It is further provided that in all cases where plumbing is installed which connects with the City's water system, or the City's sanitation system, within or without the corporate limits of the City of Bloomington, that such work shall be subject to inspection by the Plumbing Inspector of the City of Bloomington and shall meet all reasonable safety and health requirements and further, that such plumbing shall not be placed in use until approved by said plumbing inspector of the City of Bloomington.

Section Three. It is further provided that the present plumbing code shall not in the future apply to State or Federal buildings within the corporate limits of the City of Bloomington.
