MIH "WINS"

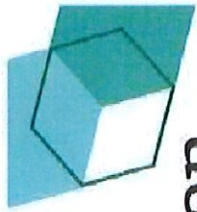

Facilitated first telehealth visit for a homebound patient. During this visit, vitals, pulse oximetry, and breath sounds assessments were provided to the Nurse Practitioner. This information was crucial as the patient's oximetry was in the low 80%'s. The NP ordered a portable chest xray, home oxygen, and home healthcare services.

A 'super-user' identified in December and is an active client has since established primary care; vital for this patient is suffering from untreated renal failure.

Discovered that the BPD Social Workers and BFD's MIH program had two (2) mutual patients/clients. Both were super-users and are getting the holistic help they need now.

Thank you

Dear Bloomington Fire Department,

Thank you for your generous donation of 3 certificates for Birthday Parties at the main firehouse, each valued at \$125, to the City of Bloomington's 2023 Black History Month Silent Auction. Your support helps to ensure we can host programs that are beneficial and educational for our community. Proceeds generated from the silent auction allow the planning committee to host these programs for years to come. Your contributions have been vital in making the City of Bloomington's annual Black History Month celebration a success.

Sincerely,

The Black History Month Committee

Chief Moore,

I wanted to commend a couple of your firefighters from an event that occurred yesterday at Tri-North around 2:40p.m. I didn't have an opportunity to get their names, but I know Jordan Canada was one firefighters present. Please pass along our thanks and I wanted you to know what had happened. We found one of our students in the hallway, unresponsive in a pool of vomit and barely breathing. I called 911 immediately, around 2:39, and your police officers arrived onsite at 2:40. They helped with our initial assessment and first aid, and then we made the decision to administer Narcan before the ambulance or other emergency personnel arrived. The fire department arrived soon after and started also administering oxygen. I think the combination of the two saved her life. People don't always realize the scope of work that firefighters do on a daily basis, and I wanted you to know that a quick response from the Bloomington Fire Dept. and other emergency personnel saved a 13-year old's life. I'm not sure what this student inhaled, and we'll figure it out (her parents have a history of drug addiction, so it's a larger conversation), but I know that she still has a shot at turning her life around because of Bloomington first responders' quick response. If you can figure out who was over here with us, please pass along our genuine thanks.
