Discussed Annual Report

Suggest we mention to Commission dissolving all committees to ensure equity in group work as the current policy prevents virtual members from being counted

Unfinished Business

Discuss how we will follow up on previous work

- following up and formal proposal for resolutions over religious violence
 - Should do community outreach first
- Follow up on MORE through resolution
 - Committee members will first do research on how signing MORE can be beneficial

New Business & future work

Chip program - Brown Sparks attended a meeting and discussed how Chip may be beneficial in committee recommendations as they are focusing on decreasing discrimination for those experiencing poverty and substance use.

Community involvement in voting and local politics

- Outreach program for next year. Possible with our signature commission program
- Suggest press releases include job outlines and expectations for commissions to aid in accessibility. Encourage more community voices.
- Increase voting numbers in local elections

Resource line for the community

- Brown Sparks connected to a resource that gave her this website that can connect people to resources. <https://helpingbloomingtonmonroe.findhelp.com/>
- Discovered "Safe, Civil, and just Bloomington"
 - Committee wants to find more information about the "safety, civility, and justice initiative"
 - Specifically more on this resource. <https://www.bloomingtonrevealed.com/>
 - Community coordination counsel? Is there a way to get information on what different efforts are happening in this city?
- City Consultant hired to develop policy recommendations such as in Berkley California <https://www.berkeleyside.org/wp-content/uploads/2022/03/Final-Berkeley-Reparations-Item-February-2022-Correct-Year-1.pdf>
