   A. Resolution 21-91: Approval of Funding for Right of Way Acquisition for the B-Line Trail and Multiuse Path. In 2019 the RDC approved a project review and approval form for the B-Line Trail and Multiuse Path project. Roy Aten said the project is now in the right-of-way phase. The estimated acquisition cost is $400,000. Aten said there has been a couple changes in the project. He said we now have some federal funding for construction costs; contract dates have been pushed back approximately one year; and the right of way acquisition costs have gone down from $897,000 to approximately $400,000.

   Nicholas Kappas asked for public comment. There were no comments from the public. Deb Hutton moved to approve Resolution 21-91, via roll-call vote. Deborah Myerson seconded the motion. The motion was unanimously approved.

   B. Resolution 21-92: Approval of Funding for Right of Way Acquisition for Multimodal Improvements along 17th Street between Monroe Street and Grant Street. Neil Kopper stated this
The project was previously approved by the RDC. The project is now in the right-of-way phase. The estimated acquisition cost is $650,000.

C. Resolution 21-93: Approval of Engineering Inspection Agreement of the Kohr Administration Building on the Legacy IU Health Hospital Site at 2nd and Rogers. John Zody stated the hospital has moved to the new site and the old hospital site is now being referred to as the Legacy Hospital. The City has received an estimated scope of work from IU Health regarding demolishing the hospital around the Kohr Administration Building. Staff believe it is in the best interest of the project to contract with an engineering firm and perform additional due diligence to ascertain what may be necessary to preserve the building for its possible redevelopment. Zody said staff have negotiated an agreement with Applied Engineering Services to survey the Kohr Administration Building for an amount not to exceed $15,000.

Nicholas Kappas asked for public comment. There were no comments from the public.

David Walter moved to approve Resolution 21-93, via roll-call vote. Deb Hutton seconded the motion. The motion was unanimously approved.

D. Resolution 21-94: Approval of Funding for HVAC Improvements at the Buskirk-Chumley Theater. Larry Allen stated the Controller is authorized to expend up to $74,000 for BCT Management, Inc.’s responsibilities, pursuant to the partnership agreement between the City of Bloomington, the Board of Parks Commissioners, the RDC, and BCTM. Under the partnership agreement, the City is responsible for the heating, ventilation, and air conditioning (HVAC) system at the Buskirk-Chumley Theater. In light of the COVID-19 pandemic, the Actors Equity of America (AEA), has adopted safety procedures and HVAC standards for theaters where members of their union may perform. The new HVAC upgrades will add air scrubbers, bi-polar ionization devices, MERV 13 filters, and install new controllers, actuators, sensors, and displays to comply with the AEA’s theater standings.

Staff solicited bids and Harrell-Fish Inc. submitted the winning bid for an amount not to exceed $81,000. The approval of this resolution would cover the expenses for the services, the RDC would authorize the $74,000 in Consolidated TIF funds and the remaining $7,000 would be covered by the City’s Recover Forward Funds.

Nicholas Kappas asked for public comment. There were no comments from the public.

Deb Hutton moved to approve Resolution 21-94, via roll-call vote. Deborah Myerson seconded the motion. The motion was unanimously approved.

RE: PETITIONER’S STATEMENT
BLOOMINGTON HOSPITAL RE-USE PROJECT – PHASE 1 EAST
SHREWSBERRY PROJECT No. 21-0049

Dear Jackie,

Please accept this letter as the required Petitioner’s Statement for submission of the Primary Plat for the Bloomington Hospital Re-Use Project – Phase 1 East. Shrewsberry & Associates, LLC is submitting on behalf of our client, the Redevelopment Commission for the City of Bloomington. This subdivision is meant to begin the implementation of the Bloomington Hospital Site Redevelopment Master Plan Report that was completed in 2021. In keeping with the Master Plan, the goal of this development is to create a unique new location in the city that can be incrementally developed as a mixed-use destination and a thriving new neighborhood.

The plat will include a total of seven (7) lots. Three lots are intended for future development with the intent to construct mid-rise housing buildings with first floor commercial spaces. Two lots are intended for public space with park-like amenities and connection to the B-Line multiuse trail.

The remaining two lots will include existing buildings. One building is the Centerstone office building, which is owned by Monroe County. The other building is owned and operated by Centerstone of Indiana. These buildings are included because this project will reconstruct parking and access for the Centerstone office building. The parking will be shared by these two buildings. The building and underlying property that is owned by Monroe County is intended to remain their property. The building and property that is owned by Centerstone of Indiana is likewise intended to remain their property.

The plat will dedicate various easements and additional rights-of-way. Madison Street will be extended from its current intersection with 2nd Street to 1st Street, and a new “greenway” street will be constructed between Rogers and Morton Streets. On-street parking is included along with street trees and sidewalks. Additional right-of-way will be granted along 2nd and Morton Streets to accommodate widening and improvements as detailed in the Master Plan.

This project will include the construction of new water mains, sanitary and storm sewers, as well as storm water detention and a wetland garden that is intended to serve as a storm water quality treatment device.

If you need any additional information or would like to discuss this further, please feel free to contact me at your convenience.

Respectfully submitted,

SHREWSBERRY & ASSOCIATES, LLC

**Project Name:** Seminary Park Lighting Replacement

**Project Manager:** Tim Street, Parks Operation and Development Director

**Project Description:** In recent years, nearly all of the decorative “acorn”-style light poles in Seminary Park have been torn down or otherwise ceased functioning. Two light poles remain, but only one is operational, and it is located on the eastern edge of the park – leaving the interior of this park with no direct lighting. This project will install five new dark-sky friendly overhead LED to provide around 1 foot/candle of light throughout the park. These lights will also be controllable via a timer or laptop, and can be set to become brighter or dimmer as dictated by park needs for events, cleanup, enforcement, or other reasons. The quote for the purchase of these lights from ESL/Spectrum is $29,565.

The Bloomington Economic Development Corporation (BEDC) and City of Bloomington are collaborating to develop this application, with BEDC as the lead applicant. In September, 2021, the EDA awarded the project a $3.5 million grant.

Project overview: The Trades District Technology Center will support South Central Indiana employment growth in strong and emerging clusters and commercialization of technology. The Center will create a technology hub by providing:

1. **Programming and services:** Commercialization programming will help tech companies grow and develop the region’s economic competitiveness through future-focused, diverse employment options in technology.
2. **Space:** Class A office space will house growing and established tech companies, providing possible amenities like labs or meeting spaces.

Target audience: This Center will create a hub for technology companies that are beyond the startup phase, with services and space for growing and mature firms.

Location: Bloomington Trades District.

Model: A nonprofit entity will be established to run the Center.

Connection to COVID-19 recovery: This project will aid recovery through support for a future-focused industry and the creation of good paying jobs.
Competitive advantage: Tech is best positioned to benefit from this center as:
• The tech sector is still growing across our region
• Technology applies across almost all sectors
• It requires less infrastructure and resources compared to other sectors
• Tech and defense are tied to two key public sources of technology development: Indiana University Bloomington and NSA Crane.
