Indiana EV Infrastructure Deployment Plan - Public Survey

05/13/2022

According to guidance from the National Electric Vehicle Infrastructure (NEVI) formula program under the Bipartisan Infrastructure Law (BIL), Indiana can expect to receive nearly $100 million in federal funding to provide safe, efficient, and high-quality Infrastructure that enables EV drivers to travel throughout the state.

The Indiana Department of Transportation is conducting an online survey to inform the state's Electric Vehicle Infrastructure deployment plan.

INDOT seeks to gain insight into charging station locations, barriers, and considerations. The survey should take approximately 20 minutes to complete and responses received by May 27, 2022 will be used to inform the development of Indiana's plan.

At the end of the survey, there is an option to provide your personal contact information. If you choose to provide this information, it will not be shared outside of the project team. Thank you for taking the time to provide input!

Section 5: Complete Streets Policy

A. Select one of the following:

☐ Compliant - This project is subject to the Complete Streets Policy because it involves the new construction or reconstruction of local roadways that will use federal funds through the BMCMPO for any phase of project implementation. Additional Information items 1-8 (below) must be submitted for Compliant projects.

☐ Not Applicable - This project is not subject to the Complete Streets Policy because it is a transit project, a non-roadway project, a resurfacing activity that does not alter the current/existing geometric designs of the roadway, or is a project that uses federal funds for which the BMCMPO does NOT have programming authority. No Additional Information items (below) have to be provided for projects to which the Complete Streets Policy does not apply.

☒ Exempt – The LPA is requesting that this project be exempted from the Complete Streets Policy due to certain circumstances or special constraints, as detailed in Section IV of the Complete Streets Policy. Please provide a detailed explanation of why the project should be exempted. Additional Information items 1, 4-8 (below) must be submitted for Exempt projects.

Justification for Exemption: ____________________________________________________________

B. Additional Information:
Attach to this application form the following information as required by the Complete Streets Policy. If any items are unknown at the time of application, the applicant may indicate that "specific information has not yet been determined." Any required information not provided at the time of this application must be reported to the MPO as soon as it becomes available.

1) **Detailed Scope of Work** – Provide relevant details about the project that would be sufficient to use when seeking consulting services (detailed project description, vehicular elements, non-vehicular elements, new construction/reconstruction).

2) **Performance Standards** – List specific performance standards for multimodal transportation, including, but not limited to transit, pedestrian, bicycle, and automobile users, ADA and Universal Design, environmental, utilities, land use, right of way, historic preservation, maintenance of services plan, and any other pertinent design component in relation to current conditions, during implementation/construction, and upon project completion.

3) **Measurable Outcomes** – Identify measurable outcomes the project is seeking to attain (e.g. safety, congestion and/or access management, level-of-service, capacity expansion, utility services, etc.).

4) **Project Timeline** – Identify anticipated timelines for consultant selection, public participation, design, right-of-way acquisition, construction period, and completion date.

5) **Key Milestones** – identify key milestones (approvals, permits, agreements, design status, etc.).

6) **Project Cost** – Identify any anticipated cost limitations, additional funding sources, project timing, and other important cost considerations not included in the table above.

7) **Public Participation Process** – Describe the public participation process (types of outreach, number and type of meetings, etc.), and the benchmark goals for the project (participation rates, levels of outreach, levels of accountability and corresponding response methods to input received, etc.).

8) **Stakeholder List** – Identify the key parties/agencies/stakeholders/interest groups anticipated to be engaged during project development and their respective purpose for being on the list.

<td><strong>Current Version of BMCMPO Complete Streets Policy (2018) incorporates model SGA Methodology and Model Policy Language</strong></td>
</tr>
<tr>
<td><strong>1. Vision and Intent:</strong> Acknowledges importance of how Complete Streets contribute to building a comprehensive transportation network, and states a commitment to integrate Complete Streets approach into transportation practices, policies, and decision-making processes</td>
<td>Yes</td>
</tr>
<tr>
<td><strong>2. Diverse Users:</strong> Ensures that Complete Streets are intended to benefit all users equally, particularly vulnerable users and the most underinvested in and underserved communities, and that all transportation choices should be safe, convenient, reliable, affordable, accessible, and timely regardless of race, age, income, access to a personal vehicle and other socioeconomic statuses</td>
<td>Somewhat</td>
</tr>
<tr>
<td><strong>3. Commitment in All Projects and Phases:</strong> Includes that the ideal Complete Streets Policy has a strong commitment that all transportation projects and maintenance operations account for the needs of all modes of transportation and all users of the roadway network</td>
<td>No</td>
</tr>
<tr>
<td><strong>4. Clear, Accountable Exceptions:</strong> Includes that an effective implementation of the Complete Streets Policy requires a process for exceptions to providing for all modes in each project, as well as that the exception process must also be transparent by providing public notice with opportunity for comment by providing clear, supportive documentation justifying the exception</td>
<td>Yes</td>
</tr>
<tr>
<td><strong>5. Jurisdiction:</strong> Aims to influence the actions of Local Public Agencies (LPAs), as well as actions through interagency collaboration, through policy that clearly notes that projects address how they will account for the needs of all modes and users, and aims to influence project coordination and connectivity</td>
<td>No</td>
</tr>
<tr>
<td><strong>6. Design:</strong> Strives to create meaningful change on the ground at both the project level and in the creation of a complete, multimodal transportation network, and requires that jurisdictions create or update existing design guidance and standards to advance funded projects to full compliance per the Complete Streets Policy</td>
<td>Somewhat</td>
</tr>
<tr>
<td><strong>7. Land Use and Context Sensitivity:</strong> Aims to prioritize and select transportation projects that will serve current and future land use, including the recommendation of using place-based street typologies, requiring the consideration of community context as a factor in decision-making, and specifies the need to mitigate unintended consequences such as involuntary displacement and negative environmental impacts</td>
<td>Somewhat</td>
</tr>
<tr>
<td><strong>8. Performance Measures:</strong> Strives to measure long range Complete Streets Policy performance through specific performance measurements including but not limited to safety, equity, environmental impacts, and public engagement, and requires that performance measures be released publicly and assigns responsibility for the collection and publication of performance measures to specific individuals, agencies, or committees</td>
<td>Yes</td>
</tr>
<tr>
<td><strong>9. Project Selection Criteria:</strong> Establishes specific project selection criteria and weighting to encourage funding prioritization for Complete Streets implementation, and specifically addresses how equity will be embedded in project selection criteria, as well as addresses how impacts on health, safety, climate change, and multimodal networks will be emphasized</td>
<td>Yes</td>
</tr>
<tr>
<td><strong>10. Implementation Steps:</strong> Requires that related procedures, plans, regulations, and other processes be revised within specified timeframes, and creates a public participation plan with specific strategies for who, when, and how they will approach public engagement in the project selection, design, and implementation process, as well as addresses how the jurisdiction will overcome barriers to engagement for underrepresented communities</td>
<td>Somewhat</td>
