(Rate Adjustment)

- WHEREAS, the City of Bloomington, Indiana ("City") owns and operates a waterworks system, through its Utilities Service Board, pursuant to IC 8-1.5-2 and -3, as amended ("Act"), which waterworks system is subject to the jurisdiction of the Indiana Utility Regulatory commission ("Commission"); and,
- WHEREAS, the current rates and charges of the waterworks system of the City were established by the order of the Commission in Cause No. 42858 on November 22, 2005; and,
- WHEREAS, the Utilities Service Board has recommended that additional improvements be made to the waterworks, including an expansion of the water treatment plant and construction of a water transmission main to transport water from the water treatment plant to the City; and,
- WHEREAS, the Utilities Service Board, upon consideration of the study prepared by Crowe Horwath, LLP, has recommended that the Common Council approve an increase in the rates and charges of the waterworks to provide income sufficient to pay the debt service on the proposed financing of the additions and improvements to the waterworks and otherwise provide for the revenue requirements set forth in the Act, specifically IC 8-1.5-3-8; and,
- WHEREAS, based upon the aforementioned study, the Common Council of the City finds that the rates and charges of the waterworks system of the City should be increased as set forth herein, so as to produce sufficient revenues to meet the requirements of the Act, and supports the City Administration's preference that the rate increase be staggered over at least a two year period in order to cushion the impact on customers;

Note: This ordinance reflects the adoption of two amendments by the Council. Am 01 raised the rate increase from 47% to 54% in order to save \$9.5 million in interest payments. Am 02 acknowledged the Utilities Departments commitment to explore the feasibility of implementing recommendations of the Report of the Peak Oil Task Force regarding the water supply.
