- VI. OLD BUSINESS**
- A. Resolution 18-46: Approval of Funding for Fourth Street Garage Consultant. This resolution was postponed from the previous RDC meeting.

A structural report of the Fourth Street Garage, prepared by CE Solutions, was emailed to the commissioners prior to the meeting. Adam Wason gave a powerpoint presentation that outlined suggestions on how to move forward with the garage. Wason stated preventative maintenance issues were not performed in a timely fashion and the facility is in a state of

continued degradation, and immediate repairs are necessary to continue operations through 2018. In order to extend the life of the garage for 5 years, it will cost the city \$1.1 million. During those five years the city would accrue an additional \$50,000 per year in ongoing maintenance cost and the amount will increase to \$75,000 each year after the fifth year. In order to complete the needed repairs the garage would be closed for a minimum of six months to a year.

CE Solutions completed a structural survey of the facility, repair requirements are listed below:

- If the structure is to remain in operation for 5 years, \$1.1 Million in repairs is required.
- If the structure is to remain in operation for 10 years, \$2.1 Million in repairs is required.
- If the structure is to remain in operation for 15 years, \$3.1 Million in repairs is required.

Ryan Daily explained some of the urgent repairs suggested by CE Solutions, which would need to happen in order to extend the life of the garage.

Wason said the public's safety is our highest concern and we are monitoring several areas to make sure there isn't further advanced degradation that would cause any life safety issues.

Wason stated the cost to build a new garage is estimated at \$24,000 per parking space, this does not include demolition of the current structure, architectural drawings, consulting fees, or exterior labor fees. There is an estimated \$193,000 in lost revenue per year of facility closure. Regardless of repair or demolition the garage facility will be closed a minimum of 6 months to 1 year. The proposed structure is estimated to have a minimum of 400 parking spaces. The garage is currently operating at 97% occupancy every day, with 92 spots on a waiting list for reserved parking and 52 for non-reserved parking.

David Walter said we are doing catch-up maintenance because the facility has not been properly maintained over the last 30 years. He asked why the \$3.1 million dollar repair cost and additional \$75,000 per year maintenance cost only extends the garage life by 15 years. He said if there is proper maintenance and repairs the lifespan should not end in 15 years.

Carrie Walden, project manager with CE Solutions explained that water, salt, and corrosive chemicals has already damaged the garage over the last 30 years. Walden said they have found multiple locations where structural supports are needed because the current supports are not viable to be repaired. Chloride ions that have leached into the structure's core components will continue to eat away at the structure even if surface level repairs are made. She said at some point there will be so many places that require supplemental framing due to deterioration of the structure that keeping the garage open is no longer a viable solution. Water infiltration can be stopped but chloride ion content is already inside the concrete and steel, which can't be removed.

Sgambelluri asked if all conversations have been focused on the parking garage only, or if there is a possibility of commercial space. Underwood said that decision has not been made. However, there is a possibility of obtaining a commercial property that is located in front of the garage, and the City is also looking at the availability of any other kind of retail

or commercial space that might make sense in that area.

Sgambelluri asked what CORE brings to this process that the City does not already possess. Underwood said CORE will fill the gap in capacity and expertise that we lack in our current full-time staff at the city. CORE has managed over 27 garage projects in Indiana. City staff will be an important part of the project and will ultimately make the final decision along with the RDC.

Walter asked if the bridge connecting to Fountain Square Mall had been discussed. Walden said the bridge over 4th Street was not discussed. However, there is a pedestrian bridge within the garage that was part of the assessment.

Jeff Underwood stated a new garage will be an integral part of the convention center project. The goal is to maintain the current overpass into the downtown and have a connection to the hotel and convention center. This is an opportunity to build a bigger and better structure with additional parking. The combination of multiple factors were involved with the recommendation to demolish and construct a new garage. In addition, the City believes this is a revenue-based opportunity, where the new fees, especially with expanded parking, will pay for itself.

Sgambelluri asked if the city has thought about hiring permanent staff since the city is lacking capacity to manage these projects simultaneously. Underwood said the city is in process of reviewing that need. We have \$200,000 in our budget for project management that can be utilized in a number of different ways. Most of the need will be for projects over the next 5 years, beyond that there may not be a need. Planning and Transportation did add a new project manager position.

Sgambelluri asked for public comment.

Susie Johnson, representing Envisage Technologies stated Envisage is a software development company located in Fountain Square Mall and one of the largest individual customers at the 4th Street Garage. Envisage feels very strongly that the demolition proposal is not in the best interest for Envisage or the 300 other full-time employees who utilize the garage. Johnson said the option to do repairs and keep the garage open until a new replacement garage can be built, seems to make a lot more sense. Over the years Envisage has talked about possibly moving to the Trades District, however, it chose not to due to the lack of available parking. She believes repairs to the garage are a good investment in the downtown. Johnson stated that the city has worked to find replacement parking for current tenants while the garage is demolished and rebuilt. However, it is not convenient for Envisage, and not what we would like to see happen. Johnson stated she was unaware the parking garage was connected with the convention center project.

Wason stated the city is working hard to find alternative parking locations either in current downtown structures or surface parking areas. Wason said the garage is in a state of disrepair that is going to require closure for a minimum of 6 – 12 months, just for repairs. The idea that we would be able to build a structure of this size and scope anywhere else in the downtown before we replace the 4th Street Garage, is not practical. We do not have the land or ability.

Alex Crowley stated he is acutely aware of the need for parking in the Trades District. He said the plan right now, which this contract will help us accomplish, is to look at building a smaller structure in the Trades District.

Walter asked how this project fits in with obtaining the hospital site and could the hospital site garage serve the convention center. Wason stated any rebuild of this garage is not dedicated to the convention center. This is not a convention center driven project. Underwood stated it will be at least 2021 before we get access to the hospital site and there will be several discussions about the redevelopment of that site.

Johnson asked if the approval of this contract would create a course of action to demolish the garage. Underwood stated no. Sgambelluri asked if we are endorsing the support of using TIF funds to hire this consultant but not necessarily endorsing the time-table that is listed. Larry Allen stated that is correct.

Johnson is concerned that if the consultant is asked to bring forward a proposal to the RDC to demolish and replace the garage, it will be the only option presented. Johnson stated another direction to give the consultant is to flush out the repair schedule and bring forward a way the garage could properly be repaired in order to continue use. If the consultant was given that course of action there might be a different proposal for consideration.

Underwood explained that the idea is to come up with the best solution both short and long term. One course of action is demolition and construction of a new garage. The consultant is looking at a number of options with city staff. Any recommendations will come from the administration, not the consultant. The approval of this resolution does not commit anyone to a course of action.

Eris Sandweiss stated this resolution is to support approving the hiring of a project manager and consultant to evaluate renovating and improving the 4th Street Parking Garage and potential construction of the new parking garage in the Trades District. Therefore, we are only authorizing payment of the consultant and it does not lock us in to any specific course of action.

Eric Sandweiss moved to approve Resolution 18-46. David Walter seconded the motion. The board unanimously approved.

Susie Johnson said she hoped the same amount of gusto is stowed upon the consultant to look at repairing the garage and making it viable, as there is to demolish and rebuild.

The Subrecipient agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting agency setting forth the provisions of this nondiscrimination clause.
3. Section 504. The Subrecipient agrees to comply with any Federal regulations issued pursuant to compliance with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 706), which prohibits discrimination against the handicapped

B. Equal Employment and Affirmative Action

1. Approved Plan. The Subrecipient agrees that it shall be committed to carry out pursuant to the Grantee's specifications an Affirmative Action Program in keeping with the principles as provided in President's Executive Order 11246 of September 24, 1965. The Grantee shall provide Affirmative Action guidelines to the Subrecipient to assist in the formulation of such program. The Subrecipient shall submit a plan for an Affirmative Action Program for approval prior to the award of funds.
2. EEO/AA Statements. The Subrecipient will, in all solicitations or advertisements for employees placed by or on behalf of the Subrecipient, state that it is an Equal Opportunity and Affirmative Action employer. The Grantee hereby incorporates by reference the Equal Opportunity Employment clause in its entirety as written and hereinafter amended in the regulations of the Secretary of Labor at 41 CFR Chapter 60 and the Subrecipient hereby agrees to comply with all terms and conditions contained therein.

C. Davis Bacon and Related Acts

1. Applies to all prime construction contracts over \$2,000. All subrecipients receiving funds in excess of \$2,000 shall require their contractors to comply with the Davis-Bacon and Related Act, if applicable.
2. Compliance with the Davis-Bacon and Related Act requirement. The Contractor shall comply with the requirements of the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by the Department of Labor regulations (20 CFR part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"), which are incorporated by reference in this contract. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.
3. Compliance with the Copeland Act requirements. The Contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in the contract.
4. Violation reporting. HAND shall report any violation or suspected violation of these provisions to HUD.

D. Contract Work Hours and Safety Standards Act

1. Overtime Requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
2. Safety Standards. No contractor or subcontractor contracting for any part of the contract work shall require any laborer or mechanic employed in the performance of the contract to work in surroundings or under working conditions that are unsanitary, hazardous, or dangerous to health or safety, as established under construction safety and health standards the Secretary of Labor prescribes by regulation based on proceedings pursuant section 553, provided that the proceedings include a hearing similar in nature to that authorized by section 553 of title 5.

E. Employment Restrictions

1. Prohibited Activity. The Subrecipient is prohibited from using funds provided herein or personnel employed in the administration of the program for: political activities; sectarian or religious activities; lobbying, political patronage, and nepotism activities.
2. Verification of New Employees' Immigration Status. Subrecipient is required to enroll in and verify the work eligibility status of all newly-hired employees through the E-Verify program. (This is not required if the E-Verify program no longer exists). Subrecipient shall sign an affidavit, attached as Exhibit G, affirming that Subrecipient does not knowingly employ an unauthorized alien. "Unauthorized alien" is defined at 8 U.S. Code 1324a(h)(3) as a person who is not a U.S. citizen or U.S. national and is not lawfully admitted for permanent residence or authorized to work in the U.S. under 8 U.S. Code chapter 12 or by the U.S. Attorney General. Subrecipient and any subcontractors may not knowingly employ or contract with an unauthorized alien, or retain an employee or contract with a person that the Subrecipient or subcontractor subsequently learns is an unauthorized alien. If the City obtains information that the Subrecipient or subcontractor employs or retains an employee who is an unauthorized alien, the City shall notify the Subrecipient or subcontractor of the contract violation and require that the violation be remedied within 30 days of the date of notice. If the Subrecipient or subcontractor verified the work eligibility status of the employee in question through the E-Verify program, there is a rebuttable presumption that the Subrecipient or subcontractor did not knowingly employ an unauthorized alien. If the Subrecipient or subcontractor fails to remedy the violation within the 30 day period, the City shall terminate the contract, unless the City board of department that entered into the contract determines that terminating the contract would be detrimental to the public interest or public property, in

which case the City may allow the contract to remain in effect until the City procures a new Subrecipient. If the City terminates the contract, the Subrecipient or subcontractor is liable to the City for actual damages. Subrecipient shall require any subcontractors performing work under this contract to certify to the Subrecipient that, at the time of certification, the subcontractor does not knowingly employ or contract with an unauthorized alien and the subcontractor has enrolled in and is participating in the E-Verify program. Subrecipient shall maintain on file all subcontractors' certifications throughout the term of the contract with the City.

F. Conduct

The Subrecipient shall not assign or transfer any interest in this contract without prior written consent of the Grantee thereto; provided, however, that claims for money due or to become due to the Subrecipient from the Grantee under this contract may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Grantee.

Instructions

Procedures for tracking data:

At the end of each program year, the City of Bloomington Housing and Neighborhood Development Department must compile the information from the monthly reports submitted by our Subrecipients (agencies) into reasonable data that must be reported to HUD through our IDIS system and can be used to prepare the Consolidated Annual Performance and Evaluation Report (CAPER). These reports must directly support drawdown requests made during the program year. This is required information for all project activities who receive CDBG funds.

Fill in: Agency name, reporting period (month for which data is being reported), and project name.

1. Describe participant statistics: This fill-in-the-blank section should be utilized for each and every client served during this reporting period. All client numbers are to be tracked by the amount of people served. Therefore, a family of 4 equals 4 people served. Please allow the client to determine ethnic background. Simply ask at the time of in-take what ethnic group they consider themselves to be listed. HUD's categories are limited and not all clients easily fit into the listed possibilities.
2. Total **New** Clients Served Program Year-to-Date is where you report the total number of **UNDUPLICATED** clients you have served. For example, if you served four clients who were all new to your service in June and nine clients in July but only six were new to your service this Program Year, then at the end of July, your Total **New** (and UNPUBLISHED) Clients Served Program Year-to-Date would be ten.

SECTION 2 Equal Employment Opportunity Regulations

NONDISCRIMINATION:

(Applicable to all Federal-aid construction contracts and to all related subcontracts of \$10,000 or more) Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630 and 41 CFR 60) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The Equal Opportunity Construction Contractor Specifications set forth under 41 CFR 60-4.3 and the provisions of the American Disabilities Act of 1990 (42 U.S.D. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO.

The contractor will work with the awarding agency and the Federal Government in carrying out EEO obligations and in their review of his/her activities under the contract.

The contractor will accept as his operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, preapprenticeship, and/or on-the-job training."

EEO OFFICER:

The contractor will designate and make known to the awarding agency an EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting an active contractor program of EEO and who must be assigned adequate authority and responsibility to do so.

DISSEMINATION OF POLICY:

All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO officer.

All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.

All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minority employees.

Notices and posters identifying the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.

The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

RECRUITMENT OF EMPLOYEES:

When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minority groups in the area from which the project work force would normally be derived.

The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minority group applicants. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority group applicants may be referred to the contractor for employment consideration.

In the event the contractor has a valid bargaining agreement providing for exclusive hall referrals, he is

Required Contract Provisions Federally Assisted Construction Contracts

expected to observe the provisions of that agreement to the extent that the system permits the contractor's compliance with EEO contract provisions. (The DOL has held that where implementations of such agreements have the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Executive Order 11246, as amended.)

The contractor will encourage his present employees to refer minority group applicants for employment. Information and procedures with regard to referring minority group applicants will be discussed with employees.

SELECTION OF SUBCONTRACTORS, PROCUREMENT OF MATERIALS AND LEASING OF EQUIPMENT:

The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment.

The contractor shall notify all potential subcontractors and suppliers of his/her EEO obligations under this contract.

Disadvantaged business enterprises (DBE) as defined in 49 CFR 23, shall have equal opportunity to compete for and perform subcontracts which the contractor enters into pursuant to this contract. The contractor will use his best efforts to solicit bids from and to utilize DBE subcontractors or subcontractors with meaningful minority group and female representation among their employees.

The contractor will use his best efforts to ensure subcontractor compliance with their EEO obligations.

EEO RECORDS AND REPORTS:

The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following completion of the contract work and shall be available at reasonable times and places for inspection by authorized representatives. The records kept by the contractor shall document the following:

The number of minority and non-minority group members and women employed in each work classification on the project;

The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women;

The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minority and female employees; and

The progress and efforts being made in securing the services of DBE subcontractors or subcontractors with meaningful minority and female representation among their employees.

NONSEGREGATED FACILITIES:

Applicable to all Federal-aid construction contracts and to all related subcontracts of \$10,000 or more.

By the execution of this contract or subcontract, or the consummation of this material supply agreement or purchase order, all parties certify that the firm does not maintain or provide for its employees any segregated facilities at any of its establishments, and that the firm does not permit its employees to perform their services at any location under its control, where segregated facilities are maintained. The contractor agrees that a breach of this certification is a violation of the EEO provisions of this contract. The contractor further certifies that no employee will be denied access to adequate facilities on the basis of sex or disability.

As used in this certification, the term "segregated facilities" refers to facilities provided for employees which are segregated by explicit directive, or on the basis of race, color, religion, national origin, age or disability, because of habit, local custom, or otherwise. The only exception will be for the disabled when the demands for accessibility override, (e.g. disabled parking). The contractor agrees that it has obtained or will obtain identical certification from proposed subcontractors or material suppliers prior to award of subcontracts or consummation of material supply agreements of \$10,000 or more and that it will retain such certifications in its files.

FALSIFICATION OF DOCUMENTS:

The falsification of any of the above certifications may subject the contractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 231.

The contractor or subcontractor shall make the records required available for inspection, copying, or transcription by authorized representatives of the awarding agency or the DOL, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the awarding agency, HUD or DOL, or all may, after written notice to the contractor, sponsor, applicant, or owner, take such actions as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds of debarment action pursuant to 29 CFR 5.12.

SECTION 3

The purpose of Section 3 requires that recipients of HUD funds and their contractors and subcontractors provide jobs and other economic opportunities to low-income persons. The CDBG project service area for Section 3 compliance will be the nonmetropolitan county. Contractors and subcontractors participating in federally assisted projects are required to track and report their activity relative to the hiring and training of low and moderate income persons and the use of local businesses owned by low-income persons. This information must be reported by all contractors and subcontractors prior to project completion utilizing the "Section 3: Economic Opportunities for Low and Very Low Income Persons" form.

Required Contract Provisions Federally Assisted Construction Contracts

All Section 3 covered contracts shall include the following Section 3 clause:

“The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The parties to this contract agree to comply with this Section and certify that they are under no contractual or other impediment that would prevent them from complying with these regulations. The contractor agrees to notify each labor organization or representative workers with which the contractor has a collective bargaining agreement of the contractor’s commitments under this Section 3 clause and include this clause in every subcontract subject to compliance with the Section 3 regulations. The contractor will certify that any vacant employment positions, including training positions, that are filled after the contractor is selected but before the contract is executed with persons other than those to whom the regulations of 24 CFR Part 135 require employment opportunities to be directed, were not filled to circumvent the contractors obligations under this section of the Code of Federal Regulations. Noncompliance with HUD’s regulations in this Part may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.”

OFFICE OF FEDERAL CONTRACT COMPLIANCE
(OFCCP)

For federally assisted construction contracts, the OFCCP administers and enforces Executive Order 11246, as amended. This Order prohibits discrimination and requires affirmative action to ensure equal employment opportunity without regard to race, color, sex, religion and/or national origin; and the implementing regulations at 41 CFR Parts 60-1 through 60-50. Generally, all contractors and subcontractors holding nonexempt federally assisted construction contracts and subcontracts exceeding \$10,000 must comply with Executive Order 11246.

A “Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity” (Executive Order 11246) is to be included in the bid solicitations for all federally assisted construction contracts and subcontracts in excess of \$10,000. The Notice, which is published at 41 CFR 60-4.2, informs the contractor/bidder of the affirmative action requirements imposed under Executive Order 11246, including the specified goals for minority and female participation.

Covered federally assisted construction contracts and subcontracts must incorporate the equal opportunity clause found at 41 CFR 60-1.4(b). The equal opportunity clause may be expressly included in each contract or subcontract or incorporated by reference. Importantly, the equal opportunity clauses are deemed to be a part of every covered construction contract and subcontract even if they are not physically incorporated in the contract documents.

In addition to the equal opportunity clauses, federally assisted construction contracts and subcontracts in excess of \$10,000 must include the “Standard Federal Equal Employment Opportunity Construction Contract Specifications” which are found at 41 CFR 60-4.3. The

specifications describe the affirmative action obligations and set forth the specific affirmative action steps the construction contractor must implement in order to make a good faith effort to achieve the goals for minority and female participation that were listed in the bid solicitation.

Comply with federal labor standards regulations as follows:

1. Davis-Bacon Act
2. Contract Work Hours and Safety Standards Act
3. Copeland Act (Anti-Kickback Act)
4. Fair Labor Standards Act

The U. S. Department of Labor has published rules and regulations corresponding to the above regulations at Title 29 CFR Parts 1, 3, 5, 6 and 7.

(Applicable to all Federal-aid contracts 49 CFR 29)

By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings. If a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

PAYMENT OF PREVAILING WAGES:

Applicable to all Federal-aid (CDBG) construction contracts exceeding \$2,000 and to all related subcontracts: All mechanics and laborers employed or working upon the site of the work will be paid unconditionally and not less often than once a week and without subsequent deduction or rebate on any account except such payroll deductions as are permitted by regulations (29 CFR 3) issued by the Secretary of Labor under the Copeland Act (40 U.S.C. 276c) the full amounts of wages and bona fide fringe benefits or cash equivalents thereof due at time of payment. The payment shall be computed at wage rates not less than those contained in the wage determination of the Secretary of Labor, hereinafter called "the wage determination", which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor or its subcontractors and such laborers and mechanics. The wage determination shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers. For the purpose of this Section, contributions made or costs reasonably anticipated for bona fide fringe benefits under Section 1 (b)(2) of the Davis-Bacon Act (40 U.S.C. 276a) on behalf of laborers or mechanics are considered wages paid. Regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs, which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and

mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill.

Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein, provided, that the employer's payroll records accurately set forth the time spent in each classification in which work is performed.

All rulings and interpretations of the Davis-Bacon Act and related acts contained in 29 CFR 1, 3 and 5 are herein incorporated by reference in this contract.

PERSONNEL ACTIONS:

Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.

The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.

The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.

The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with his obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of his avenues of appeal.

The contractor will assist in locating, qualifying, and increasing the skills of minority group and women employees, and applicants for employment.

CONFORMANCE RATES:

The awarding agency shall require that any class of laborers or mechanics employed under the contract which is not listed in the wage determination shall be classified in conformance with the wage decision.

An additional classification, wage rate and fringe benefits may be approved only when the following criteria have been met:

**Required Contract Provisions
Federally Assisted Construction Contracts**

- (1) The work to be performed by the additional classification is not performed by any other classification in the wage determination;
- (2) The additional classification is utilized in the area by the construction industry;
- (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

If the contractor or subcontractor, laborers and mechanics, awarding agency and the contracting officer agree on the classification and conformance wage rate including the amount designated for fringe benefits where appropriate, the conformance rates shall be paid to all workers performing work in that classification from the first day on which work is performed in the classification.

In the event the contractor or subcontractors, laborers and mechanics, awarding agency and the contracting officer do not agree on the proposed classification and wage rate including the amount designated for fringe benefits where appropriate, the contracting officer (OCRA Labor Standards Compliance Officer) shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. Said Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting agency or will notify within the 30-day period that additional time is necessary. Any work performed during the waiting period will be paid at the base wage and fringe benefit amount conditionally assigned by the contracting officer until a conformance rate is assigned by the Wage and Hour Administrator.

PAYMENT OF FRINGE BENEFITS:

Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor or subcontractors, as appropriate, shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly case equivalent thereof. If the contractor or subcontractor does not make payments to a trustee or other third person, he/she may consider as a part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, provided that the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met.

APPRENTICE PARTICIPATION:

Apprentices will be permitted to work at less than the predetermined rate for the work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program duly registered with the DOL, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State apprenticeship agency recognized by the Bureau.

The allowable ratio of apprentices to journeyman-level employees on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate listed in the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor or subcontractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman-level hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeyman-level hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator for the Wage and Hour Division determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Bureau of Apprenticeship and Training, or a State apprenticeship agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor or subcontractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the comparable work performed by regular employees until an acceptable program is approved.

OVERTIME REQUIREMENTS:

No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers, mechanics, watchmen, or guards (including apprentices) shall require or permit any laborer, mechanic, watchman, guard or apprentice in any workweek in which he/she is employed on such work, to work in excess of 40 hours in such workweek unless such laborer, mechanic, watchman, guard or apprentice receives compensation at a rate not less than one-and-one-half times his/her basic rate of pay for all hours worked in excess of 40 hours in such workweek.

WITHHOLDING PAYMENT FOR UNPAID WAGES:

The awarding agency shall upon its own action or upon written request of an authorized representative of the DOL withhold, or cause to be withheld, from the contractor or subcontractor under this contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to Davis-Bacon

Required Contract Provisions Federally Assisted Construction Contracts

prevailing wage requirements which is held by the same prime contractor, as much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

VIOLATIONS AND LIABILITY FOR UNPAID WAGES AND LIQUIDATED DAMAGES:

In the event of any violation of the requirements set forth in this document, the contractor and any subcontractor responsible for the violation shall be liable to the affected employee for his/her unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States for liquidated damages.

STATEMENTS AND PAYROLLS:

Applicable to all Federally-assisted construction contracts exceeding \$2,000 and to all related subcontracts, except for projects located on roadways classified as local roads or rural collectors, which are exempt.

The Contractor shall comply with the Copeland Regulations of the Secretary of Labor.

Payrolls and basic records relating thereto shall be maintained by the contractor and each subcontractor during the course of the work and preserved for a period of 3 years from the date of completion of the contract for all laborers, mechanics, apprentices, watchmen, helpers and guards working at the site of the work.

The payroll records shall contain the name, social security number, and address of each such employee; his or her correct classification; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalent thereof of the types described in Section 1(b)(2)(B) of the Davis Bacon Act); daily and weekly number of hours worked; deductions made; and actual wages paid. Whenever the Secretary of Labor has found that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis Bacon Act, the contractor and subcontractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, that the plan or program has been communicated in writing to the laborers or mechanics affected, and show the cost anticipated or the actual cost incurred in providing benefits. Contractors or subcontractors employing apprentices under approved programs shall maintain written evidence of the registration of apprentices and ratios and wage rates prescribed in the applicable programs.

Each contractor and subcontractor shall furnish, each week in which any contract work is performed, to the

awarding agency or an agent thereof, a certified payroll report of wages paid each of its employees. The payroll submitted shall set out accurately and completely all of the information required to be maintained. This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal stock number 029-005-0014-1), U.S. Government Printing Office, Washington, D.C. 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors.

Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his/her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

That the payroll for the payroll period contains the information required to be maintained and that such information is correct and complete;

That such laborer or mechanic employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in the Regulations, 29 CFR 3;

That each laborer or mechanic has been paid not less than the applicable wage rate and fringe benefits or cash equivalent for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance".

SECTION 4 Health and Safety

SAFETY AND ACCIDENT PREVENTION:

In the performance of this contract the contractor shall comply with all applicable Federal, State and local laws governing safety, health and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the awarding agency may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

EXHIBIT F

CDBG Subrecipient Procurement Procedures

Selecting the architect/professional engineer (if paid with CDBG funding and cost \$15,000 or more). Subrecipient must contact a minimum of three architects/professional engineers to design, approve all claims and to certify that all work included in the scope of work has been completed as designed and specified in the bid documents and any approved addenda.

Subrecipient must contact at least two (2) firms from the following groups by certified mail, return receipt required: DBEs, WBEs, MBEs or Section 3 Businesses. HAND staff can provide contact information for the DBEs, WBEs, MBEs and Section 3 firms within Monroe County, Indiana. Selection of the architect/professional engineer may be by low bidder or by best qualified team. If the selection is made by qualification, the City must have at least one person on the selection team. (Some projects may not require an architect or engineer. However, before this step is skipped, contact the Program Manager assigned to your project.) The agency's board of directors must approve the selection of the architect/engineer.

Bidding for construction, equipment or services. If appropriate, an architect/professional engineer may be used to prepare the scope of work, oversee the bidding/contracting/inspection of the project for the subrecipient. HAND's Program Manager, or the HAND Director's appointment must be informed of, and receive copies of: published public notices (must be reviewed by HAND before being published), all direct solicitations to bidders (must be reviewed by HAND before being mailed), pre-bid meetings/notes, bid opening meeting/notes, copies of all bids submitted at the bid opening, bid award announcement/notes, pre-construction meeting/notes, all project progress meetings/notes and final walk-through meeting/notes. The agency's board of directors must approve the selection of the contractor.

Processing invoices/claims to the City for reimbursement. The Subrecipient or their architect/professional engineer will prepare a claim/invoice to be processed for reimbursement. The claim/invoice should include only work (includes equipment and materials) that has been completed to date and paid for by the Subrecipient. The Subrecipient must submit proof of payment to their contractor, architects/engineers, suppliers, etc. with their claim/invoice for their claim to be processed (unless other arrangements have been arranged). Documentation needed for processing the invoice/claim shall include, but not limited to, invoices by any contractor, subcontractor, supplier, rented equipment, materials, etc. and, if applicable, all certified payrolls through the date of the work completed. Approximately 10% of the Subrecipient's allocation will be held until all work has been completed and all required paperwork has been submitted and accepted to close out the activity in HUD's Integrated Disbursements and Information System (IDIS).

Upon completion of the CDBG activity and before the final reimbursement to the agency, the agency will provide all appropriate agency beneficiary information to the City. The City will then "complete" the activity in HUD's Integrated Disbursement and Information System (IDIS) and process the final payment. For CDBG projects that were allocated and expended \$25,000 or

more, the IDIS completion date begins the five (5) year compliance period. The City will place deed restrictions on the parcel upon the activity completion date. During the compliance period, the use of the property cannot change and the Subrecipient is required to submit annual beneficiary information to the Program Manager responsible for the activity. Failure to submit beneficiary information to HAND during the compliance period may require the Subrecipient to return all or part of the CDBG funds to the City. After the five (5) year compliance period has been completed, HAND will remove the deed restrictions on the parcel.

A Certificate of Insurance for the Subrecipient's property improvement must be submitted when the project is completed and proof of insurance for the assisted property must be submitted annually during the five year compliance period. This document should be submitted to the Assistant Director HAND.

Project Name: 2nd Street / Bloomfield Road Multimodal Safety Improvements Project

Project Manager: Neil Kopper

Project Description:

This project will improve safety and accessibility for pedestrian, bicycle, and motor vehicle traffic on the West 2nd Street/West Bloomfield Road corridor by:

- Constructing new multiuse path on the north side of the road from South Patterson Drive to South Adams Street
- Providing marked crosswalks, accessible curb ramps, signal heads, and push buttons for pedestrians for the intersection at South Landmark Avenue and at South Patterson Drive
- Improving the signalized intersections at South Landmark Avenue and at South Patterson Drive to reflect current standards (back plates, number of signal heads, flashing yellow arrow signals, appropriate corner radii, etc.)

This project implements elements of numerous adopted City plans and addresses a location (West 2nd Street at South Patterson Drive) that is ranked 19th on the Bloomington/Monroe County Metropolitan Planning Organization's (BMCMPPO) most recent Crash Report for the top fifty crash locations based on crash severity.

The project is included in the BMCMPPO Transportation Improvement Plan (TIP) and is eligible for federal funding through the Highway Safety Improvement Program (HSIP), the Transportation Alternatives Program (TAP) and the Surface Transportation Program (STP). The project is currently programmed to receive \$104,331 in federal funds for preliminary

engineering, \$50,491 for construction engineering, and \$743,376 in federal funds for construction.

Portions of this Project are not in the Consolidated TIF. However, Indiana Code § 36-7-14-39(J) permits Tax Increment to be used to “Pay expenses incurred by the redevelopment commission for local public improvements that are in the allocation area or serving the allocation area.”

This Project will serve the Consolidated TIF’s allocation area by improving connectivity along the West 2nd Street / West Bloomfield Road Corridor, improving access to the Bloomfield Road, Adams Crossing, Thomson, and Downtown portions of the Consolidated TIF, which increases the potential for additional development in those areas.
