RESOLUTION 75-39

WHEREAS, the Catholic Youth Organization has existed in this country for more than thirty-five years to foster the development of Catholic ideals in the youth of the country; and

WHEREAS, Bloomington resident Gregory Gallo has been a member of that organization for four years and has served in a number of offices at various levels of the organization; and

WHEREAS, Gregory Gallo was recently elected President of the National Catholic Youth Organization Federation at its Convention in San Antonio, Texas,

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF BLOOMINGTON, that the Common Council congratulates Gregory Gallo for the honor he has recently received and expresses its confidence that he will prove a credit to both the Catholic Youth Organization and to the City of Bloomington in his two year tenure as President.

PASSED AND ADOPTED this 20 day of November, 1975, by the Common Council of the City of Bloomington, Monroe County, Indiana.

St. Croix, President

Bloomington Common Coungil

Passed this 24 day of November, 1975, by the Mayor.

CITY OF BLOOMINGTON

Interdepartmental Memo

то:	City Offices				SUBJ:	Legislation		Back-up	Material
		·		1	-		:	·	
FROM:	Common	Council	Office	<u>K1</u>	DATE:	<u>5 N</u>	ovember	1975	

Although legislation (Ordinances and Resolutions) are now being submitted to the Council Office on time (13 days before the meeting at which they are to be considered), background material on that legislation has often been either absent or late. Consequently, Council committees often lack information they need to make proper decisions on legislation.

Committees that feel they have inadequate information delay consideration of legislation until they receive sufficient background material. We therefore suggest that you submit adequate background information when the legislation is submitted to us if you do not want to delay an already necessarily slow process.

don't understand why this happens. Isn't there any paint that won't peel? T.C., Bloomington.

ANSWER — There are two causes for peeling and neither is directly related to the quality of the paint. One reason is improper preparation of the surface of the walls. Another and more common reason is that mositure is getting behind the paint in the wall. When moisture gets behind the paint and is trapped there, it often vaporizes during hot periods and the expanding vapor forces the paint off the wall. Often, in cases like this, the surface is cleared down to the wood. Moisture gets into the walls through defective caulking, open seams and leaky gut-

Representatives of the State Board of Tax Commissioners shaved an additional seven cents off the proposed 1976 tax rate for the Richland-Bean Blossom Community School Corporation Wednesday, leaving the projected rate at \$4.20 for each \$100 of assessed valuation. The proposed rate is 16 cents higher than this year's rate.

The school corporation is appealing an error made last year during budget preparation in which the state overestimated the amount of excise tax the school would receive angand then cut the levy. The school did not collect the amount of excise anticipated but is still attempting to operate with less money.

In proposing a \$3.315 rate for the school general fund and .885 cent rate for the debut service fund, the total rate would be 14 cent more than the current rate. Excise tax was also the topic of discussion when the courbudgets were reviewed. Most the taxing units will receive () per cent more excise tax in t December distribution us they received in the spring.

Although the addition revenue will be going into a county treasury, state a representatives recommend that the county general rateleft at \$0.007, and that a revenue generate an operate balance.

During a discussion of a excise tax distribution, come councilman Ed Kubaitis net that Monroe County was only county in the state whe excise tax collections w down in the first half of year. There was some spect tion that the funds had not be turned over to the auditor by & Bloomington license branch.

License branch manager Ct Myers, said this morning th

Luginbill said the entire school system could use the tract for environmental studies, but only if the area is protected from continued vandalism and disrespect.

Studies could range from erosion control and forestry to fungii and wildlife. Many wild birds inhabit the area, and the three distinct habitats attract those animals representative of those habitats. A muskrat even makes the marshy pond area home.

Luginbill's long range dream is to identify each tree. Perhaps, he says, even a cassette recorder system could be used for hike leaders to play as walk down the trails.

"If I put up any kind of a sign now, it would be gone in a day if it were halfway nice." said the bearded Luginbill who is an active member of the Audubon Society.

THIS SPRING, THE FENCING proposal was put before the MCCSC school board. An estimated \$30,000 is needed to put up a six-foot chain link fence with barbed wire around the top.

But with funding problems throughout the school system, Luginbill said fencing had to wait. Now, with another year of ill treatment possible, the need for the fence is stronger.

"I would hope to know by the end of the first semester just where I stand on this," said Luginbill.

Funding possibilities for such projects abound. The "stone states "wheth resulted from the legal suir at the high school is one generative back with the fundinity of Induna University students and the back of the school of the teach, here balls at the back of the school of the school of the teach, here balls at the back of the school of the school of the teach of the teach of the balls of the school of the school of the teach of the teach of the teach of the school of the school of the teach of the teach of the teach of the school of the school of the teach of the teach of the teach of the school of the school of the teach of the teach of the teach of the school of the school of the teach of the teach of the teach of the school of the school of the teach of the teach of the teach of the school of the teach of the teach of the teach of the teach of the school of the teach of the teach of the teach of the teach of the school of the teach of the teach of the teach of the teach of the school of teach of the school of teach of the school of teach of the school of teach of the teach of tea
