

**City of Bloomington BDU Advisory Committee
Meeting Minutes
Oct 6, 2011 4pm McCloskey Room City Hall**

Attendance

Members: Eric OSt, Mike Trotzke, Dennis Cromwell (proxy for Mike Lucas)
Staff: Rick Dietz

Topics of discussion

Infrastructure & BDU Updates

Rick Dietz updated members on status of BDU projects on 3rd St, B-Line and at Transit: Work complete at 3rd St and B-line. Transit project is pending final facility plans.

CTP Certified Technology Park

Final interviews are scheduled for 10/12 and selection should happen on 10/26. BDUAC will be party of the public process.

Gig.U

Rick Dietz reported on a recent national Gig.U meeting. The RFI is released and vendors are submitting questions. Interactions with Gig.U staff and Google Access Services VP were promising for Gig.U project and Bloomington.

Community and Open Source

Rick Dietz outlined the City's efforts on Community source projects. The main projects currently underway are the testing of the Kuali Time and Attendance module to the Community Source Kuali ERP system. It is the City's intent to deploy Kuali TIME as soon as it is ready.

The City is also heavily involved in the Open311 community. It is developing a mobile app for the iPhone that will connect to Open311 endpoints. Open311 is a protocol for the submission of service requests by citizens to cities.
