Resolution 2017-61: Sanitation Modernization Fee Schedule

He thanked Thomas Uher for his efforts with this project.

Boatman asked if yard waste will require stickers.

Wason said they will not. Sanitation crews will possess a Radio-Frequency Identification (RFID) computer system to tally the number of bags used per property. Sticker sales will be cut off upon the implementation of the modernized sanitation program in October. Everyone will receive their new carts in September.

Boatman asked if stolen carts will be a problem.

Wason explained staff anticipates some cart theft. However, each cart is chipped and will be identifiable in the RFID system.

Boatman commented that some residents may benefit from this fee schedule, and others may not.

Wason explained that when this fee schedule is compared to that of other cities, it is fairly low.

Cox Deckard provided a brief recap of the Sanitation Modernization program process. She asked if any pick up days will change.

Wason explained the majority of residents will not experience a change. Crews will try to pick up large items on the normal pickup day for residents for a \$10 fee per item. The Economic and Sustainable Development Department provides information about reuse for items on their website.

Cox Deckard asked when additional pickups occur.

Wason said they will only occur on Fridays. Cart lids need to be closed.

Cox Deckard commented that the educational materials will provide more information to residents, including proper placement of carts.

Wason explained materials will be mailed and also provided with the delivery of the carts. This fee will be monthly and added to residents' water bills.

Cox Deckard expressed her appreciation of staff's attempt to stick to the pay-as-you-throw program by allowing citizens to select the size of their waste carts.

Wason explained staff has committed to study ways to implement a system where residents will only pay for waste services on the weeks when they need to dispose of their trash.

Cox Deckard commended the Sanitation crews for their work in the community. She asked when the rates will return to Council for review.

Wason said they would return for review by year three.

Cox Deckard asked if the Board would ever review a change of rate within the scale.

Wason explained the Board does have the authority to do so, if necessary.

Cox Deckard asked who would decide the rates when they return for Council review.

Wason said the Council would.

Boatman asked what color the carts are.

Wason said they will be gray with a gray lid for solid waste, and a yellow lid for recycling. Having color differentiation is important for drivers when performing pickups at 4:30 a.m.

Boatman made a motion to approve Resolution 2017-61: Sanitation Modernization Fee Schedule. Cox Deckard seconded. The motion passed. Resolution 2017-61 approved.

Wason provided the following announcements:
