SUBCOMMITTEE REPORTS Finance subcommittee met on October 11th and 16th. Frank reported that Crowe Horwath prepared report on several fees that had not been updated in some time. Subcommittee had second meeting after digesting the report, made choices where appropriate between Equity Method or Incremental Method, and formulated a recommendation for full board to approve the proposed changes in the report. Due to recent updates on the water system, they chose Equity for rates related to water. Since there are constraints on the sewer side, they chose Incremental for those. The logic behind each proposed change is in the report and Frank asked Crowe Horwath to present and answer any questions from full board. Crowe emphasized that where appropriate, the charges are simply the cost of the service. Some charges relate more to the strain on the system as a whole as additional customers cause the system to expand. Board asked how long since the last updates on any of these fees. Some water fees were changed in 2011. The other fees have not been changed in 19+ years. Board thanked Crowe for a clear and complete report. Board asked if Equity, Incremental, or other formula was used in the past. CBU does not have a record of how the fees were calculated in the past, but pointed out that the process of going through committees and through City Council likely will result in compromise. Board said it would be important to relay to public the time since the fees were changed and the formula behind the proposed changes so public doesn't think CBU is "gouging" them. Kelson relayed to USB that City Council will see this item on November 1, 8, and 15. Board said it was important to start preparing for Bloomington's expansion no matter which method is chosen. Board also said it is a new philosophy to care for infrastructure and waiting 20 years causes discomfort when rates are increased significantly. Frank also pointed out that only the customers using these services would be affected, not all CBU customers. He feels confident that CBU has a strong case for the increases. Burnham asked what is plan to look at this on regular basis? Kelson said the plan was to put these on a regular cycle like the rate reviews, such as every 3-4 years. Sherman asked if the money for infrastructure updates can be invested. CBU Finance Manager Waldon said it gets a small amount of interest in the savings account but no risky investments.

REQUEST FOR APPROVAL OF NON-RECURRING RATES AND CHARGES REPORT

Sherman moved and Burnham seconded the motion to accept recommendation, motion carried, 6 ayes (1 member absent Ehman)

October 16th
SUBCOMMITTEE REPORTS Planning & Property subcommittee met on October 11th to follow up on Real Estate Asset book and presentation by CBU employee Mike Carter Also addressed request for sewer extension into Area B by Mike Carmin Recommendation by subcommittee is to deny request due to capacity issues Carmin was given opportunity to present the case for sewer extension He said the karst features, the high cost of housing in the area, and the surrounding development with sewer Without sewer extension, only 5 lots could be developed

REQUEST FOR SEWER EXTENSION

Sherman moved and Burnham seconded the motion to accept recommendation to deny request, motion carried, 6 ayes (1 member absent Ehman)

Board asked if rational was based only on capacity issues Kelson answered that previous requests have been denied and the main issue is limited capacity at Dillman Sherman asked would any similar requests be denied Banach said the subcommittee discussed the problem of saying yes to one request would be that others would then expect to be granted sewer requests outside the city limits Burnham asked if the property could still be developed and the answer is yes, with septic tanks

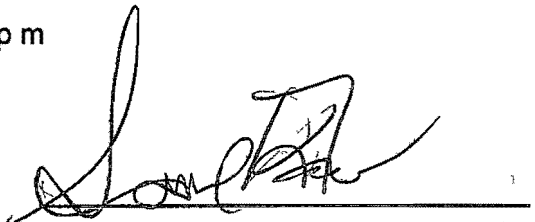

OLD BUSINESS N/A

NEW BUSINESS Welcome new USB member Jean Capler!

STAFF REPORTS CBU Director Kelson reported that the news recently published a story of a boy falling into a manhole A boy did fall into a storm inlet that was moved aside possibly by a vehicle hitting it The boy did not see the hole and fell in while walking CBU secured the grate and inspected all aspects of the project that was done by public works and took care of any other deficiencies noted The CBU equipment in the photos was from the crew working The project should have had a CBU inspection at the time it was completed Public is encouraged to call Control at 812-339-1444 to report safety concerns

PETITIONS AND COMMUNICATIONS Frank said he appreciates the historical photos being put up in the Board room

ADJOURNMENT The meeting was adjourned at 5 54 p m

ARTICLE 7 RETAINAGE

Pursuant to Indiana Code Section 36-1-12-14, contracts in excess of Two Hundred Thousand Dollars (\$200,000.00) are required to provide for retainage between the City and the Contractor

7.1 Escrow Agent The retainage amount withheld shall be placed in an escrow account. First Financial Bank, Bloomington, Indiana, shall serve as the escrow agent, subject to compliance with 7.2 below

7.2 Retainage Amount The escrow agent, City and Contractor shall enter into a written escrow agreement. Under that agreement, the City shall withhold five percent (5%) of the dollar value of all work until the Contract Work is complete. The escrow agent shall invest all escrowed principal in obligations selected by the escrow agent. The escrow agent shall be compensated for the agent's services by a reasonable fee, agreed upon by the parties, that is comparable with fees charged for the handling of escrow accounts of similar size and duration. The fee shall be paid from the escrow income. The escrow agent's fee may be determined by specifying an amount of interest the escrow agent will pay on the escrowed amount, with any additional earned interest serving as the escrow agent's fee. The escrow agreement may include other terms and conditions as deemed necessary by the parties

7.3 Payment of Escrow Amount The escrow agent shall hold the escrowed principal and income until receipt of the notice from the City and Contractor that the Contract work has been substantially completed to the reasonable satisfaction of the City, at which time the City shall pay to the Contractor the balance to be paid under this Contract and execute such documents as are necessary to authorize the escrow agent to pay to the Contractor the funds in the escrow account, including both specifying the part of the escrowed principal to be released from the escrow and the person to whom that portion is to be released. After receipt of the notice, the escrow agent shall remit the designated part of the escrowed principal and the escrowed income, minus the escrow agent's fees to the person specified in the notice. However, nothing in this section shall prohibit City from requiring the escrow agent to withhold amounts necessary to complete minor items of the Contract following substantial completion of the Contract in accordance with the provisions of paragraph 7.4

7.4 Withholding Funds for Completion of Contract If, upon substantial completion of the Contract, there still remains minor Contract work that needs to be completed, or minor Contract work that needs to be performed to the satisfaction of the City, City may direct the escrow agent to retain in the escrow account, and withhold from payment to the Contractor, an amount equal to two hundred percent (200%) of the value of said work. The value of said work shall be determined by the Engineer. The escrow agent shall release the funds withheld under this section after receipt of notice from the City that all work on the Contract has been satisfactorily completed. In the event that said work is not completed by the Contractor, but by City or another party under contract with the City, said funds shall be released to the City

eligibility status of the employee in question through the E-Verify program, there is a rebuttable presumption that the Contractor or its sub-Contractor did not knowingly employ an unauthorized alien. If the Contractor or its sub-Contractor fails to remedy the violation within the thirty (30) calendar day period, the City shall terminate the Agreement, unless the City determines that terminating the Agreement would be detrimental to the public interest or public property, in which case the City may allow the Agreement to remain in effect until the City procures a new Contractor. If the City terminates the Agreement, the Contractor or its sub-Contractor is liable to the City for actual damages.

- 3 Contractor shall require any sub-Contractors performing work under this Agreement to certify to the Contractor that, at the time of certification, the sub-Contractor does not knowingly employ or contract with an unauthorized alien and the sub-Contractor has enrolled in and is participating in the E-Verify program. Contractor shall maintain on file all sub-Contractors' certifications throughout the term of this Agreement with the City.

8 12. Drug Testing Plan

- 1 In accordance with Indiana Code 4-13-18 as amended, the Contractor was required to submit with his/her bid a written drug testing policy for a public works project that is estimated to cost \$150,000 or more. Among other things, the law sets forth specific requirements that must be in the plan for a program to test the employees of the Contractor and Subcontractors for drugs. The successful Contractor must comply with all provisions of the statute. This contract is subject to cancellation if Contractor fails to implement its testing program during the term of this contract, fails to provide information regarding this testing at the request of City, or provides false information to City regarding Contractor's employee drug testing program. Contractor shall sign an affidavit, attached as Attachment D, affirming that Contractor has and shall implement Contractor's employee drug testing program throughout the term of this project.

UTILITIES SERVICE BOARD Staff Report

Project	Financing of Solar Installations at CBU Properties
Staff Representative	Thomas Cameron
Meeting Date	October 30, 2017

On August 9, 2017, the Council approved a Guaranteed Savings Contract between the City and Energy Systems Group, LLC (“ESG”) Pursuant to that Guaranteed Savings Contract, ESG will install approximately 5 megawatts of Photovoltaic Panels at approximately 30 City-owned locations across the City during 2017, so that the City can take advantage of 30 years of net metering at the retail rate The approximately 30 City-owned locations include five CBU facilities (Utility Department Headquarters, Dillman Waste Water Treatment Plant, Blucher Waste Water Treatment Plant, Monroe Field, and the Southeast Booster Station)

The CBU installations total approximately 50% of the total project cost

The idea behind a Guaranteed Savings Contract is that the savings from the capital improvements are more than sufficient to pay for the improvements themselves, as well as the costs associated with the improvements Given the tight timeframe to have the solar installations completed, the City entered into the Guaranteed Savings Contract prior to closing on financing

The City has worked with its Financial Advisor (OW Krohn and Associates), its Bond Counsel (Barnes & Thornburg), and ESG to review a number of potential financing mechanisms It is the opinion of City Staff, our Financial Advisor, and our Bond Counsel that a lease-purchase arrangement with Bank of America is the best way to finance the work covered by the Guaranteed Savings Contract A lease-purchase does not constitute debt for purposes of the statutory debt limits The City expects the lease-purchase agreement to have an interest rate of approximately 3%, and to have a term of twenty years A lease-purchase is a common financing mechanism In fact, two of the City’s parking garages (at 7th and Morton and 7th and Walnut) are being financed through lease purchase agreements

Staff is asking the Council to approve a lease-purchase with Bank of America If approved, Parks would be responsible for approximately 50% of the payment We estimate that Utilities’ share of the payment will be approximately \$457,000 We expect the mechanics of that to be handled via interdepartmental agreement

5555 N BOTTOM ROAD
BLOOMINGTON, INDIANA 47404 (PROPERTY)**

Dear Ms. Shaw,

This correspondence provides the estimated scope and costs for mold remediation activities. The activities include the removal of up to approximately 60-70 feet of mold impacted HVAC supply duct and 25-30 feet of return duct located above the drop ceilings in the administrative building on the Property. The ducts are connected to a handler in the second level mechanical room.

Mold Remediation Activities

The following activities will be performed:

- Removal of drop ceilings in areas of duct removal.
- Removal and disposal of up to approximately 60-70 feet of insulated supply duct from a unit in the second level mechanical room over the hallway ceiling branching to the men's locker room, a hallway and a restroom.
- Removal and disposal of up to approximately 25-30 feet of insulated return duct from the return filter box of a handler unit in the mechanical room to a fresh air connection over the hallway ceiling.
- Post-duct removal cleaning of all areas of duct removal including HEPA vacuuming and/or cleaning of contents within the areas with a fungicidal solution as needed.
- Containment and control measures will be utilized for all duct removals.

REPORTING

Documentation of the work performed will be presented in a letter report with supporting documentation.

PROJECT TIMELINE

The project is tentatively scheduled to start October 25, 2017 or October 26, 2017. The work will take approximately 7 days.

PROJECT COSTS

Fields proposes to conduct the remediation work and sampling investigations on lump sum basis. The total costs including labor and other expenses are shown below:

Description	Cost
Total Cost	\$15,926.13

*Costs do not include restoration work (repairing drywall, painting, replacing flooring, etc.), electrical, and plumbing work. CBU will need to remove light fixtures within work areas prior to the start of the work. Please see the attached cost estimate spreadsheet for details on labor and other expenses. This proposal is based on CBU providing access to the required interior spaces of the building between the hours of 7am and 7pm and CBU providing personnel to move furniture and other items as required for the activities proposed.

The above referenced proposed activities do not address all potential mold contamination or moisture sources but are focused on addressing known conditions previously identified at the Property.

Our schedules are tentative and subject to change. Please contact Rudy Fields at 812-333-5333 if you have any questions.

Respectfully submitted,
