

got Aquarium?

-  It can be very harmful to our local environment to empty out aquariums into natural or man-made waterways.
-  Many aquarium plants and animals are non-native and can wreak havoc on our local environment.
-  If you must part with plant or animal species, first try to find a good home for them.

For information on aquarium disposal, including their contents, please contact the following organization:

City of Bloomington Animal Shelter
3410 S. Walnut St.
Bloomington, IN 47403
