Case #RL/PUD-18-92

Hutchcraft  
1420 & 1430 S. Curry Pike

May 18, 1992

Request for PUD designation from RS to RS/PUD and outline plan approval for 48 rowhouse units on approximately 7 acres of land located on Curry Pike south of Curry Court. The parcel of land includes an area of floodplain on the western portion. This (FP) land is not being proposed to be built upon. The surrounding land uses include single family residences on Curry Court to the north, vacant land immediately to the south and then mobile homes, a mobile home park to the west, and manufacturing to the east across Curry Pike.

The petitioner proposes that the central drive be a private street maintained by a homeowner's association. The individual units will be sold on individual lots, with common walls, as opposed to condominium format in which one purchases only his unit, with the land owned in common.

The central drive ends at the Sinking Creek floodplain, which includes much of the site. This will be maintained by a homeowner's association.

The Plan Commission approved this rezone and outline plan with the following conditions:

- 1) The road is to be private with a homeowners' association for maintenance.
- 2) The open space in the flood plain may be dedicated for a park or land reserve. No additional approval would be necessary for this transaction.
- 3) Grading, tree preservation, and exact location of the floodplain will be required with development plan. The project should be spread out to the limits of the floodway.
- 4) Roadway will be narrowed to conventional two lanes, with wider bays for additional parking.
- 5) No more than three unrelated adults or primary family may occupy each residence. These restrictions will be included in the covenants and restrictions for the property.
- 6) A "tot lot" and a multi-purpose recreational court will be placed on the site.
- 7) The landscape berm around the perimeter of the property will be staggered to increase the buffering effect of the area.

SUBJECT: PCD-39-92 Wal-Mart Stores, Inc.

The Plan Commission approved outline plan amendment on May 11 for this 31 acre site at the southwest corner of SR 37 and SR 45.

The front portion of the site received outline plan approval in 1986 (PCD-64-86). The southern portion was added in 1988 (PCD-65-87). The site was divided into three areas (A, B, C) for purposes of permitted uses. Attached is a copy of the map delineating those areas and a chart showing permitted uses in each area. Area D was required to remain an undisturbed buffer.

This request is for outline plan amendment to permit department/discount stores in Area C. Proposed is construction of a Wal-Mart store and Sam's Club on the site; that proposal is on the June 8 Plan Commission agenda for a development plan approval.

The conditions of Plan Commission approval are listed below: (These elements will be incorporated in development plans which will be reviewed by the Plan Commission after outline plan approval.)

- Extra screening and sound buffering of Wal-Mart activity area.
- Preservation of trees around the south and west, if warranted, to be determined by staff in the field.
- Lighting to be designed to avoid spill over to adjacent property - to be reviewed with development plan.
- Outline plan revision is specific to this proposal and includes landscaped south building setback without vehicular service drives, and orientation of Sam's Club loading as proposed (on south end of building).
- With the above conditions included, this outline plan revisions supersedes previous outline plan, and does not constitute approval of the entire plan as submitted. All other plan specifics are issues for development plan consideration.
- Consider neighbors concerns: second entrance, fencing, etc.
- Continue working with neighbors in development plan review.
- The petitioner and staff work with the Environmental Commission to try and work out the concerns they have.
