commercial use, and residential use, the average number of calls per person is not used in projecting service levels for the Annexation Area. A simple average of calls from the Comparable Areas projects three yearly calls for the Annexation Area.

In order to estimate the funds required to provide additional runs to the Annexation Area, the operating cost per run is calculated. The 1995 budget for operating expenses is composed of the following line items:

- Line 223 - Garage & Motor Supplies
- Line 224 - Fuel & Oil; Line 232 - Motor Vehicle Repair
- Line 242 - Other Supplies
- Line 362 - Motor
- Line 365 - Other Repairs

The total operating expenses are \$54,107. That amount divided by 1,754 fire runs made in 1993 is \$30.85 per run. Multiplied by three additional runs, this equals \$92.55 additional cost for Fire Department services.

There is ample time for the Fire Department staff to respond to this additional service requirement. When added to the total runs in the past year, this is still less than one run per day for the primary responding station (and less than 1 additional run for the secondary responding station):

365 days multiplied by 5 stations equals 1,825 station response days; 1,754 runs in 1993 plus that anticipated from the Annexation = 1,757; divided by 1,825 days equals 0.96 runs per day per station as a result of the annexation.

Staff is already on payroll with time available to operate the 5 stations for 24 hours a day, 365 days per year. Thus, service will be provided using existing staff and equipment, and with additional funds to make the runs anticipated in serving the Annexation Area to the same standard and scope as the Comparable Areas are served.

SUMMARY OF FIRE PROTECTION

COST ESTIMATE OF SERVICE: \$93

METHOD OF FINANCING: General Fund

PLAN FOR ORGANIZATION AND EXTENSION OF SERVICE: Immediately upon the annexation's effective date, full fire protection service on a first call basis will be provided to the Annexation Area.

**8.14 ANIMAL SHELTER/ANIMAL CONTROL**

The City of Bloomington provides two types of services related to animals. The Animal Shelter function involves a facility to shelter, care for and, if necessary, humanely euthanize animals. The Animal Control function involves serving the community with regular patrol, investigation of complaints, education, and emergency services.

Animal Control services are provided only within the corporate City limits at the present time. Immediately upon annexation, the following animal control services will be provided to the Annexation Area:

- Three full time animal control officers will be available 8 AM to 8 PM Monday through Friday and from 8 AM to 5 PM on Saturday. These officers provide service contacts including pickup of stray, injured or dead animals; investigation of complaints, assistance with bite cases; and issuance of citations for violations of animal control ordinances.
- Twenty-four hour emergency service will be available at all other times for such emergencies as animal bite incidents, injured animals, and police assistance calls.
- The area will be patrolled on a regular basis at least twice weekly.

The above services are the same as those provided to the City as a whole, including the Comparable Areas. The 1992 experience in the Comparable Areas is listed below:

**COMPARABLE AREAS SERVICE CONTACTS AND EMERGENCY CALL-OUTS, 1993**

<u>Area</u>	<u>Service Contacts</u>	<u>Emergency Call-outs</u>
Comparable Area I	16	0
Comparable Area II	<u>6</u>	<u>0</u>
Average:	11	0

Since the Annexation Area and the Comparable Areas are a mixture of park use, commercial use, and residential use, the average number of calls per person is not used in projecting service levels for the Annexation Area. A simple average of calls from the Comparable Areas projects eleven yearly calls for the Annexation Area.

This plan provides funds for these contacts and call-outs in the following manner:

**Service Contacts**

Operating expenses for the Animal Shelter program total \$20,710 in the 1995 budget. These expenses include:

- Line 224 - Fuel & Oil
- Line 232 - Line 242: Other Supplies
- Line 362 - Motor
- Line 372 - Building Rental.

The total operating expenses of \$20,710 divided by 2,349 service contacts made in 1993 is \$8.82 per contact. Multiplied by the projected contacts, this equals \$97.02 additional cost for Animal Shelter services.

**Emergency Call-outs**

Under AFSCME union regulations, at least two hours overtime are designated for each emergency overtime call-out. The 1995 overtime rate for an Animal Control Officer is \$16.22 per hour. Based on the experience in the Comparable Areas, no emergency call-outs are projected for the Annexation Area in an average year.

**SUMMARY OF ANIMAL CONTROL**

**COST ESTIMATED OF SERVICE: \$97**

**METHOD OF FINANCING: General Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Immediately upon the effective date of annexation, Animal Shelter services will be extended to the Annexation Area to a standard and scope equivalent to those provided to comparable areas of the City. Additional funds are budgeted to provide the additional operating and overtime costs anticipated.

**8.15 REFUSE COLLECTION**

Immediately upon annexation, the City will begin curbside refuse collection and recycling collection to the two single-family dwellings in the Annexation Area to the same standard and scope of service provided to all comparable areas within the City including the Comparable Areas defined in this Plan.

Sanitation services that will be extended to the Annexation Area include refuse collection, yard waste collection, and recycling pickup.

Refuse and recycling collection services to the Annexation Area will be incorporated into rerouting of existing collection routes. A map showing existing refuse collection routes is attached and incorporated herein as Exhibit 16. The department plans to add the Annexation Area pickup to route 18 on Wednesday.

Additional costs incurred resulting from the annexation will be in personnel, operating supplies, services and landfill fees. The Sanitation Department reports that the annexation will not require additional funds for equipment.

The Director of Public Works estimates the net annual cost of sanitation services in the City to be \$75 per household. This average cost multiplied by the two households to be served in the Annexation Area comes to \$150 per year for sanitation services.

In addition, a one-time cost for recycling bins at \$4.80 per bin to the households comes to \$9.60

**SUMMARY OF REFUSE COLLECTION**

**ONE-TIME COST ESTIMATE: \$9.60**

**COST ESTIMATE OF SERVICE: \$150**

**METHOD OF FINANCING: General Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Immediately upon the annexation's effective date, the Annexation Area's single-family residences will receive curbside pickup, as well as

periodic pickup of recyclable items. Service will be provided in a manner equivalent in standard and scope to the curbside service provided to all comparable areas in the City.

### 8.16 PARKS AND RECREATION

The City's Parks and Recreation Department offers a wide variety of organized activities including, but not limited to, passive recreation, recreational sports, competitive sports, sports instruction, holiday and seasonal celebrations, special events, seasonal playground programs, community programs, fitness training, and Older American programs. Some activities are free; some involve a small fee.

The Annexation Area is located within 2 miles of several City Parks and Recreation sites which together offer a wide range of opportunities. These distances are similar to those of the Comparable Areas from similar sites. A map noting the Parks and Recreation site locations and the locations of the Annexation Area and Comparable Areas I and II is attached and incorporated herein as Exhibit 17. Included in this exhibit is a chart showing the facilities and activities offered at each site. A summary of City parks in relation to the Annexation Area and the Comparable Areas is given below:

Annexation Area: Located within a one mile radius are the following parks: Cascades Park, Cascades Golf Course, and Upper Cascades Ballfields.

Located within a two mile radius are the following parks: Crestmont Park, Mills Pool, Miller Showers Park, W. Ninth Street Park.

Comparable Area I: Located within a one mile radius are: Cascades Park, Cascades Ballfields, Downtown FIT, Mills Pool, Miller Showers Park, W. Ninth Street Park.

Located within a two mile radius are: Bryan Park, Building Trades Park, Cascades Golf Course, Crestmont Park, Peoples Park, Seminary Square, Third Street Park.

Comparable Area II: Located within a one mile radius are: Crestmont Park, Downtown FIT, Mills Pool, Miller Showers Park, W. Ninth Street Park.

Located within a two mile radius are: Bryan Park, Building Trades Park, Cascades Golf Course, Maplefoot Skatepark, Peoples Park, Seminary Square, Third Street Park.

At present, all activities are open to residents of unincorporated areas. However, a secondary priority registration status and a higher out-of-City fee is applied to most of the recreation and facility programs. There is no City residency requirement or higher fee for utilization of park areas with the exception of fee support facilities, such as Winslow ballfields and Bryan Park pool.

### SUMMARY OF PARKS AND RECREATION

**COST ESTIMATE OF SERVICE: \$0**

**METHOD OF FINANCING: General Fund**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES: All services are organized and in place for the Annexation Area residents, to the same standard and scope offered to residents of the Comparable Areas.**

**8.17 HUMAN RESOURCES**

The City Human Resources Department administers a wide variety of programs for residents of the City and surrounding areas. Current programs and scopes of citizen eligibility are as follows:

Program	Scope
1. Senior Citizens' Nutrition Project	Owen and Monroe Counties
2. Title XX Childcare Assistance Pgm.	No restrictions
3. Childcare Food Program	No restrictions
4. Volunteer Action Center	Monroe County and vicinity
5. Community Farmers' Market	Statewide
6. Day Care Resources	No restrictions
7. Teen Hotline	No restrictions
8. Youth Substance Abuse Prevention	No restrictions
9. Regional Office, Governor's Commission for a Drug-Free Indiana	Nine counties
10. Commission on Handicap Concerns	No restrictions
11. Commission on the Status of Women	No restrictions
12. Short-term, topic-specific task forces	No restrictions

All Human Resources Department programs are already available to the Annexation Area on the same basis as they are available to other areas in the City, including the Comparable Areas. Certain programs require specific client qualifications having to do with income, age, family circumstances, etc. Access to these programs for the Annexation Area residents is determined on the same basis as access for residents of other areas, including the Comparable Areas.

Because the Annexation Area is already served to the standard and scope equivalent to the service offered to Comparable Areas and because eligible Annexation Area residents are already permitted to participate in these programs, no new service is proposed.

**SUMMARY OF HUMAN RESOURCES SERVICES**

**COST ESTIMATE OF SERVICE: \$0**

**METHOD OF FINANCING: Not Applicable**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** All services are organized and in place for the Annexation Area residents to the same standard and scope offered to residents of the Comparable Areas. No extension of service is required or proposed.

**8.18 PLANNING AND ZONING SERVICES, BUILDING PERMITS, INSPECTION AND BUILDING CODE ENFORCEMENT**

All the Planning Department services, and building plan reviews, permit issuance, inspections, and code enforcement performed by the Engineering Department and Code Enforcement Division are currently being provided to all residents of the City of Bloomington and the City's 2-mile fringe planning and zoning jurisdiction. The Annexation Area is presently included within the

2-mile fringe area. A map showing the area to which these services are being provided is attached and incorporated as Exhibit 18.

The Planning Department reviews and approves site plans of proposed new construction to insure compliance with applicable regulations. Specific proposals such as variance requests, special exceptions, conditional use, rezoning requests, and public right-of-way vacations are reviewed and recommendations are forwarded to the Plan Commission, Board of Zoning Appeals and Common Council for their consideration. Additionally, the Planning Department conducts comprehensive planning and transportation studies.

The Engineering Department issues permits for building construction, plumbing and electrical installation, sign erection, and occupancy. Prior to issuing an occupancy permit, the Engineering Department conducts on-site inspections to insure conformance with previously approved plans. The Engineering Department oversees zoning and building code violation abatement. This involves an on-site inspection of the violation, consultation with citizens and possible referral to the Legal Department.

Code Enforcement will provide ordinance enforcement to the area on a compliance basis. Also, nuisance enforcement will be provided for things like weeds, trash and other type of nuisances. A service and cost summary for Code Enforcement inspections of the rental units in the Annexation Area is incorporated in Section 8.10 of this Plan.

Planning and Engineering services are already provided to the entire City and its 2-mile fringe as shown on the map previously incorporated as Exhibit 18. As a portion of the unincorporated area within the municipal planning jurisdiction, the Annexation Area presently receives these services to the same standard and scope provided to all other areas of the City, including the Comparable Areas.

**SUMMARY OF PLANNING AND ZONING SERVICES, BUILDING PERMITS, INSPECTION AND BUILDING CODE ENFORCEMENT**

**COST ESTIMATE OF PLANNED SERVICE: \$0**

**METHOD OF FINANCING: Not Applicable**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Since the Annexation Area is presently within the 2-mile fringe for planning and zoning jurisdiction, it currently receives planning and zoning services, building permits, inspections, and building code enforcement services to the same standard and scope provided to all other areas of the City including the Comparable Areas.

**8.19 ADMINISTRATIVE SERVICES**

City administration and operations include departments which are not directly involved in the provision of the capital and noncapital services discussed previously. The City of Bloomington departments which provide administration services to the City at large are the Mayor's Office, City Council Office, Controller's Office, Legal Department and Personnel Department.

The Mayor's Office provides an ombudsman function for the residents of Bloomington in addition to its main function as chief executive. The office also dispenses information and provides a referral service to other City departments, government agencies or private organizations.

The City Council Office is responsible for organizing City Council meetings and official record-keeping and provides a forum for City legislation.

The Controller's Office oversees the municipal budgetary system. The office also issues bicycle licenses, City parking permits and itinerant merchants' licenses.

The Legal Department initiates punitive action for ordinance violations, responds to requests for legal opinions from other departments, represents the City of Bloomington in legal matters and addresses human rights and affirmative action compliance matters. In addition, the Legal Department investigates complaints filed pursuant to the Human Rights Ordinance, and represents complainants upon a finding of probable cause.

The Personnel Department is responsible for City job listings and board and commission vacancies.

The Annexation Area, with an estimated population of 72 people, represents only a 0.12% increase in the City's population of 60,633 according to 1990 U.S. Census figures. The Mayor's Office, Council Office, Controller's Office, Legal Department and Personnel Department are staffed by salaried personnel, so they will not require additional staff resources to serve any increase in demand for service through the annexation of the Annexation Area. These departments will provide relevant services upon request to the same standard and scope as these are provided to comparable areas, including the Comparable Areas, with their existing resources.

#### SUMMARY OF ADMINISTRATIVE SERVICES

**COST ESTIMATE OF PLANNED SERVICE: \$0**

**METHOD OF FINANCING: Not Applicable**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Immediately upon annexation, the City's administrative services provided by the Mayor's Office, City Council Office, Controller's Office, Legal Department and Personnel Department will be provided to the Annexation Area and its residents in the same manner and scope that these services are provided to the Comparable Areas. Because the Annexation Area represents a minimal increase in the City's population, these services will be extended without hardship to these administrative offices and departments, and without increased cost.

#### **8.20 OTHER CITY FUNCTIONS**

This Plan outlines all City services that will be impacted by the inclusion of the Annexation Area within the City's corporate boundaries.

Because the Annexation Area represents a minimal increase in population, the effect of inclusion of these people within the City limits will have little impact upon services not previously mentioned, such as Municipal Building maintenance or tree limb reclamation.

Any services not specifically addressed in this report have not been omitted for lack of consideration. Rather, their absence indicates that provision of these services to the Annexation Area and/or its residents will be provided in the same manner that such services are provided to the Comparable Areas without the expenditure of additional funds.

In conclusion, therefore, it must be noted that any services currently available to the Comparable Areas and/or their residents which were not previously discussed in this Plan will be made available in the same manner to the Annexation Area and/or its residents immediately upon annexation.

#### OTHER CITY FUNCTIONS SUMMARY

**COST ESTIMATE FOR PROVISION OF SERVICES: \$0**

**METHOD OF FINANCING: Not Applicable**

**PLAN FOR ORGANIZATION AND EXTENSION OF SERVICES:** Immediately upon annexation, any municipal services not previously discussed in this plan will be made available in the same manner to the Annexation Area and/or its residents as it is currently available to comparable areas of the City, including the Comparable Areas.

#### **9.00 HIRING PLAN**

It is anticipated that this annexation will not result in the elimination of jobs for employees of other governmental entities, but, in the event it does, the Director of Personnel is directed to assist these employees in obtaining new employment. However, the City will not be required to hire any of these employees.

In the event of unforeseen elimination of jobs, the Personnel Director will take the application of any such employee and maintain a special file of these applications. Each application will be forwarded to major employers in the area, and to any City department having a job opportunity for which the individual is qualified. Each individual will also be referred to the Indiana State Employment Security Division.

**10.00 SUMMARY OF COSTS**

The annual maintenance costs beginning in the first year of annexation are as follows:

Sanitary Sewer Service . . . . .	\$ 0
Water Distribution . . . . .	0
Fire Hydrants . . . . .	0
Storm Water Drainage Facilities . . . . .	1,200
Street and Road Construction and Maintenance . . . . .	4,340
Street and Road Services . . . . .	2,538
Street Signs and Traffic Signals . . . . .	250
Street Lights . . . . .	0
Sidewalks . . . . .	0
Engineering/Housing Code Inspection . . . . .	80
Redevelopment Department Services . . . . .	0
Police Protection . . . . .	1,659
Fire Protection . . . . .	93
Animal Shelter/Animal Control . . . . .	97
Refuse Collection . . . . .	150
Parks and Recreation . . . . .	0
Human Resources . . . . .	0
Planning and Zoning Services, Building Permits, Inspection and Building Code Enforcement . . . . .	0
Administrative Services . . . . .	0
Other City Functions . . . . .	0
<b>Total Annual Maintenance Costs:</b> . . . . .	<b>\$10,407</b>

The one-time costs are as follows:

Hydrant Installation . . . . .	2,000
Street Sign Replacement . . . . .	400
Recycle Bins . . . . .	10
<b>Total One-Time Costs:</b> . . . . .	<b>\$2,410</b>
