Jeff Jones
4300 Morningside Drive

May 18, 1992

The Plan Commission approved a request for the rezone of 0.9 acres from BA to RL/PUD and give PUD designation to the remaining portion of the site that is zoned RL. Outline plan approval was also obtained for the entire 1.55 acre site to construct a 20-unit rowhouse development.

The property is located on Morningside Drive just south of the Park Ridge East Park. The surrounding land uses are mixed. There is a motel to the south, offices to the west, park and single family homes to the north, and condominiums and then single family homes to the east.

Approval was granted by the Plan Commission with the following conditions:

1. There will be a maximum of 20 units on the site.
2. A maximum of 16 three-bedroom units, minimum of 4 two-bedroom units. No four or five bedroom units.
3. A maximum of three unrelated adults in a unit, following RS standards of occupancy.
4. Raised landscaping berms and a 6' high wooden fence as shown on the plan.
5. The architectural style will follow that of Georgetown, with a minimum of 5.5 pitch roofs.
6. Decks or patios on the first floor only.
7. On site lighting will be kept to a minimum. Use existing lighting where possible.
8. Basements, if built, will be used for utility and storage only. Only daylight awning basement windows will be allowed.
9. Continued coordination with the Georgetown residents through development plan stage.
10. 30' R.O.W. has been dedicated along Morningside Drive.

Outline Plan Conditions
Jeff Jones RL/PUD

- 1.) Maximum of 20 townhouse units on 1.57 acres or 12.75 units/acre density.
- 2.) Maximum 16 three-bedroom units, minimum 4 two-bedroom units. No four or five bedroom units.
- 3.) RS zone criteria for maximum of three unrelated adults allowed.
- 4.) Combination of landscaped mounding and 6' high wood fencing as shown on the plan to control pedestrian cross-access, headlight pollution, and provide privacy.
- 5.) Architectural compatibility in the form of mix of compatible masonry with siding materials, and a minimum of 5/12 roof pitches.
- 6.) Decks or patios only on the first floor.
- 7.) Limit on-site lighting to minimum to reduce effect on adjacent homes. Try to rely on existing street lighting where possible.
- 8.) If basements are proposed, they will be designed strictly for storage and utility use, not for additional sleeping area. Only daylight type awning basement windows will be allowed.
- 9.) When later sold as condominium units, consider methods to encourage owner occupancy versus further rental or multiple unit purchases.
- 10.) Continue coordination with Georgetown Village residents during development plan stage.
