### JACK HOPKINS FUNDING – PAST & PRESENT

In 2024 the Committee has **\$350,000** in budgeted funds to distribute. The following reflects the growth of the fund since its inception.

NOTE: The increase of funding in 2020 & 2021 was due to the COVID-19 Recover Forward initiative.

## ABOUT JACK HOPKINS FUNDS

- Unused funds from previous years may be available upon additional appropriation. The final amount will not be known until final claims are received, due on 15 March 2024.
- A non-reverting Jack Hopkins Fund was created in 2017 and allows for any unused program funds to be available for future allocation by the Jack Hopkins Committee rather than reverting to the City's General Fund at the end of the year.
- While this is a non-reverting fund, any unused money must still be appropriated from the Jack Hopkins Fund. As with any appropriation ordinance, state law requires that the City executive propose the appropriation.

## ASSESSING THE 2023 PROGRAM

The Hopkins program is assessed at the end of each funding cycle through three vehicles: a Committee debriefing meeting; an applicant survey; and self-reports submitted to the City's HAND department upon the submission of an agency's final claim.

- In 2023 the Committee distributed \$323,000 among 32 agency programs.
- Survey responses for 2023 are included in the Survey Report contained in this packet.
- The current status of 2023 grants will be provided in a HAND Monitoring Report from Cody Toothman. The final status of grants and self-reports may be compiled by HAND and provided after the final claims deadline.

## NOTES AND ISSUES TO ADDRESS FOR 2024

The Committee held its [Debriefing Meeting on May 25, 2023](#) and had no formal recommended changes for the 2024 funding cycle. However, members expressed interest in a few topics to consider this year:

- Operational Funding Requests – Since 2016, the Committee has recognized that the local, state, and national economic climate has made it difficult for agencies to secure operational funding. Because operational funding is crucial to a non-profit's continued provision of essential services, the Committee accepted funding requests for operational expenses from agencies on a year-to-year basis. At the end of the 2021 funding cycle, the Committee voted unanimously to change the Elaboration of Criteria to accept operational requests on a permanent basis. Several members questioned whether this should still be the case, as they hoped to discourage agencies from relying on the Jack Hopkins program as a year-to-year funding source for operational expenses. Unless the Committee decides otherwise, the 2024 Elaboration of Criteria will state that requests for operational funding will be considered.
- Emphasis on Reporting – At least one committee member suggested that more emphasis should be placed on agency reporting and outcomes and a guide for future funding decisions.
- Increase amount of funding available – The amount of grant funding available through the Jack Hopkins program has grown over time, but is generally outpaced each year by the total amount requested by applicants. Several members expressed a desire to make more money available through the program.

Subject: Social Services Funding

Most of us have discussed the question of social services funding, either in the Social Services Committee (which has met twice) or individually. I would like to summarize the discussions of the committee so far, in order that we may act soon to take final action on the matter.

The committee reached a consensus on the following criteria to be used for choosing appropriate programs for funding in the 1993 budget year:

1. The focus should be on previously identified priority areas.
2. Programs or projects should be such that a one-time investment will make a substantial difference.
3. Priority should be given to projects or programs where investments now will have a positive long-term spillover effect (such as reduced susceptibility to other diseases, decreased absences from school, reducing lost time for sick child care, etc.)
4. Capital should be leveraged wherever possible by watching from other sources.

The Social Services committee concluded that the Community Health Program meets all these criteria. Appropriation of the available 1993 social services funds for the Public Health Nursing Association would enable the PHNA to carry out a drive for complete immunization of all children in Bloomington and Monroe County and enable the consolidation of three separate locations into one building, which would save substantial funds in the process. The possibility of leveraging the investment through Community Foundation's Lilly Endowment grant is being pursued. In addition, a substantial additional appropriation from Monroe County makes the Bloomington investment particularly timely and effective.

I would appreciate your comments before any final action is taken to introduce an appropriation ordinance for this purpose.

# 2023 Jack Hopkins Agency Survey

Your agency sought funds for:

5 responses

According to current guidelines, an agency application will be evaluated under the following criteria - whether the request: 1) addresses a previously-identified priority for social services, 2) functions as a one-time investment (though operational funding requests will also be considered), 3) leverages matching funds or other co-funding mechanisms, and 4) makes a broad and long lasting contribution to the community. Did these criteria adequately explain which programs or projects your organization could seek funding for in 2023?

### How did you learn about the Jack Hopkins Social Services Fund?

5 responses

### The Committee strives to make the application process as simple and convenient as possible. What did you think about the application process? How might we improve it?

4 responses

It's pretty good as is.

I would appreciate more transparent feedback on how our application was evaluated and what, if anything, would have encouraged the committee to more fully fund our requests.

It is pretty simple and convenient.

The application is relatively straightforward.

### Did your agency attend the Technical Assistance for Applicants meeting?

5 responses

If you attended the Technical Assistance for Applicants meeting, what were the most helpful aspects of the meeting? What would you like to see addressed in the future?

2 responses

It was very helpful and thorough. I have attended many meetings before, so am very familiar with the process.

n/a

If you did not attend the Technical Assistance for Applicants meeting, is there a change to the meeting -- including, but not limited to, matters such as time, place, or content -- that might encourage you to attend next year? Any feedback is appreciated.

During Agency Presentations, the Committee treated agencies in a fair and equitable manner.

How can the allocation process be more effective in meeting community needs?

I'm not sure

I wish I knew! The need always outstrips available funding.

Did your agency receive funding in 2023?

If your agency did receive funding, was it full or partial funding?

The JHSSF Committee prefers to fund organizations that leverage funds/pursue co-funding opportunities. (See criteria.) Will the receipt of Jack Hopkins funding allow you to leverage additional funds from another source(s)?

We can leverage dollars for programs if we don't have to use them for equipment

Jack Hopkins funds have been an important tool for helping us realize our mission and are certainly able to be paired with donor funds to maximize their impact. However, given other local funding timelines (Community Foundation, etc.), the period over which Jack Hopkins funds are rewarded and then are expected to be used doesn't typically provide sufficient time to pursue matching grants.

We are requesting matching funds from other funders for the same project. At the time when we turned in our application for the other funders, we didn't know that the JHSSF grant was approved. I do think funders look positively generally on having different sources of support for a program. Every funder is different, for instance, Rotary likes to be the only funder for their projects, so in that case it wouldn't have been helpful to show other support. It really just depends on which funder you ask.

In the future we might have an opportunity that allows us to leverage Jack Hopkins funding, but this year we did not.

For several years, the Committee has accepted as many as two applications from agencies. The purpose is to allow agencies to be part of an application for a collaborative project as well as to submit their own application. Collaborative projects promote innovation and efficient uses of funds within the community. Please tell us what you think about the collaborative project initiative.

2 responses

Collaborative projects are always good. I've had mixed feelings about this rule for a long time. I agree I think it does encourage collaborative projects to allow an agency alone and as a partner. However, I also don't thin it's entirely fair to the other organizations applying to give funds to both the collaborative project and the agency individually. There just isn't that much funding to go around, and each year, many projects get denied entirely. I'm not sure you would have to allow both to encourage collaborative projects. Just offer funding priority to projects that are collaborative. Organizations will collaborate when it's appropriate.

The Hub hasn't utilized this opportunity but might do so in the future.

In your opinion, is it better to:

The Hopkins process begins with a call for applications in March and final approval of grants in June. Agencies typically have from mid-June to December of the grant year to seek reimbursement. Does this time frame serve your agency's needs?

On the timing - If you want bigger impact you have to allow a longer timeframe for the project. What has been expressed before is that JHSSF's goal was to deploy funds into the community and get to helping people quickly. It's difficult to implement, and measure long lasting impact in 6 months time.

Thank you for the support!

#### SYNOPSIS

This resolution brings forward the recommendations of the 2023 Jack Hopkins Social Services Committee. The principal task of the Committee is to recommend funding for local social services agency proposals that best meet Program criteria and best meet the needs of the community. This resolution allocates a total of \$323,000 to 32 different agency programs. The resolution also: approves the funding agreements with these agencies; accepts the report of the Committee; and authorizes the Chair of the Committee to resolve any questions regarding the interpretation of the agreements.

Distributed to: Clerk, Controller, Council Attorney, Housing and Neighborhood Development, Legal, and Mayor.

## Jack Hopkins Social Services Funding Program

### Elaboration of Criteria for Evaluating and Awarding Grants

In 1993 Jack Hopkins wrote a letter outlining a set of criteria for the use of these social services funds. Those criteria have since served as the basis for allocating the funds. The following is an elaboration of those criteria. These interpretations have been approved by the Jack Hopkins Social Services Committee.

### Program Focus

The program should address a previously-identified priority for social services funds (as indicated in the [Service Community Assessment of Needs \(SCAN\)](#), the City of Bloomington Housing and Neighborhood Development Department's [2020-2024 Consolidated Plan](#), or any other community-wide survey of social service needs.)

**Commented [1]:** possible source of inequity. Expand the criteria to include innovative projects that address emerging or less-recognized social issues, not just those identified in existing community assessments. This allows for more flexibility and responsiveness to current and evolving community needs. Really we should expect the social service providers to know this better than we do!

This investment in the program should lead to broad and long lasting benefits to the community. Again, in the words of Jack Hopkins, "priority should be given to projects or programs where investments now will have a positive, long-term spillover effect (such as reduced susceptibility to ...diseases, decreased absences from school, reducing lost time (from work) .., etc.)

### Priorities

The Common Council prioritizes programs that provide food, housing, healthcare, or other services to city residents who are of low or moderate income, under 18-years of age, elderly, affected with a disability, or otherwise disadvantaged.

- I. City Residency - Programs must primarily serve City residents. Individual programs have occasionally been located outside of the City but, in that case, funds have never been used for capital projects (e.g. construction, renovation, or improvement of buildings).
- II. Low Income - Programs primarily serving low-income populations are given a high priority.
- III. Emergency Services - Programs primarily providing emergency services (e.g. food, housing, and mental and physical medical services) are given a high priority.

**Commented [2]:** While the focus on low-income, elderly, and disabled populations is commendable, consider explicitly including other marginalized groups such as racial minorities, immigrants, LGBTQ+ individuals, and others who might face systemic barriers might be a good idea in our rubric.

## Scope of Funding

The Jack Hopkins Social Services Funding Program seeks to encourage innovation and address changing community needs. Further, the Jack Hopkins Social Services Funding Program recognizes that in the current economic climate, operational funding, essential to a non-profit's continued provision of services, is difficult to come by. The Jack Hopkins Social Services Funding Program will consider requests for both one-time investments and operational expenses.

### One-Time Investment

Applications requesting funds for projects that address changing circumstances in the community are encouraged. Requests should provide a one-time investment that, through matching funds or other fiscal leveraging, make a significant contribution to the project. EXAMPLES – capital improvements, community health initiatives, seed funding for new programs etc.

### Operational Expenses

Applications requesting operational expenses will also be considered. These expenses are recurring rather than non-recurring and examples typically include outlays for personnel, rent, utilities, maintenance, supplies, client services, and other ongoing budget items.

### Paid Time Off and Bonuses

Paid time off and bonuses shall not be considered eligible for Jack Hopkins Social Services Funding.

Agencies seeking funding for operational expenses should be aware that future funding may be unavailable or inadequate to cover their needs and therefore they should not rely solely on Jack Hopkins Social Services Funding for their operational expenses. Any request for operational funding should be accompanied by a well-developed plan for future funding.

### Fiscal Leveraging

In the words of Jack Hopkins, who originally proposed these criteria, investments “should be leveraged wherever possible by matching funds from other sources.” Agencies may demonstrate such leveraging by using matching funds, working in partnership with other agencies, or through other means.

### Applications from City Agencies and Other Property Tax Based Entities

Over the years the Council has not funded applications submitted by city departments. This is based on the theory that the departments have other, more appropriate avenues for requesting funds and should not compete against other agencies, which do not have the benefit of city resources at their disposal. Except on rare occasions, the Council has not directly or indirectly funded agencies that have the power to levy property taxes or whose primary revenues derive from property taxes.

### Expenses Incurred Prior to the Allocation of Jack Hopkins Funds

Expenses incurred prior to the allocation of Jack Hopkins Funds (mid-June) will not be considered.

**Commented [3]:** While leveraging funds is important, this requirement might be challenging for smaller or less-established organizations. We COULD consider alternative ways these organizations can demonstrate their value and sustainability.

**Commented [4R3]:** In my experience, this hasn't seemed to prevent agencies from applying or from receiving funding. When agencies ARE able to use Jack Hopkins funds to leverage other funding sources, that has been important information for the Committee.

**Commented [5]:** we could more specifically just say what the time period the funds can be used is.

**Commented [6R5]:** I agree that the funding window should be better defined. We have a claims deadline set by HAND for the end of the year (with a possible extension into March of the following year), but the start of the window should be better defined. I would tie it to the approval of the resolution that allocates the awards.

## Collaborative Projects

The Committee encourages social service agencies to collaborate in order to solve common problems and better address local social service needs. To serve these ends, the Committee will allow agencies to submit an application for funding as a Collaborative Project. An agency may submit a collaborative project application in addition to submitting a standard application.

Agencies are limited to one standard application and one collaborative application. Applications (and other relevant materials) are publicly available on the Jack Hopkins website, sent directly to potential applicants via email, and shared with news outlets. Council staff will host a technical assistance meeting halfway through the application window to assist with questions on the application.

### Collaborative Project Applicants

Applicants pursuing such funding should:

- I. Declare that they are seeking funds as a Collaborative Project and describe the project
- II. Describe each agency's mission, operations, and services, and how they do or will complement one another
- III. Describe the existing relationships between the agencies and how the level of communication and coordination will change as a result of the project
- IV. Identify challenges to the collaboration and set forth steps that address the greatest challenges to its success
- V. Address the following standard criteria and explain how the collaborative project will:
  - Serve a previously-recognized community need
  - Achieve fiscal leveraging or efficiencies
  - Provide a broad and long lasting benefits to the community
- VI. Complete a Memorandum of Understanding signed by authorized representatives of collaborating agencies and detailing the allocation of duties between them

## Other Policies

### Transparency and Review in Grant-Making

Transparency is fundamental to our grant-making process. We are committed to an open, fair, and accountable approach that not only respects the efforts of all applicants but also upholds the integrity of the program. To this end, each application will be evaluated using a comprehensive rubric (see below) that clearly outlines the criteria and scoring system, ensuring that decisions are made consistently and objectively. Our review committee, comprising individuals with diverse expertise and backgrounds, meticulously assesses each application against these set criteria. In the spirit of transparency and continuous improvement, the committee will provide

**Commented [7]:** The encouragement of collaborative projects is excellent. Consider offering additional guidance or support for forming these collaborations, especially for smaller organizations that might not have existing networks. We also might consider setting a funding ceiling for projects and set a different funding ceiling for collaborative projects. e.g. Max award is 20k but 50k for collaborative projects.

**Commented [8]:** is there a limit to how many collaborative applications agencies can submit?

**Commented [9R8]:** The document doesn't mention the application process. Ensure it is accessible, straightforward, and possibly available in multiple languages. though the latter point is maybe spurious. Providing assistance or workshops on grant writing could also be beneficial.

**Commented [10R8]:** Agencies are limited to one standard application and one collaborative application. Applications (and other relevant materials) are publicly available on the Jack Hopkins website, sent directly to potential applicants via email, and shared with news outlets. I can reach out to CFRD to see if they have the ability to translate the materials into other languages, but we would need to provide more than just the application. Council staff hosts a technical assistance meeting halfway through the application window to assist with questions on the application.

**Commented [11]:** will we have all committee members review all apps or should we say that e.g. each app gets 3 reviews etc?

**Commented [12R11]:** In the past, all committee members have reviewed all applications, first on your own and then as the full Jack Hopkins Committee. Breaking down the Committee into smaller subcommittees would be logistically challenging, as each subcommittee would still be subject to ODL requirements.

detailed feedback to all applicants, successful or not, based on the rubric. This feedback is aimed at improving future applications and fostering a learning environment for all stakeholders. Additionally, the committee will publish summaries of our decision-making process and outcomes, highlighting how funding decisions align with the program's goals and values. By doing so, the committee aims to build trust and engage openly with our community, demonstrating our commitment to equitable and responsible grant-making.

**Commented [13]:** or perhaps it is enough to just post scores publicly?

**Commented [14R13]:** The Committee has historically not shared individual committee member funding recommendations, but, as long as committee members know going in that this would be the case, there's no reason you couldn't do so.

Scoring Rubric

**Commented [15]:** just a draft to get us started. Lots of ways to approach this... but not having this is a huge gap.

<u>Criteria</u>	<u>Description</u>	<u>Scoring Points</u>
<u>Alignment with Grant Objectives</u>	<u>How well does the proposal align with the grant's objectives and priorities?</u>	<u>0-5: Little to no alignment</u> <u>6-10: Some alignment, but not substantial</u> <u>11-15: Good alignment</u> <u>16-20: Excellent alignment</u>
<u>Community Impact</u>	<u>Potential impact on the community, especially on marginalized or underserved groups.</u>	<u>0-5: Minimal or unclear impact</u> <u>6-10: Moderate impact</u> <u>11-15: Significant impact</u> <u>16-20: Exceptional, far-reaching impact</u>
<u>Feasibility and Sustainability</u>	<u>Practicality of the proposed project and its sustainability post-funding.</u>	<u>0-5: Impractical or unsustainable</u> <u>6-10: Somewhat feasible and sustainable</u> <u>11-15: Feasible and likely sustainable</u> <u>16-20: Highly feasible and sustainable</u>
<u>Innovation and Creativity</u>	<u>Degree of innovation and creative problem-solving.</u>	<u>0-3: Lacks innovation</u> <u>4-7: Some innovative aspects</u> <u>8-11: Very innovative</u> <u>12-15: Exceptionally innovative and creative</u>

<u>Organizational Capacity</u>	<u>Ability of the organization to effectively implement the project.</u>	<u>0-3: Limited capacity</u> <u>4-7: Adequate capacity</u> <u>8-11: Strong capacity</u> <u>12-15: Exceptional capacity</u>

<u>Total Possible Score</u>		<u>100 Points</u>

**Commented [16]:** Possible additional considerations could include: Diversity and Inclusion: Special consideration for projects that effectively serve diverse and underrepresented communities etc.

**Commented [17]:** just a suggestion for discussion. Please improve on this.

### Agency Acting as Fiscal Agent Must have 501(c) (3) Status

The agency that acts as the fiscal agent for the grant must be incorporated as a 501(c)(3) corporation. This policy is intended to assure that grant funds go to organizations:

- I. With boards who are legally accountable for implementing the funding agreements
- II. With the capability of raising matching funds which is an indicator of the long-term viability of the agency.

Given its mission, the presence of a board, and its general viability, an exception has historically been made for the Bloomington Housing Authority.

### Funding of Events and Celebrations Discouraged

Historically the Council has not funded applications that promote or implement events or celebrations. This policy is based upon the conclusion that these occasions do not engender the broad and long-lasting effects required above.

### One Application per Agency – Exception for Collaborative Projects

Except as noted below, each agency is limited to one application. This policy is intended to:

- I. Spread funds among more agencies
- II. Assure the suitability and quality of applications by having the agency focus and risk their efforts on one application at a time
- III. Lower the administrative burden by reducing the number of applications of marginal value.

As noted above, an exception to this rule applies to agencies that submit an application as a Collaborative Project. Those agencies may also submit one other application that addresses the standard criteria.

### Improvements to Real Property not Owned by the Applicant Agency is Discouraged

Applicants are advised that the Committee typically does not grant funds to agencies for capital improvements to real property not owned by the agency. Applications for construction, renovation, or improvements to a building not owned by the applicant agency will be given a low priority.

### \$1,000 Minimum Dollar Amount for Request

This is a competitive funding program involving many hours on the part of staff and the committee members deliberating upon and monitoring proposals. The \$1,000 minimum amount was chosen as a good balance between the work expended and the benefits gained from awarding these small grants.

### Funding Agreement – Reimbursement of Funds

Agencies that are granted funds will be expected to enter into a funding agreement with the City of Bloomington. The Housing and Neighborhood Development (HAND) Department has been monitoring funding agreements since 2001. In order to be consistent with the practices it employs in monitoring CDBG and other funding programs, the funding agreements provide for a reimbursement of funds. Rather than receiving the funds before performing the work, agencies either perform the work and seek reimbursement, or enter into the obligation and submit a request for the city to pay for it.

### Expenditure Before the End of the Year

In order to avoid having the City unnecessarily encumber funds, agencies should plan to expend and verify these grants before December of the year the grant is awarded, unless specifically approved in the funding agreement or granted an extension by the Director of HAND. Please note that funds encumbered from one calendar year to the next cannot be reimbursed by use of the City's credit cards.

### Proportionality of Funding Request Relative to Clients Served

In making funding decisions, the Committee may consider the amount of funding requested relative to the number of clients that would be served by a given project.

### Systematic Equity Review Process

In our commitment to fostering a more equitable and inclusive community, the committee should implement a comprehensive Equity Review Process as a crucial component of our grant-making strategy. This process is designed to ensure that our funding decisions not only align with our core mission and values but also actively contribute to reducing systemic inequities. Through this review, the committee will meticulously assess each application with an equity lens, considering factors such as the diversity of the applicant organizations, the inclusivity of their proposed initiatives, and the impact of these initiatives on marginalized and underrepresented communities. Our objective is to create a balanced and diverse portfolio of grants that reflect our dedication to social justice and the varied needs of our community. The Equity Review Process represents our

**Commented [18]:** do we have reporting requirements?  
**Commented [19R18]:** If so, they need to be minimal but also need to be included here.  
**Commented [20R18]:** Yes, there are reporting requirements detailed out in the funding agreement. Beyond any changes you might suggest to those requirements, the city could do a better job of ensuring compliance with the requirements, which has been spotty coming out of COVID.

**Commented [21]:** While considering the number of clients served is important, let's also recognize the depth and impact of services provided. Some programs might serve fewer clients but have a profound, long-term impact.  
**Commented [22R21]:** This is a good point. Mentioning proportionality here is simply meant to put applicants on notice that it's a factor the Committee may consider, not to prevent the Committee from funding a request that serves fewer clients but with more depth of services.  
**Commented [23]:** again this is a draft for your consideration.

ongoing commitment to being a catalyst for positive change, ensuring that the city's resources are allocated in a manner that is not only fair and transparent but also transformative.

Demographic Analysis: The Committee should review the demographics of the applicants and the populations they serve. The committee should ensure that the grants reach a diverse range of organizations, especially those serving underrepresented or marginalized communities.

**Commented [24]:** Do you want to ask agencies for this information?

Geographical Distribution: The committee will analyze the geographical distribution of the applicants and the beneficiaries. This helps in understanding whether certain areas, particularly those historically underserved in the city (if applicable), are being appropriately targeted.

**Commented [25]:** Do you want to ask agencies for this information?

Organizational Diversity: the committee will evaluate the diversity of the types of organizations applying and being funded. Granted, there are already limits on who can apply in the first place but this includes size of organizations, how long they have been established etc.

Equity Lens in Scoring: The committee will reassess the applications with a specific focus on equity. This involves considering how each project addresses systemic inequities or serves populations that face barriers to access and support.

Impact Measurement: The committee will assess the potential impact of the projects on promoting equity. This can include both the direct impact on beneficiaries and the broader societal impact.

Consultation with Community Representatives: The committee will engage with community representatives or experts in equity to review and provide insights on the applications. This can help in identifying any biases or gaps in the review process. This outreach will happen at multiple stages during application processes, during project consideration, and post award.

**Commented [26]:** Who?

**Commented [27]:** How will this outreach occur? What does it look like in practice?

Feedback from Past Grantees: The committee will review feedback from past grantees, especially regarding how effectively the grant supported equity goals and what improvements could be made. This will happen before the organizational meeting.

**Commented [28]:** There is an annual survey sent out to all applicants to do just this. The response rate has been decreasing in recent years, so discussing ways to increase the response rate might be a good idea.

Balanced Portfolio Approach: The committee will aim for a balanced portfolio of grants that collectively address a range of equity issues. This includes considering a mix of short-term relief projects and long-term systemic change initiatives.

Documentation and Transparency: The committee will document the equity review process and decisions made at each step. This information should be transparent and available for public scrutiny to ensure accountability.

**Commented [29]:** How?

Continuous Learning and Adaptation: The committee will use insights from the equity review to continuously improve the grant-making process. This includes adjusting criteria, outreach strategies, and the review process itself based on what is learned.

## City of Bloomington Common Council

### Jack Hopkins Social Services Funding Committee

March 3, 2023

Dear Social Services Agency:

The City of Bloomington Common Council's Jack Hopkins Social Services Committee invites social services agencies serving the needs of City of Bloomington residents to apply for 2023 grant funding. This year, the Committee has \$323,000 (plus possible reverted funds) to distribute. Each year, the Mayor and City Council have allocated funding for the Jack Hopkins initiative. In fact, since 1993, the Jack Hopkins Committee has granted approximately \$5.8 million to social service agencies who serve our community's most vulnerable residents.

As funding for the Jack Hopkins program has increased over the years, so too has our responsibility to be good stewards of this fund – a fund enabled by City of Bloomington taxpayer dollars. As stewards of these dollars, we strive to fund projects that have the potential for lasting change -- projects that will improve the human condition of Bloomington residents in the long run. Please be advised that, depending on the strength of the applicant pool, the Committee may not distribute all of its available funding.

### Changes in 2023

---

The Jack Hopkins Committee has implemented a few notable changes for 2023. [changes below were made in 2022 but are listed here for reference]

1) Operational Funding Requests

In recognition of the growing need for operational funds, the Jack Hopkins Committee has elected to begin accepting requests for operational funding. Any request for operational funds should be accompanied by a well-developed plan for future funding.

2) Limitation Added for Use of Funds

Jack Hopkins Social Services Funds that are awarded for personnel expenses can no longer be used toward paid time off and bonuses.

3) New Budget Worksheet

Agencies will be required to submit a budget for their funding request on the budget template, which is included with the Application materials.

4) Limitation added to Claims Submission Dates

Claims will only be considered for expenses incurred after the date that the Common Council allocates the Jack Hopkins funds (in mid-June).

## Proposal Must Meet the Following Criteria:

---

1) Address a Previously-Identified Priority for Social Services Funding.

The need should be documented in the [Service Community Assessment of Needs \(SCAN\)](#), City of Bloomington, Housing and Neighborhood Development Department's [Consolidated Plan](#) or any other community-wide survey of social service needs. High funding priorities include emergency services (food, shelter or healthcare) or other support services to City residents who are: low-moderate income, under 18-years old, elderly, affected with a disability, or are otherwise disadvantaged.

2) Scope of Funding

- a. One-Time Investment - One Time Investment – Applications requesting funds for projects that address changing circumstances in the community are encouraged. Requests should provide a one-time investment that, through matching funds or other fiscal leveraging, make a significant contribution to the project.
- b. Operational Expenses - Applications requesting operational expenses will also be considered. These expenses are recurring rather than non-recurring and examples typically include outlays for personnel, rent, utilities, maintenance, supplies, client services, and other ongoing budget items. It is worth noting that paid time off and bonuses are not eligible for Jack Hopkins Social Services Funding.

3) Leverage Matching Funds or Other Fiscal Mechanisms.

Other fiscal mechanisms might include things like number of volunteers or volunteer hours devoted to the proposed project, working in partnership with another agency, and/or other in-kind donations.

4) Make a Broad and Long-Lasting Contribution To Our Community.

As articulated by Jack Hopkins, the co-founder of this program: “[P]riority should be given to projects or programs where investments now will have a positive, long-term spillover effect (such as reduced susceptibility to...diseases, decreased absences from school, reducing lost time from work, [alleviating the effects of poverty]...etc.)” Historically, this criterion has excluded funding for events or celebrations.

5) Expenses Incurred Prior to the Allocation of Jack Hopkins Funds.

Expenses incurred prior the allocation of Jack Hopkins Funds (mid-June) will not be considered.

## Collaborative Projects – Two Applications Allowed

---

The Committee continues to accept applications for collaborative projects that address community-wide social problems and more efficiently meet the needs of social service agencies and agency clients. Note that if you are submitting a collaborative application, you may submit two applications – an individual application on behalf of your agency and another as part of your collaborative proposal. If submitting an application for a collaborative project, applicants must include a Memorandum of Understanding (MOU).

## Elaboration of Criteria

---

Over time, the Committee has refined each criterion. A detailed explanation of criteria is provided in the Committee's *Elaboration of Criteria*, posted on the Committee's webpage [here](#). Agencies are strongly encouraged to review this document.

## Other Requirements

---

In addition to satisfying the Jack Hopkins criteria, to be eligible for funding an application must meet the following requirements:

- Hopkins funds are intended to be put to work in the community as soon as possible. For that reason, agencies must submit final claims no later than December 8, 2023.
- The program for which funding is sought **must primarily benefit City residents**.
- The application must request a minimum of \$1,000.
- The applicant must be a 501(c)(3), or be sponsored by one. In the event the applicant is sponsored by a 501(c)(3), the sponsoring agency must provide a letter acknowledging its fiscal relationship to the applicant. All new applicants are required to submit 501(c)(3) documentation.
- One application per agency, unless participating in a collaborative project.
- Any agency receiving Jack Hopkins funds must participate in the federal [E-Verify](#) program.

## Living Wage Requirements

---

Some not-for-profit agencies receiving Jack Hopkins Funds are subject to the City's Living Wage Ordinance, *Bloomington Municipal Code* §2.28. For 2023, the Living Wage is \$15.29 an hour, of which \$2.29 may be in form of health insurance to the covered employee.

An agency is subject to the Living Wage Ordinance, **only if all three** of the following are true:

1. The agency has at least 15 employees; and
2. The agency receives \$25,000 or more in assistance from the City in the same calendar year;  
*and*
3. At least \$25,000 of the funds received are for the operation of a social services program, not for physical improvements.

An agency who meets all three criteria is not obligated to pay the full amount of the living wage in the first two years they received assistance from the City; instead they are subject to a phase-in requirement. Please visit the [City's Living Wage Ordinance page](#) to learn more.

## How to Apply

---

To be eligible for consideration, your agency **must** submit the following. Applications that are missing any of the required information will be eliminated from further consideration.

- ✓ **COMPLETED APPLICATION FORM.** Electronic forms are available [here](#). (Return as a PDF)
- ✓ **PROJECT BUDGET DETAILING THE USE OF HOPKINS FUNDS** A budget template is available [here](#). (Please Note: this is a detailed accounting of how Jack Hopkins dollars would be spent on the project proposed in the application, not the budget for the organization)
- ✓ **APPLICATION SUMMARY** available [here](#). (Return as a Word Document)
- ✓ **A YEAR-END FINANCIAL STATEMENT** including fund balances, total revenue and expenditures
- ✓ **SIGNED, WRITTEN ESTIMATES** if seeking funding for equipment or capital improvements
- ✓ **A MEMORANDUM OF UNDERSTANDING** signed by all agencies participating in an application for a Collaborative Project
- ✓ **501(c)(3) DOCUMENTATION FOR ANY FIRST-TIME HOPKINS APPLICANT**  
Agencies who have previously applied from Jack Hopkins funding do not need to provide this documentation.

## Helpful Hints

---

- Consult the Application Checklist
- Attend the Technical Assistance Meeting for Applicants  
While attendance at the Technical Assistance Meeting is not required, it is strongly encouraged for new applicants and for those agencies whose applications have not been successful in the past. Bring your questions.
- Read the [Elaboration of Criteria](#) as Posted on the [Committee's webpage](#).  
This document provides further explanation of the Committee's funding criteria. Agencies whose proposals are not successful sometimes fail because the proposal runs afoul of a rule in this document.
- Keep your Application Clear and Concise.  
Remember, in some years, Committee members have had as many as 50 applications to review.
- Applications Should Be Self-Explanatory and Self-Contained  
(i.e., no need for staff follow up; **no** addenda accepted after the deadline)
- Review an Example of a [Well-Written Application](#)  
as posted on the Committee's webpage.
- Peruse Other Successful Applications  
as posted on the [Committee's webpage](#).

# JACK HOPKINS FUNDING CRITERIA

---

## **NEED** *(200 words or less)*

Explain how your project addresses a previously-identified priority for social services funding as documented in the [Service Community Assessment of Needs](#), the City of Bloomington, Housing and Neighborhood Development Department's [2020-2024 Consolidated Plan](#), or any other community-wide survey of social service needs.

## **ONE-TIME INVESTMENT** *(100 words or less)*

**Jack Hopkins Funds are intended to be a one-time investment. Explain how your project fits this criterion.** If you are requesting operational funds (e.g., salaries, rent, vouchers, etc), please explain how your project satisfies an exception to the one-time funding rule (pilot, bridge, or collaborative). If you are requesting operational funds that do not satisfy one of the aforementioned exceptions, but your request is being made pursuant to the 2023 allowance for operational funds, please make that clear. If you are requesting operational funding, you must detail your plan for future funding.

**LONG-TERM BENEFITS** (200 words or less)

**How will your project have broad and long-lasting benefits for our community?**

**OUTCOME INDICATORS** (100 words or less)

**Describe the outcome indicators to be used to measure the success of your project.**

The ultimate outcome of a project (e.g., reduced hunger, homelessness or addiction rates) are often not readily observable within the Jack Hopkins funding period. For that reason, we are asking agencies to provide us with outcome indicators. In contrast to program activities (what you bought or did with grant funds) and the long-term impacts of a program (the lasting social change effected by your initiative), the data we seek are the short-term, preferably quantitative indicators used to measure the change your program has created during the period of your funding agreement. *Example: an agency providing a service might cite to the number of persons with new or improved access to a service.*
