 - g. Adjournment of Official Public Hearing
3. Questions and Answers – Representatives from DLZ and City of Bloomington will be available at the displays to answer questions

August 4, 2016

Dear Residents and Other Interested Parties

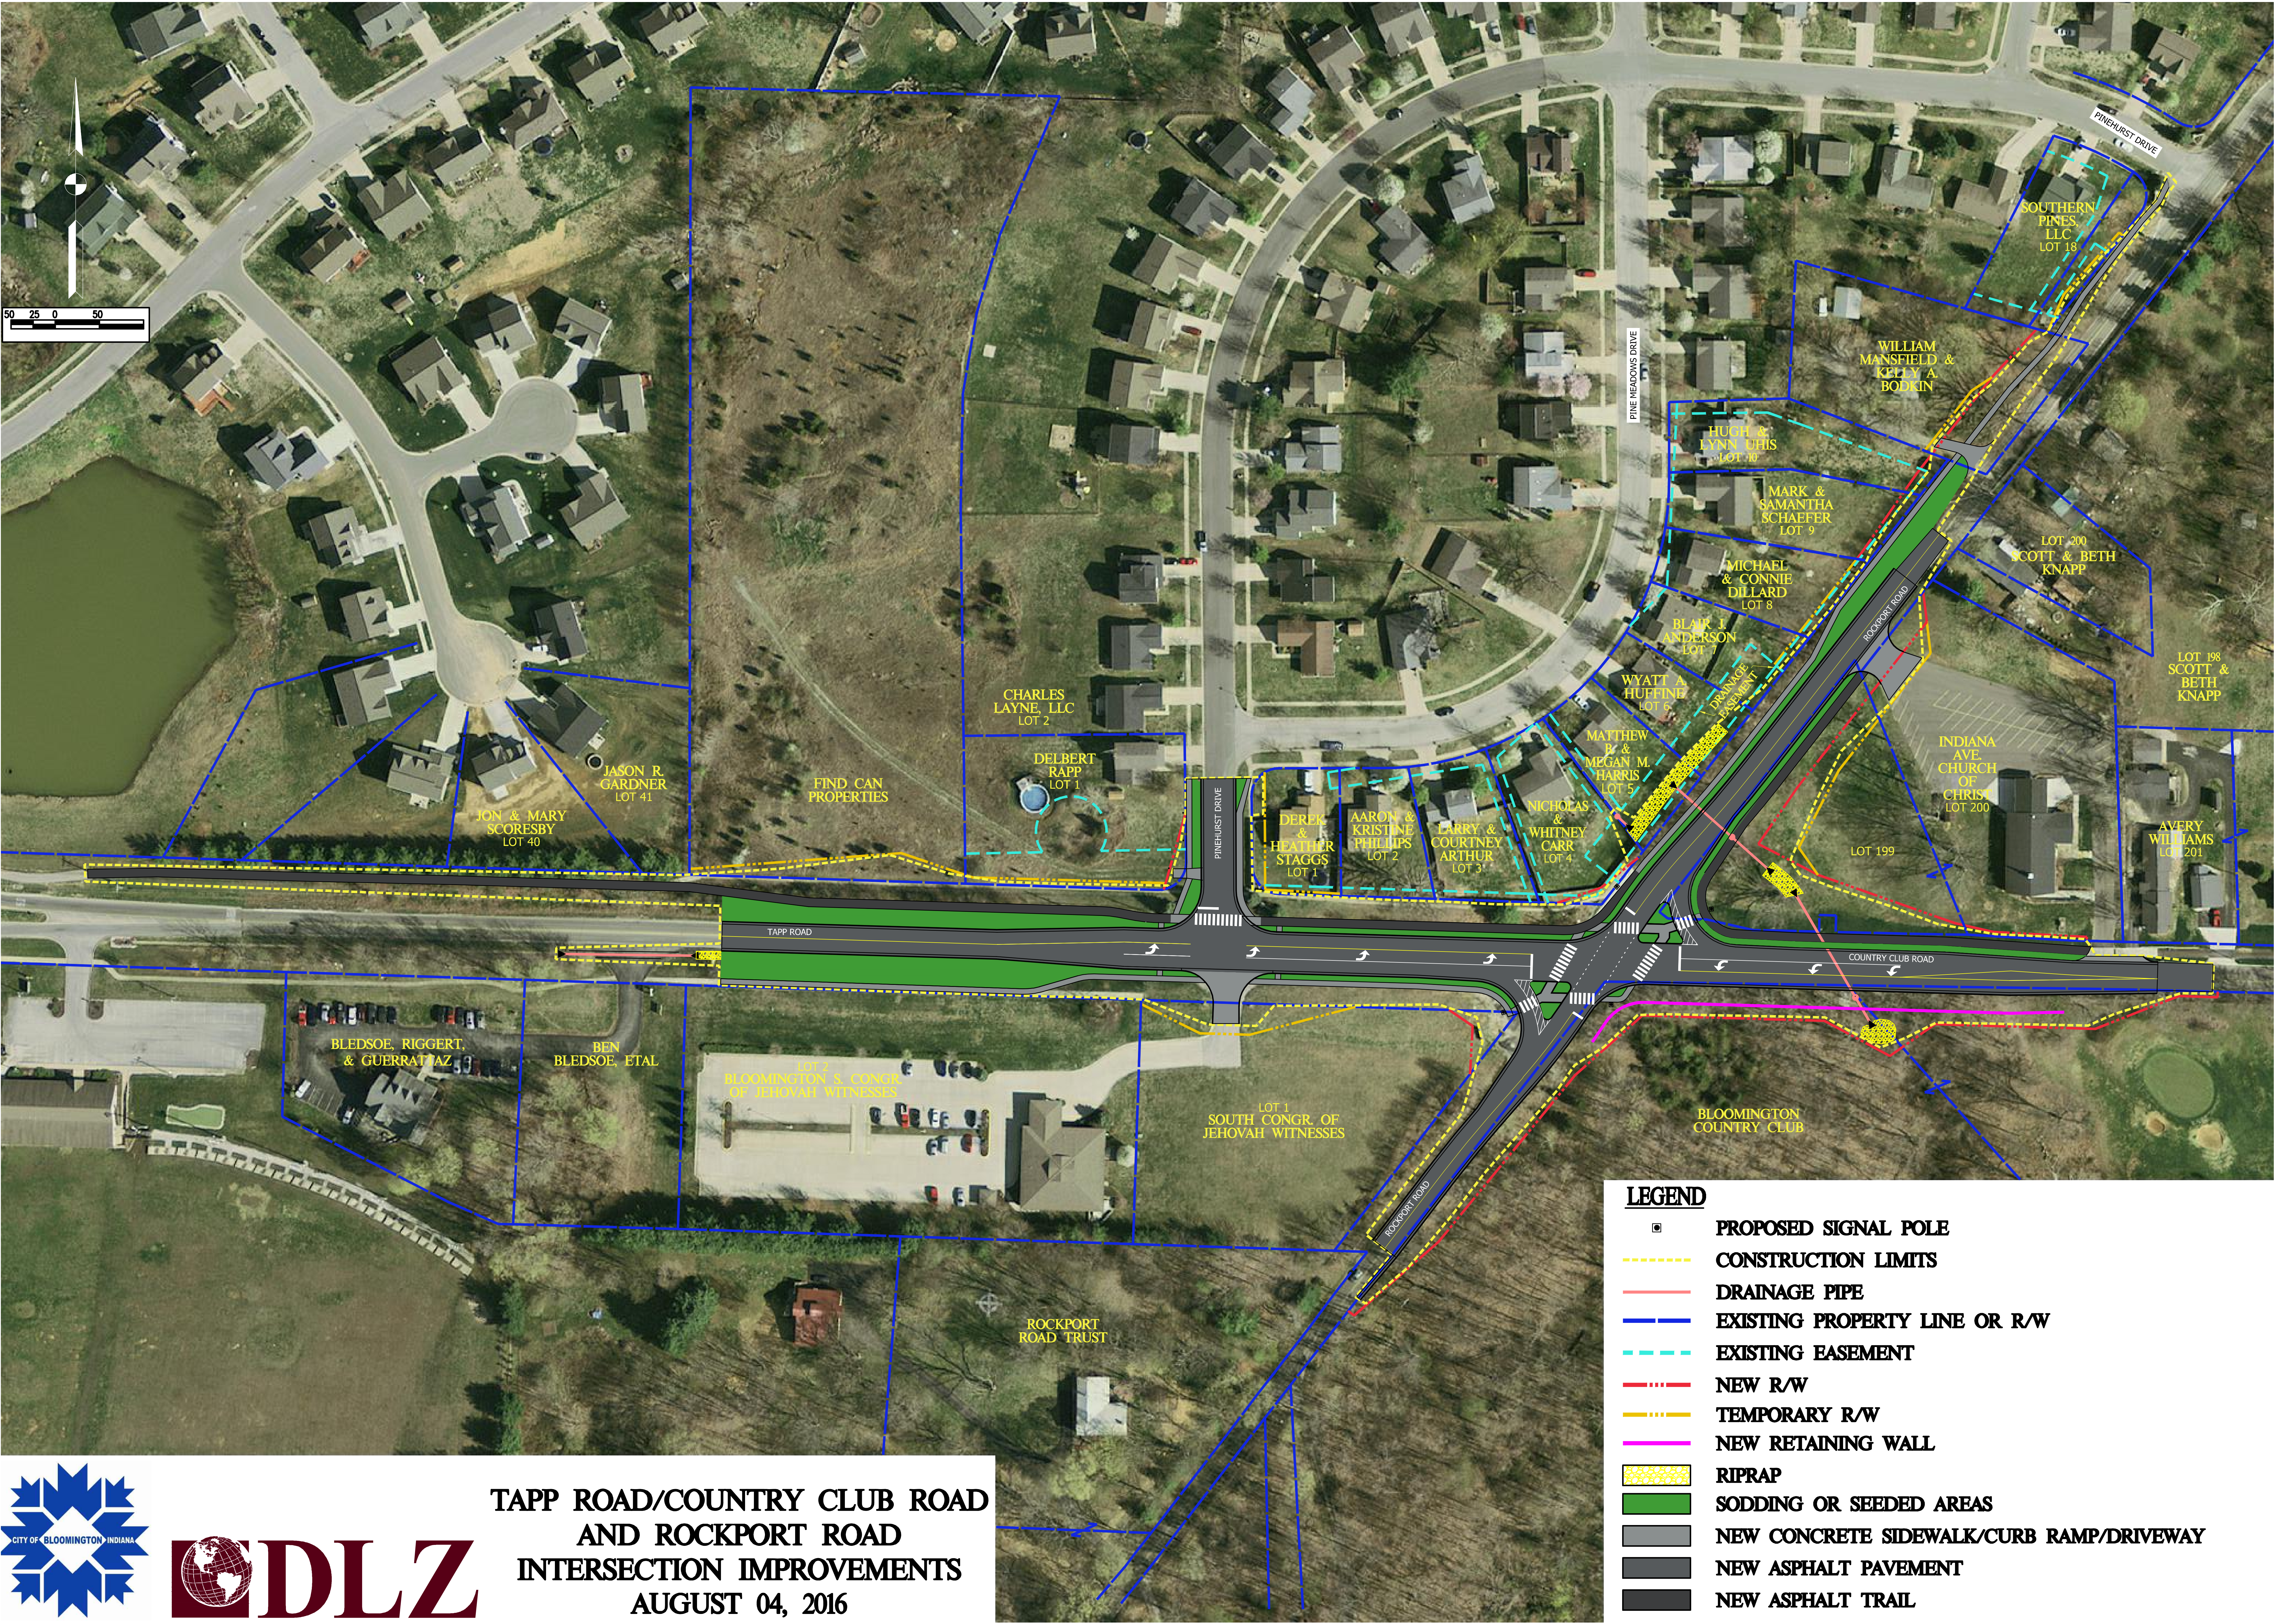

Welcome to the City of Bloomington public hearing regarding the proposed project to improve the intersection of Tapp Road and Rockport Road. The proposed project will provide a new traffic signal at the intersection of Tapp Road and Rockport Road. The proposed project will also include intersection sight distance improvements, correction of the substandard sight distance on the west leg of Tapp Road, addition of left turn lanes along Tapp Road, placement of curb and gutter, storm sewer and appurtenant structures and signs. No business or residential relocations are proposed. The intersection will be closed to traffic during construction and appropriate signs will be installed for traffic detour.

The purpose of the public hearing is to explain the project and receive comments. There are several ways that your comments may be presented.

1. You may present comments verbally during the public comments session, which will be recorded following the presentation. You may do this by signing up on the Speakers Sign-In list on the table with the handout materials.
2. You may complete one of the comment sheets found in this information packet and return it to one of the DLZ or City of Bloomington employees here this evening. There are extra copies of the comment form available on the table with the handout materials.
3. You may mail your comments to DLZ or to City of Bloomington within the next two weeks. All written comments postmarked on or before August 19, 2016 as well the comments recorded here this evening will become part of the transcript and will be addressed in the final environmental document,
4. You may fax your comments to DLZ at (317) 633-4177 or to the City of Bloomington at (812) 349-3520 on or before August 19, 2016.
5. You may also email your comments on or before August 19, 2016 to hghumman@dlz.com or cibora@bloomington.in.gov.

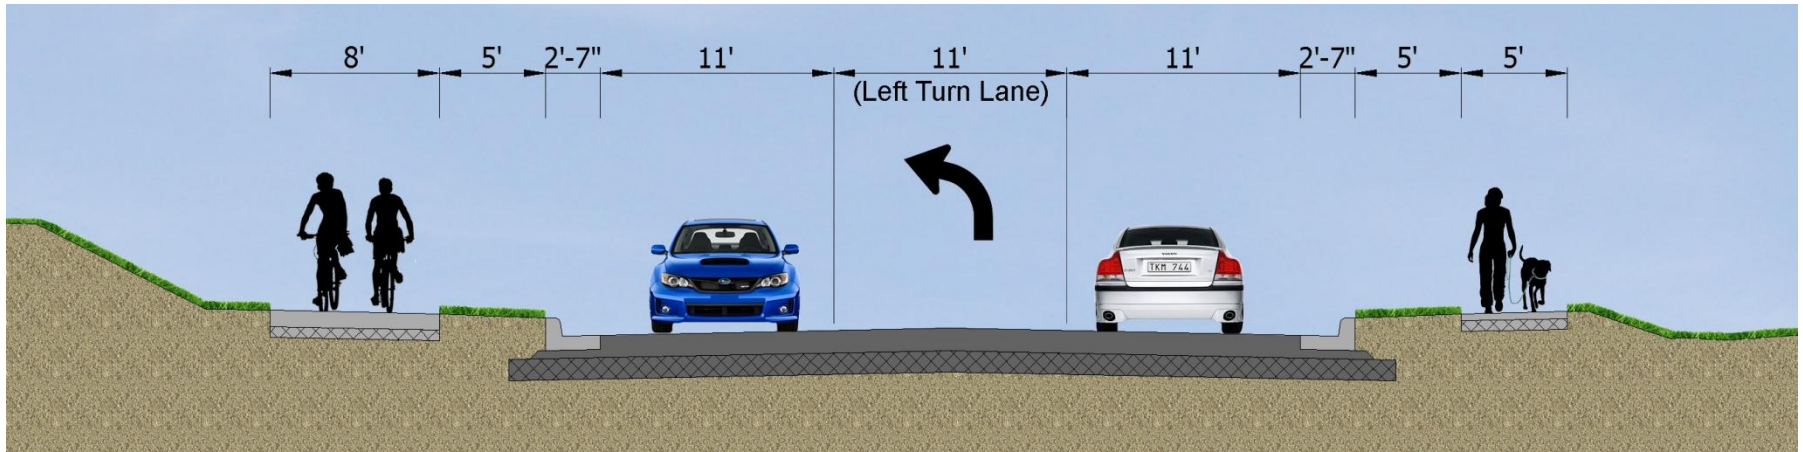

All comments that DLZ and the City of Bloomington receive will be evaluated and answered in the Final Environmental Document prepared for this project. This report will address all concerns raised during the public involvement period and describe the final design decisions made following the hearing or at the completion of the public involvement process. Every comment received as part of this process will be addressed.
