If the legislation will have a major fiscal impact, explain briefly what the effect on City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)

The proposed ordinance will result in PUD designation and outline plan approval for a 184 unit residential development on the east side of South Walnut Street Pike, north of Rhorer Road. The development is likely to be annexed into the City and upon construction of the proposed residential facilities, a substantial amount of additional property tax revenues are expected to be generated that will be received by the City. Initial costs to the City for provision of utility services are expected to be minimal because they are available to the site. Upon completion other costs to the City for services such as police and fire protection, street maintenance, etc., are anticipated.
