Federal Transit Administration Region V 200 West Adams St., Suite 320 Chicago, IL 60606-5253

U.S. Department of Transportation

Federal Highway Administration Indiana Division 575 N. Pennsylvania St., Rm 254 Indianapolis, IN 46204-1576

September 1, 2023

Mr. Michael Smith Commissioner Indiana Department of Transportation 100 N Senate Ave. N955 Indianapolis, IN 46204

SUBJECT: Indiana FY2024-2028 STIP Approval and Associated Federal Planning Finding

Dear Mr. Smith:

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) have completed our review of the FY2024-2028 Indiana Statewide Transportation Improvement Program (INSTIP), which was submitted by the Indiana Department of Transportation (INDOT) request letter dated August 23, 2023.

Based on our review of the information provided, certifications of the Statewide and Metropolitan transportation planning processes for and within the state of Indiana, and our participation in those transportation planning processes (including planning certification reviews conducted in Transportation Management Areas), FHWA and FTA are jointly approving the FY2024-2028 STIP, including the Metropolitan Planning Organization (MPO) Transportation Improvement Programs (TIPs) incorporated into the STIP by reference, subject to the corrective actions identified in the attached Federal Planning Finding (FPF) report. FHWA and FTA consider the projects in the 5<sup>th</sup> year for informational purposes only, and our approval does not exceed four years per 23 CFR 450.220(c).

FHWA and FTA are required under 23 CFR 450.220(b) to document and issue an FPF in conjunction with the approval of the FY2024-2028 STIP. At a minimum, the FPF verifies that the development of the STIP is consistent with the provisions of both the Statewide and Metropolitan transportation planning requirements. FHWA and FTA find that the Indiana FY2024-2028 STIP substantially meets the transportation planning requirements and are approving the STIP subject to the corrective actions outlined in the FPF. This approval is effective September 1, 2023 and is given with the understanding that an eligibility determination of individual projects for funding must be met, and INDOT must ensure the satisfaction of all administrative and statutory requirements, as well as address the corrective actions outlined in the attached report.

If you have questions or need additional information concerning our approval and the FPF, please contact Ms. Erica Tait of the FHWA Indiana Division at (317) 226-7481, or by email at <a href="mailto:erica.tait@dot.gov">erica.tait@dot.gov</a>, or Mr. Tony Greep of the FTA Region 5 Office at (312) 353-1646, or by email at <a href="mailto:anthony.greep@dot.gov">anthony.greep@dot.gov</a>.

Mr. Jermaine R. Hannon, Division Administrator FHWA Indiana Division 575 North Pennsylvania St., Room 254 Indianapolis, IN 46204

Ms. Kelley Brookins, Regional Administrator FTA Region 5 200 West Adams St. Suite 320 Chicago, IL 60606-5253

#### Dear Mr. Hannon /Ms. Brookins:

The Indiana Department of Transportation is pleased to submit its FY 2024-2028 Statewide Transportation Improvement Program (STIP) for review and approval by your offices.

Included in the final submitted document is a listing of the state's expansion/preservation and local small urban and rural and rural transit projects. The following Metropolitan Planning Organization TIPs will be included in the FY 2024-2028 STIP by reference.

| Area Plan Commission of Tippecanoe County (APCTC)                                     | FY 2024-2028 |

| <u>IP.pdf</u>                                                                                                                                                     |              |

In addition, INDOT has expanded our public involvement process by taking advantage of virtual meeting techniques and allowing accessibility to online documents, materials, virtual meeting registration, recorded virtual meetings, and comment forms. INDOT also leveraged our planning partner contacts (MPOs, RPOs, LTAP), social media, and notifications sent to local libraries, housing authorities, senior aging centers, and local newspapers across the state.

We greatly appreciate FHWA/FTA support in the development of the STIP 2024-2028 and look forward to working together to achieve our mutual goals. Should you have any questions pertaining to this amendment, please contact April Leckie, STIP Administration at 317-232-5466 or at aleckie@indot.in.gov.

Sincerely,

Michael Smith, Commissioner

I. Anticipated Letting Date: 7/12/2023

#### **Section 4: Financial Plan**

Identify all anticipated costs for all phases of the project, including any costs anticipated in years beyond the scope of this TIP. All phases **must** incorporate a four percent (4%) per year inflation factor per BMCMPO policy. All CN phases must include an appropriate amount of funding for construction inspection in addition to project construction costs.

Note: Fiscal Year 2024 begins on July 1, 2023 and ends on June 30, 2024

# **Section 5: Complete Streets Policy**

#### A. Select one of the following:

| <b>Compliant -</b> This project is subject to the Complete Streets Policy because it involves the new construction or reconstruction of local roadways that will use federal funds through the BMCMPO for any phase of project implementation. <i>Additional Information items</i> <b>1-8</b> (below) must be submitted for compliant projects.                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Not Applicable -</b> This project is not subject to the Complete Streets Policy because it is a transit project, a non-roadway project, a resurfacing activity that does not alter the current/existing geometric designs of the roadway, or is a project that uses federal funds for which the BMCMPO does NOT have programming authority. <i>No Additional Information items</i> (below) have to be provided for projects to which the Complete Streets Policy does not apply. |
| <b>Exempt</b> – The LPA is requesting that this project be exempted from the Complete Streets Policy due to certain circumstances or special constraints, as detailed in Section IV of the Complete Streets Policy. Please provide a detailed explanation of why the project should be exempted. Additional Information items <b>1</b> , <b>4-8</b> (below) must be submitted for Exempt projects.  Justification for Exemption:                                                    |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

#### B. Additional Required Information:

Please attach to this application form or provide the following information below as required by the Complete Streets Policy to expedite processing of this project request. If any items are unknown at the time of application, the applicant may indicate that "specific information has not yet been determined." Any required information not provided at the time of this application must be reported to the MPO as soon as it becomes available.

- Detailed Scope of Work Provide relevant details about the project that would be sufficient to use when seeking consulting services (detailed project description, vehicular elements, non-vehicular elements, new construction/reconstruction).
   Please see attached detailed description of the project.
- 2) <u>Performance Standards</u> List specific performance standards for multimodal transportation, including, but not limited to transit, pedestrian, bicycle, and automobile users, ADA and Universal Design, environmental, utilities, land use, right of way, historic preservation, maintenance of services plan, and any other pertinent design component in relation to current conditions, during implementation/construction, and upon project completion.

All phases of this project have included all ADA compliancy and improving all modes of transportation, including bicyclists and pedestrians by providing multi-use paths and sidewalks. All environmental processes have been followed throughout the whole corridor. The multi-use path included in the project will provide significant multimodal connectivity benefits with existing trail networks, by providing direct east/west access to the north/south Bloomington Rail Trail and Clear Creek Trail.

- 3) <u>Measurable Outcomes</u> Identify measurable outcomes the project is seeking to attain (e.g. safety, congestion and/or access management, level-of-service, capacity expansion, utility services, etc.). The project was planned for many years to be a southwest connection to I69. The purpose of the project is to provide connectivity in the southern portion of the county.
- 4) <u>Project Timeline</u> Identify anticipated timelines for consultant selection, public participation, design, right-of-way acquisition, construction period, and completion date.

  <u>The project is set for letting in July 2023. The project will take approximately 18-24 months to be completed.</u>
- 5) <u>Key Milestones</u> identify key milestones (approvals, permits, agreements, design status, etc.).

  All permits have been applied for and approved. All project timelines have been met from design, to right-of-way to construction to keep the project on target for the projected letting date. All contracts have been completed and approved.
- 6) Project Cost Identify any anticipated cost limitations, additional funding sources, project timing, and other important cost considerations not included in the table above.

  Monroe County has been committed to see the completion of the project by providing all the necessary funding for the project. 60% of the design cost was paid from various funding sources for the project. 50% of the right-of-way costs were paid from county funds also. The county has committed these funds to see the project to completion.
- 7) Public Participation Process Describe the public participation process (types of outreach, number and type of meetings, etc.), and the benchmark goals for the project (participation rates, levels of outreach, levels of accountability and corresponding response methods to input received, etc.).

  Monroe County has held numerous public meetings for several years for this project. The first phase of this project began in 2008, however the original concept of the project dates as far back as 1995 in the Monroe County Thoroughfare Plan that was adopted that year.
- 8) <u>Stakeholder List</u> Identify the key parties/agencies/stakeholders/interest groups anticipated to be engaged during project development and their respective purpose for being on the list.

  <u>Bloomington Monroe County MPO, Monroe County Council, Monroe County Commissioners, Monroe County Redevelopment Commission and INDOT.</u>

|    |                                                                              |
|    |                                                                              |

# I. Anticipated Letting Date: 2/15/2024

# **Section 4: Financial Plan**

Identify all anticipated costs for all phases of the project, including any costs anticipated in years beyond the scope of this TIP. All phases **must** incorporate a four percent (4%) per year inflation factor per BMCMPO policy. All CN phases must include an appropriate amount of funding for construction inspection in addition to project construction costs.

Note: Fiscal Year 2024 begins on July 1, 2023 and ends on June 30, 2024.

| Phase | Funding<br>Source | FY 2024       | FY 2025 | FY 2026 | FY 2027 | FY 2028 | Outlying<br>Years |
|-------|-------------------|---------------|---------|---------|---------|---------|-------------------|
| D.F   |                   | \$            | \$      | \$      | \$      | \$      | \$                |
| PE    |                   | \$            | \$      | \$      | \$      | \$      | S                 |
|       |                   | \$            | \$      | \$      | \$      | \$      | S                 |
|       |                   | \$            | \$      | \$      | \$      | \$      | S                 |
| RW    |                   | \$            | \$      | \$      | \$      | \$      | S                 |

# **Section 5: Complete Streets Policy**

| ۸. | Select | one of the following:  Compliant - This project is subject to the Complete Streets Policy because it involves the new construction or reconstruction of local roadways that will use federal funds through the BMCMPO for any phase of project implementation. Additional Information items 1-8 (below) must be submitted for compliant projects.                                                                                                                                   |
|----|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    |        | <b>Not Applicable</b> - This project is not subject to the Complete Streets Policy because it is a transit project, a non-roadway project, a resurfacing activity that does not alter the current/existing geometric designs of the roadway, or is a project that uses federal funds for which the BMCMPO does NOT have programming authority. <i>No Additional Information items</i> (below) have to be provided for projects to which the Complete Streets Policy does not apply. |
|    |        | <b>Exempt</b> – The LPA is requesting that this project be exempted from the Complete Streets Policy due to certain circumstances or special constraints, as detailed in Section IV of the Complete Streets Policy. Please provide a detailed explanation of why the project should be exempted. <i>Additional Information items</i> <b>1, 4-8</b> (below) must be submitted for Exempt projects. <i>Justification for Exemption</i> :                                              |

### B. Additional Required Information:

Please attach to this application form or provide the following information below as required by the Complete Streets Policy to expedite processing of this project request. If any items are unknown at the time of application, the applicant may indicate that "specific information has not yet been determined." Any required information not provided at the time of this application must be reported to the MPO as soon as it becomes available.

1) <u>Detailed Scope of Work</u> – Provide relevant details about the project that would be sufficient to use when seeking consulting services (detailed project description, vehicular elements, non-vehicular elements, new construction/reconstruction).

The project involves the installation of Rectangular Rapid Flashing Beacons (RRFBs) at seven existing multiuse path road crossings, located within Monroe County. The RRFB's will be pushbutton-actuated, and will be ADA-compliant. The following locations will receive this system:

- 1) Clear Creek Trail @ Rockport Road
- 2) Clear Creek Trail @ W That Road
- 3) Clear Creek Trail @ Victor Pike
- 4) Bloomington Rail Trail @ Rogers Street
- 5) Bloomington Rail Trail @ W That Road
- 6) Limestone Greenway @ Church Lane
- 7) Limestone Greenway @ Dillman Road

The objective of this project is to improve crossing safety. Currently, the crossings are addressed with warning signage.

2) Performance Standards – List specific performance standards for multimodal transportation, including, but not limited to transit, pedestrian, bicycle, and automobile users, ADA and Universal Design, environmental, utilities, land use, right of way, historic preservation, maintenance of services plan, and any other pertinent design component in relation to current conditions, during implementation/construction, and upon project completion.

The design will adhere to PROWAG, Indiana Department of Transportation Design Manual ,and FHWA/AASHTO Guidelines.

3) <u>Measurable Outcomes</u> – Identify measurable outcomes the project is seeking to attain (e.g. safety, congestion and/or access management, level-of-service, capacity expansion, utility services, etc.).

This project will improve pedestrian crossing safety by increasing awareness of crossing pedestrians. Additionally, the project will reduce accident rates near the crosswalks, as all approaching vehicles will have increased awareness of potentially stopped vehicles (reduce rear end crashes).

4) <u>Project Timeline</u> – Identify anticipated timelines for consultant selection, public participation, design, right-of-way acquisition, construction period, and completion date.

Consultant Selection: Complete

Public Participation: Not required (this is a CE Level 1)

Design: 7/27/22-4/3/23

Right-of-Way Acquisition: No R/W Reg'd

Construction: 3/1/24-6/1/24

Completion: 6/1/24

5) **Key Milestones** – identify key milestones (approvals, permits, agreements, design status, etc.).

Approvals: INDOT Design Approval will be Completed as a part of the Stage 3 and Tracings

Submittals (see dates above)
Permits: No Permits Required

Agreements: Design Agreement is Complete

Inspection Agreement Anticipated be Complete by Fall/23 (Tracings Due Date)

Design Status: Design is 100% Complete

6) <u>Project Cost</u> – Identify any anticipated cost limitations, additional funding sources, project timing, and other important cost considerations not included in the table above.

No other cost considerations.

7) Public Participation Process – Describe the public participation process (types of outreach, number and type of meetings, etc.), and the benchmark goals for the project (participation rates, levels of outreach, levels of accountability and corresponding response methods to input received, etc.).

The project will be limited to safety enhancements at existing facilities, within the existing right-of-way. No public participation is planned.

8) <u>Stakeholder List</u> – Identify the key parties/agencies/stakeholders/interest groups anticipated to be engaged during project development and their respective purpose for being on the list.

<u>Monroe County Board of Commissioners, Monroe County Council, Monroe County Parks and Recreation Department</u>

<u>Source</u>: Bloomington-Monroe County Metropolitan Planning Organization, 09-12-23.

# BMCMPO Nov. 2018 Complete Streets Policy Feedback

#### Element 2

#### 2A

Criteria: This definition may be quantitative (i.e. neighborhoods with X% of the population without access to a vehicle or where the median income is below a certain threshold) or qualitative (i.e. naming specific neighborhoods).

Feedback: though the glossary does mention Priority Groups, the definition is not measurable

#### 2B

Criteria: The policy language requires the jurisdiction to "prioritize" underinvested and underserved communities. This could include neighborhoods with insufficient infrastructure or neighborhoods with a concentration of people who are disproportionately represented in traffic fatalities.

Feedback: On page 3, there is acknowledgment of the intention to benefit underserved communities, however the communities and the ways in which they are impacted are not specified.

"To ensure equity for all people who use the transportation network, regardless of race, socioeconomic status or physical ability."

#### Element 7

7C

Criteria: Policy requires the consideration of the community context as a factor in decision-making.

Feedback: On Page 12 under Project Prioritization the last section mentions Context Sensitivity but the points under that section are not quite specific/concrete enough

7D

Criteria: Policy specifies the need to mitigate unintended consequences such as involuntary displacement.

Feedback: No mention

#### **Element 8**

8C

Criteria: Policy embeds equity in performance measures by measuring disparities by income/race/vehicle access/language/etc. as relevant to the jurisdiction.

Feedback: Page 11 (under Performance Measures) "Equity" states "Impacts and benefits *should be looked at* for traditional disadvantages populations". Language can be strengthened here.

8D

Criteria: Policy specifies a time frame for recurring collection of performance measures

Feedback: Page 9 under Evaluation "BMCMPO may evaluate projects using the performance measures". There is no specified time frame, and the language can be strengthened here.

8F

Criteria: Policy assigns responsibility for collecting and publicizing performance measures to a specific individual/agency/committee

Feedback: There is no mention of who is responsible for collecting and publicizing performance data

#### **Element 9**

9B

Criteria: Policy specifically addresses how equity will be embedded into project selection criteria.

Feedback: Page 12 Table 2 - Project Prioritization Criteria says "Health and Equity includes increased accessibility for people with a low income and minorities" but the language is not active as to how equity will be embedded

#### Element 10

10B

Criteria: Policy requires workshops or other training opportunities for transportation staff. Policy is specific about the timing and/or participants for the training and workshops.

Feedback: On page 13, encourages but does not require

10C

Criteria: Policy assigns responsibility for implementation to a new or existing committee that includes both internal and external stakeholders that are representative of underinvested and vulnerable communities. Specific about which stakeholders are/will be represented on the committee.

Feedback: Not specific about inclusion of internal and external stakeholders

#### 10D

Criteria: Policy creates a community engagement plan with specific strategies for who, when, and how they will approach public engagement but does not address underrepresented communities.

Feedback: Page 6 (under Community Engagement) mentions a plan but does not specifically address underrepresented communities

#### I. DEFINITION

Complete Streets are roadways designed to accommodate all users, including, but not limited to, pedestrians, bicyclists, users of public transit, and individual mobility devices, people with disabilities, the elderly, motorists, freight providers, emergency responders, and adjacent land users. Through Complete streets, the safety and mobility for vulnerable road users is as much of a priority as all other modes.

#### II. APPLICABILITY

This policy shall apply to each of the following at the beginning of 2025:

- 1. All new construction and reconstruction/retrofit of local roadways that will use federal funds through the Bloomington-Monroe County Metropolitan Planning Organization (BMCMPO) for any phase of project implementation including planning, design, right-of-way acquisition, construction, or construction engineering. This includes all maintenance and ongoing operations projects such as resurfacing, repaving, restriping, rehabilitation, or other types of changes to the transportation system; or
- 2. Local roadway projects that are included in the Transportation Improvement program (TIP) and are not past the Preliminary Field Check Phase or more than thirty percent (30%) complete with design at the time this policy is adopted; or
- 3. Local roadway projects where the BMCMPO has the programming authority to allocate federal funding; or
- 4. Projects which are beyond thirty percent (30%) complete with design are still bound to comply with the 2009 2018 Complete Streets Policy.

#### III. VISION AND PURPOSE

This Complete Streets Policy is written to empower and direct residents, elected officials, government agencies, planners, engineers, and architects to use an interdisciplinary approach to incorporate the needs of all users into the design and construction of roadway projects funded through the Bloomington-Monroe County Metropolitan Planning Organization (BMCMPO).

The Complete Streets concept is an initiative to design and build roads that adequately accommodate all users of a corridor, including pedestrians, bicyclists, users of mass transit, people with disabilities, the elderly, motorists, freight providers, emergency responders, and adjacent land users. This concept dictates that appropriate accommodations be made so that all modes of transportation can function safely, comfortably and independently in current and future conditions. A Complete Streets policy can be adapted to fit local

community needs and used to direct future transportation planning. Such a policy should-must incorporate community values and qualities including environment, scenic, aesthetic, historic and natural resources, as well as safety and mobility. This approach demands careful multimodal evaluation for all transportation corridors integrated with best management strategies for land use and transportation.

The desired outcome of this Complete Streets Policy is to create an equitable, balanced, and effective transportation system for all types of users that is integrated with adjacent land uses where every roadway user can safely and comfortably travel throughout the community.

The goals of this Complete Streets Policy are:

- To ensure that the safety and mobility of all users of the transportation system are accommodated, including pedestrians, bicyclists, users of mass transit, people with disabilities, the elderly, motorists, freight providers, emergency responders, and adjacent land users;
- To incorporate the principles in this policy into all aspects of the transportation project development process, including project identification, scoping procedures and design approvals, as well as design manuals and performance measures;
- To create a comprehensive, integrated and connected transportation network that supports compact, sustainable development;
- 4. To ensure the use of the latest and best design standards, policies and guidelines;
- 5. To recognize the need for flexibility to accommodate different types of streets and users:
- 6. To ensure that the Complete Streets design solutions fit within the context(s) of the community; and
- 7. To ensure equity for all people who use the transportation network, regardless of race, socioeconomic status, or physical ability.

#### IV. POLICY

 Roadway projects shall appropriately accommodate the safety and comfort of all users of the transportation system, including pedestrians, bicyclists, users of mass transit, people with disabilities, the elderly, motorists, freight providers, emergency responders, and adjacent land users. It is important to remember that vulnerable road users have less crash protection than people contained inside vehicles and therefore have a higher risk of being injured or killed in the event of a collision due to the lack of external crash protection provided by larger motor vehicles.

- 2. The BMCMPO will promote the Complete Streets concept throughout the region and, therefore, encourages and recommends that all local MPO partner agencies adopt their own comprehensive Complete Streets policy that applies to projects not funded through the MPO.
- 3. Complete Streets solutions shall be developed to fit within the context(s) of the community and those solutions shall be flexible so that the vision and goals of the BMCMPO Metropolitan Transportation Plan (MTP) can be met.
- 4. The Local <u>Public-Planning</u> Agency (LPA) shall identify anticipated phases and key milestones of project development.
- 5. The LPA shall create a project specific community engagement plan.
- 6. The LPA shall maintain open lines of communication with key party/agency/interest groups and shall identify and maintain a key stakeholder <u>list</u>, <u>which includes internal and external stakeholders</u>.
- 7. Every project shall ensure that the provision of accommodations for one (1) mode does not prevent safe and comfortable use by another mode.
- 8. Every project shall provide and maintain accommodations for all modes of transportation to continue to use the roadway safely and efficiently during any construction or repair work that encroaches on the right-of-way, sidewalk and multiuse path. For instances where the full closure of a roadway is necessary to complete construction work, detour routes for all modes shall be established and signed using appropriate traffic control signage.
- 9. All projects shall make use of the latest and best design standards, policies and guidelines.
- 10. Projects sponsored by the Indiana Department of Transportation (INDOT) that are located within the BMCMPO urbanizing area are strongly encouraged to comply with INDOT's self-adopted Complete Streets policy.

#### V. PROCESS

#### Transportation Improvement Program (TIP) Development

In response to a BMCMPO issued Call for Projects for any roadway project that seeks to use federal funding and be programmed in the TIP, the Local <u>Public-Planning</u> Agency (LPA) shall submit a completed TIP application form. The LPA shall submit the following information to the BMCMPO staff:

- a. A detailed project location map and project description (e.g. project scope, reconstruction/new construction, specify facilities for each mode);
- b. A detailed purpose and need;
- c. A clear relationship to the purpose of a project to the MTP and any other existing plans and policies (e.g. MPO Crash Report);
- d. The intent for the project to be Complete Streets Compliant or to seek a Complete Streets exception;
- e. The amount of federal funding requested by phase (e.g. preliminary engineering, rights-of-way, construction, construction inspection);
- f. The anticipated dates for project design initiation and construction contract letting;
- g. The project stakeholder list or key party/agency/interest group identification list, including any underrepresented groups or communities;
- h. The public participation process with goals to attain, such as public meeting dates and what will be accomplished (It is best not to come to the public to simply present pre-established goals but rather to encourage participation and dialogue that leads to useful information. LPA's should be prepared to discuss constructively what the public cares about and ask for ideas.); and
- i. Contact information for the project manager.

#### **Project Selection Process and Criteria**

BMCMPO staff shall evaluate project applications based on the Project Prioritization Criteria found in Section IX. Project Prioritization Criteria.

The BMCMPO staff will forward the prioritized list and corresponding score sheets for each project to the committees of the MPO as a recommendation for final decision. This list of prioritized projects is not intended to serve as a definitive decision-making tool but rather as guidance for programming projects into the TIP.

Community engagement for project programming shall occur in accordance with the BMCMPO Public Participation Plan.

BMCMPO staff shall update the MPO Environmental Justice Map, found on the City of Bloomington's GIS Data Portal, with local projects submitted LPAs. The MPO Environmental Justice Map displays the U.S. EPA's Environmental Justice demographic indexes datasets, including low-income and people of color populations, based on Census ACS 2017-2021 5-Year estimates data. The map informs LPAs of local priority groups.

# Post-Transportation Improvement Program (TIP) Adoption 1. Community Engagement

Maintaining a direct line of communication between residents and decision makers can improve outreach efforts and, ultimately, the projects themselves.

- a. The LPA shall update the purpose and need of the project, if necessary, following initial public outreach as established in the original TIP application.
- b. The LPA shall utilize a participatory design approach and engage the community and the <u>BMCMPO</u> Citizens Advisory Committee (CAC) early in the project design process. <u>The CAC may host internal and external stakeholders, particularly those representing vulnerable communities and/or priority groups, to understand perspectives and impacts.</u>
- c. At least one (1) public meeting is required, with the expectation that more may be necessary depending on factors such as project cost, size, or scope.
- d. The LPA shall engage underrepresented communities and stakeholders identified in the original TIP application. The MPO Environmental Justice Map assists LPAs in identifying priority groups.
- e. Outreach strategies should occur at convenient times for the general public and at locations making use of easy and natural gathering spaces such as neighborhood association meetings, community centers, public libraries, or farmers' markets.

#### 2. Complete Streets Design Guidance

Final design plans for all projects will be context-sensitive with the adjacent land use while incorporating Americans with Disabilities Act (ADA) compliant design standards. Each project must be considered both separately and as part of a connected network to determine the level and type of project necessary for the street to be complete. LPA's are strongly encouraged to utilize a participatory design approach to project development.

LPA's shall use the latest and best design standards available with the understanding that some design standards are required such as those set by the Indiana Department of Transportation (INDOT)\_and the United\_States Department of Transportation (USDOT). Other design guides include, but are not limited to:

- a. U.S. Access Board Public Right-of-Way Accessibility Guidelines (PROWAG);
- b. National Association of City Transportation Officials (NACTO) Urban Street Design Guide;
- c. NACTO Urban Bikeway Design Guide;
- d. Institute of Transportation Engineers (ITE) Designing Walkable Urban Thoroughfares: A Context Sensitive Approach;
- e. American Association of State Highway Transportation Officials (AASHTO) Guide for the Planning, Designing, and Operation of Pedestrian Facilities:
- f. AASHTO Guide for the Development of Bicycle Facilities;
- g. AASHTO Green Book; and
- h. Manual on Uniform Traffic Control Devices (MUTCD) Federal and Indiana Supplement.

#### VI. EXCEPTIONS

#### 1. Approval Process

- a. LPA's requesting a Complete Streets policy exception shall submit clear and supportive documentation for justifying the exception.
- b. A fourteen (14) day public comment period shall precede any final decisions made by the <u>BMCMPO</u> Policy Committee. The

- public shall be notified via legal notices in the newspaper, on the MPO website, and via the MPO contact list.
- c. Exceptions to this policy shall be approved by resolution of the <a href="BMCMPO">BMCMPO</a> Policy Committee with guidance from the Technical and <a href="BMCMPO">BMCMPO</a> Citizens Advisory <a href="Committees">Committees</a>, internal and external <a href="stakeholders">stakeholders</a>, -and the public at large.
- d. The BMCMPO Policy Committee shall make a decision to certify or not certify an exception under certain circumstances, including the following:
  - The project involves a roadway that bicyclists and pedestrians are prohibited by law from using. In such case, efforts should be made to accommodate bicyclists and pedestrians elsewhere:
  - ii. There are extreme topographic or natural resource constraints;
  - iii. The Metropolitan Transportation Plan's twenty (20) year or greater Average Daily Traffic (ADT) projection is less than 1000 vehicles per day;
  - iv. When other available means or factors indicate an absence of need presently and in the twenty (20) year or greater forecast horizon;
  - v. A reasonable and equivalent alternative already exists for certain users or is programmed in the TIP as a separate project; and
  - vi. The project is not a roadway improvement project and/or the BMCMPO has no programming authority (e.g. State, Bloomington Transit, Rural Transit, and other projects).
- e. No project shall be granted an exception to any criteria that opposes any item in Section II. Applicability.
- f. Only exceptions approved from the National Complete Streets Coalition's list may be granted:
  - i. Accommodation is not necessary on corridors where specific users are prohibited, such as interstate freeways or pedestrian malls. Exclusion of certain users on particular corridors should not exempt projects from accommodating other permitted users;

- <u>ii. Cost of accommodation is excessively disproportionate to the need or probable use;</u>
- iii. A documented absence of current and future need;
- iv. Emergency repairs such as a water main leak that require an immediate, rapid response; however, temporary accommodations for all modes should still be made (depending on the severity of the repairs, opportunities to improve multimodal access should still be considered where possible);
- v. Transit accommodations are not required where there is no existing or planned transit service;
- vi. Routine maintenance of the transportation network that does not change the roadway geometry or operations, such as moving, sweeping, and spot repair; and
- <u>vii.</u> Where a reasonable and equivalent project along the same corridor is already programmed to provide facilities exempted from the project at hand.

#### 2. Appeals Process

Project sponsors may request a re-review of their projects by the <a href="MCMPO"><u>BMCMPO</u></a> Technical Advisory Committee (TAC) subject to the following:

- a. All appeals will be heard and decided upon by a quorum of the TAC on an as needed basis;
- b. The project sponsor shall submit adequate information to explain and substantiate the need for an exception;
- BMCMPO staff will review the request initially and provide a report with recommendations to the TAC in advance of the regular meeting;
- d. Members with conflicts of interest on a particular project must recuse themselves from deliberation on that project; and
- e. A sponsor may appeal only once to the TAC per special case before the decision rests, and a sponsor may not appeal to any other committee of the MPO thereafter.

#### VII. EVALUATION

#### 1. Complete Streets Policy

The BMCMPO shall, at a minimum, evaluate this policy prior to the adoption of every new TIP. This evaluation shall include recommendations for amendments to the Complete Streets Policy and subsequently be considered by the BMCMPO Citizens Advisory

Committee, Technical Advisory Committee and Policy Committee. Recommendations for amendments shall be distributed to the Local Public-AgenciesLPA for review prior to consideration by the BMCMPO Committees.

#### 2. Post-Construction Evaluation of Projects

The BMCMPO may must evaluate projects using the performance measures in Section IX to understand the outputs and outcomes of transportation design, scope, and, ultimately, programming decisions on a biennial basis, aligning with the Transportation Improvement Program schedule.

#### VIII. PERFORMANCE MEASURES

The intent of this policy is the creation of a transportation system that accommodates all users and modes. The performance of Complete Streets planning and this Complete Streets Policy will be measured via the metrics below and made available publicly. Data will be <u>collected</u> and presented by the BMCMPO using trend patterns with the intent to inform the public and decision makers about transportation project funding and design. The adage "what gets measured gets done" is important to remember when measuring the outputs and outcomes of transportation project decisions.

Table 1. Recommended Place Measures and Metrics, is inspired, adapted by, and adopted from Evaluating Complete Streets Projects: A guide for practitioners, a resource created by American Association of Retired Persons (AARP) and Smart Growth America (SGA) for measuring the results of alternative transportation projects. Place Measures fall under the macro-level headings of "Place", "Crash Risk", and "Equity." Application scales consider project and network levels. Detailed applicable project and network "metrics" represent the foundation of each Place Measure and relevant application scale.

Table 1. Recommended Place Measures and Metrics\*

| PLACE MEASURE                                                     | APPLICATION SCALE      | METRIC                                                                                                                                                                                                                                                                                                     |

# IX. Project Prioritization Criteria

The following Project Prioritization Criteria (Table 2) serves the BMCMPO Citizens Advisory Committee, the Technical Advisory Committee, and the Policy Committee as a guiding prioritization framework for the placement of projects into the Transportation Improvement Program (TIP). The BMCMPO is not bound by any outcomes of this process.

Table 2. BMCMPO Transportation Improvement Program – Project Prioritization Criteria

| BMCMPO TIP - Project Prioritization Criteria                                                                                                                  |              |               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|---------------|
|                                                                                                                                                               | Weighting    | Yes = 1, No = |

#### X. GLOSSARY DEFINITIONS

<u>Environmental Justice (EJ) – the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.</u>

**Participatory Design** – an approach to project design that actively involves all stakeholders to ensure the final design meets their needs and is usable.

Priority Group – a specific concentration of environmental justice populations, outlined in the MPO Environmental Justice Map. High concentrations of EJ populations indicate a greater than 50% demographic index, including low-income and people of color populations. Medium-High concentrations of EJ populations indicate a greater than 25% demographic index (but lower than 50%), including low-income and people of color populations. Medium-Low concentrations of EJ populations indicate a greater than 10% demographic index (but lower than 25%), including low-income and people of color populations.

**Underrepresented Area** – a geographic area that largely consists of marginalized or minority residents.

**Vulnerable Road User or Vulnerable User** – a person utilizing the right-of-way for transportation purposes whereby the individual is disadvantaged or limited by either the amount of protection in traffic (e.g. pedestrians and cyclists) or by the amount of task capability to smoothly integrate with other types of traffic (e.g. older or younger individuals). Vulnerable Users do not typically have a protective shell and/or move at slower speeds and are thus more susceptible to physical harm in the event of a collision, especially with vehicles with a larger mass.

#### **NEXT STEPS**

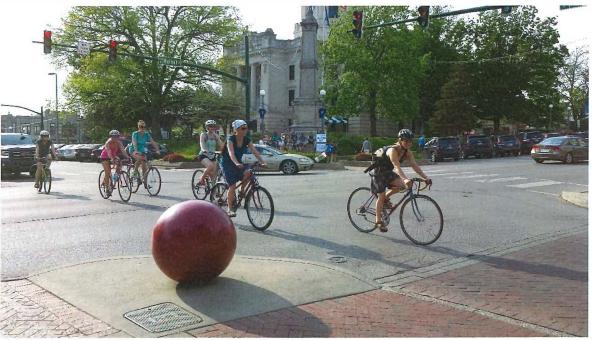

1. **Update MPO Plans and Documents.** The MPO should update the *Public Participation Plan* to coincide with this Complete Streets Policy within nine (9) months of the adoption of this policy.

The MPO should update the Metropolitan Transportation Plan (MTP) to coincide with this policy and reevaluate the MTP projects utilizing the project selection process and criteria in this policy. The recommended update should occur within one (1) year of the adoption of this policy.

The MPO should update the MPO Environmental Justice Map during the development of a TIP in addition to any changes made to individual projects between TIP developments. The MPO Environmental Justice Map may be found at the link below: https://bloomington.in.gov/arcgis/apps/webappviewer/index.html?id=906a510caffc484cab4fe152092f3024

- 2. Education and Training. Education about Complete streets roadway design best practices for community members and decision makers is essential. The BMCMPO encourages-requires professional development and training on Complete Streets and active transportation issues for any MPO representative and staff including but not limited to LPA project managers, members of the Policy Committee, the Technical Advisory Committee, the Citizens Advisory Committee, as well as and BMCMPO staff. These individuals are encouraged to attend at least one (1) of the following opportunities per year: the annual Indiana MPO Conference, the Indiana Walk & Bike Summit, the annual Purdue Road School as well as any other Complete Streets related conferences, webinars, workshops and seminars that are sponsored by America Walks, Smart Growth America, the Institute of Transportation Engineers, the American Planning Association, and the Congress for the New Urbanism.
- 3. **Integrate Transportation and Land Use.** The BMCMPO along with the LPA's should create place-based street typologies to ensure sound transportation project decisions are made in conjunction with sound land use decisions. Place-based street typologies should be adopted/updated along with every MTP.

The Bloomington-Monroe County Metropolitan Planning Organization Complete Streets Policy was officially adopted by the BMCMPO Policy Committee on November 9, 2018.
