**Tax Increment Financing Districts
Annual Report
2015**

Housing and Neighborhood Development
Office of the Controller
City of Bloomington
P.O. Box 100
Bloomington, IN 47402

Overview

Tax Increment Financing (TIF) Districts are a method to use future tax gains to finance infrastructure and redevelopment projects. The Indiana State Legislature approved the use of TIF Districts in the late 80's. If a city has geographic areas where development or redevelopment is needed or desired, the city can establish a redevelopment area through a process outlined in the state statutes and create a TIF District. The tax increment is derived from the difference in property values from the base year (the year the district is established) and the current year. The Redevelopment Commission of the City of Bloomington oversees the use of TIF funds.

TIF in Bloomington

At the beginning of the year, the City of Bloomington has six Tax Increment Financing (TIF) Districts: Adams Crossing, Downtown, North Kinser/Prow, Tapp Road, Thomson/Walnut-Winslow, and Whitehall. However early in 2015, the Commission and the Council consolidated and expanded all of the districts except for the North/Kinser/Prow District.
