

Annual Data for Plan Reviews

(01/01/2013 - 10/14/2019)

■ Total Plan Submittals / Year
■ Individual Projects Reviewed / Year
■ Average # of Days for Project Review

Normal plan review of a small project can take as little as 1 - 3 reviews, but more complicated projects can easily take several months. Any delays in resubmitting requested revisions will prolong the overall timeline. Revisions to projects after the initial approval can also affect the timeline.
