SYNOPSIS

Appropriation Ordinance 78-11

Two appropriations for construction within the Parks and Recreation Department are accomplished by this ordinance.

Dyer School Area Construction was scheduled for \$20,000.00 in this year's Capital Improvement Budget. \$10,000 of that amount was appropriated last spring; the second \$10,000 could not be appropriated until the Utilities Department repaid a loan made several years ago from Cumulative Capital. That loan has now been repaid, and the Parks and Recreation department is anxious to complete the Dyer Area Construction before winter.

The second appropriation is simply a bookkeeping procedure. Parks and Recreation is the recipient of Department of Natural Resources money for the Winslow Sports Complex. That money must be appropriated before it can be dispersed.

Will the legislation have a major impact on existing City appropriations, fiscal liability or revenues? Yes \_\_\_\_\_ No X

If the legislation will not have a major fiscal impact, explain briefly the reason for your conclusion.

The largest portion of this appropriation is money which is to be received and spent for one purpose only. The other portion (\$10,000) is relatively small and was part of a carefully scheduled Capital Improvement Budget.

If the legislation will have a major fiscal impact, explain briefly what the effect on City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)
