ORD. 85-9  
Approve Contract for  
Sewage Treatment with  
Ellettsville

Olcott moved and Foley seconded a motion that Resolution 85-9 be adopted. Service gave the committee report.

David Rogers, representing the USB, said that the contract negotiations had been remarkably easy, that Ellettsville will only pay for the cost of treating sewage and that by utilizing the Blucher plant all parties to the agreement are well served. Blucher has long been under utilized and Ellettsville is desperately in need to expanded sewer facilities if the community is to survive, never mind grow.

Mayor Allison introduced members of the Ellettsville Town Board; Robert Ray, Gene Wolf, Woodrow Figg and G.L. Chandler. She praised the Board for their willingness to work together and said that this type of cooperation benefits all of Monroe County.

Mayor Allison then praised soon-to-be- retiring Town Board Member Woody Figg for all of his many years of dedicated service to the citizens of Monroe County.

Service asked Rogers what the storage capacity of Blucher is and is it adequate if all sludge from that facility had to be stored there until the incinerator was completed. Rogers said that there is an active program that prepares the sludge for land use and people come and carry it away. If there was an order suggesting that all sludge must be stored and eventually incinerated then additional storage could be provided. In other words there is sufficient land available to create additional storage.

Register offered an amendment changing several sentences in the contract proposed by the utilities department on page 4.

The amendment received a voice vote that was unanimous. Ayes: 9, Nays:0.

The resolution, as amended, received a roll call vote of Ayes: 9, Nays: 0.
