OFFICE OF THE MAYOR 812.349.3406 mayor@bloomington.in.gov

February 2019

Dear City of Bloomington Resident,

You have been randomly selected to participate in the 2019 Bloomington Resident Survey. Only a limited number of households have been selected to participate in the survey process, so your participation is greatly valued.

Your city government depends on current, accurate information upon which to make good decisions. The enclosed survey is your opportunity to help provide me, my administration and other local governmental entities and community organizations with that vital information. Please help shape the future of Bloomington by completing and returning this survey.

This is the second community-wide, scientific survey for the City of Bloomington. The first survey, conducted in 2017, built a baseline understanding of residents' feelings about the quality and value of City services and revealed opinions about current conditions in our community. Local government and other organizations used those valuable results to inform important decisions. The 2019 survey results will be presented in a public meeting this spring and will reside alongside 2017 results on our open data portal B-Clear.

A few things to remember:

- Your responses are completely anonymous.
- The adult 18 years or older in your household who most recently had a birthday should complete this survey.
- · You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at:

http://bit.ly/2019bloomingtonin

Completing this survey is a great way to do your civic duty. Your active participation and input is what helps keep your local government transparent, effective and working for you!

If you have any questions about the survey, or would like assistance completing it, please call 812-349-3406.

Thank you for your time and participation!

Sincerely,

It Hanth

John Hamilton Mayor

P.S. Remember, we're counting on your response. Please respond today!

Sustainability Goals: Climate

- Create more efficient **housing** patterns, so we drive less
- Increase and diversify sources of clean, renewable, and locally produced energy, including improving the efficiency of our buildings
- Lower the carbon impact of our **mobility**
- Improve how we deal with our water, our waste, and our food growing and consuming patterns, to strengthen our environmental resilience.

Sustainability Goals: Social

- Accelerate availability and efficiency of housing to create inclusion, limit carbon footprint, raising quality of life for all
- Lower the costs of living, including energy and mobility costs, so wages can go further
- Continue to improve public amenities like water quality and waste management to enhance health and quality of life for all
- Invest in local **food** system;
- strengthen social services to help us cope with illness, substance use, disorder, disability, lack of job readiness or skills, or child care needs; and
- foster jobs that pay living wages, support lives of dignity, and won't be outsourced or automated away to build social resilience.
