WHEREAS, the Common Council of the City of Bloomington finds that said miscellaneous non-recurring charges for certain services provided to Water Utility Customers should be adjusted accordingly; and

WHEREAS, the Common Council of the City of Bloomington caused notice of a public hearing on the rates and charges set forth herein to be duly advertised and mailed, and conducted a public hearing thereon, all in accordance with the Act, and each rate payer was, and the public in general were, allowed the opportunity to provide testimony and comments regarding the proposed adjustments to these rate and charges which were considered by the Common Council.

Chapter 3; Environment	Programs: Solid Waste	49

### Synopsis and Legislative Intent (brief description of amendment and its otivation)

This amendment inserts a new bullet-point under "Programs: Solid Waste" regarding the re-establishment of one or more recycling drop-off facilities within city limits. When the Downtown Bloomington Recycling Center (DBRC) was operating, it was collecting 300 tons of recyclables a year. It served a great many local residents and businesses unable to be served by city sanitation who wanted a place to recycle that was nearer than one of the Monroe County Solid Waste Management District's drop-off points, all of which are rural. It proved the demand for such recycling services, and it did so while using fewer than 20 parking spaces.

Yet since the end of November 2016 the DBRC remains closed, despite there being a responsible not-for-profit organization of experienced volunteers prepared to manage it, and despite no obvious other use for the land it occupied except parking for city and city employees' vehicles. There is underutilized parking to be found all over the city.

This amendment calls for an explicit commitment to establishing one or more similar recycling drop-off points, whether operated by the city or by a volunteer not-for-profit. It is consistent with Policy 3.5.1, which calls for "taking greater control of waste management infrastructure and critical waste streams." While the District continues to explore a local Materials Recovery Facility (MRF), this is an obvious, demonstrably successful way to divert more of the waste stream, and will likely continue to be of use even if a MRF is created. The city should identify small plots of land in its inventory (particularly in and/or adjacent to public parking), or negotiate with a property owner or developer, for locating similarly sized centers Downtown, on the Eastside, the Southside, and/or wherever large numbers of unserved residences may be concentrated.

Major Objectives		15

Synopsis and Legislative Intent (brief description of amendment and its motivation)

This amendment seeks to clarify that some of the 16 statements adopted in City Council Res. 13-01 could fall under more than one Objective listed in this comprehensive plan. For example, "Fortify our strong commitment to equality, acceptance, openness and public engagement" is listed under Objective 1 (Community Services) but could also fall under Objective 2 (Culture & Identity).

Amendment (indicate text added in bold and text to be deleted via ~~strikeout~~)

The 16 statements adopted by Resolution 13-01 are categorized below into six major objectives of the Plan. These objectives correspond with the first six chapters that ~~follow~~ follow, which serve as the strategic component of this plan. **Note that some of the vision statements adopted by the City Council could fall under more than one of the headings below, but in this plan we have matched them most closely with the appropriate plan objective.**

Synopsis and Legislative Intent (brief description of amendment and its motivation)

For each objective/chapter, this amendment achieves consistency between the heading text of the list of major objectives (pg. 15) and the last sentence in each chapter description on the following two pages. In some cases, the text on pg. 15 (list of objectives) is used for pg. 16-17 (list of chapters), and in some cases the text on pg. 16-17 (list of chapters) is used for pg. 15 (objectives). The goal is consistency, and there are no substantive changes in wording proposed. Note: Objective/Chapter 4 does change the word "town" to "city" and with this change accepts the wording on pg. 15.

Synopsis and Legislative Intent (brief description of amendment and its motivation)

Bloomington's higher percentage of Asian and foreign-born persons gives it diversity; Bloomington's lower percentage of African-Americans and Hispanics does not. Due to this asymmetry, this amendment deletes the assertion that Bloomington's variation in race and ethnicity gives Bloomington its rich heritage and cultural diversity.

Amendment (indicate text added in **bold** and text to be deleted via ~~strikeout~~)

The City's demographics reflect fairly closely those of Indiana and the U.S., with notable exceptions of the community's higher percentage of Asian persons and its lower percentage of African-Americans and Hispanics, Exhibit 2. According to research completed by the City of Bloomington Commission on Aging, within the years 2020 to 2040 the population of the Bloomington metro area age 55 and above will grow by 20%. Community Profile	Community Profile – Future Projections	22

Synopsis and Legislative Intent (brief description of amendment and its motivation)

This amendment seeks to delete a controversial paragraph about future housing needs in Bloomington because (1) the data is for the Bloomington Metropolitan Statistical Area and not for the City of Bloomington only, (2) the data is misleading regarding replacement of 6,100 housing units, which has been interpreted by some as condoning such replacement, (3) the paragraph is not essential background information for the Plan, as it is widely known and accepted that more housing is currently needed and will be needed for the foreseeable future. It also makes a related minor, non-substantive change to the following paragraph to shift the reference from “this growth” to “future growth.”

Amendment (indicate text added in bold and text to be deleted via ~~strikeout~~)

One of the major pressure points of this population growth is the increased demand for housing. Currently, there is a greater demand for housing than the market has supplied. Much of this demand appears to be driven by IU students. This has priced housing rents and home sale prices out of the affordable range for many Bloomington households. It will be important for Bloomington to provide opportunities and locations for a growing student housing demand while ensuring there is a full mix of housing choices and price points for the balance of Bloomington households.

~~Between 2010 and 2030, Ratio Architects Inc. project that the Bloomington area will need about 7,500 new housing units. In addition, some current housing will need to be replaced, a figure projected at 6,100 units. Add replacement to new housing, and there will be demand for 13,600 new housing units between 2010 and 2030.~~

It will be ~~critical~~ **important** that ~~this~~ **future** growth is managed as much as possible within the City's existing developed sewer service utility area or “footprint” (Exhibit 6). This will limit the negative environmental impact of further suburban sprawl over Bloomington’s unique and environmentally sensitive karst geology.
