SYNOPSIS

Resolution 76-41

To Authorize Filing Applications with the Economic Development Administration Requesting Title I Funds for Public Works Projects

The Local Public Works Employment Act provides for 100% federal funding and is to promote employment opportunities in areas of high unemployment through the construction of public works projects or renovation of useful public facilities. Projects should maximize employment opportunities and where possible employ underemployed residents of the region. Funded projects should provide useful public facilities in areas of high unemployment and low income that contribute to long term development.

The projects should be construction oriented, but do not need to have a minimum labor percentage requirement. On site labor must begin within 90 days after the project is approved.

This resolution authorizes the Mayor to submit the following applications for funds to the Federal Economic Development Administration:

West Sixth Street construction

Smith Road - Phase I

Upper Cascade Park Improvements

Winslow Park Sports Complex - Phase II

West First Street - storm sewer and drainage improvements
