

UDO Adoption Draft Amendment 6 (Responses)

Timestamp	I have read Amendment 6: To consider the size and weight of livestock in addition to species and prohibited species	General comments on Amendment 6:
9/4/2019 22:53:36	I generally support Amendment 6	There really needs to be a limit on the size of horses asses in the city limits. Take District 6, for instance. I would also recommend a height limitation.
9/5/2019 7:34:51	I generally support Amendment 6	The revised language is reasonable and an important improvement over the current language.
9/5/2019 7:57:14	I generally support Amendment 6	There needs to be a comma between "jacks" and "jennets," and I think there should be an Oxford comma after "jennets."
9/5/2019 10:43:50		Livestock should not be permitted within the city limits.
9/5/2019 11:26:39	I generally support Amendment 6	
9/5/2019 11:55:12	I generally support Amendment 6	
9/5/2019 12:08:31	I generally support Amendment 6	
9/5/2019 12:43:19	I generally support Amendment 6	
9/5/2019 12:58:43	I generally don't support Amendment 6	I am opposed to ANY livestock of any size or description within the city limits. This is based on concerns about the impact of animal waste on our water run off and the general health concerns to city population. Livestock should be strictly reserved for rural farm designated properties.
9/5/2019 13:03:33	I generally support Amendment 6	This seems like a useful clarification
9/5/2019 13:10:06	I generally support Amendment 6	
9/5/2019 13:16:06	I generally support Amendment 6	
9/5/2019 14:29:37	I generally support Amendment 6	Species really isn't a good indicator of appropriateness to homestead use. Size, weight, noise, habitat, safety, all need to be considered. And such animal keeping should be subject to the same or better oversight as exists for companion animals in order to protect animal welfare.
9/5/2019 16:10:40	I generally don't support Amendment 6	drawf goats should be allowed
9/6/2019 12:15:04	I generally support Amendment 6	Thank you for finding this reasonable solution for relatively small animals within the listed species. Here is a link to a box file with letters of support from neighbors: https://iu.box.com/s/xih1n00630f3oioaddz6khbgl8ua5dv0 . Other calls, emails, and in-person commentse were submitted to the zoning variance board a few weeks ago, in case you would like to have an idea of the scope of support for an amendment like this.
9/10/2019 14:08:33	I generally support Amendment 6
