ORDINANCE 91-18

TO AMEND CHAPTER 6.12 OF THE BLOOMINGTON MUNICIPAL CODE
ENTITLED "SMOKING IN PUBLIC PLACES"

WHEREAS, it is the responsibility of the City to protect the health, well-being, and productivity of it's employees; and

WHEREAS, the United States Surgeon General's Report of 1986 concludes that: (1) involuntary smoking is a cause of disease, including lung cancer, in healthy nonsmokers; and, (2) the simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of nonsmokers to unacceptable health risks; and

WHEREAS, a study of 2100 adults revealed impairment of pulmonary function in nonsmokers who were employed for at least 20 years in enclosed work areas where smoking was permitted and that the impairment was equivalent to that in persons who had smoked up to 10 cigarettes per day for at least 20 years (New England Journal of Medicine 1980, 302: 720-723; and

WHEREAS, several courts have recently held that an employer's common law duty to provide a safe work place includes a duty to provide a working environment reasonably free from tobacco smoke; and

WHEREAS, a November 1990 Monroe County Health Department indoor air quality analysis of a portion of the Municipal Building detected carbon dioxide (CO₂) in amounts exceeding 800 ppm (compared to 200 ppm generally found out-of-doors), a level high enough to generate CO₂ exposure symptoms in sensitive individuals and, identified cigarette smoke as a possible contributor to this contamination level; and

WHEREAS, smoking is potentially damaging to computers and other expensive electronic equipment and the pollution, surface film, and litter produced by smoking increases cleaning costs; and

NOW, THEREFORE, BE IT HEREBY ORDAINED BY THE COMMON COUNCIL OF THE CITY OF BLOOMINGTON, MONROE COUNTY, INDIANA, THAT:

SECTION V. This Ordinance shall be in full force and effect beginning January 1, 1992.
