City Council Traffic Committee:

S/ Dr. Bernard I. Loft

S/ Charles Faris

Dr. Bernard Loft, President
Bloomington Traffic Commission

Councilman Faris moved, seconded by Councilman Moulden, that the recommendations of the Bloomington Traffic Commission be turned over to the City Attorney and the City Attorney be instructed to prepare a proposed ordinance to be presented to Council for first reading on August 5, 1965. Motion carried unanimously.

Monthly activity reports for the month of June was received from the Fire Department and Rosehill Cemetery.

Mayor Hooker stated that they had hoped to have the Chairman of the Special Citizen's Committee on Annexation to be present this evening, but it was impossible for him to be here as he had a meeting in Terre Haute. However, they did have the recommendations made by the Special Committee for review.

City Attorney Cotner gave a brief resume of the report.

Councilman Derge asked that the members of the Special Citizen's Committee on Annexation be asked to attend the next Council meeting, because he felt this was a tremendous thing they had done and he would like to know who they were.

Councilman Derge also wanted to know if something could be done to prevent students from using quarries to swim in, like perhaps putting crank case oil or maybe a dye in the water.

Councilman Faris stated that until the City could provide enough recreational swimming facilities for the students it would be almost impossible to keep them away from the quarries.

Councilman Derge also wanted to know if it would be possible to contact the County Commissioners in regard to the junk yard now beginning on North Highway #37 and also the garbage dump on North Highway #37. He stated these were both eye sores to people coming into Bloomington.

Mayor Hooker stated that the Board of Works did this afternoon adopt a CATV Questionnaire and Proposal. He stated that it was the thought of the Board of Works that if this is acceptable to the Common Council, they would ask any party that is interested in providing CATV for the City of Bloomington to fill in the answers to the questionnaire and submit them in the form of a sealed proposal to the Board of Works and after this has been studied by the Board of Works, they would make a comparison and make a recommendation to the Council for the ratification of the contract prepared by the Board of Works.

Mayor Hooker stated that the incinerator is now in partial operation , and we are receiving garbage from the B & S Disposal Company each day.

Mayor Hooker also stated that the Board of Works did receive bids and did make a tentative award on the Water Expansion Project F - to the Curry Construction Company for a low bid of \$129,320.00. He stated that we have awarded two of the ten projects and we now have eight projects left to be awarded and we expect to receive the last bid on August 31, 1965.

Mayor Hooker stated that there has not been a similiar project for the Sanitation Department as the Water Project, but we are making a further study of the report prepared by Black & Veatch, Consulting Engineers.

Councilman Faris moved, seconded by Councilman Moulden, that claims presented for payment on July 16, 1965, be allowed. Motion carried unanimously.

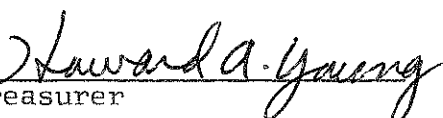

Councilman Faris moved, no further business to come before the Common Council, meeting be adjourned.

Meeting adjourned at the hour of nine fifty o'clock (9:50 P.M.) E.S.T.

Presiding Officer

ATTEST:

Clerk-Treasurer
