ZO/DP-45-92
CITY REDEVELOPMENT DEPARTMENT
2300 Block of Rockport Road
June 8, 1992

Proposed is a rezone of 20 acres from MQ and RE to RS and subdivision. The council's role is to vote on the rezone. The rezone is to allow the land to be developed consistent with the Master Plan. The City's Redevelopment Department proposes to purchase approximately 12 of 18 acres directly north of the Rockport Hills Subdivision and east of and abutting the Thomson Community Park for development of owner occupied affordable housing under the Federal HOME Program. Please reference the materials supplied by Chris Spiek for details about the program. Most of the area is zoned MQ. The seller also owns a 2 acre tract west of the end of Duncan and Guy Streets, zoned RE. This petition includes rezoning of the sellers' 18 and 2 acre tracts from MQ and RE to RS. The portion of the site south of the Guy Ave. residences is already RS.

The subdivision approval authorizes the purchase of 12 acres by the City for future subdivision into 25 lots and a remnant between the High-Tension lines and Rockport Road.

ZO/DP-45-92 was approved with the condition that the City commits to a road stub to its north line.

The City's redevelopment organization proposes to purchase approximately 12 of 18 acres directly north of the Rockport Hills Subdivision and east of and abutting the Thomson Community Park for development of owner occupied affordable housing under the Federal HOME Program. Most of the area is zoned MQ. The seller also owns a 2 acre tract west of the end of Duncan and Guy Streets, zoned RE. This petition includes rezoning of the sellers' 18 and 2 acre tracts from MQ and RE to RS. The portion of the site south of the Guy Ave. residences is already RS.

The subdivision approval authorizes the purchase of 12 acres by the City for future subdivision into 25 lots and a remnant between the High-Tension lines and Rockport Road.

The 25 lots will access via an existing stub to the north property line of Rockport Hills. This stub will continue west through the HOME subdivision to serve as the initial access to Thomson Community Park.

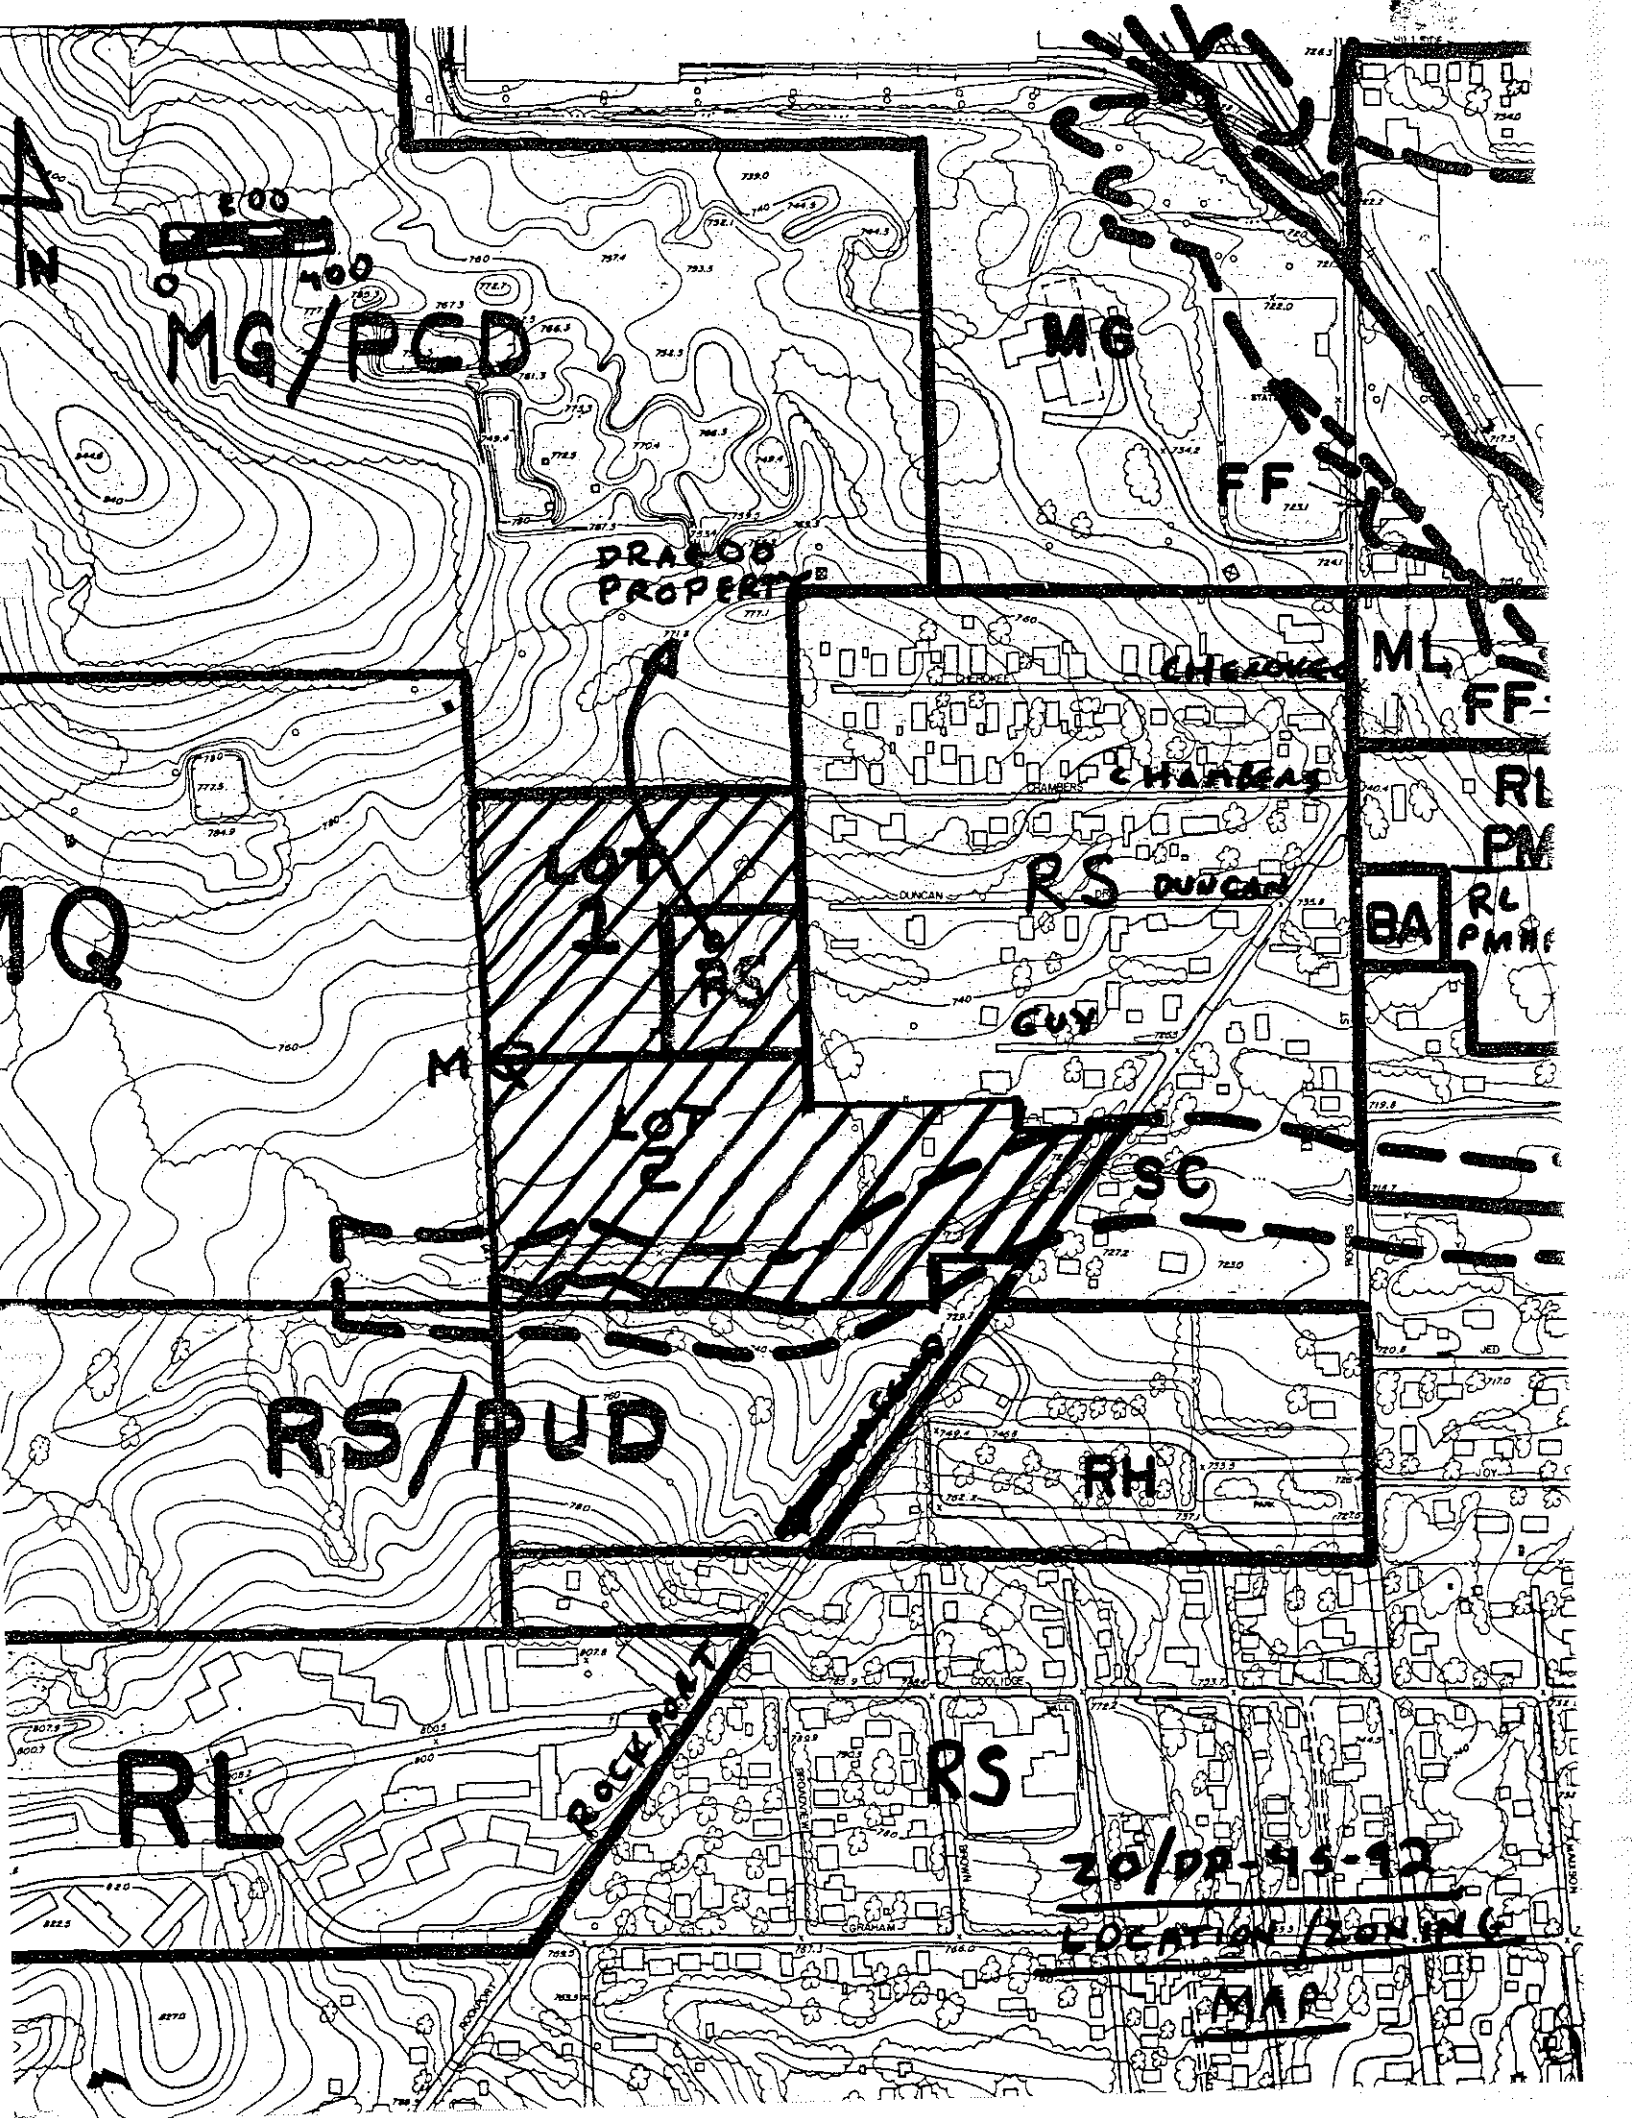

This subdivision is conceptual at this time. It will be designed and be a separate subdivision approval in the near future. As a condition of this 2-lot approval, the City will commit to extend a street to the north line of its 25 lot subdivision for access to the seller's 6 acre remnant.

The RS zoning is consistent with the Growth Policies Plan and with surrounding uses. Staff recommends approval with waiver of 2nd hearing, with the condition that the City commits to a stub to its north line.

The city of Bloomington has been awarded a \$750,000 grant from the Department of Housing and Urban Development under the new HOME program. This is a brand new program which is specifically targeted toward the provision of affordable housing both rental and owner-occupied. As a participating jurisdiction in this program the City will be undertaking several new initiatives toward the goal of providing affordable housing for the low and moderate-income residents of Bloomington.

Under this program the City will be able to reduce the current large Section 8 waiting list for subsidized rental housing. The City will be using a portion of the HOME funds to enable approximately 15 new units to be brought into the Section 8 program. These units will be administered by the Housing Authority which operates the existing program. Another on-going program that HOME monies will allow to continue is the rental rehabilitation program. This program provides deferred or low-interest loans to landlords to enable them to improve their rental properties. In exchange for this assistance the landlords are required to commit to renting to low or moderate-income renters at HUD prescribed rents. The amount of the subsidy to the landlord will determine the length of time that the units must be available to low-income renters. The higher the subsidy the longer the unit must remain affordable. This program will be run out of the City Redevelopment office.

The City as a part of this grant has been authorized to use a portion of the funds for new housing construction. In terms of new owner-occupied construction the City plans to become involved in the creation of a Community Land Trust. This is an innovative way to provide permanent affordable housing to the residents of the community that would otherwise not have access to owner occupied housing. Under the Land Trust model a community-wide not-for-profit housing corporation becomes the owner of land on which affordable housing is constructed. The land is held permanently by the Land Trust. The homes constructed on the lots are purchased and owned by the families while the lots on which they sit are leased to the families on 99 year leases. Home sales are controlled by a resale formula which assures the affordability of the home to subsequent purchasers while allowing the seller a reasonable return on equity built up in the residence.

Dear Plan Commission,

The City of Bloomington Redevelopment Dept. on behalf of Monroe County Housing Solutions Inc. and George and Rosalie Drago request your consideration of the rezoning and subdivision of approximately 20 acres off of Rockport Road in the 2300 block. Requested is rezoning from MQ and RE to RS for the entire acreage and approval of a 2 lot subdivision with waiver of second hearing on both requests.

The rezoning will enable the property to be developed in conformance with the recently adopted Comprehensive Plan, and the subdivision will allow one of the parcels (lot 2) to be sold to the Redevelopment Dept. and subsequently transferred to and developed by Housing Solutions as a Community Land Trust. The remaining parcel (lot 1) would be retained by the current owners George and Rosalie Drago for later development.

The Land Trust will be a community-based not-for-profit corporation who will own and develop perpetually affordable housing for low and moderate income residents of the community on lot 2. I have included some basic literature on Land trusts with this letter for your information.

The intent is to develop part of lot 2 as a single family owner-occupied subdivision. Funds from the City's new federal HOME grant will be used to develop the subdivision. I have included a preliminary design for a 25 lot single-family subdivision with this application to illustrate the proposed layout for the Land Trust. If approval is granted for the rezone and two lot subdivision the proposal will be fully engineered and a subsequent petition for the 25 lot plat will be filed. The portion of lot 2 east of the powerline easement would be held by the Trust for later affordable housing development.

I will be attending the Plan Commission meeting to address the Commission on this request. However if you have any questions that I could answer prior to the meeting please feel free to contact me at the Redevelopment office. Thank you for your consideration of this request.

Sincerely,
