**4. REPORTS [6:38pm]**

**4.1. Councilmembers:**

Zulich presented a letter she composed to the Monroe County Commissioners and the Monroe County Councilors opposing the purchase of the North Park location for a new Justice Center. There was discussion on what was included and excluded in the letter, as well as signing as a council or individually.

Zulich moved and Asare seconded to approve the letter and to present it to the Monroe County government in both physical and electronic form. The motion was approved by voice vote, Ayes: 9, Nays: 0, Abstain: 0.

Rosenbarger spoke about a triplex that had been converted to a single family home located at 601 W. 4<sup>th</sup> Street. It was sold for nearly \$295,000, remodeled, and now was selling for \$559,000. The process had

removed three affordable homes, within walking distance to downtown. Currently, a triplex could not be built in the neighborhood.

Asare said Canopy Bloomington held the first of three plantings across the city. He mentioned the upcoming plantings. He commented on the current state of affairs, the eroding of institutions, and the difficulty of regaining lost ground. He noted the federal government shutdown, the National Guard being mobilized against the will of local governments, elected officials not being sworn in, and the literal tearing down of historical parts of the White House. He highlighted the importance of local governments.

Piedmont-Smith praised the organizers and participants in the “No Kings” rally which had over two thousand people. It had been a peaceful protest based on the right to assemble and free speech. She noted that the federal government was attacking DEI, civil rights and liberties hard fought in the 1950s and 1960s, and public education. She mentioned the upcoming Freedom Fund banquet hosted by the National Association for the Advancement of Colored People (NAACP).

Stosberg extended the time for councilmember reports until 7:00pm without objection.

Ruff noted technical difficulties for his and Rollo’s recent constituent meeting.

Stosberg announced her upcoming constituent meeting. She stated that councilmembers could suggest topics for the upcoming Deliberative Session.

#### **4.2. Mayor and City Offices:**

Katie Gandhi, Metropolitan Planning Organization (MPO) Transportation Planner, Planning department, noted that the MPO received federal funding from the Federal Highway Administration to distribute to local public agencies for multimodal transportation projects. She summarized the projects that received MPO federal funding during fiscal years 2018-2025. No projects were fully funded by federal grants. Gandhi presented projects that would be funded from fiscal years 2026-2030. Asare asked about strengthening the MPO’s ability to secure federal funding. Pat Martin, MPO Director, said the city was maxed out and had optimized all opportunities as much as possible. The projects were recommended by the Engineering department and then approved by committees. He gave additional details on funding, and the federal funding timeline and process. There were project-specific questions and discussion.

#### **4.3. Council Committees:**

There were no council committee reports.

#### **4.4. Public:**

There were no council questions. There was no public comment.

Stosberg thanked Piedmont-Smith for spotting the error.

The motion to adopt Amendment 01 to Ordinance 2025-38 received a roll call vote of Ayes: 9, Nays: 0, Abstain: 0.

Piedmont-Smith asked about off-duty pay and shift pay differential. Pechac said the minimum off-duty pay was two hours; shift pay differential was separate. Stosberg asked about bonuses or retention pay for dispatchers, given that it was difficult to train and retain dispatchers. Pechac said that had not been discussed but was a valid suggestion.

There was no public comment. There were no council comments.

The motion to adopt Ordinance 2025-38 as amended received a roll call vote of Ayes: 9, Nays: 0, Abstain: 0.

### 7.2. Ordinance 2025-39

To Fix The Salaries of Appointed Deputies and Employees of The Bloomington City Clerk for The City of Bloomington, Monroe County, Indiana for The Year 2026

Daily moved and Piedmont-Smith seconded that Ordinance 2025-39 be adopted.

Clerk Nicole Bolden presented the legislation. There were no major changes aside from the cost of living adjustment (COLA). Piedmont-Smith asked if the COLA of 2.7% was the only change. Bolden stated there was a longevity pay increase for one staff member, following the same structure the administration used for civil city staff. Rollo asked if the salaries were competitive with other clerk's offices in the country. Bolden said that most of the research had focused on other second-class cities in Indiana. Clerks and deputy clerks had been historically undervalued and the positions were typically held by women. The work done by clerk staff was not valued the same as other departmental staff. Rollo supported keeping the clerk's office salaries competitive in order to hire the high quality staff like Clerk Bolden employed at the time. Stosberg asked about interns and Bolden said there was money budgeted for interns.

There was no public comment.

Daily thanked Clerk Bolden and her amazing staff. Council could not hold meetings without a member of the clerk's office present.

The motion to adopt Ordinance 2025-39 received a roll call vote of Ayes: 9, Nays: 0, Abstain: 0.

### **7.3. Ordinance 2025-40**

Pechac briefly presented the legislation.

Piedmont-Smith moved and Rollo seconded to adopt Amendment 01 to Ordinance 2025-40. Piedmont-Smith presented Amendment 01.

Amendment 01 Synopsis: This amendment clarify that the \$0.50 per hour premium was implemented in a prior salary ordinance, but remains effect. It also adds the words "not," "and," and a period (.) to Section 2 L, and corrects "benefits-elegible" to "benefits-eligible" to fix a typographical error.

There was no public comment.

Stosberg thanked Piedmont-Smith for catching the errors.

The motion to adopt Amendment 01 to Ordinance 2025-40 received a roll call vote of Ayes: 9, Nays: 0, Abstain: 0.

Piedmont-Smith asked about administrative assistant positions in the City of Bloomington Utilities (CBU). Katherine Zaiger, CBU, Director, said one position was being moved from one division to another. Piedmont-Smith asked if the 5% increase for hourly pay was in the recently passed budget, and Pechac confirmed it was. Piedmont-Smith asked about revising the living wage ordinance to reflect an actual living wage. Pechac said that had not been discussed but the city made an effort to offer competitive wages within budget constraints.

There was no public comment.

Piedmont-Smith expressed interest in increasing the pay in the living wage ordinance for Bloomington. Stosberg reminded everyone that a COLA was inequitable because staff making the least amount of money received the lowest increase while those making the most money received the largest raise, and gave examples. Having a COLA across the city made the wage gap bigger.

The motion to adopt Ordinance 2025-40 as amended received a roll call vote of Ayes: 9, Nays: 0, Abstain: 0.

#### **7.4. Resolution 2025-18**

Daily moved and Piedmont-Smith seconded to adopt Resolution 2025-18.

Stosberg passed the gavel to Piedmont-Smith.

Stosberg presented the legislation noting that it was first introduced and presented two weeks prior. An amended map was sent out the previous day which was not adequate time for council review.

Stosberg moved and Daily seconded to postpone Resolution 2025-18 until the Regular Session on November 05, 2025.

Rosenbarger stated that other neighborhoods and neighborhood associations needed to be contacted, not just Maple Heights. Many residents did not like the word "stadium" and did not want to live in a district with that title. She believed more time was needed. There was discussion on postponing the legislation.

The motion to postpone Resolution 2025-18 received a roll call vote of Ayes: 8, Nays: 0, Abstain: 0. (Rollo out of the room)

Piedmont-Smith passed the gavel back to Stosberg.

#### **8. Ordinance 2025-32**

To Amend Title 20 (Unified Development Ordinance) of the Bloomington Municipal Code – Re: Use Table Amendment – "Urban Agriculture"

Daily moved and Piedmont-Smith seconded that Ordinance 2025-32 be adopted.

Eric Greulich, Development Services Manager, Planning and Transportation (PT) department, presented the legislation. He explained the process and requirements for updating a use table as well as urban agriculture, generally, and limitations to things like educational activities held outdoors. He gave additional details.

Rollo asked about selling produce from one's property and hiring landscapers. Greulich confirmed that was allowed. There was discussion on educational activities, property management and landscaping, appropriate uses, and changes with the proposed legislation. Asare asked about the Board of Zoning Appeals (BZA) process and Greulich explained that the proposed use would have to be approved by the BZA. Asare asked about the standards for BZA review. Greulich said there were seven criteria for conditional uses that were reviewed and if granted there was not an expiration date for the use. He discussed violations, and noted that conditional use approvals were very rarely rescinded. Rosenbarger asked about public outreach for the proposal. Greulich said that every property owner was notified via mail but there were not specific

meetings held. She referenced the difference in process with a recently converted duplex off of Wylie Street. Greulich said the public was engaged during the Plan Commission process. There was discussion on public input on multiple Unified Development Ordinance (UDO) amendments, and the use table location for urban agriculture commercial. Flaherty noted that most of what was envisioned with the use was already covered by other existing uses with the exception of the education home business component. He asked about home occupation definition and Greulich clarified that it was limited to being within a building. The definition could have been updated to include the outdoors but that would be expanded to other home occupations that may not be appropriate. Flaherty preferred a set of rules that applied more broadly and gave examples. There was additional discussion on homeowners who currently sold from their home, neighborhood garden plots, frequency and timing of educational activities, residential areas, value-added product uses, conditional use, taxes and homestead exemptions, and the change of being allowed to teach outside of a building under home occupation uses. Use-specific restrictions, enforcement, and more was discussed.

Stosberg passed the gavel to Piedmont-Smith.

Stosberg moved and Rollo seconded to introduce Amendment 01 to Ordinance 2025-32. Stosberg presented Amendment 01 by highlighting the key points.

Amendment 01 Synopsis: This amendment replaces the Attachment A.

Jeff Stake spoke about land use law, and disruption to neighborhoods.

James Glenn opposed Ordinance 2025-32 and gave reasons in opposition.

Connie Cook Glenn discussed the benefits of having children grow food on school property, as was done by the Farm to School program. She opposed the legislation.

Joseph Wynia supported the proposed legislation and gave many reasons in support.

Dan Conkle commented on value-added products and proposed changes in the legislation.

Christopher Emge stated that the deliberation that evening was convoluted, and that going before the BZA was complex.

Steve Volan spoke about parking, transportation, council processes, and changes in neighborhoods.

Jami Sholl discussed the establishment of the Farmer's Market, urban agriculture, and growing food.

Sara Jane Hughes urged council to deny the proposal and gave reasons why.

Ellie Spier spoke about removing barriers for urban agriculture and in favor of the legislation.

Kathy Berry asked council to vote no and gave varying reasons.

Matthew Austin discussed urban agriculture and teaching, per plot size, and supporters of the proposal.

Flaherty asked for staff's input on the amendment. Greulich said staff did not oppose it. There was additional discussion on the legislation and Amendment 01, home occupation, and possible council actions.

The motion to adopt Amendment 01 to Ordinance 2025-32 received a roll call vote of Ayes: 5, Nays: 3 (Rollo, Rosenbarger, Asare), Abstain: 0. (Zulich left the meeting at 10:17pm)

Piedmont-Smith passed the gavel back to Stosberg.

Asare moved and Piedmont-Smith seconded to postpone Ordinance 2025-32 as amended until the Regular Session on November 5, 2025.

Rosenbarger noted other legislation that had been postponed to the next regular session. Stosberg mentioned that leadership had anticipated a potential third reading of the legislation.

The motion received a roll call vote of Ayes: 7, Nays: 1 (Rosenbarger), Abstain: 0.

**2. AGENDA SUMMATION [6:33pm]**

Stosberg summarized the agenda. The meeting was the second community conversation on housing, focusing on policy and the city's future direction. The meeting alternated between presentations by planning staff and small group discussions on housing policy. She stated expectations for discussion.

**3. PRESENTATION AND DIALOGUE [6:36pm]**

David Hittle, Planning and Transportation Director, presented on housing policy changes considered by staff. They had performed outreach with various stakeholders and considered amendments of the Unified Development Ordinance (UDO) for housing attainability improvements. He spoke about outreach efforts, both locally and to other peer cities. Hittle quoted from the city's 2018 Comprehensive Plan and the Climate Action Plan regarding housing diversity. He gave topics for the first small group discussion.

Jamie Kreindler, Senior Zoning Planner, Planning and Transportation, presented on nationwide housing attainability efforts. Cities had reformed their zoning codes to encourage gentle density and expand middle housing options. She spoke about the Hopewell neighborhood and integrating ideas in the entire city.

Stosberg initiated the first small group discussions. A city staff member and a councilmember facilitated discussion in each group.

Attendees returned to Council Chambers for Hittle's second presentation. He shared highlights that planning staff learned through outreach efforts. Residents' main concerns involved expected loss of neighborhood character and cost of living increases. There was a strong desire for walkability. He spoke about off-campus student housing and zoning strategies.

Stosberg initiated the second small group discussion.

#### 4. REPORTING AND DEBRIEFING

No reporting or debriefing occurred. Stosberg stated that next steps would be to introduce policy changes.

#### 5. ADJOURNMENT [8:43pm]

Daily moved and Zulich seconded to adopt Resolution 2025-20.

Asare s that council had sent a letter to Mayor Kerry Thomson requesting additional funding from the Jack Hopkins Social Services Fund for organizations working in food security, primarily due to the federal government shutdown. The funds would be distributed by Hoosier Hills Food Bank. There was discussion on the county residency requirement in the legislation, which was a mayoral priority. Piedmont-Smith said that was a policy issue that needed to be investigated, and Heading Home had shifted their stance on that. Lisa Lehner, Council Attorney, clarified that the memorandum of understanding was the one used by the Community and Family Resources department.

There was no public comment.

Zulich and Daily appreciated the legislation.

The motion to adopt Resolution 2025-20 received a roll call vote of Ayes: 8, Nays: 0, Abstain: 0.

Flaherty did not oppose a COLA but felt that elected officials' salaries should be rooted in a cohesive, consistent, and comprehensive framework. He spoke about the salary committee's work the previous year as well as other frameworks, like peer-benchmarking to other cities. He would vote no.

The motion to adopt Ordinance 2025-45 received a roll call vote of Ayes: 6, Nays: 2 (Flaherty, Rosenbarger), Abstain: 0.

### **9.3. Ordinance 2025-41**

TO AMEND TITLE 20 (UNIFIED DEVELOPMENT ORDINANCE) OF THE BLOOMINGTON MUNICIPAL CODE – Re: Use Table Amendment- "Single Room Occupancy"

Daily moved and Zulich seconded that Ordinance 2025-41 be introduced and read by title and synopsis only. The motion was approved by voice vote. McDowell read the legislation by title and synopsis.

Daily moved and Zulich seconded that Ordinance 2025-41 be adopted.

Eric Greulich, Development Services Manager, Planning and Transportation, said the legislation was drafted in response to a request from council. It allowed the “Single Room Occupancy” (SRO) use in multiple zoning districts. He gave additional details.

Piedmont-Smith passed the gavel to Daily.

Piedmont-Smith moved and Asare seconded to adopt Amendment 01 to Ordinance 2025-41. Piedmont-Smith presented Amendment 01.

**Amendment 01 Synopsis:** This amendment, sponsored by Councilmember Piedmont-Smith, inserts a new Whereas clause to explain that the Common Council requested the Plan Commission to consider Single Room Occupancy as a new allowed use. It also incorporates a revised Attachment A to better highlight and clarify the proposed changes adopted by the Plan Commission.

There were no council questions. There was no public comment. There were no council comments.

The motion to adopt Amendment 01 to Ordinance 2025-41 received a roll call vote of Ayes: 8, Nays: 0, Abstain: 0.

Daily passed the gavel back to Piedmont-Smith.

Asare asked about the buffer zone. Greulich said it was an effort to not saturate neighborhoods with the SROs. There would be a one hundred and fifty foot buffer where no other SROs could be located for two years. There was discussion on parking, whether SROs had to be attached, dwelling units, housing types in zoning districts, housing affordability, and incentives. Additional discussion included rental prices, the restriction on rent control by the state, existing residential rooming houses, accessory dwelling units, owner-occupied units, and renting for no less than thirty days. SROs would be considered by a hearing officer or the Board of Zoning Appeals (BZA), depending on situation.

Rollo moved and Daily seconded to introduce Amendment 02 to Ordinance 2025-41. Rollo presented Amendment 02.

**Amendment 02 Synopsis:** This amendment, sponsored by Councilmember Rollo, reduces the maximum occupancy for Single Room Occupancy units from two adults to one.

Greulich explained that if Amendment 02 passed, then nothing would change. Rollo said Amendment 02 was an effort to not allow families in SROs for safety reasons. He was concerned with AirBnbs, and private equity firms purchasing single family homes. There was discussion on the definition of a “family” and separate leases in homes. Rollo said that the Housing and Urban Development (HUD) restricted SROs to one adult per room. Piedmont-Smith referenced code requiring that the Housing and Neighborhood Development (HAND) inspect SROs. There was discussion on the owner-occupancy requirement, the potential rent that could be charged, and the ability to house more people. Asare asked about early indicators of a proliferation of SROs in the R1-R4 districts. Greulich believed there was a low chance of many SROs in those districts.

Christopher Emge said that going to the BZA was cumbersome for some residents.

Jan Sorby was in favor of SROs and rooming houses, and spoke in favor of owner-occupancy.

Rosenbarger did not support limiting the SROs to one adult per bedroom. Asare would not support Amendment 02. Zulich concurred and cautioned against overregulation. Ruff believed it was important to pass Amendment 02. Flaherty noted that HUD specified that, by definition, SROs were single person occupancy, but did not explicitly state that requirement as a safety concern. The legislation had sufficient safeguards against abuse of SROs. Rollo reiterated concerns of having a family in a single bedroom. Piedmont-Smith said the legislation came from deliberative sessions on homelessness in 2024, and allowing two people in an SRO was a real response to housing needs and for example, unhoused couples wishing to

stay together. She restated that HAND would be inspecting the SROs so there would not be overcrowding. There was additional discussion on SROs in other districts.

The motion to adopt Amendment 02 to Ordinance 2025-41 received a roll call vote of Ayes: 2 (Rollo, Ruff), Nays: 6, Abstain: 0. FAILED

Eric Ost stated that a Limited Liability Company was considered a person and could own SROs.

Jan Sorby was against SROs in residential areas.

Wendy Bricht spoke against turning homes into rentals and in favor of families in neighborhoods.

John Lawrence discussed converting motels into SROs and vacant lots for additional housing.

Rollo questioned if an LLC could be a homeowner and Greulich said that would have to be clarified by the county. Asare said the change was incremental and allowed two people to live together. While he understood the concerns, Asare believed there were enough safe-guards in place. Rosenbarger noted that councilmembers used other cities as examples, but not for things like plexes. She spoke about empty bedrooms due to the three, unrelated adults rule, conditional uses, permitted use, potential amendments in the future, and missing middle housing. Rollo said it was useful to look to other cities, as well as residents' experiences. He cautioned about adverse outcomes, unintended profit incentives, too many people occupying a room, and not going before the BZA. Ruff believed the legislation was experimental and had risks; he did not understand how SROs would be handled between the BZA and hearing officers. Stosberg commented on the discussion that evening and the preparation of the petition. Piedmont-Smith understood the concerns, but due to the housing crisis, it was important to provide more housing. She noted the city was interested in converting hotels that were for sale into SROs. There were enough guardrails to not have a negative impact on neighborhoods and also increase housing options. She commented on similar concerns in 2021 regarding plexes, which had not overtaken neighborhoods. Rollo commented on rentals overtaking owner occupied homes and the threat to single family homes.

The motion to adopt Ordinance 2025-41 as amended received a roll call vote of Ayes: 7, Nays: 2 (Rollo, Ruff), Abstain: 0. (Stosberg arrived at 8:53pm)

## **10. ADDITIONAL PUBLIC COMMENT [9:08pm]**

There was no additional public comment.

## **11. COUNCIL SCHEDULE [9:09pm]**

Piedmont-Smith explained there was a proposed annual council legislative schedule for 2026. There was brief council discussion.

Zulich moved and Asare seconded to adopt the annual council legislative schedule for 2026. The motion received a voice vote of Ayes: 9, Nays: 0, Abstain: 0.

## **12. ADJOURNMENT [9:13pm]**

**Date:** February 11th, 2026

**To:** Members of the Bloomington Common Council, and  
The Office of the Mayor,

**Re:** Draft Resolution on Automated License Plate Readers (ALPRs)

Dear Colleagues,

Included in this week's packet is a draft resolution regarding automated license plate readers (ALPRs) and the City's current use of the Flock Safety platform in Bloomington. This item is not scheduled for a vote this week because neither the Mayor nor the Deputy Mayor was able to be present at today's meeting, and I believe this topic deserves a discussion in which the Administration can participate fully. I am sharing this draft now to invite early engagement. It is somewhat unusual to circulate draft legislation in the packet this way, but the aim is simple: to encourage input before the conversation moves into formal debate.

It is important to acknowledge at the outset that many residents and public-safety professionals who support ALPR technology are pursuing legitimate goals: faster recovery of stolen vehicles, support for missing-person cases, leads in serious crimes, and more efficient use of limited staffing. Those are real public goods. The question is not whether public safety matters; it is how we pursue it—what capabilities we build, what risks we accept, and what limits we place on ourselves when technology expands the reach of institutional power.

We need not fall into a common trap: the belief that any benefit, however small, is sufficient. With a powerful surveillance capability, “it might help sometimes” is not a governing standard. Benefits must be demonstrated, not presumed—and must decisively outweigh the civil liberties, security, and governance risks created by the system itself

Of course, the strongest protection for civil liberties is restraint. Data not collected cannot be misused, required to be produced, breached, or quietly normalized. But whether one starts from that conclusion or not, Bloomington deserves something that is too often missing from public technology debates: a process that is disciplined, transparent, and worthy of public trust—one that produces an outcome we can defend not only today, but as technologies evolve and capabilities expand.

The draft resolution in this packet is designed as a first step toward that kind of responsible governance. It does three things.

First, it establishes a shared premise: ALPR systems collect location-linked information about residents and visitors, including many who are not suspected of wrongdoing, and therefore require stronger justification and oversight than conventional municipal technology.

Second, it initiates a structured process of inquiry. It requests a public briefing from the Bloomington Police Department, supported by a written packet, so the Council and the public

can understand the program as it exists today: the scope of deployment, contract terms and costs, retention settings, who has access, what training is required, how searches are logged and reviewed, what auditing occurs, what public reporting exists, and what sharing pathways or integrations are enabled. This is the due diligence required to make informed decisions in daylight.

Third, it signals the Council's intent to develop an ordinance that establishes durable, enforceable rules for ALPR and similar surveillance technologies in Bloomington—regardless of vendor. While there are specific concerns that have been raised about Flock as a provider, this conversation should not be reduced to a single company. The deeper issue is whether Bloomington has the institutional capacity to govern technologies that are increasingly common and will continue to be so. If the community decides that some ALPR use should continue, then Bloomington should adopt binding safeguards as a matter of law: narrowly authorized purposes focused on serious crimes and missing persons; short retention measured in days or weeks; role-based access with case-level justification and query logging; routine audits and public reporting; hard limits on sharing—especially any pathway that enables easy access beyond local intent; and a sunset or periodic reauthorization mechanism so this capability does not become permanent by inertia.

At its best, local government is where democracy is most tangible. People can see the decisions. They can speak into them. They can hold us accountable. That is the spirit in which I am sharing this draft now. When a technology has the potential to reshape the balance between public safety and civil liberty, we should not drift into it. We should decide deliberately. We should set limits. We should demand accountability. And we should govern with the seriousness the moment requires.

I welcome feedback. If you have edits, concerns, or alternatives, I want to hear them. My hope is that this draft helps us begin a careful, public conversation—and that, whatever course we choose, we choose it deliberately and together.

I would also like to note that Councilmember Piedmont-Smith has separate legislation on this subject that will also be scheduled, and she has also shared an open letter to the Mayor. I am most grateful to Councilmember Flaherty for thoughtful comments on this draft resolution and welcome any co-sponsors.

Thank you for considering.

Most respectfully,

Isak

## **RESOLUTION 2026-\_\_**

### **A RESOLUTION ESTABLISHING IMMEDIATE TRANSPARENCY, LIMITS, AND A PUBLIC REVIEW PROCESS FOR AUTOMATED LICENSE PLATE READER TECHNOLOGY IN BLOOMINGTON**

**WHEREAS**, the Common Council of the City recognizes and affirms the community's commitment to civil liberties, including freedom of movement and speech, due process of law, and the principle that government should not create standing surveillance capabilities absent necessity, strict limits, and democratic accountability; and

**WHEREAS**, "Automated Lice Plate Reader" or "ALPR" technology means any fixed, mobile, or portable camera system—together with any associated software or service—that captures images of motor vehicles and automatically detects, extracts, or converts license plate numbers (and related vehicle descriptors such as make, model, color, date/time, and location) into searchable records or alerts; and

**WHEREAS**, automated license plate reader ("ALPR") systems collect and store location-linked data about large numbers of residents and visitors who are not suspected of wrongdoing, and experience shows that surveillance infrastructure tends to expand in use and scope over time unless constrained by binding rules; and

**WHEREAS**, the City currently utilizes ALPR technology and related services provided by Flock Safety, which operates as a privately owned, vendor-managed platform, meaning the City does not fully control the software ecosystem, product roadmap, integrations, or the ways the platform may evolve; and

**WHEREAS**, public trust in law enforcement and local government depends not only on good-faith use today, but on durable safeguards that hold under changing conditions—leadership changes, policy changes, vendor changes, or external pressure; and

**WHEREAS**, the Council finds that any use of ALPR technology must meet a heightened standard of necessity and proportionality, must be subject to strict purpose limitations, short retention, auditable access, meaningful reporting, and hard limits on sharing—especially any pathway that could make access easy beyond local intent; and

**WHEREAS**, the Council further finds that the strongest protection for civil liberties is restraint: data not collected cannot be misused, compelled, breached, or normalized;

**NOW, THEREFORE, BE IT RESOLVED** by the Common Council of the City of Bloomington, Indiana, as follows:

**SECTION 1** The Council states its opposition to unchecked, generalized surveillance and affirms that any technology capable of tracking the public at scale must meet a heightened

standard of necessity and proportionality, with strict limits, public transparency, and democratic oversight.

**SECTION 2** The Chief of Police and the Office of the Mayor shall provide a briefing to the Common Council on the City's ALPR program, including the City's contract(s) and relationship with Flock Safety, and the current operational use of ALPR cameras and related equipment.

**SECTION 3** The police department shall provide a written briefing packet to the Council no later than seven (7) days prior to the public briefing, describing in plain language: the number of ALPR devices in operation and their general placement; the contract term(s), renewal dates, termination provisions, and total program costs to date; the data retention period(s); the current access controls and training requirements; and the current rules governing searches, auditing, reporting, and data sharing.

**SECTION 4** The Chief of Police shall explicitly address in the briefing what controls are currently in place—or are technically feasible under existing agreements—to ensure the following best-practice safeguards: narrowly authorized purposes; short retention windows; role-based access; query logging; routine auditing; and public reporting (including volume of searches, categories of cases, hit rates, and errors); and hard limits on data sharing, especially any pathway that could enable easy access beyond local intent.

**SECTION 5** The Council encourages the Office of the Mayor to impose an immediate pause on any expansion of the ALPR program until the requested briefing is completed, including a pause on adding new cameras, expanding features, creating new access pathways, enabling new integrations, or increasing the number of user accounts, except as required to maintain existing obligations or ensure continuity of essential operations.

**SECTION 6** The Council states its intent to develop and consider an ordinance to establish durable rules governing the acquisition and use of ALPR technology in Bloomington—regardless of vendor—including binding limits on purpose, retention, access and auditing, transparency and reporting, sharing restrictions, and periodic reauthorization or sunset provisions.

**SECTION 7** The Council will use the information provided through the briefing and written materials to make determinations both about Bloomington's current relationship with Flock Safety and about the broader governance framework the City should adopt for ALPR and similar surveillance technologies now and in the future.

**SECTION 8:** If any section, subsection, sentence, clause, or phrase of this Resolution is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Resolution. The Common Council hereby declares that it would have adopted this Resolution, and each section, subsection, sentence, clause, and phrase hereof, irrespective of the fact that any one or more portions be declared invalid or unconstitutional

The conservation and development of the city's artistic resources are essential to the social, educational, and economic vitality of the city. Artists, works of art, and

artistic institutions contribute to the quality of life and the general welfare of the citizens of Bloomington. The Bloomington Arts Commission seeks to provide inclusive and equitable opportunities to all artists and community members, especially those who have been under-served.

The Bloomington Arts Commission strives to develop and enhance the Bloomington arts community by:

- (1) Supporting local artists and artist groups;
- (2) Engaging Bloomington residents in arts across genres;
- (3) Facilitating connections between City of Bloomington staff, artists, and artists groups; and

(e) Terms. Members shall serve terms of three years. Members having served two consecutive three-year terms may not be reappointed until one year has passed from the end of the second term. Terms shall be staggered, with four members' first term ending within one year; three members' first term ending within two years, and four members' first term ending within three years after their initial appointment, so that no more than five members will leave the commission at the end of each term, which will be the thirty-first day of January.

- (4) Submit an annual report, in writing, to the mayor and common council.

**2.02.080 Percentage for the Arts Program.**

A policy is established to include works of art and design services of artists in capital projects of the city.

(a) Purpose. The city through the Bloomington Arts Commission accepts responsibility for expanding the community's experience with art by bringing art to public places. Public art has enabled people in all societies to better understand and enrich their individual and collective lives. In order to sustain our economic and cultural vibrancy, the city supports public art and the artists who make it possible. A policy is therefore established to include works of art and/or design services of artists in certain city capital projects.

(b) Definitions. For the purposes of this chapter the following terms shall have the following meanings:

"Annual public art projects plan" means a prioritized list of art projects, with budgets and recommended design approach, developed by the commission in consultation with city departments anticipating capital projects.

"City building" means a fixed structure with walls and a roof that will be owned by the city.

"City capital project" means any permanent capital project paid for, wholly or in part, by the city to construct or remodel any building, structure, park, utility, street, sidewalk, or parking facility, or any portion thereof, that will be owned by the city.

"Commission" means the Bloomington arts commission.

"Construction costs" means the cost of the project excluding costs for acquisition of land, design, and financing.

"Funds" means a source of money for construction projects from which art is not precluded as an object of expenditure.

"Guidelines" means a document that outlines how the city will implement the arts program, which shall include but not be limited to methods for the selection of artists, for selection and placement of works of art and for the education and promotion of public art.

"Landscaping" means areas, including the pedestrian portions of streetscapes, where by grading, placing concrete or rock, or planting vegetation, the natural features of a site are made more attractive.

"Municipal arts fund" means a dedicated fund for administration of the public art program.

"Parks facilities" means amphitheaters, fountains, pools, pedestrian ways, sports areas and other improvements where people gather or play.

"Public art" is an original work of art of the highest quality created by an artist, artists, or a collaboration of design professionals which belongs and is accessible to the public, is integrated into the site, and enhances the quality of city life.

(c) Bloomington Arts Commission Authority. The commission shall:

(1) Prepare a set of guidelines for carrying out the city's public art program which shall be submitted in the form of resolutions to the board of park commissioners, the board of public works and the common council.

(2) Review the city's annual capital improvement plan with city officials and jointly submit an annual public art projects plan to the appropriate board having responsibility over the project for their recommendation and to the common council for their approval. The annual public art projects plan, which may be incorporated into the annual capital improvement plan, shall be submitted to the common council for their consideration at the same time as the civil city budget.

(3) Encourage and pursue additional funds for the program which may be deposited in the municipal arts fund.

(4) Acquire works of art, retain consultants or hire employees, and take other reasonable measures within its appropriations to administer the public art program.

(d) Criteria for the selection and placement of public art. The following criteria shall be used for the selection and placement of public art:

(1) Public art shall be located in areas where residents and visitors live and congregate and shall be highly accessible and visible;

(2) Areas such as the entryways, downtown, neighborhoods, and the parks shall be treated as separate areas that deserve separate attention in the guidelines;

(3) Since public art has a significant effect on the lives of those who frequent public places, public art should reflect enduring, and not transitory, artistic concepts;

(4) Public art shall reflect the cultural and ethnic diversity of this city without deviation from a standard of excellence; and

(5) Selection shall also take into account appropriateness to the site, permanence of the work in light of surrounding environmental conditions, maintenance requirements, quality of work, likelihood the artist can successfully complete the work within the available funding, and works of art already in the public art collection.

(e) Funds for Works of Art. Appropriations for certain city capital projects shall include an amount not less than one percent of the city's contribution to the estimated construction costs of the project for public art. These city capital projects shall include the construction or renovation of all city buildings, and shall be otherwise limited to the construction of parks facilities and the landscaping portion of major projects that are approved in the annual public arts projects plan.

(f) Municipal Arts Fund. The funds for public art include the allocation of one percent of the construction costs of certain city capital projects along with donations, grants, and all other appropriations for public art. Those funds shall be deposited in a municipal arts fund unless they are for a city capital project, in which case, they may be kept as other funds for capital projects are kept.

Expenditures from this fund may be used for design services of artists and for the selection, acquisition, commissioning, and display of art works, for maintenance, and

administration of the program as outlined in the guidelines and annual public art project plan. Funds approved as part of one project, but not deemed necessary in total or in part for said project, may, if not precluded by any law, be expended on other projects or purposes approved in the annual public art project plan.

## ~~Chapter 2.12 – BOARDS, COMMISSIONS AND COUNCILS~~

## **City of Bloomington, Indiana Common Council Memorandum**

**To:** Councilmembers

**From:** Councilmember Isabel Piedmont-Smith

**Subject:** Ordinance 2026-04 - To Amend Title 2 of the Bloomington Municipal Code Entitled "Administration and Personnel" Re: Consolidating and Amending Boards and Commissions Provisions in Chapters 2.02, 2.08 and 2.12

**Date:** January 28, 2026

Ordinance 2026-04 seeks to accomplish the following goals:

### **Moving text from BMC 2.08.020 to 2.02.050**

Currently, the general provisions that apply to the city's volunteer boards and commissions are situated in BMC 2.08 "Executive Branch," although these bodies are not part of the executive branch. There are also currently two chapters of BMC Title 2 that are very similar: 2.02 "Boards and Commissions" and 2.12 "Boards, Commissions and Councils." Ord. 2026-04 moves the general provisions from 2.08 to 2.02, under a new sub-heading "General Provisions" (2.02.050).

This change was discussed in the Committee on Council Processes and approved by general consensus.

### **Deleting duplicative BMC chapter 2.12**

As mentioned above, 2.12 has an almost identical heading as 2.02. Ord. 2026-04 moves all sections of 2.12 to 2.02 and deletes chapter 2.12.

### **Adding a Code of Conduct for board and commission members**

Deputy Clerk Jennifer Crossley has worked with City Legal on a Code of Conduct that all members of boards and commissions will need to sign in the future. The Committee on Council Processes has reviewed the Code of Conduct, and it is currently being finalized. Ord. 2026-04 makes reference to the Code of Conduct in the context of reasons for dismissal, but it does not include the actual text.

### **Changing the name of the Bloomington Commission on Sustainability**

On November 18, 2025, the Bloomington Commission on Sustainability unanimously approved their Resolution 2025-04 recommending to the Common Council that the

name of the commission be changed to Bloomington Commission on Sustainability and Resilience. To meet this request, the change has been incorporated into Ord. 2026-04.

Please find the BCOS memo and resolution included with this legislation.

I would appreciate your support of Ord. 2026-04 and am available via email and phone to answer any questions you may have.

November 25, 2025

Council President Hopi Stosberg  
Bloomington Common Council

Dear President Stosberg,

On November 18, 2025, the Bloomington Commission on Sustainability (BCOS) unanimously adopted Resolution 2025-04 (*To Change the Name of the Bloomington Commission on Sustainability to the “Bloomington Commission on Sustainability and Resilience”*), pursuant to Bloomington Municipal Code (BMC) paragraph 2.12.100(8)(B), which empowers BCOS to advise and make recommendations to the Bloomington Common Council.

It is the expressed opinion of BCOS that changing its name to “Bloomington Commission on Sustainability and Resilience” would better reflect that sustainability and resiliency are two distinct-but-interdependent concepts that are central to the Commission’s operating philosophy. Additionally, it would help signal to the public and community partners our commitment to enhancing Bloomington’s sustainability as well as its ability to withstand and adapt to unforeseen disruptions.

Please find enclosed the language of that resolution, including ordinance language that would effectuate the proposed change in city code.

We appreciate Council’s consideration of this recommendation and are happy to provide additional information or answer questions that you may have.

Respectfully,

**2.02.080 Percentage for the Arts Program.**

A policy is established to include works of art and design services of artists in capital projects of the city.

(a) Purpose. The city through the Bloomington Arts Commission accepts responsibility for expanding the community's experience with art by bringing art to public places. Public art has enabled people in all societies to better understand and enrich their individual and collective lives. In order to sustain our economic and cultural vibrancy, the city supports public art and the artists who make it possible. A policy is therefore established to include works of art and/or design services of artists in certain city capital projects.

(b) Definitions. For the purposes of this chapter the following terms shall have the following meanings:

"Annual public art projects plan" means a prioritized list of art projects, with budgets and recommended design approach, developed by the commission in consultation with city departments anticipating capital projects.

"City building" means a fixed structure with walls and a roof that will be owned by the city.

"City capital project" means any permanent capital project paid for, wholly or in part, by the city to construct or remodel any building, structure, park, utility, street, sidewalk, or parking facility, or any portion thereof, that will be owned by the city.

"Commission" means the Bloomington arts commission.

"Construction costs" means the cost of the project excluding costs for acquisition of land, design, and financing.

"Funds" means a source of money for construction projects from which art is not precluded as an object of expenditure.

"Municipal arts fund" means a dedicated fund for administration of the public art program.

"Parks facilities" means amphitheaters, fountains, pools, pedestrian ways, sports areas and other improvements where people gather or play.

"Public art" is an original work of art of the highest quality created by an artist, artists, or a collaboration of design professionals which belongs and is accessible to the public, is integrated into the site, and enhances the quality of city life.

(c) Bloomington Arts Commission Authority. The commission shall:

(1) Prepare a set of guidelines for carrying out the city's public art program which shall be submitted in the form of resolutions to the board of park commissioners, the board of public works and the common council.

(2) Review the city's annual capital improvement plan with city officials and jointly submit an annual public art projects plan to the appropriate board having responsibility over the project for their recommendation and to the common council for their approval. The annual public art projects plan, which may be incorporated into the annual capital improvement plan, shall be submitted to the common council for their consideration at the same time as the civil city budget.

(3) Encourage and pursue additional funds for the program which may be deposited in the municipal arts fund.

(4) Acquire works of art, retain consultants or hire employees, and take other reasonable measures within its appropriations to administer the public art program.

(d) Criteria for the selection and placement of public art. The following criteria shall be used for the selection and placement of public art:

(1) Public art shall be located in areas where residents and visitors live and congregate and shall be highly accessible and visible;

(2) Areas such as the entryways, downtown, neighborhoods, and the parks shall be treated as separate areas that deserve separate attention in the guidelines;

(3) Since public art has a significant effect on the lives of those who frequent public places, public art should reflect enduring, and not transitory, artistic concepts;

(4) Public art shall reflect the cultural and ethnic diversity of this city without deviation from a standard of excellence; and

(5) Selection shall also take into account appropriateness to the site, permanence of the work in light of surrounding environmental conditions, maintenance requirements, quality of work, likelihood the artist can successfully complete the work within the available funding, and works of art already in the public art collection.

(e) Funds for Works of Art. Appropriations for certain city capital projects shall include an amount not less than one percent of the city's contribution to the estimated construction costs of the project for public art. These city capital projects shall include the construction or renovation of all city buildings, and shall be otherwise limited to the construction of parks facilities and the landscaping portion of major projects that are approved in the annual public arts projects plan.

(f) Municipal Arts Fund. The funds for public art include the allocation of one percent of the construction costs of certain city capital projects along with donations, grants, and all other appropriations for public art. Those funds shall be deposited in a municipal arts fund unless they are for a city capital project, in which case, they may be kept as other funds for capital projects are kept.

Expenditures from this fund may be used for design services of artists and for the selection, acquisition, commissioning, and display of art works, for maintenance, and

administration of the program as outlined in the guidelines and annual public art project plan. Funds approved as part of one project, but not deemed necessary in total or in part for said project, may, if not precluded by any law, be expended on other projects or purposes approved in the annual public art project plan.

**Preamble**

Whereas, section 2.04.300 of the Bloomington Municipal Code, entitled "Ordinances and resolutions; Readings required," states that an ordinance may not be debated or amended at its first reading or introduction unless state or federal requirements provide otherwise; and

Whereas, Common Council finds that allowing debate and amendment of ordinances at first reading would permit Councilmembers to understand the purpose of the legislation and to identify and resolve issues earlier in the legislative process; and

Whereas, Common Council finds that allowing debate and amendment of ordinances at first reading would promote efficiency and result in fewer readings of complex or contentious legislation; and

Whereas, Common Council finds that allowing debate and amendment of ordinances at first reading would alleviate time pressures associated with legislation that has a statutory or other deadline for enactment; and
