

RESOLUTION #XXXX

A RESOLUTION TO THE BLOOMINGTON COMMISSION ON SUSTAINABILITY (BCOS) TO ADOPT THE UNITED NATIONS 17 SUSTAINABLE DEVELOPMENT GOALS (HERE FORTH REFERRED TO AS "SDG'S") AND USE THEM AS A FRAMEWORK FOR CATEGORIZING AND CONTROLLING COMMISSION PROJECTS

WHEREAS all projects must align with at least ONE but no more than THREE SDG focus areas to facilitate in controlling project scope and identifying primary, secondary, and collateral outcomes.

WHEREAS SDG icons/identifiers will be used to communicate project focuses to partners and third parties.

WHEREAS any projects that cannot be categorized using the SDGs must be reviewed by commissioners to assess if the project falls within the purview of sustainability.

WHEREAS projects that cannot identify the primary outcome or focus will be reviewed by the commission to determine if the project should be split into multiple projects or if specific objectives should be prioritized.

NOW, THEREFORE, BE IT RESOLVED, that the Bloomington commission on sustainability adopt the SDG's as the sole model for project identification and categorization for all sustainability projects moving forward.
